LEILANI B. ELARMO
Corporate Secretary

EXPLANATION OF AGENDA ITEMS

1. Call to Order

The Chairman of the Board, Mr. Hans T. Sy, will formally open the 2026 annual meeting of stockholders of Chinabank and call the meeting to order.

2. Proof of Notice of Meeting

The Corporate Secretary will certify that notice was sent to the stockholders of record as of February 26, 2026 in compliance with the notice requirements for the meeting and in accordance with Chinabank's Amended By-Laws, Revised Corporation Code of the Philippines, and the Securities and Exchange Commission and Philippine Stock Exchange rules and regulations.

3. Certification of Quorum

The Corporate Secretary will certify the existence of a quorum for a valid transaction of business. A quorum shall be deemed constituted and competent to transact business when stockholders holding a majority of the outstanding capital stock of Chinabank are present either in person, by proxy, through remote communication, or *in absentia*.

4. Approval of the Minutes of the Annual Stockholders' Meeting held on April 24, 2025

Stockholders will be asked to approve the minutes of the annual stockholders' meeting held on April 24, 2025. The minutes can be accessed through: <https://www.chinabank.ph/annual-and-special-stockholders-meetings>.

5. Annual Report to Stockholders

The President and Chief Executive Officer (CEO), Mr. Romeo D. Uyan, Jr., will provide information about Chinabank's activities, business, and financial performance and other pertinent data for the year 2025. The Annual Report can be accessed through: <https://www.chinabank.ph/annual-report>.

6. Approval of the Audited Financial Statements for the year ended December 31, 2025

The President and CEO will provide information about the financial position, performance, and changes in the financial position of Chinabank. The financial statements included in the Information Statement and posted on the Chinabank website, <https://www.chinabank.ph>, will be for approval of the stockholders.

7. Ratification of all acts of the Board of Directors, Executive Committee, other Committees, and Management, including the ratification of related party transactions

All acts of the Board of Directors, Executive Committee, other Committees, and Management during the year 2025, and immediately preceding the stockholders' meeting, including the ratification of related party transactions, will be presented to the stockholders for their approval and ratification.

8. Election of Directors

The nominees for election to the Board of Directors, including the Independent Directors, as determined by the Nominations and Corporate Governance Committees to possess all the required qualifications and none of the disqualifications to serve in such capacity, will be presented to the stockholders. The list of nominees, with their respective profiles, is provided in the Information Statement.

9. Appointment of External Auditor

Stockholders will be asked to ratify the selection by the Audit Committee and the Board of Directors of SyCip Gorres Velayo & Co. to be re-engaged / re-appointed as external auditor of Chinabank.

10. Other Matters

All matters and businesses that may arise after the Notice, Agenda, and Information Statement have been published, posted, and/or sent out may be presented for the consideration of the stockholders as may be allowed by the laws and regulations and the Bank's internal guidelines. Questions from the stockholders will be answered in this portion.

11. Adjournment

The Chairman will adjourn the meeting when the scheduled order of business is completed and no further business or matter is considered or raised.

2. Dissenter's Right of Appraisal

A stockholder has a right to dissent and demand payment of the fair value of his shares in any of the following instances under Section 80 of the Revised Corporation Code of the Philippines (Republic Act No. 11232): (a) in case an amendment to the Articles of Incorporation has the effect of changing or restricting the rights of any stockholder or class of shares, or of authorizing preferences in any respect superior to those of outstanding shares of any class, or of extending or shortening the term of corporate existence; (b) in case of sale, lease, exchange, transfer, mortgage, pledge or other disposition of all or substantially all of the corporate property and assets; (c) in case of merger or consolidation; and (d) in case of investment of corporate funds for any purpose other than the primary purpose of the corporation.

There are no matters or proposed corporate actions included in the agenda of the annual meeting that may give rise to the exercise of the right of appraisal.

Should any proposed corporate action be passed upon at the meeting which may give rise to the right of appraisal, any stockholder who votes against the proposed corporate action may avail himself of the right of appraisal by making a written demand on the Bank for the payment of the fair value of shares held within thirty (30) days from the date on which the vote was taken. To perfect such right, the stockholder shall follow the procedures as described under Sections 81 to 85 of the Revised Corporation Code.

3. Interest of Certain Persons in or Opposition to Matters to be Acted Upon

No current director or officer, or nominee for election as director, or any associate of the foregoing persons, has any substantial interest, direct or indirect, by security holdings or otherwise, in any matter to be acted upon as contained in the agenda of the meeting other than election to office.

No director has informed the Bank in writing that they intend to oppose any action to be taken up at the meeting.

B. CONTROL AND COMPENSATION INFORMATION

4. Voting Securities and Principal Holders Thereof

- (a) **Class of Voting Securities:** 2,691,343,012 common shares entitled to vote as of January 31, 2026
- (b) **Record Date:** Stockholders of record as of February 26, 2026 are entitled to notice of, and to vote at, the annual stockholders' meeting.

(c) Nomination and Election of Directors and Independent Directors and Manner of Voting

In accordance with Sections 22 and 26 of the Revised Corporation Code, Section 15 of The General Banking Law (R.A. No. 8791), Section 38 of the Securities Regulation Code, the Amended Implementing Rules and Regulations of the Securities Regulation Code, and Sections 131, 132, and 138 of the *Bangko Sentral ng Pilipinas'* Manual of Regulations for Banks, and relevant circulars or memoranda, the Bank's Nominations and Corporate Governance Committees adopted rules governing the nomination and election of directors. The rules pertinently state that the nomination forms shall be submitted to the Office of the Corporate Secretary by February 6, 2026, and thereafter referred to the Committees for evaluation and action. The rules likewise state that the Committees shall pre-screen the qualifications of the nominees and prepare a final list of candidates, indicating the nominees for directors and independent directors.

As to the manner of voting, Article III, Section 7 of the Bank's By-Laws specifies that any stockholder who is not delinquent in his subscription shall be allowed to vote either in person, through remote communication, *in absentia*, or by proxy executed in writing by the stockholder or his duly authorized attorney-in-fact in accordance with the requirements of existing rules and regulations. Following Section 23 of the Revised Corporation Code, a stockholder may vote such number of shares for as many persons as there are directors to be elected, or cumulate said shares and give one (1) candidate as many votes as the number of directors to be elected multiplied by the number of the shares owned, or distribute them on the same principle among as many candidates as may be seen fit, provided that the total number of votes cast shall not exceed the number of shares owned by the stockholder as shown in the books of the Bank multiplied by the whole number of directors to be elected.

In accordance with Sections 23 and 57 of the Revised Corporation Code, the Securities and Exchange Commission's (SEC) Memorandum Circular No. 6, Series of 2020, and Article III, Section 7 of the Bank's By-Laws, the Board of Directors approved on January 7, 2026 to allow the conduct of the Annual Stockholders' Meeting on April 16, 2026 and the participation therein by the stockholders in hybrid format, a combination of in-person and remote attendance. In-person attendance at the meeting will be held at the Penthouse, Chinabank Building, 8745 Paseo de Roxas corner Villar St., Makati City. The meeting will be livestreamed via Zoom for stockholders who have expressed their intention to participate remotely or *in absentia* through <https://www.chinabank.ph/asm2026>, subject to validation procedures. Schedule "A" sets forth the detailed instructions for participation via remote communication and voting *in absentia*. Stockholders intending to participate by appointing a proxy should submit their proxy forms to the Office of the Corporate Secretary by April 10, 2026.

Item D.19 of the Information Statement further discusses the voting and tabulation procedures of the Bank.

Upon initial determination, based on the Nomination Forms and attachments submitted to the Nominations and Corporate Governance Committees, the nominees for directors and independent directors were found to be fit and proper for the positions of director or independent director, they meet all the necessary qualifications and none of the disqualifications for the nominated positions, and their qualities are aligned with the Bank’s strategic direction.

The Nominations and Corporate Governance Committees are currently composed of Ms. Margarita L. San Juan (Chairperson), Mr. Philip S.L. Tsai, and Ms. Claire Ann T. Yap, all independent directors.

(e) Involvement in Legal Proceedings

To the best knowledge and information of the Bank, none of the above-named directors, nominees, and executive officers have been involved in any of the following events during the past five (5) years: (i) any bankruptcy petition filed by or against any business of which such person was a general partner or executive officer either at the time of the bankruptcy or within two (2) years prior to that time; (ii) any conviction by final judgment in a criminal proceeding, domestic or foreign, or being subject to a pending criminal proceeding, domestic or foreign, excluding traffic violations and other minor offenses; (iii) being subject to any order, judgment, or decree, not subsequently reversed, suspended or vacated, of any court of competent jurisdiction, domestic or foreign, permanently or temporarily enjoining, barring, suspending or otherwise limiting his involvement in any type of business, securities, commodities or banking activities; and (iv) being found by a domestic or foreign court of competent jurisdiction (in a civil action), the Commission or comparable foreign body, or a domestic or foreign exchange or other organized trading market or self-regulatory organization, to have violated a securities or commodities law or regulation and the judgment has not been reversed, suspended, or vacated.

For the past five (5) years, to the best knowledge and information of the Bank, the Bank, its directors and officers have not been involved in any legal proceedings that would affect their ability, competence or integrity, and/or would involve a material or substantial portion of their property before any court of law, quasi-judicial body or administrative body in the Philippines or elsewhere, except in the usual routine cases directed against the Bank, arising from the ordinary conduct of its business.

All legal proceedings involving the Bank are efficiently and competently attended to and managed by a group of nineteen (19) in-house lawyers and one (1) senior consultant who are graduates of reputable law schools in the country. For its external counsels, the Bank thru its Legal and Collection Group engages the services of respected law firms and lawyers, among which are Medialdea Bello Guevarra & Suarez Law Offices, ACCRA Law Office, Divina Law Office, Tagayuna Panopio & Escobar Law Firm, Atty. Omar D. Vigilia, The Law Firm of Hermosissima Hermosissima & Hermosissima, and Catabay-Lauigan Law Office.

(f) Significant Employees

The Bank highly values its human resources. It expects each employee to do his share in achieving the Bank's set goals. In return, the Bank has in place policies and programs for the protection and growth of employees.

(g) Relationships and Related Transactions

In the ordinary course of business, the Bank has loans and other transactions with its directors, officers, stockholders, and related interests (DOSRI), which were made substantially on fair terms or at an arm's length basis, that is, terms not less favorable to the Bank than those offered to others. Full disclosures for these transactions were made through reports with the appropriate regulatory agency.

The Bank has the following subsidiaries or affiliates / associates:

- i. *China Bank Savings, Inc. (CBSI)* – formerly known as The Manila Banking Corporation (TMBC), CBSI was acquired by Chinabank in June 2007. It was incorporated on May 23, 1960 and was formed to carry on, engage in the business of, and exercise the general powers of a commercial bank as provided by law. On June 23, 1999, the *Bangko Sentral ng Pilipinas* (BSP) granted TMBC authority to operate as a thrift bank. In 2008, in pursuance of the Bank's acquisition of TMBC, the BSP and the Securities and Exchange Commission (SEC) approved the change of name to CBSI. Further, the Monetary Board and SEC gave their approvals on November 21, 2013 and January 20, 2014, respectively, to the merger with Unity Bank, A Rural Bank, Inc. (Unity Bank), a Pampanga-based rural bank, with CBSI as the surviving bank. On August 14, 2014, stockholders owning at least 2/3 of the outstanding capital stock of CBSI approved the Plan of Merger of Planters Development Bank and CBSI, with the latter as the surviving bank. BSP approved the merger on November 6, 2015 and SEC registered / approved the merger on December 17, 2015. Chinabank now owns 99.65% of the total outstanding capital stock of CBSI. Sitting as directors and/or officers of CBSI are the following: Mr. Ricardo R. Chua as Chairman, Ms. Nancy D. Yang as Vice Chairman, and the rest of the Board members are: Mr. James Christian T. Dee (who is also the President), Mr. Romeo D. Uyan, Jr., Mr. Patrick D. Cheng, Mr. Herbert T. Sy, Jr., Mr. Aloysius C. Alday Jr., and four (4) independent directors: Mr. Philip S.L. Tsai, Ms. Claire Ann T. Yap, Mr. Genaro V. Lapez, and Mr. Antonio S. Espedido, Jr.

- ii. *China Bank Capital Corporation (CBCC)* – was incorporated on November 27, 2015 as a full-service investment house. It is 100% owned by the Bank. CBCC's Board of Directors is composed of: Mr. Ricardo R. Chua (Chairman), Mr. Romeo D. Uyan, Jr. (Vice Chairman), Mr. Ryan Martin L. Tapia (President), Mr. Howard Conrad T. Sy, Ms. Lilian Yu and Ms. Magnolia Luisa N. Palanca, and three (3) independent directors: Ms. Margarita L. San Juan, Mr. Philip S.L. Tsai, and Ms. Claire Ann T. Yap. - iii. *Chinabank Insurance Brokers, Inc. (CIBI)* - was incorporated on November 3, 1998 as a full-service insurance broker, providing insurance advice and solutions for retail and corporate customers, with a wide and comprehensive range of products for non-life and life insurance requirements. CIBI offers Property, Motor, Marine, Bonds / Surety, Construction All Risk / Engineering Lines, Liability, Financial Lines such as Directors and Officers Liability, Professional Indemnity, Trade Credit, Cyber Liability, and Travel and Group Personal Accident for the Bank's clients including non-mortgaged accounts. CIBI is 100% owned by the Bank, with the following Board members: Mr. Patrick D. Cheng (Chairman), Mr. Frankie G. Panis (President), Mr. Aloysius C. Alday Jr., and two (2) independent directors: Mr. Philip S.L. Tsai and Ms. Margarita L. San Juan.
- iv. *CBC Properties and Computer Center, Inc. (CBC PCCI)* - was incorporated on April 14, 1982 to render general services of computer and other computer-related products and services solely to the Bank and its business group. CBC PCCI is 100% owned by the Bank, with the following Board members: Mr. Gilbert U. Dee (Chairman), Mr. Peter S. Dee (President), Mr. Ricardo R. Chua, Mr. Delfin Jay M. Sabido IX (Treasurer), and Mr. Francis Andre Z. De Los Santos (General Manager and Chief Information Officer).
- v. *China Bank Securities Corporation (CBSC)* – formerly known as ATC Securities, Inc. (ATC), CBSC is a wholly-owned subsidiary of CBCC. ATC originally started out as Cathay Asia Securities, Inc. which was incorporated on December 13, 1978. On April 12, 1984, Cathay Asia Securities, Inc. changed its name to ATC Securities, Inc. On June 29, 2016, CBCC and the stockholders of ATC executed a Share Purchase Agreement for the purchase by CBCC of 100% shares in ATC. The SEC approved CBCC's intended purchase of ATC on August 23, 2016, subject to certain documentary filings. The acquisition of ATC was eventually approved by the PSE on February 22, 2017 and the closing of the purchase of ATC was completed on March 6, 2017. On July 6, 2017, the SEC approved CBSC's amended articles of incorporation, including the change in its corporate name from ATC Securities, Inc. to China Bank Securities Corporation. CBSC operates as a stock brokerage licensed by the SEC to engage in dealing, for its own and its customers' accounts, securities listed in the PSE as well as providing equity-related services such as securities research and analysis, stabilization agency and tender offer agency, among others. The company is eligible to trade in dollar-denominated securities (DDS) and real estate investment trusts (REITs), and also offers an online trading platform. The company's Board of Directors is comprised of: Mr. Ryan Martin L. Tapia (Chairman), Mr. Juan Paolo E. Colet (Vice Chairman), Ms. Marisol M. Teodoro (President and CEO), Mr. Romeo D. Uyan, Jr., and Mr. Gerald O. Florentino, and two (2) independent directors: Ms. Claire Ann T. Yap and Mr. Genaro V. Lapez.
- vi. *CBC Assets One (SPC) Inc. (CBC Assets)* – is a special purpose subsidiary of CBCC. It was incorporated on June 15, 2016, with the primary purpose of securitization of assets which include receivables, mortgage loans and other debt instruments. CBC Assets is 100% owned by CBCC, with the following Board members: Mr. Ryan Martin L. Tapia (Chairman), Mr. Juan Paolo E. Colet (President and CEO), Mr. Roberto A. Cabusay (Treasurer), and two (2) independent directors: Mr. Ariel A. Soner and Ms. Ma. Cecilia A. Gironella.
- vii. *Resurgent Capital (FISTC-AMC) Inc. (RCI)* - is a special purpose subsidiary of CBCC. It was incorporated on September 6, 2021, with the primary purpose of investing in or acquiring non-performing assets of financial institutions as contemplated under Republic Act No. 11523 or the Financial Institutions Strategic Transfer (FIST) Act and its implementing rules and regulations. The company's Board of Directors is comprised of: Mr. Ryan Martin L. Tapia (Chairman), Mr. Juan Paolo E. Colet (President and CEO), Mr. Roberto A. Cabusay (Treasurer), and two (2) independent directors: Mr. Ariel A. Soner and Ms. Ma. Cecilia A. Gironella.
- viii. *Manulife China Bank Life Assurance Corp. (MCBL)* – in 2007, the Bank entered into an agreement with The Manufacturers Life Insurance Company (a parent company of The Manufactures Life Insurance Co. (Phils.), Inc. or Manulife Philippines) for an exclusive bancassurance alliance to distribute life insurance products to the Bank's customers. Initially incorporated as The Pramerica Life Insurance Company, Inc. in 1998, its name was changed

to Manulife China Bank Life Assurance Corporation (MCBL) on March 23, 2007. The Bank initially held a 5% interest in MCBL, the minimum stake required by the BSP, which has since increased to 40%, giving the Bank better opportunities to expand its fee-based business. The following are MCBL's Board members: Ms. Yi Jing Qiu (Chairperson), Ms. Ana Amelia Gochuico (President and CEO), Mr. Rahul Hora, Mr. Wilton Kee, Mr. James Christian Dee, Mr. Patrick Cheng, and three (3) independent directors: Mr. Conrado Favorito, Ms. Maria Theresa Quirino and Ms. Claire Ann T. Yap.

Further, the Bank has business relationships with related parties. Transactions with such parties are thoroughly reviewed and verified as having been entered into in the best interest of the Bank, in the ordinary course of business and on substantially same terms as those prevailing at the time for comparable transactions with other parties.

The table below shows the Bank's material related party transactions and outstanding balances for the year 2025:

7. Independent Public Accountants

SyCip Gorres Velayo & Co. (SGV & Co.) was the Bank's independent auditor for the year 2025 and has been the Bank's independent auditor for more than 40 years. SGV & Co. is again recommended for appointment at the scheduled annual stockholders' meeting. In compliance with SEC Memorandum Circular No. 8, Series of 2003, and Amendments to SRC Rule 68, the signing partners of a firm are rotated every after five (5) years of engagement which was increased to seven (7) years effective August 2019 per Professional Regulatory Board of Accountancy Resolution No. 53, Series of 2019. Ms. Janet A. Paraiso was the assigned signing partner since the year 2021.

None of the Bank's external auditors have resigned during the two (2) most recent fiscal years (2025 and 2024) or any interim period.

Representatives of SGV & Co. are expected to be present at the stockholders' meeting to respond to any matter that may be pertinently raised during the meeting. Their representative will be given the opportunity to make a statement if they so desire.

Fiscal Year	Audit and Audit-Related Fees	All Other Fees
2025	P16,050,600	P120,000
2024	P14,580,000	P120,000

Note: Amounts are exclusive of out-of-pocket expenses and VAT

Audit and Audit-Related Fees cover services rendered for the performance of the audit or review of the Bank's financial statements including the combined financial statements of Trust Group. The 2025 and 2024 audit fees were taken up and approved by the Audit Committee.

Tax fees related to the audit of tax accounting and compliance are already incorporated in the year-end audit fees under Audit and Audit-Related Fees category as this is part of the audit process conducted by the external auditors.

All Other Fees include payments for the independent validation of votes in the annual stockholders' meeting in both 2025 and 2024. The Board/Executive Committee/Audit Committee likewise discussed, approved, and authorized to engage the services of SGV & Co in non-audit work for the independent validation of the Bank's internal risk models.

SGV & Co. also confirmed that they did not have any disagreement with Management that could be significant to the Bank's financial statements or their auditor's report. Further, there are no matters that in their professional judgment may reasonably be thought to bear on their independence or that they gave significant consideration to in reaching the conclusion that independence has not been impaired.

8. Compensation Plans

In celebration of the Bank's 100th anniversary, the Board of Directors approved on August 5, 2020 and September 2, 2020 a Centennial Stock Grant Plan to issue common shares to eligible grantees. The Bank issued new shares from its authorized but unissued shares for the stock grant. The Board also approved to delegate to the President and Chief Executive Officer and Chief Finance Officer ("Designated Officers") the authority to prepare and approve the comprehensive plan consistent with the Board approval, apply for and comply with the requirements of the regulatory agencies, and perform other actions necessary in connection with the approval.

The Centennial Stock Grant Plan was approved and ratified by the stockholders in their special meeting on October 1, 2020, and approved by the relevant regulatory agencies.

The Plan was terminated effective December 16, 2024, one (1) business day after the listing on the Philippine Stock Exchange of the last tranche on December 13, 2024, as all eligible grantees have been issued their corresponding shares and there are no additional eligible grantees to whom the Grant Shares may be issued.

C. ISSUANCE AND EXCHANGE OF SECURITIES

9. Authorization or Issuance of Securities Other than for Exchange

- Dividend

The Bank is allowed to declare dividends out of its unrestricted retained earnings at such times and in such percentages based on the recommendation of the Board of Directors. Such recommendation will take into consideration factors such as debt service requirements, the implementation of business plans, operating expenses, budgets, funding for new investments, appropriate reserves and working capital, among other things.

The Bank's Board of Directors is authorized to declare dividends. A cash dividend declaration does not require any further approval from the shareholders. A stock dividend declaration requires the further approval of shareholders holding or representing not less than two-thirds of the Bank's outstanding capital stock. The Revised Corporation Code defines the term "outstanding capital stock" to mean the "total shares of stock issued under binding subscription contracts to subscribers or stockholders, whether fully or partially paid, except treasury shares". Such shareholders' approval may be given at a general or special meeting duly called for such purpose. The Dividend Policy of the Bank is discussed further under Annex "C" - Compliance with Leading Practice on Corporate Governance.

- Voting

Each Common Share entitles the holder to one vote. At each meeting of the shareholders, every stockholder entitled to vote on a particular question or matter involved shall be entitled to one vote for each share of stock standing in his name in the books of the Bank at the time of the closing of the transfer books for such meeting,

In accordance with Section 23 of the Revised Corporation Code, at each election of directors, every stockholder entitled to vote at such election shall have the right to vote, in person or by proxy, the number of shares owned by him as of the relevant record date for as many persons as there are directors to be elected and for whose election he has right to vote, or to cumulate his votes by giving one candidate the number of votes equal to the number of directors to be elected multiplied by the number his shares shall equal or by distributing such votes on the same principle among any number of candidates as the stockholder shall see fit.

Stockholders intending to participate by remote communication and exercise their right to vote in absentia should register through the online registration system on or before April 10, 2026. The procedures for online registration and voting are provided in the Guidelines for Participation via Remote Communication and Voting *in Absentia*, appended as Schedule "A". Stockholders intending to participate by appointing a proxy should submit their proxy forms by April 10, 2026.

Material information on the current stockholders and related matters is shown in Annex "B" – Market Information and Related Matters. The list of stockholders of the Bank is regularly submitted to the Bangko Sentral ng Pilipinas and Philippine Stock Exchange, and can be accessed through the Bank's website <https://www.chinabank.ph>.

- Pre-emptive Rights

The Revised Corporation Code confers pre-emptive rights on shareholders of a Philippine corporation, which entitle them to subscribe to all issues or other disposition of shares of any class by the corporation in proportion to their respective shareholdings, subject to certain exceptions. A Philippine corporation may provide for the exclusion of these pre-emptive rights in its articles of incorporation. The Board has proposed and the stockholders of the Bank approved on May 8, 2014 to amend the Articles of Incorporation to include a waiver of such pre-emptive rights. The Articles of Incorporation of the Bank provides that stockholders shall have no pre-emptive rights to subscribe to any or all issues or dispositions of any class of shares.

There is no action to be taken with respect to any matter which is not required to be submitted to a vote of the stockholders.

17. Amendment of Charter, By-Laws, or Other Documents

On February 2, 2022, the Board took up and unanimously approved the amendment to Article III, Section 1 (Regular Meeting of Stockholders) of the By-Laws, by virtue of the delegation to the Board of Directors of the power to amend By-Laws as approved by the stockholders representing more than two-thirds (2/3) of the outstanding capital stock of the Bank in their annual meeting on May 6, 2021. The amendment states that “[t]he regular meeting of stockholders shall be held annually on any date after April 15 of each year as determined by the Board of Directors and at such hour and place as may be fixed by the Board of Directors.” The amendments were approved by the BSP on February 24, 2022 and registered with the SEC on July 18, 2022.

On February 1, 2023, the Board took up and unanimously approved the amendment to Article VIII, Section 1 (Net Earnings), Item b of the By-Laws, in order to afford the Bank more flexibility going forward and at the same time share with its employees more definitively the financial growth the Bank has enjoyed in recent years. The amendment states that:

“The net earnings resulting from the operations of the Corporation, after deducting the expenses of administration and after writing off all known losses or charging the same against reserves for bad and doubtful accounts, but before making provisions for income tax, shall be disposed of as follows:

- a. xxx; and
- b. Up to Ten Percentum (10%) to the Officers of the Corporation in such manner as the Board of Directors may determine on the basis of the recommendation of the Chief Executive Officer.”

The amendment was approved and/or ratified by the stockholders owning or representing more than two-thirds (2/3) of the outstanding and subscribed capital of the Bank in its annual meeting on April 20, 2023. The said amendment was thereafter approved by the BSP on June 26, 2023 and registered with the SEC on November 30, 2023.

18. Other Proposed Action

No other actions are proposed to be taken at the annual meeting other than the agenda matters set forth in the Notice included in this Information Statement.

Pursuant to SEC Memorandum Circular No. 14, Series of 2020, stockholders of record as of February 26, 2026 who hold at least five percent (5%) of the Bank’s outstanding capital stock may include additional items on the agenda prior to the annual stockholders’ meeting. Any such additional items shall be presented under “Other Matters” after the Bank’s Definitive Information Statement has been filed with the Commission.

19. Voting Procedures

In accordance with Article III, Section 6 of the Bank's Amended By-Laws, no meeting of stockholders shall be competent to transact business unless a majority of the outstanding capital stock is represented. Unless the Revised Corporation Code requires otherwise, a majority vote of the shares present or represented at the stockholders' meeting, provided there is a quorum, shall be required to carry a stockholders' action on any matter taken up during the meeting.

Stockholders as of record date of February 26, 2026, shall be entitled to vote at the annual stockholders' meeting. Stockholders intending to participate by remote communication and exercise the right to vote *in absentia* should register through the Bank's online registration system on or before April 10, 2026. The procedures for online registration and voting are provided in the Guidelines for Participation via Remote Communication and Voting *in Absentia*, appended as Schedule "A". Stockholders intending to participate by appointing a proxy should submit their proxy forms by April 10, 2026.

Each common share of stock entitles its holder as of record date to one vote. However, with respect to the election of the members of the Board of Directors, Article III, Section 7 of the Bank's Amended By-Laws specifies that any stockholder who is not delinquent in his subscription shall be allowed to vote either in person or by proxy executed in writing by the stockholder or his duly authorized attorney-in-fact in accordance with the requirements under existing rules and regulations. Following Section 23 of the Revised Corporation Code, a stockholder may vote such number of shares for as many persons as there are directors to be elected or he may cumulate said shares and give one (1) candidate as many votes as the number of directors to be elected multiplied by the number of the shares owned, or distribute them on the same principle among as many candidates as may be seen fit, provided that the total number of votes cast shall not exceed the number of shares owned by the stockholders as shown in the books of the Bank multiplied by the whole number of directors to be elected. The twelve (12) nominees receiving the highest number of votes shall be declared elected.

All votes will be counted and tabulated by the Office of the Corporate Secretary, to be assisted by the transfer agent, Stock Transfer Service, Inc., and the results are set to be validated by the external auditor, SGV & Co.

BUSINESS AND GENERAL INFORMATION

1. Business Description

China Banking Corporation (“Chinabank” or the “Bank”) is one of the leading private domestic universal banks in the Philippines that offers a full range of banking products and services to institutional and individual customers, as well as thrift banking, investment banking, insurance brokerage, stock brokerage, and bancassurance through its subsidiaries, China Bank Savings, China Bank Capital, CBC Assets One (SPC), China Bank Securities, Resurgent Capital (FIST-AMC), Chinabank Insurance Brokers (CIBI), CBC Properties and Computer Center, Inc., and affiliate Manulife China Bank Life Assurance Corp (MCBLife). The Bank’s franchise stems from its 105-year history, a factor that has enabled it to become deeply entrenched within the socioeconomic fabric of the Chinese-Filipino community.

Chinabank was incorporated on July 20, 1920 and commenced business on August 16 of the same year. It was listed on the local stock exchange in September 1927 and acquired its universal banking license in 1991. It played a key role in the post-war reconstruction and economic recovery by providing financial support to businesses and entrepreneurs.

In 2007, the Bank acquired Manila Banking Corporation, the oldest savings bank in the country, and renamed the same to China Bank Savings, Inc. (CBSI) in the following year. To fast-track the expansion, the Bank acquired Pampanga-based rural bank Unity Bank. It also entered into a bancassurance joint venture with Manulife to establish MCBLife. In 2014, the Parent Bank increased its equity stake in MCBLife to 40%.

In 2014, the Bank acquired Planters Development Bank (Plantersbank), the country’s largest private development bank, which helped grow Chinabank’s middle market & SME portfolio, as well as its distribution network. In the following year, CBSI and Plantersbank completed its merger, with the former as the surviving entity. In 2015, Chinabank established its investment house, China Bank Capital Corporation (CBCC), and stock brokerage subsidiary, China Bank Securities Corporation. On the same year, the Chinabank MasterCard was publicly launched.

In 2017, Chinabank completed a P15-billion stock rights offer (SRO). This follows its P8-billion SRO in 2014. In 2019, the Bank marked a successful return to the market with a USD 150-million Green Bond issue to the International Finance Corporation and the P30 billion Peso fixed-rate retail bond issue.

In 2020, Chinabank kicked off its centennial anniversary with the restoration of the Binondo Business Center and a widespread television & social media ad campaign that tells the story of the Bank’s founding. The Board and stockholders also approved and ratified a centennial stock grant plan which gives qualified employees 100 Chinabank shares for every year of service. In the same year, Chinabank also listed P15 billion-peso bonds due 2022 on the Philippine Dealing & Exchange Corp. (PDEX).

Amid the disruptions caused by the COVID-19 global pandemic, the Bank navigated the new normal in 2020 by adjusting its operations and customer service accordingly. In 2021, Chinabank unveiled the historical and heritage site markers at the re-constructed Binondo Office. It also received regulatory approval for the employee stock grant plan which will distribute 5.4 million shares to around 8,300 qualified employees.

In 2024, Chinabank launched a brand refresh program to modernize its over a century-old brand and image. This initiative included changing its ticker symbol on the Philippine Stock Exchange (PSE) to “CBC” from “CHIB”, updating the signages of its main office and branches, releasing new advertisements, and launching a digital campaign with a new jingle and the tagline “Focused on You.”

In 2025, affirming this brand promise, Chinabank elevated customer experience and security with Google Pay for Chinabank credit and debit cardholders. The bank also launched Chinabank Ultra Rewards program, CBC Debit Visa and CBC Debit Visa Signature, MySSS Card powered by CBC Debit Visa, and Chinabank @Home Visa. In the same year, the bank returned to the benchmark 30-member Philippine Stock Exchange Index (PSEi) and renewed its bancassurance partnership with Manulife Philippines for another 15 years.

Chinabank's foundational strength was recognized on the global stage, as it was included in the World's Best Companies (2024 & 2025) and Asia-Pacific's Best Companies (2025 & 2026) lists by TIME and Statista, as well as the Fortune Southeast Asia 500 (2024 & 2025). Meanwhile, underscoring its excellence in governance, the bank has consistently received the Institute of Corporate Directors' Golden Arrow Award since 2019 and was twice recognized as an ASEAN Asset Class by the ASEAN Capital Markets Forum. Chinabank was also conferred the inaugural Nation Builder Award at the Asia Corporate Excellence & Sustainability Awards 2025 and secured back-to-back Titanium Awards on Corporate Sustainability Leadership at The Asset Corporate Sustainability Leadership Awards 2025.

Aside from this, the Bank was named as the Domestic Retail Bank of the Year – Philippines at the 2024 Asian Banking and Finance (ABF) Retail Banking Awards and Employer of the Year in the Philippines by the People Management Association of the Philippines (PMAP), the only bank to win this coveted award in the last 30 years.

Credit rating agency, *Moody's Investor Services*, affirmed Chinabank's investment grade credit rating of "Baa2" with "Stable" outlook driven by the Bank's strong capitalization and profitability, as well as its modest deposit franchise, offset by its strong level of liquidity.

Chinabank's main business include corporate and SME lending, retail loans (e.g. credit cards, housing, auto, personal & automatic payroll deduction), treasury & foreign exchange trading, trust & asset management, investment banking & advisory services, wealth management, cash management, insurance products through CIBI and MCBLife, internet & mobile banking, and remittances through tie-ups in the Middle East, Asia, and major US cities. The Bank also offers foreign currency deposits in four currencies, USD, EUR, CNY, and JPY.

Chinabank offers a comprehensive suite of products and services through its 653 branches complemented by convenient and secure electronic banking channels which are available 24/7— 1,139 ATMs, Bills In Bills Out (BIBO) Machines, China Bank TellerPhone (phone banking), China Bank Online, and China Bank Mobile App.

4. Competition

As of December 2025, there are 44 universal and commercial banks in the Philippines – 15 private domestic banks, 24 foreign bank branches, three government banks, and two foreign bank subsidiaries. Six digital banks are also in operation, namely GoTyme Bank Corporation, Maya Bank, Inc., Overseas Filipino Bank, Inc., Tonik Digital Bank, Inc., Union Digital Bank and UNObank, Inc.

By end of 2025, the combined assets of the universal & commercial banking (UK/B) and thrift banking (TB) industries expanded by 9% or P2.4 trillion year-to-year to P29.3 trillion.

Deposits went up 8% or P1.5 trillion to P21.4 trillion while gross loans increased 11% or P1.5 trillion to P15.6 trillion. Gross non-performing loans (NPL) increased by 6% to P504 billion, while gross NPL ratio improved to 3.2% from 3.4% as of December 2024. NPL cover, on the other hand, was steady at 97%.

Combined equity of the UK/B & TB industries went up by 9% or P303 billion to P3.6 trillion. UK/B industry's consolidated Capital Adequacy Ratio (CAR) as of September 2025 went down to 16.38% versus December 2024's 16.48%. On a solo basis, CAR decreased to 15.93% from 16.00%.

Among private domestic banks, Chinabank is still the fourth largest bank in terms of assets at P1.8 trillion as of December 2025. The bank is also the fourth largest lender with gross loans amounting to P1.1 trillion and the fourth largest deposit-taker with deposits amounting to P1.4 trillion.

5. Transactions with and/or dependence on related parties

In the ordinary course of business, the Bank has loans and other transactions with its subsidiaries and affiliates, and with certain directors, officers, stockholders, and their related interest (DOSRI). These loans and other transactions are in accordance with the Bank's policy and should be reviewed by the Related Party Transaction Committee to ensure that they are conducted at arm's length basis at fair market prices and upon terms not less favorable to Bank than those offered to others and in compliance with all regulatory requirements. Related party transactions are presented to the stockholders during the annual stockholders' meeting for ratification.

6. Trademarks, Licenses, Franchises, etc.

China Bank is operating under a universal banking license obtained in 1991. Over the years, China Bank has registered its corporate brand, slogan, and product trademarks with the Intellectual Property Office (IPO) of the Philippines – Bureau of Trademarks, as follows:

- Chinabank Focused on You (logo)
- Chinabank Focused on You (slogan)
- Chinabank Online Kababayan Services (OKS)
- CHIB
- Chinabank Online
- Chinabank Trust and Asset Management Group
- Chinabank Premium Savings Account
- Chinabank Wealth Management
- Chinabank Money Plus
- Chinabank Direct Debit Arrangement
- Chinabank Partnership Banking

All the Bank's trademark registrations are valid for 10 years with expiration years varying from 2025 to 2035. The Bank closely monitors the expiry and renewal dates of these trademark names to protect the Bank's brand equity.

7. Sources and Availability of raw materials and the names of principal suppliers.

Not applicable.

8. Disclose how dependent the business is upon a single customer or a few customers.

Not applicable.

9. Need for any government approval of principal products or services.

The Bank secures regulatory approval of all its products and services, as required.

10. Effect of existing or probable governmental regulations on the business.

The Bank strictly complied with the Bangko Sentral ng Pilipinas (BSP) requirements in terms of reserves, liquidity position, capital adequacy, limits on loan exposure, cap on foreign exchange holdings, provision for losses, anti-money laundering provisions and other reportorial requirements.

11. Amount spent on research and development activities

CBC spent the following for the last three years on personnel training & education, advertising, and technology expenses, excluding IT capital expenditures.

	In Thousand Pesos	% of Revenues
2023	1,664,762	3.1%
2024	2,135,558	3.3%
2025	2,656,942	3.5%

12. Cost and effect of compliance with environmental laws. Not applicable.

13. Total number of employees

The Chinabank places great value on its human resources, recognizing them as vital asset to its operations and overall success in achieving Bank's goals and objectives. In line with this, the Bank continues to grow and adapt to the rapidly evolving market, technological innovations and developments in the banking sector, while upholding policies and programs that support the growth and development of its employees.

The Chinabank workforce for year 2025 reflects a 2% increase from year 2024, with a projected 4% increase for the current year. This growth is driven by the Bank's business expansions, commitment to delivering innovative financial solutions, and maintaining high performance standards for our clients.

Below is the breakdown of the manpower complement in 2025 as well as the projected headcount for 2026:

MOST	Projected 2026			2025		
	Officers	Staff	Total	Officers	Staff	Total
Marketing	2,505	491	2,996	2,395	455	2,850

COMPLIANCE WITH LEADING PRACTICE ON CORPORATE GOVERNANCE

Governance with Purpose: Strengthening Every Leap Forward

Rooted in its unwavering commitment to conduct business the right way, Chinabank's governance framework remains the bedrock of sustainable value creation. Governance with purpose is not merely a compliance imperative, but a strategic enabler—ensuring that every leap forward is deliberate, disciplined, and aligned with the Bank's long-term objectives. In balancing prudent business growth with stakeholder welfare, the Bank remains focused on delivering enduring value to its customers, shareholders, employees, and the communities it serves.

The Bank's governance architecture is anchored on the principles of Fairness, Accountability, Transparency, and Integrity. These foundational values guide every policy, process, and decision across the organization and throughout the Chinabank Group. By embedding these principles into its governance culture, the Bank reinforces sound stewardship, ethical conduct, robust internal controls, and prudent risk management. This disciplined approach enables the Bank to pursue strategic opportunities while safeguarding stakeholder interests and maintaining regulatory compliance.

At the helm of the Bank's governance structure is the Board of Directors, whose leadership sets the tone from the top and reinforces a culture anchored on strategic clarity. The Board plays a central role in guiding the Bank's long-term direction, ensuring that corporate priorities are pursued in a manner consistent with stakeholder interests and sustainable value creation. Beyond oversight, the Board helps shape an environment that promotes disciplined growth, prudent decision-making, and organizational agility. Through steady leadership and principled stewardship, Chinabank remains equipped to navigate evolving customer expectations, dynamic market conditions, and the emerging challenges of the banking landscape.

Ultimately, Chinabank's governance framework underscores its commitment to sustainable value creation. By continuously strengthening its practices in line with regulatory standards and evolving best practices, the Bank reinforces stakeholder trust and institutional resilience. In doing so, it ensures that every leap forward is anchored on strong governance foundations and a clear sense of purpose.

In 2025, alongside our regular best practices, we implemented the following measures to further strengthen our position as one of the best governed companies in the region:

- Conducted a hybrid ASM, allowing stockholders to participate in person or virtually and exercise their voting rights through secure electronic registration and voting facilities.
- Facilitated real-time electronic voting by maintaining an active online voting portal until the adjournment of the ASM.
- Updated the membership of the Audit and Trust Investment Committees to further strengthen oversight and reinforce effective governance.
- Refined the Anti-Bribery and Corruption Policy and the Related Party Transactions (RPT) Framework and Policy Guidelines to bolster Chinabank's integrity standards.
- Updated the Corporate Governance Manual and Board Committee Charters to align with the latest regulations and international best practices.
- Enhanced Board Self-Assessment forms and conducted annual performance evaluations for the Board, Board-level committees, Independent Directors, and the President.

Bank engaged the Institute of Corporate Directors, a third-party organization, to assist in the search for potential Board candidates.

Acknowledging the critical role of independent oversight, the Board has four (4) independent (non-executive) directors to ensure a strong element of independence in its decision-making. These directors are independent of management and of major or substantial shareholders, and are free from any business, familial, or other relationships with the Bank that could compromise their judgment or objectivity. Their presence strengthens the Board's ability to exercise impartial oversight and uphold the highest standards of corporate governance.

All directors are provided with a copy of their general and specific duties and responsibilities as outlined in the Manual of Regulations for Banks (MORB). Each director acknowledges receipt and certifies that they have read and fully understood these responsibilities. In addition, directors individually submit a Sworn Certification confirming that they meet all qualifications prescribed under the MORB, which is filed with the Bangko Sentral ng Pilipinas (BSP) after their election. Independent directors also execute additional certifications to comply with the Securities Regulation Code and applicable BSP rules, which are subsequently submitted to the Securities and Exchange Commission (SEC).

Board Committees

Ten Board-level committees assist the Board in executing its governance, stewardship, and fiduciary responsibilities. Each committee operates under a formal Charter that defines its delegated authority, scope, and responsibilities. These Charters are reviewed annually, updated as necessary, and are accessible in the Governance section of the Bank's website.

- **Executive Committee** exercises the powers of the Board in managing corporate affairs when the Board is not in session, to the fullest extent permitted under the By-Laws, applicable laws and the Committee's Charter. It approves credit applications or transactions exceeding the Credit Committee's authority and decides on other strategic matters. The Executive Committee had 40 meetings in 2025, including 2 joint meetings with the Risk Oversight Committee.

Corporate Secretary

Assisting the Board of Directors in the effective and efficient discharge of their duties, is the Corporate Secretary, who reports operationally to the Chairman and is accountable to the Board. Our Corporate Secretary is Atty. Leilani B. Elarmo. Her duties and responsibilities are clearly stated in the Bank's Corporate Governance Manual.

The Corporate Secretary is a senior-level officer responsible for safeguarding official records and administering Board and Committee activities. Serving as a key governance advisor, the Corporate Secretary attends the Bank's annual corporate governance training, ensures adherence to sound board practices and provides the Board with unrestricted support. Additionally, the Corporate Secretary acts as a vital liaison between the Board, Management, and stockholders, facilitating transparent and objective communication across the organization.

Induction and Continuing Education

Newly appointed directors undergo a structured orientation facilitated by an SEC-accredited training provider and are provided with a comprehensive orientation kit. This includes key reference materials such as the Directors' Specific Duties and Responsibilities, the Corporate Governance Manual, relevant Board Committee Charters, and other essential documents. With the support of the Corporate Governance Division (CGD), directors regularly participate in targeted learning opportunities, webinars, trainings, etc., to maintain their readiness to provide effective oversight and guidance.

On September 3, 2025, the CGD organized the annual Corporate Governance training, pursuant to the requirements of the Corporate Governance Manual, with full participation from all directors and key officers. This SEC-approved in-house program covered: (i) The AI Revolution That's Rewriting Banking's Playbook; (ii) AI in Philippine Banking: Adoption, Governance & the Road to Responsible Innovation; (iii) Investing in People: Empowering Human Capital in Banking's AI Era; and (iv) Corporate Governance Briefing: Climate Risks and its Systemic Cascade to Financial Risk and Opportunity.

Performance Evaluation for the Board, Individual Directors, Board Committees and President

Consistent with the requirement for an annual performance evaluation, the Board of Directors, Board-level Committees, individual Directors, and the President and CEO undertake a structured assessment of the Board's overall effectiveness and the performance of its committees. This self-assessment process evaluates both individual contributions and collective performance, and serves as a tool for identifying areas for enhancement and continuous improvement. The Corporate Governance Division consolidates and analyzes the assessment results and submits a summary report to the Board through the Corporate Governance Committee. A 5-point scale rating system is used for the self-assessment, where the lowest score is 1, equivalent to "Poor", and the highest score is 5, equivalent to "Excellent".

Rating	Description
1	Poor – Leading practice or principle is not adopted in the company's Manual of Corporate Governance
2	Needs Improvement – Leading practice or principle is adopted in the Manual but compliance has not yet been made
3	Fair – Leading practice or principle is adopted in the Manual and compliance has been made but with major deviation(s) or incompleteness
4	Good – Leading practice or principle is adopted in the Manual and compliance has been made but with minor deviation(s) or incompleteness
5	Excellent – Leading practice or principle is adopted in the Manual and full compliance with the same has been made

The Board reviews the results and evaluates the enhancements needed in order to improve the performance of the Board collectively, the individual directors, and the various committees.

Independent Board Evaluation

In compliance with the SEC Code of Corporate Governance, we engage a third party evaluator every three years for an independent performance assessment. The 2025 evaluation by the Institute of Corporate Directors affirmed the Board's overall effectiveness, highlighting strong leadership, a well-functioning governance framework, and the Chairman's effective facilitation of strategic discussions. The assessment recognized the active engagement of directors and robust oversight of risk, audit, and compliance, underscoring a mature governance culture defined by transparency and disciplined decision-making.

Compliance Framework

As the regulatory landscape continues to evolve, the Bank's compliance framework, led by the Compliance Group ("Compliance"), goes beyond mere regulatory adherence. It is designed to strengthen a group-wide culture of compliance, promote ethical conduct, and reinforce trust among customers, investors, and other stakeholders. By proactively managing regulatory requirements and embedding compliance into business operations, the Bank ensures responsible growth, mitigates risk, and enhances overall organizational resilience.

Compliance plays a central role in cultivating a group-wide culture of compliance. It is responsible for designing, monitoring, and overseeing the Bank's compliance program, supporting the Board in meeting its

governance responsibilities and safeguarding the interests of stakeholders. Compliance also endeavors to reinforce awareness of all applicable laws, rules and regulations, by intensifying relevant training programs and disseminating the latest regulatory issuances.

Compliance is headed by the Chief Compliance and Governance Officer (CCGO), Atty. Aileen Paulette S. De Jesus, who functionally reports to the Compliance and the Corporate Governance Committees and administratively to the Bank's President and CEO. The Compliance function is supported by a duly approved Compliance Charter that defines the duties and responsibilities, mandate, independence, and manner on which compliance is implemented. At the helm of this function is the *Regulatory Compliance Division*, which ensures that the compliance system is updated and implemented accordingly. The *Corporate Governance Division* carries out and manages the implementation of the corporate governance mandates, which include managing compliance with the Code of Corporate Governance, BSP and SEC rules on governance and international best practices. The *AML Division* manages the Bank's compliance with Anti-Money Laundering laws and regulations, and implementation of Money Laundering and Terrorist Financing Prevention Program (MTPP). The *Head Office Compliance Testing Department* serves as the independent compliance testing arm and ensures that the operations of Head Office units adhere to the relevant rules and regulations. The *IT Compliance Department* oversees the regulatory compliance of IT-related units of the Bank. The *Subsidiaries Oversight Department* oversees group-wide compliance to relevant rules, laws and regulations by providing direction and support to the Bank's subsidiaries. Finally, the *Associated Person Department* is responsible for the Bank's compliance with the Securities Regulations Code, including relevant laws and issuances related thereon.

All bank units have Compliance Coordinators to ensure that all risks associated to the operations and business of the individual units are identified, monitored, mitigated and remediated.

To enhance regulatory, compliance and good governance awareness and continuously strengthen the implementation of our compliance culture within the Bank, Compliance:

1. Cascades all recent laws, rules, and regulations to all concerned;
2. Acts as liaison for the Board and Management on regulatory compliance matters, with the regulatory agencies;
3. Provides advisory services, including review of proposed Bank products and services;
4. Reviews and updates the Compliance Manual, MTPP and Corporate Governance Manual annually or as necessary, to align with recent regulatory requirements;
5. Continuously educates Bank employees about compliance, anti-money laundering, good governance and its benefits, consumer protection and related party transactions, among others, to ensure that everyone in the institution is in the same direction towards good governance and to develop a culture of trust and integrity and to enable the employees of the Bank embrace the principles set forth by the Board;
6. Conducts briefings and training for Compliance Coordinators in the branches and Head Office to raise the level of awareness and understanding of the principles, concepts, and elements of good corporate governance and compliance. The Compliance Coordinators are required to cascade their learnings to their respective areas; and
7. Conducts lectures to all new employees of the Bank for the basic orientation on Compliance System, AML, and Corporate Governance, giving them an overview of the Bank's Compliance Risk Management System. Compliance also conducts lectures during the Junior Executive Development (JED) and Emerging Leaders Program (ELP), among others.

Governance Policies

- **Corporate Governance Manual**

The Corporate Governance Manual provides the foundational framework for upholding strong governance standards and advancing the Bank's commitment that goes beyond regulatory compliance. It defines the governance structure, key policies, and standards, including the roles and responsibilities of the Board of Directors, individual directors, and Board-level committees. The Manual also covers the Bank's compliance framework, internal control systems and the protection of stakeholders' rights, among others. It is regularly reviewed and updated to ensure alignment with applicable laws, regulations, and evolving best practices. Compliance with the Manual is overseen by the Chief Compliance and Governance Officer.

In 2025, the Bank has fully complied with all material provisions of the Corporate Governance Manual.

- **Board Remuneration**

Pursuant to the Bank's amended By-Laws, our directors are entitled to a per diem of up to P10,000 for attendance at each meeting of the Board of Directors or any Board Committee. In line with Article VIII of the By-Laws, a portion of the Bank's net earnings is also allocated to the Board. Executive directors, being Bank Officers, are appointed under standard employment terms and receive performance-related compensation based on their performance, banking experience, position, and rank in the Bank; while non-executive directors do not receive any performance-related compensation.

In compliance with the Revised Corporation Code, the Bank has disclosed the compensation of the directors (for the preceding year) on an individual basis.

- **Dividend Policy**

The Bank, as a matter of policy, shall declare cash dividends at a payout ratio of approximately thirty percent (30%) of the net income of the prior year, subject to the conditions and limitations set forth in the policy statement. The Bank's Dividend Policy is an integral component of its Capital Management Policy and Process. Its fundamental and overriding philosophy is sustainability.

Dividend payouts are reviewed annually. These are referenced against the Bank's Capital Management Process. Based on this process, dividend payouts are calibrated based on the prior year's earnings while taking consideration dividend yields, future earnings streams and future business opportunities.

In declaring dividend payouts, the Bank uses a combination of cash or stock dividends as follows:

1. The dividend is increased in response to the Bank's achieving a higher level of sustainable earnings.
2. Dividends may be increased for a specific year to plow back to shareholders a commensurate share of unusually high earnings for a given year.

The Bank's capital management philosophy and process, and consequently its Dividend Policy which comprises an integral component of this undertaking, are driven by the following primary objectives:

1. Ensuring compliance with externally imposed regulatory capital requirements.
2. Maintaining strong credit ratings.
3. Maintaining healthy capital ratios to support its business and maximize shareholder value.

Moreover, the Bank manages its capital structure as reviewed and approved by the Board on an annual basis, and makes adjustments to it in the light of:

1. Changes in economic conditions.
2. The risk characteristics of its activities.
3. The assessment of prospective business requirements or directions.

- **Whistleblowing**

Without fear of any retaliation, Chinabank directors, personnel, clients, stakeholders and any third party may report illegal activity, unethical behaviour, or actual, suspected, or threatened condition, acts and/or omission/s of the following, committed by any Bank director, personnel, supplier, contractor, vendor and consultant in the performance of their function, or irregularities in Bank operations and procedures:

- Violations or infractions of the Bank's Operating Policies and Procedures Manual (OPPM);
- Violation of the Bank's Code of Ethics;
- Violation of banking and anti-money laundering laws, rules and regulations (including but not limited to Bank Secrecy laws and the Anti-Money Laundering Act), the Securities Regulation Code and other applicable laws and regulations, each as may be amended and supplemented from time to time;
- Fraudulent practices, statements or transactions including account manipulation, embezzlement of funds, etc.;
- Attempt to conceal any of the violations mentioned herein including potential adverse effects thereof;
- Act of retaliation for any report done in accordance with this Policy, or by mere possession of information on the violations mentioned herein;
- Such other improprieties or unsafe or unsound business/banking practices or those that violate good governance principles, which the Bank may, in its discretion, consider as detrimental to its interests, operations and/or reputation;
- Illegal acts, unethical or questionable practice/s, or those that are contrary to public policy and/or morals;
- Misuse/misappropriation/destruction of Bank assets;
- Any condition/s, act/s and/or omission/s analogous to the foregoing.

To protect against any form of retaliation, the identity of the whistleblower is kept confidential and all reports are evaluated accordingly. If warranted, the handling unit/s shall conduct preliminary investigation.

The Bank's Whistleblowing mechanism is under the Audit Committee – an independent control committee ensuring that the system in place for the independent investigation, follow-up action and subsequent resolution of complaints, is appropriate and effective. It is composed of non-executive directors, majority of whom are independent directors.

- **Code of Ethics**

The Board of Directors sets the tone at the top by leading through example and reinforcing the importance of high ethical standards across the organization. Just as it expects full compliance to the Code of Ethics from all Bank employees, the body believes that its members should also uphold the principles of integrity, fairness, accountability and transparency at all times. The Bank's Code of

Ethics embodies its core values and provides clear guidance on the proper conduct of duties and acceptable practices in both internal and external dealings. It serves as a comprehensive framework for ethical and professional behaviour, reaffirming the Bank's commitment to prevent illegal, improper, or unethical acts.

The Code of Ethics is issued to all newly appointed directors and employees, who are required to acknowledge receipt and understanding thereof. It is also a key component of the New Employees' Orientation Course, where its provisions are discussed in detail. Copies of the Codes are also made available in the Bank's intranet to be readily accessible to all employees, and are also available on the Bank's website. A comprehensive discussion on the Code of Ethics is conducted with new employees of the Bank to foster a culture of awareness on the Bank's core values. Such discussion also highlights the behavioral standards, business conduct, and corresponding sanctions for violations of the Code of Ethics.

All directors, officers, and employees are expected to comply with and uphold the principles set forth in the Code at all times.

- **Anti-Bribery and Corruption**

Being in the business of trust, and with integrity as one of its core values, the Bank strongly communicates its position that it will not and does not tolerate any form of bribery, corruption, illegal or unethical practices, and improper acts or conduct in all business dealings. For this reason, the Bank aims to foster adherence to moral and ethical principles by its directors, employees and third party service providers – all of which are expected to conduct themselves with integrity, impartiality, and honesty.

The Bank has an Anti-Bribery and Corruption Policy that outlines the principles and guidelines that all Directors, Officers and employees must adhere to. As enshrined in the Code of Ethics, among others, they are prohibited from offering, promising, or giving a financial or other advantage to any person or party, including public officials, with the intention of inducing or rewarding improper performance by them of their duties or to facilitate Bank transactions. They are likewise prohibited from accepting any financial or other advantage as a reward for participating in any act prejudicial to the Bank or any of its stakeholders.

- **Policy on Conflict of Interest**

In accordance with the Bank's Code of Ethics, conflict of interest (COI) between the Bank and its directors, officers and employees should be avoided at all times. However, should a conflict arise, the interest of the Bank must always prevail. Employees are not permitted to have or be involved in any financial interests that are in conflict or appear to be in conflict with their duties and responsibilities to the Bank. They are likewise barred from engaging in work outside of the Bank unless with duly-approved permission, as well as work that lies in direct competition with the Bank.

To strengthen prevention measures for COI, our directors are mandated to accomplish the COI and Related Party Transaction Disclosure Form after their election/re-appointment and after gaining knowledge of an actual or potential COI situation.

- **Disclosure and Transparency**

The Bank is committed to providing stakeholders with timely, accurate, and meaningful information to promote a clear understanding of its financial condition, operations, and corporate governance practices. As a publicly listed company, the Bank discloses all material information in compliance with applicable laws and regulations, including timely filings through the PSE EDGE portal. It likewise

complies with mandated reporting requirements, such as the publication of quarterly financial statements in national newspapers and the issuance of an annual financial and sustainability report in connection with the annual stockholders' meeting. Material developments and market-sensitive information—including dividend declarations, joint ventures and acquisitions, and the sale or disposition of significant assets—are promptly disclosed through press releases, social media channels, and the Bank's website, together with other financial and non-financial information that may influence investment decisions. In addition, the Investor and Corporate Relations Group conducts and participates in briefings with analysts and the investment community.

The Bank aims to ensure that information about its products and services are clear, accurate, and accessible. The Bank provides all necessary and relevant information to its customers so that they can make informed decisions when transacting with it. The Bank communicates such information to its customers and other stakeholders through the use of wide range of media, including print materials, advertisements in bank branches and electronic and digital advertisements on TV, radio, the internet and social media channels such as Twitter and Facebook; and through its Customer Contact Center. Analysis of Consolidated Statement of Financial Condition
As of December 31, 2025 and December 31, 2024

Chinabank's consolidated **assets** stood at ₱1.8 trillion in 2025, 8.2% higher than year-end 2024.

Cash and other cash items increased 19.2% to ₱21.8 billion due to its usual year-end build-up. **Due from BSP** decreased by ₱20.5 billion or 24.8% to ₱62.1 billion mainly due to reduced placements with the BSP following the cut in the reserve requirement ratio. **Interbank loans receivable and securities purchased under resale agreements** decreased by 36.2% or ₱7.4 billion to ₱13.0 billion due to lower volume of overnight placements with the BSP.

Financial assets at fair value through profit or loss (FVPL) declined to ₱8.2 billion, primarily due to a reduction in fixed income holdings. **Derivative contracts designated as hedges** amounting to ₱3.6 billion was higher mainly from the mark-to-market movements of the derivatives used as hedging instruments. **Financial assets at fair value through other comprehensive income (FVOCI)** posted an increase of 25.8% or ₱34.6 billion to ₱168.7 billion due to higher securities volume. The Bank's total securities portfolio accounted for 31.6% of consolidated resources.

The Bank continued to meet sustained credit demand from both corporate and retail clients, driving strong portfolio growth. **Gross loans** breached the trillion milestone, reaching ₱1.1 trillion, up by ₱125.8 billion during the period. Meanwhile, **net loans** expanded by 13.4% or ₱122.8 billion to ₱1.0 trillion, reflecting continued lending momentum.

Investments in associates rose by 62.9% to ₱3.2 billion due to the dilution gain arising from the capital infusion by Manufacturers Life Insurance Company (Manulife) while retaining existing ownership structure and percentages between Manulife and the Bank in view of the renewal of the joint venture, MCBLife. **Bank premises, furniture, fixtures and equipment** increased by 19.7% mainly from acquisition of new building. **Investment Properties** were up by ₱14.0 billion to ₱20.9 billion due to additional properties foreclosed during the period. **Net deferred tax asset** decreased by 13.8% to ₱4.8 billion due to the recognition of deferred tax liabilities on certain taxable temporary differences. **Intangible assets** increased by 15.0% to ₱5.1 billion from additional technology-related investments. **Other assets** increased by 7.5% to ₱12.3 billion from higher balance of accounts receivables, prepaid expenses and other miscellaneous receivables.

On the liabilities side, **total deposits** was recorded at ₱1.4 trillion, up 8.5%. Against December 2024, the combined demand and savings deposits stood at ₱692.6 billion, up by 16.7% while time deposits was up by 2.0% or ₱14.5 billion to ₱752.0 billion. **Bills payable** increased by 5.9% to ₱118.8 billion from higher securities

sold under repurchase agreement. **Manager's checks** declined by 9.9% to ₱1.5 billion, reflecting a year-on-year decrease in the volume of outstanding checks pending negotiation. **Income tax payable** decreased by 33.0% to ₱146.6 million due to interim payments and slightly lower regular corporate income tax for the period. **Accrued interest and other expenses** decreased by 17.4% to ₱7.6 billion because of lower interest payable accruals. **Derivative liabilities** decreased by 24.2% to ₱1.1 billion driven by mark-to-market movements. Meanwhile, **derivative liabilities designated as hedges** decreased by 95.9% to ₱255.1 million arising from the change in the mark-to-market valuations. **Other liabilities** increased by 6.4% to ₱15.7 billion.

Total equity reached ₱191.3 billion, higher than 2024's ₱168.6 billion mainly from the ₱21.2 billion or 18.1% increase in **surplus**. **Net unrealized losses on financial assets at FVOCI** was recorded at ₱732.7 million arising from the mark-to-market revaluation of the Bank's FVOCI securities. **Remeasurement gain on defined benefit asset** decreased by ₱276.6 million to ₱851.7 million due to changes in actuarial assumptions. **Cumulative translation adjustment** was ₱81.1 million lower arising from the translation of foreign-currency denominated assets and liabilities to its presentation currency. **Cash flow hedge reserve** increased to ₱683.4 million due to mark-to-market movements of the hedging instruments.

The Bank remained well-capitalized, posting a **Common Equity Tier 1 (CET 1/Tier 1) ratio** of 15.18% and a **total CAR** of 16.06%. These were slightly lower than the previous year's 15.31% and 16.20%, respectively, and remained comfortably above regulatory requirements.

Analysis of Consolidated Statement of Financial Condition As of December 31, 2024 and December 31, 2023

In Billion Pesos	Dec 31, 2024 Audited	Dec 31, 2023 Audited	Variance	%
Assets	1,646	1,478	168	11.4%
Investment Securities	543	505	38	7.6%

Total Deposits	1,331	1,187	144	12.2%
Equity	169	150	18	12.2%

Chinabank's consolidated **assets** remains strong at ₱1.6 trillion in 2024, 11.4% higher than year-end 2023, sustained by the expansion in investment securities and loans.

Cash and other cash items increased 14.1% or ₱2.3 billion to ₱18.3 billion due to the usual year-end build-up. **Due from BSP** decreased by ₱2.0 billion or 2.3% to ₱82.6 billion from the reduction in reserve requirement ratio, while **due from other banks** decreased by ₱7.4 billion or 37.2% to ₱12.5 billion from lower deposits with correspondent banks. **Interbank loans receivable and securities purchased under resale agreements** decreased by 41.5% or ₱14.4 billion to ₱20.3 billion due to lower volume of overnight placements with the BSP.

Financial assets at fair value through profit or loss (FVPL) decreased by ₱2.3 billion to ₱11.3 billion with the drop in fixed income assets. **Derivative contracts designated as hedges** amounting to ₱2.8 billion was lower mainly due to the discontinuance of the hedging relationship between the Treasury time deposits and interest rate swaps as a cash flow hedge and the maturity of the interest rate swap used as a hedging instrument. **Financial assets at fair value through other comprehensive income (FVOCI)** posted an increase of 25.9% to ₱134.1 billion due to higher securities volume. The Bank's total securities portfolio accounted for 33.0% of consolidated resources. The Bank's liquidity ratio stood at 41%.

As the Bank responded to sustained demand for credit from both businesses and consumers, **gross loans** grew by ₱142.1 billion or 18.0% to ₱933.1 billion while **Net loans** increased 18.6% to ₱915.2 billion. **Non-performing loan (NPL) ratio** further eased to 1.6% from 2.5% in 2023. NPL coverage remains adequate at 139%, providing a substantial buffer against portfolio risks.

Accrued interest receivable increased by 17.3% to ₱13.4 billion from ₱11.5 billion from larger amount of receivables from financial assets. **Investment in associates** increased 42.4% to ₱2.0 billion due to higher income from the Bank's affiliate, MCBLife. **Investment Properties** were up 76.9% to ₱7.0 billion due to additional properties foreclosed during the period. **Deferred tax asset (DTA)** decreased by ₱996.1 million to ₱5.5 billion due to the reversal of certain deductible temporary differences. **Intangible assets** increased by 16.7% to ₱4.4 billion from additional technology-related investments. **Other assets** increased by 39.8% to ₱11.5 billion from higher balance of net plan assets, accounts receivables, prepaid expenses and other miscellaneous receivables.

On the liabilities side, **total deposits** was recorded at ₱1.3 trillion, up 12.2% mainly from the increase in the Bank's term deposits by 20.6% to ₱737.5 billion. The combined demand and savings deposits stood at ₱593.6 billion. **Bills payable** increased by 32.2% to ₱112.1 billion from higher interbank loans. **Bonds payable** was zeroed due to the maturity of the ₱20 Billion Peso Fixed Rate Bonds last February 2024. **Manager's checks** decreased by 20.0% to ₱1.7 billion as the volume of outstanding checks for negotiation declined year-to-date. **Income tax payable** increased 63.7% to ₱218.8 million due to additional regular corporate income tax payable for the period. **Accrued interest and other expenses** was 6.8% higher at ₱9.2 billion because of interest payable accruals. **Derivative liabilities** increased by 49.8% to ₱1.4 billion as a result of the mark-to-market of the derivatives. **Derivative contracts designated as hedges** increased by 22.5% to ₱6.2 billion arising from the change in the mark-to-market rates. **Other liabilities** decreased by 5.8% to ₱14.7 billion.

Total equity reached ₱168.6 billion, higher than previous years' ₱150.3 billion mainly from the ₱16.2 billion or 16.0% increase in **surplus** to ₱117.1 billion. **Surplus reserves** also recorded a 53.9% increase to ₱7.7 billion due to the appropriation of retained earnings and transfers from surplus to surplus reserves. **Net unrealized losses on financial assets at FVOCI** was recorded at ₱2.1 billion arising from the mark-to-market revaluation of the Bank's FVOCI securities. **Remeasurement gain on defined benefit asset** was 12.8x higher at ₱1.1 billion due to changes in actuarial assumptions. **Remeasurement on life insurance reserve of an associate** saw a 14.8% decrease to ₱78.5 million due to the revaluation of legal policy reserves of the Bank's affiliate, MCBLife. Meanwhile, **Cumulative translation adjustment** was 61.0% lower at ₱74.3 million arising from the translation of foreign-currency denominated assets and liabilities to its presentation currency. **Cash flow hedge reserve** decreased to ₱365.3 million due to mark-to-market movements of the hedging instruments and the discontinuance of one of the cash flow hedges.

The Bank remained adequately capitalized with **Common Equity Tier 1 (CET 1/ Tier 1) ratio** and **total CAR** of 15.31% and 16.20%, respectively —higher than the previous year's 15.25% and 16.14%, respectively and well above regulatory requirements.

For the period ended December 31, 2025 and December 31, 2024

Chinabank recorded a 12.8% increase in consolidated **net income** to ₱28.0 billion in 2025, up from ₱24.8 billion in 2024, driven by strong growth in its core business. These results translated to a **return on equity** of 15.56% and a **return on assets** of 1.63%, underscoring the bank's ability to generate high value from its capital and asset base amid a dynamic economic environment.

Total **interest income** grew by 12.2% to ₱105.2 billion from ₱93.8 billion, supported by the continuous expansion of earning assets. **Interest income from loans and receivables** increased by 17.2% to ₱71.6 billion, driven by the continued growth of the loan portfolio. **Interest income from financial assets at FVPL** increased to ₱1.4 billion mainly from higher average rate of FVPL securities portfolio. **Interest income from due from BSP and other banks and SPURA** increased 8.8% to ₱3.1 billion, attributed to higher placements with correspondent banks.

Total interest expense rose 7.9% to ₱32.6 billion from ₱30.2 billion last year. The increase was driven by higher deposit volumes, which raised **interest expense on deposits** by 3.9% to ₱27.0 billion, and by higher volume on bills payable, which pushed up **interest expense on bills payable and other borrowings** by 35.3% to ₱5.4 billion. In contrast, **interest expense on lease payable** decreased by 11.7% to ₱220.6 million reflecting reduction in lease liabilities in 2025.

Net interest income increased by 14.3% to ₱72.6 billion, supported by robust growth in top-line revenues. The bank's **net interest margin** also improved by 15 basis points year-on-year, reaching 4.60%.

Provisions for impairment and credit losses increased to ₱7.0 billion from ₱3.3 billion in the same period last year, further strengthening its balance sheet.

Total **non-interest income** climbed to ₱3.1 billion from ₱2.0 billion same period last year, driven primarily by the ₱6.5 billion increase in **gain on asset foreclosure and dacion transactions**. **Service charges, fees and commissions** increased by 8.9% to ₱3.8 billion from higher transaction fees. **Trading and securities gain - net** declined by 56.8% to ₱479.5 million while **Foreign exchange loss- net** posted ₱14.7 billion, arising from treasury-related activities. Gain on redemption of investment securities at amortized cost amounted to ₱89.6 million in 2025, a reversal from the ₱0.5 million loss recognized in 2024. Lower sales volume of foreclosed assets led to a 33.8% decline in **gain on sale of investment properties** to ₱289.0 million. Meanwhile, **trust fee income** rose by 13.5% to ₱784.2 million, driven by year-on-year volume growth. **Share in the net income of associates** rose to ₱1.5 billion, reflecting the recognition of a one-time gain from the renewal of the joint venture agreement with Manulife China Bank Life Assurance Corporation (MCBLife) for another 15 years. **Miscellaneous income** decreased 58.2% to ₱3.7 billion, due to one-off gains booked in 2024.

Total **operating expenses** (excluding provision for impairment and credit losses) increased by 11.9% to ₱34.4 billion, which resulted in a **cost-to-income ratio of 45%**. **Compensation and fringe benefits** was at ₱11.4 billion, up by 16.5% year-on-year, mainly from CBA-related salary increases. **Taxes and licenses** was up 7.4% to ₱6.9 billion mainly from higher revenue- and volume-related taxes. **Insurance**, which includes PDIC premium payments, increased by 8.3% to ₱3.4 billion with the bigger deposit balances. Furthermore, **depreciation and amortization** increased by 16.1% to ₱2.7 billion due to technology-related upgrades and acquisitions. **Transportation and travelling** decreased 14.0% to ₱685.3 million due to lower travel-related costs for the period. **Professional fees, marketing & other related services, entertainment, amusement and recreation, stationery, supplies & postage and repairs and maintenance** rose by 14.3%, 19.4%, 15.1% and 7.7%, respectively, mainly driven by higher repairs and upgrades in our distribution channel, and business development. **Miscellaneous expenses** increased by 17.6% to ₱4.4 billion mainly from business expansion and IT related expenses.

(a) Past Financial Conditions and Results of Operations

The US economic growth decelerated to 2.2% in 2025 from the 2.8% recorded in 2024. This was mainly driven by consumer and investment spending but weighed down by weaker public spending amid the federal government shutdown in 4Q 2025 and higher imports at the start of the year as businesses front-loaded purchases ahead of the imposition of increased tariffs on foreign goods. As of December 2025, unemployment rate was stable at 4.4% while inflation remained above Federal Reserve's 2% target at 2.9%. In response to these economic conditions, the Federal Reserve eased its monetary policy by a cumulative of 75 basis points, bringing the target policy rate to 3.50%-3.75% by end-2025.

The Philippine economy slowed down to 3.0% in 4Q 2025, bringing the full-year average to 4.4%, below 2024's 5.7%. On the expenditure side, the growth drivers were household consumption, government spending, and net exports, partially offset by slower gross capital formation spending due to the ongoing investigations into public infrastructure projects. On the production side, all sectors recorded improvements with the services leading with a 5.2% year-on-year growth.

For the majority of 2025, monthly inflation print stayed below the BSP's target range of 2%-4%, resulting to a full-year average inflation of 1.7%. In light of these developments, the BSP reduced policy rates by an aggregate of 125 basis points in 2025 and an additional 25 basis points during its February 2026 meeting, bringing the benchmark rate to 4.25%. The BSP also trimmed the reserve requirement ratio for universal and commercial banks by 200 basis points to 5% effective March 28, 2025, enhancing the sector's liquidity and capacity for credit expansion. Meanwhile, the Philippine peso depreciated against the US dollar, closing at P58.79: US\$1.00 in 2025 from last year's end of P57.85.

CBC continued to deliver strong profitability in 2025, posting a 13% increase in net income to P28.0 billion, supported by the sustained performance of its core businesses. This resulted in a return on equity of 15.6% and a return on assets of 1.6%, still one of the best in the industry.

Net interest income rose by 14% to P72.6 billion on the back of a bigger asset base, a more favorable deposit mix and margin improvement. Interest income went up 12% to P105.2 billion, while interest expense went up 8% to P32.6 billion, resulting in an improved net interest margin of 4.6% from 4.5%.

Total non-interest income grew 59% to P3.1 billion, driven by the sustained growth in transactional fees, foreclosure gains, trust fees, and bancassurance commissions. Meanwhile, the sustained investments in manpower and technology, coupled with higher volume-related taxes, led to a 12% increase in operating expenses to P34.4 billion (excluding provision for impairment and credit losses). Impairment and credit losses rose to P7.0 billion, demonstrating greater prudence while maintaining healthy asset quality.

As of December 2025, total assets expanded by 8% year-on-year to P1.8 trillion, allowing CBC to maintain its position as the fourth largest private universal bank in the Philippines. Investment securities modestly increased by 4% to P562 billion, driven by a larger holding of financial assets at fair value through other comprehensive income (FVOCI). Gross loans grew by 13% to P1.1 trillion driven by sustained growth in both business and consumer segments. Gross non-performing loans (NPL) ratio was steady at 1.6% while NPL cover was at 109%, both better than industry.

Meanwhile, total deposits increased by 9% to P1.4 trillion with the combined demand and savings (CASA) deposits accounting for 48% of total deposits.

Total capital stood at P191.3 billion, up 13% year-on-year, with capital ratios well above regulatory minimum, as reflected in a Common Equity Tier 1 (CET 1) ratio of 15.2% and total Capital Adequacy Ratio (CAR) of 16.1%.

In 2025, Chinabank paid P2.50/share cash dividend composed of P1.50/share regular dividend and an additional P1.00/ share special dividend, reflecting confidence in its underlying strength and future prospects. The total cash dividends of P6.7 billion was 14% higher compared to the P5.9 billion dividends paid in 2024 and represents 27% of the full-year 2024 net income of P24.8 billion.

(b) Future Prospects

The Philippine economy is projected to gradually rebound in 2026, partly due to fiscal spending recovery and lower borrowing costs. Household spending, the largest contributor to GDP, is seen to be supported by benign inflation, a robust labor market and sustained inflow of remittances. On the other hand, inflation is projected to stay within the 2% to 4% target range while the BSP's policy stance is anticipated to stay accommodative.

In 2026, CBC will continue to strengthen its core businesses and solidify its position as one of the country's leading banks in terms of profitability and shareholder value. The Bank will continue to focus on growing customer deposits, loans, and core fee income, while implementing prudent cost management by prioritizing revenue-driving initiatives.

The planned growth in deposits will be driven by intensified deposit generation initiatives, including tapping new customer segments and deepening relationships with our core institutional and business clients. These efforts will be further supported by the Bank's extensive physical network reinforced by ongoing branch transformation, along with enhanced digital platforms and modern data analytics that provide clearer insights into customer needs. In terms of business loans, we will continue to expand our presence in high-growth areas and capitalize on our strong developmental pipeline, while aligning with global best practices on environment, social, and governance (ESG) risk management through sustainable finance. We will continue to enhance our consumer banking offerings by broadening access to housing loans, auto loans, credit cards, and personal loans across multiple touchpoints. To enhance core fee income, we will maximize cross-selling opportunities by leveraging our expanding customer base and newly introduced products and services and advancing our digital growth strategy. At the same time, we will continue to implement cost optimization strategies to support operational efficiency and long-term profitability.

(c) Material Changes

- 1) Events that will trigger direct or contingent financial obligation that is material to the company, including any default or acceleration of an obligation.

There were no events that will trigger direct or contingent financial obligation that is material to the Bank, including any default or acceleration of an obligation.

UNDERTAKING

The Bank undertakes to provide without charge hard or printed copies of its Information Statement (SEC Form 20-IS) and/or Annual Report (SEC Form 17-A) for the year ended December 31, 2025, and / or other ASM materials, upon written request of a stockholder entitled to notice and vote at the meeting. The written request should be addressed to the Office of the Corporate Secretary, 11th Floor Chinabank Building, 8745 Paseo de Roxas cor. Villar St. Makati City, Philippines.

STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of China Banking Corporation (the Bank) is responsible for the preparation and the fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2025 and 2024, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements, including the schedules attached therein, and submits the same to the stockholders.

SyCip Gorres Velayo & Co., the independent auditors appointed by the stockholders, has audited the consolidated financial statements of the Bank in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

Report on the Consolidated and Parent Company Financial Statements

Opinion

We have audited the consolidated financial statements of China Banking Corporation and its subsidiaries (the Group) and the parent company financial statements of China Banking Corporation (the Parent Company), which comprise the consolidated and parent company balance sheets as at December 31, 2025 and 2024, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2025, and notes to the consolidated and parent company financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2025 and 2024, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2025 in accordance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics), as applicable to the audits of the financial statements of public interest entities, together with the ethical requirements that are relevant to the audits of the public interest entities in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matter

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and parent company financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and parent company financial statements.

Applicable to the audit of the Consolidated and Parent Company Financial Statements

Adequacy of allowance for credit losses on loans and receivables

The Group's and the Parent Company's application of the expected credit loss (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's and the Parent Company's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset, expected recoveries from defaulted accounts; and incorporating forward-looking information, in calculating ECL.

Allowance for credit losses for loans and receivables as of December 31, 2025 for the Group and the Parent Company amounted to ₱18.84 billion and ₱15.92 billion, respectively. Provision for credit losses on loans and receivables of the Group and the Parent Company in 2025 amounted to ₱6.18 billion and ₱5.25 billion, respectively.

Refer to Notes 3 and 16 of the financial statements for the disclosure on the details of the allowance for credit losses using the ECL model.

Audit Response

We obtained an understanding of the board approved methodologies and models used for the Group's and the Parent Company's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments* to reflect an unbiased and probability-weighted outcome, and to consider time value of money and the best available forward-looking information.

We (a) assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts, credit risk management policies and practices in place; (c) tested the Group's and the Parent Company's application of internal credit risk rating system by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Group's and the Parent Company's records and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries and related costs, write-offs and collateral valuations, and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme;

(g) evaluated the forward-looking information used for overlay through corroboration of publicly available information and our understanding of the Group's and the Parent Company's lending portfolios and broader industry knowledge; and (h) tested the effective interest rate used in discounting the expected loss.

Further, we compared the data used in the ECL models from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis.

We involved our internal specialist in the performance of the above procedures. We recalculated impairment provisions on a sample basis.

Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20-IS (Definitive Information Statement), SEC Form 17-A and Annual Report for the year ended December 31, 2025 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRS Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and Parent Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and Parent Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision, and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on the Supplementary Information Required Under Section 174 of the Manual of Regulations for Banks (MORB) and Revenue Regulations 15-2010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under Section 174 of the Manual of Regulations for Banks (MORB) in Note 37 and Revenue Regulations 15-2010 in Note 38 to the financial statements is presented for purposes of filing with the Bangko Sentral ng Pilipinas and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of China Banking Corporation. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

CHINA BANKING CORPORATION AND SUBSIDIARIES

NOTES TO FINANCIAL STATEMENTS

1. Corporate Information

China Banking Corporation (the Parent Company) is a publicly listed universal bank incorporated in the Philippines. The Parent Company acquired its universal banking license in 1991. It provides expanded commercial banking products and services such as deposit products, loans and trade finance, domestic and foreign fund transfers, treasury products, trust products, foreign exchange, corporate finance and other investment banking services through a network of 478 and 480 local branches as of December 31, 2025 and 2024, respectively.

The Parent Company acquired its original Certification of Incorporation issued by the Securities and Exchange Commission (SEC) on July 20, 1920. By virtue of Section 11 of Republic Act No. 11232 also known as the “Revised Corporation Code of the Philippines,” which took effect on February 23, 2019, the Parent Company has a perpetual existence.

The Parent Company has the following subsidiaries:

Subsidiary	Effective Percentages of Ownership		Country of Incorporation and Place of Business	Principal Activities
	2025	2024		
Chinabank Insurance Brokers, Inc. (CIBI)	100.00%	100.00%	Philippines	Insurance brokerage

The Parent Company has no ultimate parent company. SM Investments Corporation, its significant investor, has effective ownership in the Parent Company of 22.51% as of December 31, 2025 and 2024.

The Parent Company’s principal place of business is at 8745 Paseo de Roxas cor. Villar St., Makati City.

2. Summary of Material Accounting Policy Information

The material accounting policy information that have been used in the preparation of these financial statements are summarized below. These policies have been consistently applied to all the years presented, unless otherwise stated.

Basis of Preparation

The accompanying consolidated financial statements include the financial statements of the Parent Company and its subsidiaries (collectively referred to as “the Group”).

The accompanying financial statements have been prepared on a historical cost basis except for financial assets at fair value through profit or loss (FVTPL), derivative contracts designated as hedges, derivative liabilities, and financial assets at fair value through other comprehensive income (FVOCI). The financial statements are presented in Philippine Peso, and all values are rounded to the nearest thousand except when otherwise indicated.

The financial statements of the Parent Company reflect the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The financial statements of these units are combined after eliminating inter-unit accounts.

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The functional currency of the Parent Company and each of the subsidiaries is the Philippine Peso, except for the FCDU of the Parent Company and CBSI whose functional currency is USD.

Statement of Compliance

The financial statements of the Group and the Parent Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS) Accounting Standards.

Presentation of Financial Statements

The balance sheets of the Group and of the Parent Company are presented in order of liquidity. An analysis regarding recovery of assets or settlement of liabilities within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 23.

Financial assets and financial liabilities are offset and the net amount reported in the balance sheets only when:

- there is a legally enforceable right to offset the recognized amounts; and
- there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously.

The Group and the Parent Company assess that they have currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group, the Parent Company, and all of the counterparties.

Income and expenses are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Group and the Parent Company.

Basis of Consolidation and Investments in Subsidiaries

The consolidated financial statements of the Group are prepared for the same reporting year as the Parent Company, using consistent accounting policies. All significant intra-group balances, transactions and income and expenses resulting from intra-group transactions are eliminated in full.

Subsidiaries are consolidated from the date on which control is obtained by the Parent Company.

The Group controls an investee if and only if the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee; and
- the ability to use its power over the investee to affect its returns.

Non-Controlling Interest

Non-controlling interest represents the portion of profit or loss and net assets not owned, directly or indirectly, by the Parent Company.

Non-controlling interest is presented separately in the consolidated statement of income, consolidated statement of comprehensive income, and within equity in the consolidated balance sheet, separately from parent shareholders' equity. Any losses applicable to the non-controlling interest are allocated against the interests of the non-controlling interest even if this results in the non-controlling interest having a deficit balance.

New Standards, Interpretations and Amendments

The accounting policies adopted are consistent with those of the previous financial year, except for the adoption of amendments effective in January 1, 2025. The Group has not early adopted any standard, interpretation or amendment that has been issued but is not yet effective.

Unless otherwise indicated, adoption of these amendments did not have an impact on the consolidated financial statements of the Group:

Amendments to PAS 21, Lack of Exchangeability

The amendments specify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking.

The amendments are effective for annual reporting periods beginning on or after January 1, 2025. Earlier adoption is permitted and that fact must be disclosed. When applying the amendments, an entity cannot restate comparative information.

Material Accounting Policy Information

Foreign Currency Translation

The consolidated financial statements are presented in Philippine Peso.

Transactions and balances

The books of accounts of the RBU are maintained in Philippine Peso, the RBU's functional currency, while those of the FCDU are maintained in United States (US) dollars (USD), the FCDU's functional currency.

RBU

For financial reporting purposes, the foreign currency-denominated monetary assets and liabilities in the RBU are translated in Philippine Peso based on the Bankers Association of the Philippines (BAP) closing rate at the end of the year, and foreign currency-denominated income and expenses at the exchange rates on transaction dates. Foreign exchange differences arising from restatements of foreign currency-denominated assets and liabilities are credited to or charged against operations in the period in which the rates change. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

FCDU

As at the reporting date, the assets and liabilities of the FCDU are translated into the Parent Company's presentation currency (the Philippine Peso) at the BAP closing rate at the reporting date, and its income and expenses at the exchange rates on transaction dates. Exchange differences arising on translation are taken directly to the statement of comprehensive income under 'Cumulative translation adjustment'. Upon actual remittance or transfer of the FCDU income to RBU, the related exchange difference arising from translation lodged under 'Cumulative translation adjustment' is recognized in the statement of income of the RBU books.

Fair Value Measurement

The Group measures financial instruments such as financial assets at FVTPL, derivative contracts designated as hedges, derivative liabilities, and financial assets at FVOCI at fair value at each reporting date. Also, fair values of financial instruments measured at amortized cost are disclosed in Note 5.

The methods and assumptions used by the Group and Parent Company in estimating fair values are disclosed in Note 5.

SPURA

Securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the balance sheet. An asset corresponding to the cash paid, including accrued interest, is recognized in the balance sheet as SPURA. The difference between the purchase price and the resale price is treated as interest income and is accrued over the life of the agreement using the EIR method.

Financial Instruments - Initial Recognition

Date of recognition

Purchases or sales of financial assets, except for derivative instruments, that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Settlement date accounting refers to (a) the recognition of an asset on the day it is received by the Group, and (b) the derecognition of an asset and recognition of any gain or loss on disposal on the day that such asset is delivered by the Group. Any change in fair value of a financial asset is recognized in the statement of income for assets classified as financial assets at FVTPL, and in equity for assets classified as financial assets at FVOCI. Derivatives are recognized on a trade date basis. Deposits, amounts due from banks, and loans and receivables are recognized when cash is received by the Group or advanced to the borrowers.

Initial recognition of financial instruments

All financial instruments are initially recognized at fair value. Except for financial assets and financial liabilities at FVTPL, the initial measurement of financial instruments includes transaction costs.

Classification and Measurement

Under PFRS 9, the classification and measurement of financial assets is driven by the contractual cash flow characteristics of the financial assets and the entity's business model for managing the financial assets.

As part of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the 'solely payments of principal and interest' (SPPI) test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (e.g., if there are repayments of principal or amortization of the premium or discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- how managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected); and
- the expected frequency, value, and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward; unless a change in business model has taken place, in which case, reclassification is necessary.

The Group's measurement categories are described below:

Financial Assets at Amortized Cost

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows; and

- the contractual terms of the instrument give rise, on specified dates, to cash flows that are SPPI on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method less any impairment in value. The amortization is included in 'Interest income' in the statement of income. The expected credit losses (ECL) are recognized in the statement of income under 'Provision for impairment and credit losses'. The effects of revaluation of foreign currency-denominated investments are recognized in the statement of income. Gains or losses arising from disposals, if any, and redemptions of these instruments are included in 'Gain (loss) on redemption of investment securities at amortized cost' in the statements of income.

The Group may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria above as at FVTPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortized cost.

The Group's financial assets at amortized cost are presented in the balance sheet as Due from BSP, Due from other banks, Interbank loans receivable and SPURA, Investment securities at amortized cost, Loans and receivables, Accrued interest receivables, and certain financial assets under Other assets.

Financial Assets at FVTPL

Debt instruments that neither meet the amortized cost nor the FVOCI criteria, or that meet the criteria but the Group has chosen to designate as at FVTPL at initial recognition, are classified as financial assets at FVTPL. Equity investments are classified as financial assets at FVTPL, unless the Group irrevocably designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Group's financial assets at FVTPL include government securities, corporate bonds, derivatives, and equity securities which are held for trading purposes.

A financial asset is considered as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or financial guarantee.

Gains and losses arising from changes in the fair value (mark-to-market) of the financial assets at FVTPL are included in 'Trading and securities gain (loss) - net' account in the statement of income.

Interest recognized based on the contractual interest rate of these investments is reported in the statement of income under 'Interest income' account while dividend income is reported in the statement of income under 'Miscellaneous income' account when the right of payment has been established.

Derivative instruments

The Parent Company is a party to derivative instruments, particularly, forward exchange contracts, interest rate swaps (IRS), cross currency swaps (CCS), futures, and warrants. These contracts are entered into as a service to customers as well as a means of reducing and managing the Parent Company's foreign exchange risk and interest rate risk, and for trading purposes. Such derivative financial instruments, which are not designated as accounting hedges, are carried at fair value through profit or loss.

Any gains or losses arising from changes in fair value of derivative instruments that are not designated as accounting hedges are taken directly to the statement of income under 'Foreign exchange gain (loss) - net' for forward exchange contracts and 'Trading and securities gain (loss) - net' for IRS, CCS, futures, and warrants.

Financial Assets at FVOCI - Equity Investments

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI. However, such designation is not permitted if the equity investment is held by the Group for trading. The Group has designated certain equity instruments as at FVOCI.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in 'Net unrealized gain (loss) on financial assets at FVOCI' in the balance sheet. When the asset is disposed of, the cumulative gain or loss previously recognized in the 'Net unrealized gain (loss) on financial assets at FVOCI' account is not reclassified to profit or loss, but is reclassified directly to Surplus account. Any dividends earned on holding these equity instruments are recognized in profit or loss under 'Miscellaneous income' account.

Financial Assets at FVOCI - Debt Investments

The Group applies the category of debt instruments measured at FVOCI when both of the following conditions are met:

- the instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset meet the SPPI test.

FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value being recognized in OCI. Interest income and foreign exchange gains and losses are recognized in profit or loss. Provision for credit and impairment losses is recognized in the statements of income with the corresponding allowance for ECL recognized in OCI and accumulated in 'Net unrealized gain (loss) on financial assets at FVOCI' in the balance sheets.

On derecognition, cumulative gains or losses previously recognized in OCI are reclassified from OCI to profit or loss.

Impairment of Financial assets

ECL represents credit losses that reflect an unbiased and probability-weighted measure of expected cash shortfalls, discounted at the EIR, which is determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions. The credit risk and impairment assessment policy of the Group and Parent Company are disclosed in Note 6.

Hedge Accounting

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when the risk being hedged is the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment;
- Cash flow hedges when the risk being hedged is the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment; and

- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Parent Company formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged, and how the Parent Company will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined).

Cash flow hedges

The effective portion of the gain or loss on the hedging instrument is recognized in OCI as cash flow hedge reserve (Note 26) presented under 'Hedge-related reserve' in the balance sheet, while any ineffective portion is recognized immediately in the statement of income. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

For cash flow hedges, to calculate the change in fair value of the hedged item attributable to the hedged risk, the Parent Company uses the hypothetical derivative method. The hypothetical derivative method involves establishing a notional derivative that would be the ideal hedging instrument for the hedged exposure (normally an interest rate swap with no unusual terms and a zero fair value at inception of the hedge relationship). The fair value of the hypothetical derivative is then used as a proxy for the net present value of the hedged future cash flows against which changes in value of the actual hedging instrument are compared to assess effectiveness and measure ineffectiveness.

When foreign exchange forward contracts are used in hedging relationships, the Parent Company can designate the instrument in its entirety or exclude the forward element by designating the spot element only. The forward element in a foreign exchange forward contract is the difference between the spot and forward prices. When only the spot element is designated, the Parent Company has a choice to apply the cost of hedging accounting to the excluded forward element. In applying the cost of hedging accounting to the forward element of the foreign exchange forward contract, the change in the fair value of the forward element is recognized in OCI and accumulated in a separate component of equity. In case of a time period-related hedged item, the forward element that exists at inception is amortized from OCI to profit or loss in a systematic and rational manner. The unamortized portion of the cost of hedging is presented under 'Hedge-related reserve' in the balance sheet. The amortization of the forward element is presented under 'Foreign exchange gain (loss) - net' in the statements of income.

When the Parent Company discontinues hedge accounting for a cash flow hedge, it must account for the amount that has been accumulated in the cash flow hedge reserve as follows: (a) the amount remains in accumulated other comprehensive income if the hedged future cash flows are still expected to occur or (b) the amount is immediately reclassified to profit or loss as a reclassification adjustment if the hedged future cash flows are no longer expected to occur. Any amount immediately reclassified to profit or loss as a reclassification adjustment is presented under 'Trading and securities gain (loss) - net' or 'Foreign exchange gain (loss) - net' in the statements of income, as applicable.

As of December 31, 2025 and 2024, the Parent Company has interest rate swaps and foreign exchange forward contracts that have been designated as hedging instruments in cash flow hedges (Note 26).

Financial Liabilities

Financial liabilities which include deposit liabilities, bills payable, derivative liabilities, and other liabilities (except tax-related payables, pre-need reserves, and post-employment defined benefit obligation) are recognized when the Group becomes a party to the contractual terms of the instrument.

Financial liabilities, except derivative liabilities, are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method. All interest-related charges incurred on financial liabilities are recognized as an expense in the statements of income under 'Interest expense'.

Deposit liabilities are stated at amounts in which they are to be paid. Interest is accrued periodically and recognized in a separate liability account before recognizing as part of deposit liabilities.

'Bills payable' and 'Bonds payable' are recognized initially at fair value, which is the issue proceeds (fair value of consideration received) less any issuance costs. These are subsequently measured at amortized cost, any difference between the proceeds net of transaction costs and the redemption value is recognized in the statement of income over the period of the borrowings using the effective interest method.

Securities sold under agreements to repurchase at a specified future date ('repos') are not derecognized from the statement of financial position. The corresponding cash received, including accrued interest, is recognized in the balance sheets as 'Securities sold under repurchase agreement' (SSURA) included in 'Bills payable' and is considered as a loan to the Group, reflecting the economic substance of such transaction.

Derivative liabilities are recognized initially and subsequently measured at fair value with changes in fair value recognized in the statement of income, unless designated as an accounting hedge.

Derecognition of Financial Assets and Liabilities

Financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Modification of financial assets

In certain circumstances, the Group modifies the original terms and conditions of a financial asset or credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The

modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments, and accrual of interest and charges.

The Group performs a quantitative assessment similar to that being performed for modification of financial liabilities. In performing the quantitative assessment, the Group considers the new terms of a financial asset to be substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the present value of the remaining cash flows of the original financial asset.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the statement of income. A modified financial asset that does not result in derecognition is classified as Stage 3 if there are indicators of impairment or unlikeliness to pay. Otherwise, the modified financial asset is classified as Stage 1 or Stage 2, depending on whether the asset exhibits significant increase in credit risk (Note 6).

When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of a new financial asset, the modified asset is considered a 'new' financial asset and a gain or loss on derecognition of the 'old' financial asset is recognized in the statements of income, if any. Accordingly, the date of the modification shall be treated as the date of initial recognition of that financial asset when applying the impairment requirements to the modified financial asset. The newly recognized financial asset is classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be purchased or originated as credit impaired (POCI).

Financial liabilities

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

Financial Guarantees and Undrawn Loan Commitments

The Group issues financial guarantees and loan commitments. Financial guarantees are those issued by the Group to creditors as allowed under existing rules and regulations whereby it guarantees third party obligations by signing as guarantor in the contract/agreement. Undrawn loan commitments and letters of credit are commitments under which the Group is required, over the duration of the commitment, to provide a loan with pre-specified terms to the customer. The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the balance sheet. These contracts are in the scope of the ECL requirements where the Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to loan commitments is recognized in 'Other liabilities'.

Write-offs

Financial assets are written off either partially or in their entirety when the Group no longer expects collections or recoveries within a foreseeable future. If the amount to be written off is greater than

the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount.

Investment in Associates

Associates pertain to all entities over which the Group has significant influence, but not control, generally accompanying a shareholding of between 20.00% and 50.00% of the voting rights. In the consolidated and parent company financial statements, investments in associates are accounted for under the equity method of accounting.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. Profits or losses resulting from transactions between the Group and an associate are eliminated to the extent of the interest in the associate.

Dividends earned on this investment are recognized as a reduction from the carrying value of the investment.

The financial statements of the associate are prepared for the same reporting period as the Parent Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Upon loss of significant influence over the associate, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

Investment in Subsidiaries

In the parent company financial statements, investment in subsidiaries is accounted for under the equity method of accounting similar to the investment in associates.

Goodwill

Goodwill acquired in a business combination is initially measured at cost, being the excess of the aggregate of fair value of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as gain on bargain purchase under 'Miscellaneous income'.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination is, from the date of acquisition, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or group of units. Each unit or group of units to which the goodwill is allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than an operating segment identified for segment reporting purposes.

Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount

of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

Cash Dividend Distribution to Equity Holders of the Parent Company

The Group recognizes a liability to make cash distributions to equity holders of the Parent Company when the distribution is authorized and the distribution is no longer at the discretion of the Group. A corresponding amount is recognized directly in equity.

Bank Premises, Furniture, Fixtures and Equipment

Land is stated at cost less any impairment in value while depreciable properties such as buildings, leasehold improvements, and furniture, fixtures and equipment are stated at cost less accumulated depreciation and amortization, and any impairment in value. Such cost includes the cost of replacing part of the bank premises, furniture, fixtures and equipment when that cost is incurred and if the recognition criteria are met, but excluding repairs and maintenance costs. Construction-in-progress is stated at cost less any impairment in value. The initial cost comprises its construction cost and any directly attributable costs of bringing the asset to its working condition and location for its intended use, including borrowing costs. Construction-in-progress is not depreciated until such time that the relevant assets are completed and put into operational use.

Depreciation and amortization is calculated using the straight-line method over the estimated useful life (EUL) of the depreciable assets as follows:

	EUL
Buildings	50 years
Furniture, fixtures and equipment	3 to 5 years
Leasehold improvements	Shorter of 6 years or the related lease terms

The depreciation and amortization method and useful life are reviewed periodically to ensure that the method and period of depreciation and amortization are consistent with the expected pattern of economic benefits from items of bank premises, furniture, fixtures and equipment, and leasehold improvements.

An item of bank premises, furniture, fixtures and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of income in the year the asset is derecognized.

Investment Properties

Investment properties include real properties acquired in settlement of loans and receivables or from recovery on charged-off assets which are measured initially at cost, including transaction costs. Investment properties acquired through a nonmonetary asset exchange is measured initially at fair value unless (a) the exchange lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. The difference between the fair value of the investment property upon foreclosure and the carrying value of the loan (which is nil in the case of recovery on charged-off assets) is recognized under 'Gain on asset foreclosure and dacion transactions' for foreclosure and dacion transactions and under 'Miscellaneous income' for recovery on previously charged-off assets in the statements of income. Subsequent to initial recognition, depreciable investment properties are stated at cost less accumulated depreciation and any accumulated impairment in value, except for land which is stated at cost less impairment in value.

Expenditures incurred after the investment properties have been put into operation, such as repairs and maintenance costs, are normally charged against income in the period in which the costs are incurred.

Depreciation is calculated on a straight-line basis using the remaining EUL of the building and improvement components of investment properties which range from 10 to 30 years from the time of acquisition of the investment properties.

Investment properties are derecognized when they have either been disposed of or when the investment properties are permanently withdrawn from use and no future benefit is expected from their disposal. Any gains or losses on the derecognition of an investment property are recognized as 'Gain on sale of investment properties' in the statement of income in the year of derecognition.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

Intangible Assets

Intangible assets include exchange trading right for the Group and software costs and branch licenses resulting from the Parent Company's acquisition of CBSI, Unity Bank, and PDB (Notes 11 and 14).

Software costs

Costs related to software purchased by the Group for use in operations are amortized on a straight-line basis over 3 to 10 years. The amortization method and useful life are reviewed periodically to ensure that the method and period of amortization are consistent with the expected pattern of economic benefits embodied in the asset.

Branch licenses

The branch licenses are initially measured at cost as of the date of acquisition (at fair value if part of assets acquired in a business combination) and are deemed to have an indefinite useful life as there is no foreseeable limit to the period over which they are expected to generate net cash inflows for the Group.

Such intangible assets are not amortized, instead they are tested for impairment annually at the CGU level. Impairment is determined by assessing the recoverable amount of each CGU (or group of CGUs) to which the intangible asset relates. Recoverable amount represents the CGU's value in use. Where the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized.

Exchange trading right

Exchange trading right is a result of the Philippine Stock Exchange (PSE) conversion plan, as discussed in Note 14, to preserve access of CBCSec to the trading facilities and continue transacting business in the PSE. Exchange trading right is carried at original cost less any allowance for impairment loss. CBCSec does not intend to sell the exchange trading right in the near future.

The exchange trading right is an intangible asset that is regarded as having an indefinite useful life as there is no foreseeable limit to the period over which this asset is expected to generate net cash inflows for the Group but is tested annually for any impairment in realizable value.

Gains and losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset, and are recognized in the statement of income when the asset is derecognized.

Impairment of Non-financial Assets

At each reporting date, the Group assesses whether there is any indication that its non-financial assets (e.g., investment in associates, investment properties, bank premises, furniture, fixtures and equipment, goodwill, and intangible assets) may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Group makes a formal estimate of recoverable amount.

Recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. Where the carrying amount of an asset (or CGU) exceeds its recoverable amount, the asset (or CGU) is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or CGU).

An impairment loss is charged to operations in the year in which it arises.

For non-financial assets, excluding goodwill and branch licenses, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed, except for goodwill, only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of income. After such a reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

Accounting Policy on Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as a lessee

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

i) Right-of-use assets

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized adjusted by lease payments made at or before the commencement date and lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of

the depreciable assets. The depreciation expense is presented under 'Depreciation and amortization' in the statement of income.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies on Impairment of Non-financial Assets.

ii) Lease liabilities

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments), or a change in the assessment of an option to purchase the underlying asset.

iii) Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of branch sites (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of ATM sites that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognized as expense on a straight-line basis over the lease term.

Group as a lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Capital Stock

Capital stocks are recorded at par. Proceeds in excess of par value are recognized under equity as 'Capital paid in excess of par value' in the balance sheet. Incremental costs incurred which are directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Revenue Recognition

Revenues within the scope of PFRS 15, Revenue from Contracts with Customers

Revenue from contract with customers is recognized upon transfer of promised goods or services to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The Group and the Parent Company exercise judgment, taking into consideration all of the relevant facts and circumstances, when applying each step of the five-step model to contracts with customers.

The following specific recognition criteria must be met before revenue is recognized for contracts within the scope of PFRS 15:

Fee and commission income

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following two categories:

- a. *Fee income earned from services that are provided over a certain period of time*
Fees earned for the provision of services over a period of time are accrued over that period. These fees include bancassurance fees, investment fund fees, custodian fees, fiduciary fees, credit-related fees, asset management fees, portfolio and other management fees, and advisory fees.
- b. *Fee income from providing transactions services*
Fees arising from negotiating or participating in the negotiation of a transaction for a third party - such as commission income, underwriting fees, corporate finance fees, and brokerage fees for the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses - are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria.

Loan syndication fees are recognized in the statement of income when the syndication has been completed and the Group retains no part of the loans for itself or retains part at the same EIR as for the other participants.

Service charges and penalties

Service charges and penalties are recognized only upon collection or accrued where there is a reasonable degree of certainty as to their collectability.

Other income

Income from sale of service is recognized upon rendition of the service. Income from sale of properties is recognized when control has been transferred to the counterparty and when the collectability of the sales price is reasonably assured.

Revenues outside the scope of PFRS 15

Interest income

For all interest-bearing financial assets, interest income is recorded either (i) at EIR, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability, or (ii) at rate stated in the contract. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options), includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, as applicable, but not future credit losses. The adjusted carrying amount is calculated based on the

original EIR. The change in carrying amount is recorded as 'Interest income'. Loan commitment fees for loans that are likely to be drawn down are deferred (together with any incremental costs) and recognized as an adjustment to the EIR on the loan. If the commitment expires without the Group making the loan, the commitment fees are recognized as other income on expiry.

Once the recorded value of a financial asset or group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original EIR applied to the new carrying amount.

Dividend income

Dividend income is recognized when the Group's right to receive payment is established.

Gain on asset foreclosure and dacion transactions

Income arising from real properties acquired in settlement of loans and receivables are recognized in the year of foreclosure or dacion in payment.

Recovery on charged-off asset

Income arising from collections on accounts or recoveries from impairment of assets previously written off are recognized in the year of recovery. Any recoveries are credited to the 'Miscellaneous income' account in the statement of income.

Expense Recognition

Interest expense

Interest expense for all interest-bearing financial liabilities are recognized in 'Interest expense' in the statement of income using the EIR of the financial liabilities to which they relate.

Operating expenses

Operating expenses constitute costs which arise in the normal business operation and are recognized when incurred.

Taxes and licenses

This includes all other taxes, local and national, including gross receipts taxes (GRT), documentary stamp taxes, real estate taxes, licenses, and permit fees. Taxes and licenses are recognized when incurred.

Retirement Benefits

Defined benefit plan

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets and adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The defined benefit obligation is calculated annually by an independent actuary. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates on government bonds that have terms to maturity approximating the terms of the related retirement liability. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs and remeasurements comprise the following:

- (a) service cost;
- (b) net interest on the net defined benefit liability or asset; and
- (c) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs, and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on Philippine government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. The fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when, and only when, reimbursement is virtually certain. If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

Employee leave entitlement

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period.

Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

Contingent liabilities are not recognized in the financial statements but are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

Income Taxes

Current tax

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as of the reporting date. Management periodically evaluates positions taken in the tax return with respect to situations in which applicable tax regulations are subject to interpretations and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided, using the balance sheet liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable profit will be available against which the deductible temporary differences and carry forward of unused tax credits from MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

Deferred tax liabilities are not provided on non-taxable temporary differences associated with investments in domestic subsidiaries and associates.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current tax and deferred tax relating to items recognized directly in equity are also recognized in equity and not in the statement of income.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same taxation authority.

Earnings per Share

Basic earnings per share (EPS) is computed by dividing net income for the year by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock splits, stock dividends declared and stock rights exercised during the year, if any.

The Parent Company computes diluted EPS when there are outstanding dilutive potential common shares. Diluted EPS is computed by adjusting both the net income for the year and the weighted average number of common shares outstanding during the year with the impact of the dilutive potential common stock issuance transaction.

Dividends on Common Shares

Dividends on common shares are recognized as a liability and deducted from equity when approved by the respective shareholders of the Parent Company and its subsidiaries. Dividends declared during the year that are approved after the reporting date are dealt with as an event after the reporting date.

Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on business segments is presented in Note 32. The Group's revenue-producing assets are located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Parent Company acts in a fiduciary capacity such as nominee, trustee, or agent.

Events after the Reporting Period

Any post year-end events that provide additional information about the Group's position at the reporting date (adjusting event) are reflected in the Group's financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

Standards Issued but Not Yet Effective

Pronouncements issued but not yet effective are listed below. Unless otherwise indicated, the Group does not expect that the future adoption of the said pronouncements will have a significant impact on its consolidated financial statements. The Group intends to adopt the following pronouncements when they become effective.

Effective beginning on or after January 1, 2026

- Amendments to Illustrative Examples on PFRS 7, PFRS 18, PAS 1, PAS 8, PAS 26 and PAS 37, *Disclosures about Uncertainties in the Financial Statements*
- Amendments to PFRS 9 and PFRS 7, *Classification and Measurement of Financial Instruments*
- Amendments to PFRS 9 and PFRS 7, *Contracts Referencing Nature-dependent Electricity*
- Annual Improvements to PFRS Accounting Standards—Volume 11
 - Amendments to PFRS 1, *Hedge Accounting by a First-time Adopter*
 - Amendments to PFRS 7, *Gain or Loss on Derecognition*
 - Amendments to PFRS 9, *Lessee Derecognition of Lease Liabilities and Transaction*
 - Amendments to PFRS 10, *Determination of a 'De Facto Agent'*
 - Amendments to PAS 7, *Cost Method*

Effective beginning on or after January 1, 2027

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FSRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. Thereafter, on February 14, 2025, the FSRSC approved the amendment to PFRS 17 that further defers the date of initial application by an additional two (2) years, to annual periods beginning on or after January 1, 2027. This will provide more time for the insurance industry to fully prepare and assess the impact of adopting the said standard.

The Group's investment in associate (Manulife-China Bank Life Assurance Corp. "MCB Life") is currently assessing the impact of the standard. As the Group accounts for its investment in the associate using the equity method, the adoption of PFRS 17 by the associate is expected to affect the Group's 'Investments in Associate' and its 'Share in Net Income of an Associate' due to changes in the timing of profit recognition and the measurement of insurance liabilities. The MCB Life intends to adopt the standard on its mandatory effective date of January 1, 2027. The full quantitative impact on the Group's equity and net income is currently being evaluated.

- PFRS 18, *Presentation and Disclosure in Financial Statements*

The standard replaces PAS 1, *Presentation of Financial Statements* and responds to investors' demand for better information about companies' financial performance. Entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new. There are specific presentation requirements and options for entities, such as the Parent Bank and its banking subsidiary, that have specified main business activities (either providing finance to customers or investing in specific type of assets, or both).

The requirements also include:

- a. Required totals, subtotals and new categories in the statement of profit or loss
- b. Disclosure of management-defined performance measures
- c. Guidance on aggregation and disaggregation

The Group is currently assessing the impacts the standard will have on the primary financial statements and notes to the financial statements. The Parent Company and its banking subsidiary consider their main business activities to include the provision of financing to customers and investing in financial assets. In accordance with PFRS 18, some of the income and expenses related to those activities are classified in the operating category, as an exception to the general requirements that would otherwise have resulted in their classification in the investing or financing categories

- PFRS 19, *Subsidiaries without Public Accountability*
The standard allows eligible entities to elect to apply PFRS 19's reduced disclosure requirements while still applying the recognition, measurement and presentation requirements in other PFRS Accounting Standards.

In 2025, PFRS 19 was amended to provide reduced disclosure requirements for new or amended PFRS Accounting Standards adopted by the FSRSC from the issuances of the IASB between February 2021 and May 2024.

The application of the standard is optional for eligible entities.

- Amendments to PAS 21, *Translation to a Hyperinflationary Presentation Currency*
The amendments introduce translation requirements for entities translating their financial statements, or the results and financial position of a foreign operation, from a functional currency that is the currency of a non-hyperinflationary economy to a presentation currency that is the currency of a hyperinflationary economy.

Deferred effectivity

- Amendments to PFRS 10, *Consolidated Financial Statements*, and PAS 28, *Sale or Contribution of Assets between an Investor and its Associate or Joint Venture*
The amendments address the conflict between PFRS 10 and PAS 28 in dealing with the loss of control of a subsidiary that is sold or contributed to an associate or joint venture. The amendments clarify that a full gain or loss is recognized when a transfer to an associate or joint venture involves a business as defined in PFRS 3. Any gain or loss resulting from the sale or contribution of assets that does not constitute a business, however, is recognized only to the extent of unrelated investors' interests in the associate or joint venture.

On January 13, 2016, the Financial and Sustainability Reporting Standards Council deferred the original effective date of January 1, 2016 of the said amendments until the IASB completes its broader review of the research project on equity accounting that may result in the simplification of accounting for such transactions and of other aspects of accounting for associates and joint ventures.

3. Significant Accounting Judgments and Estimates

The preparation of the financial statements in accordance with PFRS requires the Group to make judgments and estimates that affect the reported amounts of assets, liabilities, income, and expenses and disclosure of contingent assets and contingent liabilities at reporting date. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Judgments

a. Fair value of financial instruments

Where the fair values of financial assets and financial liabilities recorded on the balance sheet or disclosed in the notes cannot be derived from active markets, they are determined using discounted cash flow model, incorporating inputs such as current market rates of comparable instruments. The carrying values and corresponding fair values of financial instruments, as well as the manner in which fair values were determined, are discussed in more detail in Note 5.

b. Contingencies

The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the Group's defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the financial statements (Note 31).

c. Evaluation of business model in managing financial assets

The Group manages its financial assets based on business models that maintain an adequate level of financial assets to match its expected cash outflows, largely arising from customers' withdrawals and continuing loan disbursements to borrowers, while maintaining a strategic portfolio of financial assets for investment and trading activities consistent with its risk appetite.

The Group developed business models which reflect how it manages its portfolio of financial instruments. In determining the classification of a financial instrument under PFRS 9, the Group evaluates which business model a financial asset or a portfolio of financial assets belong to, taking into consideration the objectives of each business model established by the Group, various risks and key performance indicators being reviewed and monitored by responsible officers, as well as the manner of compensation for them. The Group also considers the frequency, value, reasons, and timing of past sales and expectation of future sales activity in this evaluation.

In addition, PFRS 9 emphasizes that if more than an infrequent and more than an insignificant sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances to assess that an increase in the frequency and value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

In 2025 and 2024, certain investment securities at amortized cost held by the Parent Company were redeemed by their respective issuers. The redemptions were assessed by the Parent Company as not inconsistent with the portfolios' business models considering the conditions and reasons for which the redemptions were made. Further, the redemptions did not result in a change in business model and the remaining securities in the affected portfolios continue to be accounted for at amortized cost. The details of the redemptions are disclosed in Note 9.

d. Testing the cash flow characteristics of financial assets

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal amount outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk), i.e., cash flows that are non-SPPI, does not meet the amortized cost and FVOCI criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

e. Hedge accounting

In 2020, the Parent Company designated the hedge relationship between its floating rate bond payable and an interest rate swap as a cash flow hedge. In 2021, the Parent Company designated the hedge relationships between (i) the interest rate risk component of its Treasury time deposits and Retail Banking Business (RBB) Segment time deposits and (ii) interest rate swaps as cash flow hedges. In 2022, the Parent Company designated the hedge relationship between (i) the foreign exchange risk component of certain foreign exchange spot transactions and of future interest payments and (ii) and the spot element of certain foreign exchange forward contracts. In 2023, the Parent Company pre-terminated the floating rate bond payable due to existing market conditions. Consequently, this resulted to the discontinuance of the hedge relationship between the floating rate bond payable and the interest rate swap as a cash flow hedge. In 2024, the hedging relationship between the interest rate risk component of the Treasury time deposits and interest rate swap was discontinued due to the maturity of the interest rate swap.

The Parent Company's hedge accounting policies include an element of judgment and estimation, in particular in respect of the existence of highly probable cash flows for inclusion within the cash flow hedge. Estimates of future interest rates and the general economic environment will influence the availability and timing of suitable hedged items, with an impact on the effectiveness of the hedge relationships. Details of the Parent Company's hedging transactions are described in Note 26.

f. *Assessment of the cash generating unit of branch licenses*

Branch licenses are tested for impairment annually at the CGU level. In determining the CGU for non-financial assets, the Group identifies the smallest identifiable group of assets that generates cash inflows that are largely independent of the cash inflows from other assets or group of assets. The Parent Company identified the Retail Business Banking Segment (RBBS) as a whole as the CGU of the branch licenses.

Estimates

a. *Expected credit losses on financial assets and commitments*

The Group reviews its debt financial assets and commitments at each reporting date to determine the amount of ECL to be recognized in the balance sheet and any changes thereto in the statement of income. In particular, judgments and estimates by management are required in determining:

- whether a financial asset has had a significant increase in credit risk since initial recognition;
- whether a default has taken place and what comprises a default;
- macro-economic factors that are relevant in measuring a financial asset's probability of default as well as the Group's forecast of these macro-economic factors;
- probability weights applied over a range of possible outcomes;
- sufficiency and appropriateness of data used and relationships assumed in building the components of the Group's expected credit loss models; and
- the measurement of the exposure at default for unused commitments on which an expected credit loss should be recognized and the applicable loss rate.

The related allowance for credit losses of financial assets and commitments of the Group are disclosed in Notes 16 and 21, respectively.

b. *Impairment of goodwill and branch licenses*

The Group performs impairment review of goodwill and branch licenses with indefinite useful life annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill and branch licenses by assessing the recoverable amount of the RBBS and CBSI to which the goodwill and branch licenses are attributed. The recoverable amount of the RBBS and CBSI is determined based on a value in use (VIU) calculation using cash flow projections from financial budgets approved by senior management covering a five-year period. For VIU, the Group estimates the discount rate used for the computation of the net present value by reference to the weighted cost of equity of comparable banks. The impairment assessment process requires significant judgment and is based on assumptions, specifically loan and deposit growth rates, discount rate, and the long-term growth rates.

Where the recoverable amount is less than the carrying amount of the RBBS to which goodwill and branch licenses have been allocated, an impairment loss is recognized immediately in the statement of income. Impairment losses relating to goodwill cannot be reversed for subsequent

increases in its recoverable amount in future periods. The carrying values of the Group's goodwill and branch licenses are disclosed in Note 14.

c. Present value of defined benefit obligation and retirement expense

The determination of the Group's net present value of defined benefit obligation and annual retirement expense is determined using actuarial valuations. An actuarial valuation involves making assumptions that may differ from actual developments in the future. These assumptions include, among others, discount rates and salary rates.

The assumed discount rates were determined using the market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as of the reporting date. The salary increase rates were based on the Group's expectations of future salary increases, which take into account the inflation, seniority, and promotion.

The present value of the defined benefit obligation, including the details of the assumptions used in the calculation, are disclosed in Note 25.

d. Recognition of deferred income taxes

Deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Significant management judgment is required to determine the amount of deferred tax assets that can be recognized, based on the forecasted level of future taxable profits and the related future tax planning strategies. Key assumptions used in forecast of future taxable income include loan portfolio and deposit growth rates.

The Group believes it will be able to generate sufficient taxable income in the future to utilize its recorded deferred tax assets. Taxable income is sourced mainly from interest income from lending activities and earnings from fees, commissions and other income, and trust activities that are taxable.

The recognized and unrecognized deferred tax assets are disclosed in Note 28.

e. Impairment on other non-financial assets

The Group assesses impairment on its non-financial assets (e.g., investment properties and bank premises, furniture, fixtures and equipment) and considers the following impairment indicators:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Except for investment properties where recoverable amount is determined based on fair value less cost to sell, the recoverable amount of all other non-financial assets is determined based on the asset's value in use whose computation considers the present value of estimated future cash flows expected to be generated from the continued use of the asset. The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

The carrying values of the Group's non-financial assets are disclosed in Notes 12, 13 and 14.

4. Financial Instrument Categories

The following table presents the total carrying amount of the Group's and the Parent Company's financial instruments per category:

	Consolidated		Parent Company

*Accrued interest and other expenses excludes accrued taxes and other licenses (Note 20).

5. Fair Value Measurement

The Group has assets and liabilities in the Group and Parent Company balance sheets that are measured at fair value on a recurring and non-recurring basis after initial recognition. Recurring fair value measurements are those that another PFRS requires or permits to be recognized in the balance sheet at the end of each financial reporting period. These include financial assets and liabilities at FVTPL and financial assets at FVOCI.

As of December 31, 2025 and 2024, except for the following financial instruments, the carrying values of the Group's and the Parent Company's financial assets and liabilities as reflected in the balance sheets and related notes approximate their respective fair values:

	2025

The methods and assumptions used by the Group and Parent Company in estimating the fair values of the financial instruments follow:

Cash and other cash items, due from BSP and other banks, interbank loans receivable and SPURA and accrued interest receivable – The carrying amounts approximate their fair values in view of the relatively short-term maturities of these instruments.

Debt securities – Fair values are generally based on quoted market prices. If the market prices are not readily available, fair values are estimated using directly or indirectly either values obtained from independent parties offering pricing services or adjusted quoted market prices of comparable investments or using the discounted cash flow methodology.

Equity securities – For publicly traded equity securities, fair values are based on quoted prices. For unquoted equity securities, remeasurement to their fair values is not material to the financial statements.

Loans and receivables and sales contracts receivable (SCR) included in other assets – Fair values of loans and receivables and SCR are estimated using the discounted cash flow methodology, where future cash flows are discounted using the Group's current incremental lending rates for similar types of loans and receivables.

Accounts receivable, returned checks and other cash items (RCOCI) and other financial assets included in other assets – Quoted market prices are not readily available for these assets. These are reported at cost and are not significant in relation to the Group's total portfolio of financial assets.

Derivative instruments (included under FVTPL and designated as hedges) – Fair values are estimated based on discounted cash flows, using prevailing interest rate differential and spot exchange rates.

Deposit liabilities (time, demand, and savings deposits) – Fair values of time deposits are estimated using the discounted cash flow methodology, where future cash flows are discounted using the Group's current incremental borrowing rates for similar borrowings and with maturities consistent with those remaining for the liability being valued. For demand and savings deposits, carrying amounts approximate fair values considering that these are currently due and demandable.

Bills payable – Unless quoted market prices are readily available, fair values are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current incremental borrowing rates for similar borrowings and with maturities consistent with those remaining for the liability being valued.

Manager's checks and accrued interest and other expenses – Carrying amounts approximate fair values due to the short-term nature of the accounts.

Other liabilities – Carrying amounts approximate fair values due to the short-term nature of the accounts.

Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

Level 1: quoted prices in active markets for identical assets or liabilities;

Level 2: inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

Level 3: inputs that are not based on observable market data or unobservable inputs.

As of December 31, 2025 and 2024, the fair value hierarchy of the Group's and the Parent Company's assets and liabilities are presented below:

There were no transfers into and out of Level 3 fair value measurements in 2025 and 2024.

The inputs used in the fair value measurement based on Level 2 are as follows:

Government securities – interpolated rates based on market rates of benchmark securities

Derivative assets and liabilities – fair values are calculated by reference to the prevailing interest differential and spot exchange rate as of the reporting date, taking into account the remaining term to maturity of the derivative assets and liabilities.

Inputs used in estimating fair values of financial instruments carried at amortized cost and categorized under Level 3 include risk-free rates and applicable risk premium.

The fair values of the Group's and Parent Company's investment properties have been determined by the appraisal method by independent external and in-house appraisers based on highest and best use of the property being appraised. Valuations were derived on the basis of recent sales of similar properties in the same areas as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made and comparability of similar properties sold with the property being valued.

The table below summarizes the valuation techniques used and the significant unobservable inputs used in the valuation for each type of investment properties held by the Group and the Parent Company:

	Valuation Techniques	Significant Unobservable Inputs
Land	Market Data Approach	Price per square meter, size, location, shape, time element, and corner influence
Land and Building	Market Data Approach and Cost Approach	Reproduction Cost New

Descriptions of the valuation techniques and significant unobservable inputs used in the valuation of the Group and the Parent Company's investment properties are as follows:

Valuation Techniques

Market Data Approach A process of comparing the subject property being appraised to similar comparable properties recently sold or being offered for sale.

Cost Approach It is an estimate of the investment required to duplicate the property in its present condition. It is reached by estimating the value of the building "as if new" and then deducting the depreciated cost. Fundamental to the Cost Approach is the estimate of "Reproduction Cost New" of the improvements.

Significant unobservable inputs

Reproduction Cost New The cost to create a virtual replica of the existing structure, employing the same design and similar building materials.

Size Size of lot in terms of area. Evaluate if the lot size of property or comparable conforms to the average cut of the lots in the area and estimate the impact of lot size differences on land value.

Shape Particular form or configuration of the lot. A highly irregular shape limits the usable area whereas an ideal lot configuration maximizes the usable area of the lot which is associated in designing an improvement which conforms with the highest and best use of the property.

Location Location of comparative properties whether on a main road or secondary road. Road width could also be a consideration if data is available. As a rule, properties located along a main road are superior to properties located along a secondary road.

Time Element An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investors' perceptions of the market over time. In which case, the current data is superior to historic data.

Discount Generally, asking prices in ads posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.

Corner influence Bounded by two (2) roads.

6. Financial Risk Management Objectives and Policies

The Group's activities are principally related to the profitable use of financial instruments. Risks are inherent in these activities but are managed by the Group through a rigorous, comprehensive, and continuous process of identification, measurement, monitoring and mitigation of these risks, partly through the effective use of risk and authority limits and thresholds, process controls and monitoring, and independent controls. As reflected in its corporate actions and organizational improvements, the Group has placed due importance on expanding and strengthening its risk management process and considers it as a vital component to the Group's continuing profitability and financial stability. Central to the Group's risk management process is its adoption of a risk management program intended to avoid unnecessary risks, manage and mitigate inherent risks, and maximize returns from taking acceptable risks necessary to sustain its business viability and good financial position in the market.

The key financial risks that the Group faces are: credit risk, market risk, and liquidity risk. The Group's risk management objective is primarily focused on controlling and mitigating these risks. The Parent Company and its subsidiaries manage their respective financial risks separately. The subsidiaries, particularly CBSI, have their own risk management processes but are structured similar to that of the Parent Company. To a large extent, the respective risk management programs and objectives are the same across the Group. The severity of risk, materiality, and regulations are primary considerations in determining the scope and extent of the risk management processes put in place for the subsidiaries.

Risk Management Structure

The BOD of the Parent Company is ultimately responsible for the oversight of the Parent Company's risk management processes. On the other hand, the risk management processes of the subsidiaries are the separate responsibilities of their respective BODs. The BOD of the Parent Company created a separate board-level independent committee with explicit authority and responsibility for managing and monitoring risks.

The BOD has delegated to the Risk Oversight Committee (ROC) the formulation and supervision of the risk management process which includes, among others, determining the appropriate risk mitigating strategies and operating principles, adoption of industry standards, development of risk metrics, monitoring of key risk indicators, and the imposition of risk parameters. The ROC is composed of three members of the BOD, all of whom are independent directors.

The Risk Management Group (RMG) is the operating unit of the ROC primarily responsible for the implementation of the risk management strategies approved by the Board of Directors. The implementation cuts across all departments of the Parent Company and involves all of the Parent Company's financial instruments, whether "on-books" or "off-books". The RMG is likewise responsible for monitoring the implementation of specific risk control procedures and enforcing compliance thereto. The RMG is also directly involved in the day-to-day monitoring of material risks ensuring that the Parent Company, in its transactions and dealings, engages only in risk-taking activities duly approved by the ROC. The RMG also ensures that relevant information is accurately and completely captured on a timely basis in the management reporting system of the Parent Company. The RMG is headed by the Chief Risk Officer (CRO) who reports the results of risk measurements to the ROC.

Apart from RMG, each business unit has created and put in place various process controls which ensure that all the external and internal transactions and dealings of the unit are in compliance with the unit's risk management objectives. The Internal Audit Group also plays a crucial role in risk management primarily because it is independent of the business units and reports exclusively to the Audit Committee which, in turn, is comprised of independent directors.

The Internal Audit Group focuses on ensuring that adequate controls are in place and on monitoring compliance to controls. The regular audit covers all processes and controls, including those under the risk management framework handled by the RMG. The audit of these processes and controls is undertaken regularly. The audit results and exceptions, including recommendations for their resolution or improvement, are discussed initially with the business units concerned before these are presented to the Audit Committee.

Risk Management Reporting

The CRO reports to the ROC, is a member of the Sustainability Oversight Committee (SOC), and is a resource of the Credit Committee (CreCom), Asset-Liability Committee (ALCO), and Information Technology Steering Committee (ITSC). The CRO reports on key risk indicators and specific risk management issues that would need resolution from top management. This is undertaken after the risk issues and key risk indicators have been discussed with the business units concerned. The RMG's function, particularly, that of the CRO, as well as the Board's risk oversight responsibilities are articulated in the risk management manual based on the requirements of BSP Circular No. 971, *Guidelines on Risk Governance*.

The key risk indicators were formulated on the basis of the financial risks faced by the Parent Company. These indicators contain information from all business units that provide measurements on the level of the risks taken by the Parent Company in its products, transactions, and financial structure. Among others, the report on key risk indicators includes information on the Parent Company's aggregate credit exposure, Value-at-Risk (VaR), utilization of market and credit limits and thresholds, liquidity risk limits and ratios, earnings-based and economic value-based measures with thresholds, overall loan loss provisioning, and risk profile changes. Loan loss provisioning and credit limit utilization are, however, discussed in more detail in the Credit Committee. On a monthly basis, detailed reporting of industry, customer, and geographic risks is included in the discussion with the ROC. A comprehensive risk report is presented to the BOD on a periodic basis for an overall assessment of the level of risks taken by the Parent Company. On the other hand, the Chief Audit Executive reports to the Audit Committee on a monthly basis on the results of branch or business unit audits and for the resolution of pending but important internal audit issues.

Risk Mitigation

The Parent Company uses derivatives to manage exposures to financial instruments resulting from changes in interest rates and foreign currencies exposures. However, the nature and extent of use of these financial instruments to mitigate risks are limited to those allowed by the BSP for the Parent Company and its subsidiaries.

To further mitigate risks throughout its different business units, the Parent Company formulates risk management policies and continues to improve its existing policies. These policies further serve as the framework and set of guidelines in the creation or revisions of operating policies and manuals for each business unit. In the process design and implementation, preventive controls are preferred over detection controls. Clear delineation of responsibilities and separation of incompatible duties among officers and staff, as well as among business units are reiterated in these policies. To the extent possible, reporting and accounting responsibilities are segregated from units directly involved in operations and frontline activities (i.e., players must not be scorers). This is to improve the credibility

and accuracy of management information. Any inconsistencies in the operating policies and manuals with the risk framework created by the RMG are taken up and resolved in the ROC.

The Group maintains operational risk and IT risk management frameworks aligned with global standards, embedding risk awareness into governance and decision-making while strengthening controls and transparency. Through risk and control self-assessments, key risk indicators, incident and event management, and root cause analyses, the Group proactively safeguards customer trust, supports investor confidence, upholds regulatory expectations, and reinforces the stability of the Group and the financial system.

Monitoring and controlling risks are primarily performed based on various limits and thresholds established by the top management covering the Group's transactions and dealings. These limits and thresholds reflect the Group's business strategies and market environment, as well as the levels of risks that the Group is willing to tolerate, with additional emphasis on selected industries. In addition, the Group monitors and measures the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities. Liquidity risk, interest rate risk, and market risk exposures are measured and monitored through the reports generated by a cloud-based automated system.

As part of monitoring and controlling risks, the Bank conducts the Internal Capital Adequacy Assessment Process (ICAAP) to determine its minimum required capital relative to its business risk exposures. This assessment is performed annually.

Similar to prior years' submission, the Bank used the Pillar 1 Plus approach, with the Pillar 1 capital as the baseline. The process of allocating capital for all types of risks above the Pillar 1 capital levels includes quantification of capital buffer for Pillar 2 risks under normal business cycle/condition. In addition, the document included the quantification based on the results of the Integrated Stress Test (IST). The adoption of the IST allows the Group to quantify its overall vulnerability to market shocks and operational losses on the aggregate rather than in silo referring to a range of plausible events. The capital assessment in the document discloses that the Group and the Parent Company has appropriate and sufficient level of internal capital.

The Parent Company submitted to the BSP its annually-updated ICAAP document, on March 31, 2025.

Complementing its capital adequacy assessment exercise, the Bank maintains robust, forward-looking recovery, and resilience measures. As a Domestic Systemically Important Bank (D-SIB), it is subject to existing regulations requiring high loss absorbency and effective risk management to mitigate the risk of failure. Its Recovery Plan, aligned with the ICAAP, supports BSP's intensified supervision of D-SIBS and underscores the Bank's commitment to resilience as a fundamental aspect of risk management, extending beyond prevention.

The latest Recovery Plan document was presented and approved in the Joint Meeting of the ROC and Excom on June 16, 2025, confirmed by the Board of Directors on July 2, 2025, and submitted to the BSP on June 30, 2025.

Business Continuity Management

The Group operates in increasingly complex ecosystems of digital platforms, supply chains, and third-party providers. This interconnectedness provides efficiency and scale but exposes systemic vulnerabilities. Volatile, uncertain, complex, and ambiguous circumstances can cascade and ripple across business functions, halting operations and eroding customer trust. Hidden dependencies on third- and fourth-party relationships leave blind spots that increase exposure to external shocks.

Interconnected environments result in downtime not isolated – it affects customers, regulators, and partners simultaneously, raising reputational and compliance risks. The Group embed operational resilience by conducting business impact analyses, applying affinity analyses, and driving recovery planning so the Group can withstand shocks and adapt dynamically to the volatile, brittle, and nonlinear realities of modern interconnected operations.

Credit Risk

Credit risk is the risk the Group faces when an obligor (borrower or counterparty) fails to meet its financial obligations according to agreed terms. This may include the inability to repay a loan or honor any other forms of credit extended by the Group.

Credit risk is a major type of risk for all banks, as it permeates a wide range of exposures, products, and services. The Group faces potential credit risks whenever it extends loans to borrowers, commits funds to counterparties, guarantees the paying performance of its clients, invests funds in various private or sovereign entities, or enters into either market-traded or over-the-counter derivatives. In essence, credit risk arises in all contractual commitments where fulfillment depends on the borrower's or counterparty's ability to perform.

The Group has established credit risk limits and thresholds, which are approved by the Board of Directors and reflect its risk appetite and strategic direction. These limits and thresholds are regularly monitored to ensure the risks remain within the Bank's defined risk appetite. Furthermore, the Group continuously monitors and measures its overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

Credit Risk Rating and Scoring Models

The Parent Company employs four credit risk rating models for diverse segments, covering corporate borrowers, retail small and medium entities and individual accounts (non-consumer), financial institutions, and sovereign counterparties. Additionally, it utilizes bureau credit scores for consumer loan products, including housing loans, auto loans, Contract-to-Sell (CTS) without recourse, and credit cards, to assess credit risk comprehensively.

The assessment of credit risk for corporate borrowers with total assets, total facilities, or total credit exposures amounting to at least ₱15 million is conducted using the Internal Credit Risk Rating System (ICRRS). This model adheres to the technical specifications outlined in BSP MORB 143, *Credit Risk Management*. The ICRRS comprises two components, namely: a) Borrower Risk Rating (BRR), providing an evaluation of the creditworthiness of the borrower, without considering the proposed facility and security arrangements, and b) Loan Exposure Rating, offering an assessment of the proposed facilities as mitigated or enhanced by security/collateral arrangements.

For retail small and medium entities and individual non-consumer loan accounts, credit risk is evaluated through the Borrower Credit Score (BCS). In addition, the Parent Company has implemented a risk rating system designed to specifically assess Philippine universal, commercial, thrift, digital, rural, and cooperative banks as well as foreign financial institutions. Furthermore, it has introduced a Sovereign Risk Rating scorecard to gauge a country's strength, considering factors such as economic fundamentals, fiscal policy, institutional strength, and vulnerability to extreme events.

For consumer loans, the Parent Company is using Transunion (TU) credit score as the primary scorecard for assessing applications for credit cards, auto loans, housing loans, and CTS without recourse. Additionally, a secondary model complementing the TU credit score for housing loan applications has been implemented, specifically for applications with no TU footprint.

The Group regularly monitors the performance of its rating models and scorecards to ensure their continued effectiveness in the credit evaluation process. Over the years, it has partnered with reputable third-party consultants, such as Moody's Analytics, for model validation, recalibration, and knowledge transfer projects. Internally, a comprehensive review of the performance of the models is conducted, subjecting them to a range of statistical metrics, to verify the reliability and robustness of these models. The outcomes of the validation activities are reported to the Risk Oversight Committee. Any identified weaknesses in the models are addressed through targeted enhancements aimed at improving their discriminatory power and predictive accuracy. Furthermore, the models undergo independent validation, with Internal Audit acting as the primary resource for ensuring the integrity and independence of the process.

To manage model risks effectively, the Group has crafted a Model Risk Policy for Credit Risk. This policy closely aligns with the principles laid out in the "Supervisory Guidance on Model Risk Management" issued by the Office of the Comptroller of the Currency (OCC), an independent bureau of the U.S. Department of the Treasury, and satisfies the validation requirements set by the BSP for internal rating systems outlined in BSP Circular 855. The framework is designed to manage risks associated with the use of models within the organization, promoting confidence and reliability of model outputs, and supporting effective risk management practices. It serves as a guiding document to ensure models are developed, validated, implemented, and monitored in a consistent, transparent, and controlled manner. Moreover, it establishes a governance framework that clearly defines the roles, responsibilities, and accountabilities of the stakeholders involved in the model life cycle.

Concentration of Assets and Liabilities and Off-Balance Sheet Items

Concentration risk refers to the risk resulting from having a high level of exposures to a single borrower, sector, geographic region, or group of borrowers or counterparties which are legally or economically connected, or whose default probabilities depend on the same risk factors. Credit concentration risk typically arises when groups of counterparties with similar characteristics – such as belonging to the same industry, having similar sizes, operating in the same geographical location, or connected due to direct or indirect control – default or fail to meet their obligations. A highly concentrated portfolio increases the likelihood of large-scale losses if the specific area, sector, or group experiences a downturn. Without diversification, it can lead to higher volatility in the Group's earnings and capital, making its financial performance more unpredictable and the associated risk exposures harder to manage.

In order to avoid excessive concentrations of risk, the Parent Company's policies and procedures include specific guidelines focusing on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

For the Group, the fair values of collateral held for loans and receivables and sales contracts receivable amounted to ₱492.36 billion and ₱3.23 billion, respectively, as of December 31, 2025 and ₱483.22 billion and ₱3.47 billion, respectively, as of December 31, 2024.

For the Parent Company, the fair values of collateral held for loans and receivables and sales contracts receivable amounted to ₱430.03 billion and ₱0.52 billion, respectively, as of December 31, 2025 and 428.07 billion and ₱0.76 billion, respectively, as of December 31, 2024.

The fair values of the financial collaterals held for SPURA are disclosed in Note 35.

Credit risk, in respect of derivative financial products, is limited to those with positive fair values, which are included under financial assets at FVTPL (Note 9). As a result, the maximum credit risk, without taking into account the fair value of any collateral and netting agreements, is limited to the amounts on the balance sheet plus commitments to customers such as unused commercial letters of credit, outstanding guarantees and others as disclosed in Note 31.

Collateral and other credit enhancements

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented with regards to the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- For securities lending and reverse repurchase transactions – cash or securities
- For consumer lending – real estate and chattel over vehicle
- For corporate lending and commercial lending – real estate, chattel over properties, assignment of deposits, shares of stocks, bonds, and guarantees

Management requests additional collateral in accordance with the underlying agreement and takes into consideration the market value of collateral during its review of the adequacy of allowance for credit losses.

It is the Group's policy to dispose of repossessed properties in an orderly fashion. The proceeds are used to reduce or repay the outstanding claim. In most cases, the Group does not occupy repossessed properties for business use.

Collateral valuation

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Group's balance sheet. However, the fair value of collateral affects the calculation of loss allowances. It is generally assessed, at a minimum, at inception and re-assessed on an annual basis. To the extent possible, the Group uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by internal or external appraisers.

Credit quality per class of financial assets

Loans and Receivables

The credit quality of financial assets is managed by the Group using an internal credit rating system for the purpose of measuring credit risk in a consistent manner as accurately as possible. The model on risk ratings is assessed regularly because the Group uses this information as a tool for business and financial decision making.

It is the Parent Company's policy to apply the appropriate risk rating model across the credit portfolio. This facilitates focused management of the applicable risks and the comparison of credit exposures across all lines of business, geographic regions, and products. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Parent Company's rating policy. The attributable risk ratings are assessed and monitored regularly.

The rating categories are further described below, where the overall credit scores are translated into the BRR, which is a 14-notch rating system.

High Grade

This includes all borrowers whose ratings are considered as Low Risk, indicating a very low probability of going into default in the coming year. In terms of borrower credit ratings, these include the following:

ICRRS and BCS-Covered

- BRR 1 (Exceptional)
- BRR 2 (Excellent)
- BRR 3 (Strong)
- BRR 4 (Good)

Generally, a Low Risk (High Grade) rating is indicative of a high capacity to fulfill its debt obligations supported by robust financials (i.e., highly profitable, with returns considerably higher than the industry, sufficient liquidity, adequate cash flow, elevated capacities to service its liabilities), gainful positioning in growing industries (i.e., participation in industries where conditions are very favorable and in which they are able to get a good share of the market), and very strong leadership providing clear strategic direction, effective business strategies, clear organizational structure, clear succession plan, and/or good labor relations.

Standard Grade

This includes all borrowers whose ratings are considered as Moderate Risk and are seen to withstand typical swings in the economic cycle without going into default. However, any prolonged unfavorable economic period would create deterioration that may already be beyond acceptable levels. In terms of borrower credit ratings, these include the following:

ICRRS and BCS-Covered

- BRR 5 (Satisfactory)
- BRR 6 (Acceptable)
- BRR 7 (Fair)

Generally, a Moderate Risk (Standard Grade) rating signifies a borrower whose financial performance is sufficient to service obligations and is at par with competitors in the industry. In terms of management, it is run by executives with adequate personal and professional qualifications, along with and sufficient experience in similar companies, supported by a sound management structure and reasonable business strategies. In terms of growth potential, it operates in an industry with stable outlook, supportive of continuing operations.

Sub-Standard Grade

In terms of borrower credit ratings, this includes the following:

Unclassified (ICRRS and BCS-Covered)

- BRR 8 (Watchlist)
- BRR 9 (Speculative)
- BRR 10 (Highly Speculative)

Adversely Classified (ICRRS and BCS-Covered)

- BRR 11 (Especially Mentioned)
- BRR 12 (Substandard)

For accounts that are Unclassified, a High Risk (Sub-Standard Grade) rating is indicative of borrowers where there are unfavorable industry or company-specific factors. This may be financial in nature (i.e., marginal operating performance, returns that are lower than those of the industry, and/or diminished capacity to pay off obligations that are due), related to management quality (including negative information regarding the company or specific executives) and/or unfavorable industry conditions. The borrower might find it difficult to cope with any significant economic downturn and a default in such a case is more than a possibility. These accounts require a closer monitoring for any signs of further deterioration that can trigger review for possible downgrade to adverse classification.

Adversely Classified accounts are automatically considered as High Risk and generally includes past due accounts. However, in some cases, even accounts that are neither past due nor impaired qualifies for adverse classification. Reasons for this include among others the following: consecutive net losses, emerging weaknesses in terms of cash flow, negative equity, and/or breach in the covenants per term loan agreement.

Impaired

This includes borrowers that are Adversely Classified (refer to the description in the preceding paragraph) and whose ratings are either BRR 13 (Doubtful) or BRR 14 (Loss), which generally pertain to accounts in default or those demonstrating objective evidence of impairment. In addition, this includes accounts which are considered impaired or stage 3 under the applicable accounting standards, regardless of the risk rating or past due status.

For the Parent Company's consumer lending exposures rated using the ICRRS and BCS models, the BRR classification described in the preceding paragraphs serves as the basis for determining credit quality. In contrast, for consumer lending exposures assessed via the application scorecard, credit quality is determined by considering factors such as account status and ECL stage classification, which adheres to the BSP credit classification rules for collectively assessed loans. Exposures classified as stage 3 for ECL purposes are categorized as Impaired, while those classified as stage 2 are categorized as Sub-Standard Grade. Accounts that are neither stage 2 nor stage 3 are categorized as Standard Grade. For the Group, the consumer loans of CBSI covered by application scorecard with score ranks of 1-4, and which are Current and Unclassified, are classified as High Grade while the remaining consumer loans are classified consistent with the Parent Company's.

The financial assets are also grouped according to stage whose description is explained as follows:

Stage 1 – those that are considered current and up to 30 days past due, and based on change in rating, delinquencies and payment history, do not demonstrate significant increase in credit risk.

Stage 2 – those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 30 days past due but does not demonstrate objective evidence of impairment as of reporting date.

Stage 3 – those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

Depository accounts with the BSP and counterparty banks, Trading and Investment Securities

For these financial assets, the outstanding exposure is rated primarily based on credit ratings from internationally recognized external credit rating agencies, accessed through the Group's Bloomberg terminal or other publicly available sources. In cases where such external ratings are unavailable, the exposures are rated using credit rating risk grades from PhilRatings. Additionally, Philippine Peso (PHP)-denominated exposures to the Philippine National Government and the Bangko Sentral ng Pilipinas are automatically classified as High Grade, in line with the treatment in the Capital Adequacy Ratio (CAR) Report, where these exposures are assigned a 0% risk weight.

For counterparties without an external rating, the credit quality is assessed using the Group's internal risk rating system. Exposures with neither external nor internal ratings are categorized as "Unrated.

The external risk rating of the Group's depository accounts with the BSP and counterparty banks, and trading and investment securities, is grouped as follows:

Credit Quality Rating	Credit Rating Agency

Rating Description

High Grade

AAA – An obligor has exceptionally strong capacity for payment of financial commitments. This capacity is highly unlikely to be adversely affected by foreseeable events. This denotes the lowest expectation of default risk.

AA – An obligor has very strong capacity for payment of financial commitments. This capacity is not significantly vulnerable to foreseeable events. It differs from the highest-rated obligors at a minimal degree. This denotes expectation of very low default risk.

Standard Grade

A – An obligor has strong capacity for payment of financial commitments. It is more likely to fulfill its debt obligations but carries a slightly higher risk compared to higher ratings. Its capacity may be more vulnerable to adverse business or economic conditions than obligors in higher ratings. This denotes expectation of low default risk.

BBB – An obligor has adequate capacity for payment of financial commitments, but adverse business or economic conditions are more likely to impair this capacity.

Sub-Standard Grade

BB – An obligor exhibits elevated vulnerability to default risk, particularly in the event of adverse changes in business or economic conditions over time; however, business or financial flexibility exists that supports the servicing of financial commitments.

B – An obligor has the capacity to meet its current financial commitments; however, capacity for continued payment is vulnerable to deterioration in the business and economic environment. This indicates that material default risk is present, but a limited margin of safety remains.

CCC – An obligor is currently vulnerable and its capacity to meet its financial commitments relies on favorable business, financial and economic conditions. This indicates that default is a real possibility with very low margin for safety.

CC – An obligor is highly vulnerable to defaulting on its debt obligations. Although default has not yet occurred, it is anticipated and considered probable (or extremely likely to happen). This denotes expectation of greater likelihood of default risk.

Impaired

C – An obligor has started experiencing default or is at high risk of facing nonpayment and is nearing default, with little prospect for recovery of principal and interest.

RD (Restrictive Default) – An obligor is experiencing financial difficulties and has failed to meet some of its debt payments, but has also taken certain actions to prevent a more severe default situation. It has not entered into bankruptcy filings, administration, receivership, liquidation, or other formal winding-up procedure, and has not otherwise ceased operating. This signifies an elevated level of risk and uncertainty related to the obligor's ability to fulfill its financial commitments.

D (Default) – An obligor is experiencing financial distress and has defaulted on its debt, which means that it has failed to make timely payments or has not fulfilled its financial commitments as agreed upon. It has entered into bankruptcy filings, administration, receivership, liquidation or other formal winding-up procedure or that has otherwise ceased business and debt is still outstanding.

For PHP-denominated securities that are not rated by S&P, Moody's, or Fitch, but have an external rating from PhilRatings, the following credit quality classification applies.

Credit Quality Rating	External Credit Risk Rating
High Grade	PRSAaa, PRSAa+, PRSAa, PRSAa–
Standard Grade	PRSA+, PRSA, PRSA–, PRSBaa+, PRSBaa, PRSBaa–
Sub-Standard Grade	PRSBa+, PRSBa, PRSBa–, PRSB+, PRSB, PRSB–, PRSCaa+, PRSCaa, PRSCaa–, PRSCa+, PRSCa, PRSCa–, PRSC
Impaired	

Rating Description

High Grade

PRSAaa – Obligations are of the highest quality with minimal credit risk. The obligor's capacity to meet its financial commitment on the obligation is Extremely Strong. It is the highest rating assigned by PhilRatings.

PRSAa – Obligations are of high quality and are subject to very low credit risk. The obligor's capacity to meet its financial commitment on the obligation is Very Strong.

Standard Grade

PRSA – With favorable investment attributes and are considered as upper-medium grade obligations. Although obligations are somewhat more susceptible to the adverse effects of changes in economic conditions, the obligor's capacity to meet its financial commitments on the obligation is still Strong.

PRSBaa – An obligation exhibits adequate protection parameters. Adverse economic conditions and changing circumstances are more likely to lead to a weakened capacity of the company to meet its financial commitments on the obligation. Issues may possess certain speculative characteristics.

Sub-Standard Grade

PRSBa – An obligation is less vulnerable to nonpayment than other speculative issues. However, it faces ongoing uncertainties or exposure to adverse business, financial or economic conditions, which could lead to the company's inadequate capacity to meet its financial commitment on the obligation.

PRSB – An obligation is more vulnerable to nonpayment than obligations rated ‘PRB Ba’, but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse economic conditions will likely impair the obligor’s capacity to meet its financial commitment on the obligation. The issue is characterized by high credit risk.

PRSCaa – An obligation is presently vulnerable to nonpayment and is dependent upon favorable business, financial and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation. The issue is considered to be of poor standing and is subject to very high credit risk.

PRSCa – An obligation is presently highly vulnerable to nonpayment. Likely already in and very near default with some prospect for partial recovery of principal or interest.

Impaired

PRSC – An obligation is already in default with very little prospect for any recovery of principal or interest. ‘PRC C’ is the lowest rating assigned by PhilRatings.

For counterparty banks with no external rating but rated under the Bank’ Camelot Rating System, the following grouping was applied:

Credit Quality Rating	Camelot Rating
High Grade	A1, A2, A3, B1, B2, B3
Standard Grade	C1, C2, C3, C4
Sub-Standard Grade	D1, D2, D3, D4, E1, E2
Impaired	E3, E4

Rating Description

High Grade

A – Exceptional Bank with strong business franchise, financials and prospects

B – Bank with good fundamentals; some minor weaknesses may exist but should be resolved in due course

Standard Grade

C – Bank with adequate fundamentals; some aspects raise concerns that prevent it from achieving a higher rating

Sub-Standard Grade

D – Bank with weaknesses; capability / ability to resolve such weaknesses is put into question

Impaired

E – Bank with very serious problems / negative fundamentals

For corporate issuers with no external rating but are rated under the Bank’s ICRRS, the grouping used for corporate borrowers will apply.

Impairment Assessment

The Group recognizes a credit loss allowance on a financial asset based on whether it has had a significant increase in credit risk since initial recognition. Accordingly, the Group categorizes its financial assets into three categories: stage 1 – financial asset that has not had a significant increase in credit risk; stage 2 – financial asset that has had a significant increase in credit risk; and stage 3 – financial asset in default.

Generally, the Group assesses the presence of a significant increase in credit risk based on the number of notches that a financial asset's credit risk rating has declined since origination. When applicable, the Group also applies a rebuttable presumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the Group shall revert it to stage 1.

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, when (a) the borrower becomes at least 90 days past due on its contractual payments (unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate), (b) it is classified as doubtful or loss under prudential reporting;

(c) it is in litigation; and/or (d) full repayment of principal and interest is unlikely without foreclosure of collateral, if any. As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances or loss events that may indicate unlikelihood to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (i.e., to have cured) when it no longer meets any of the default criteria for a consecutive period of 180 days (i.e., consecutive payments from the borrowers for 180 days).

The Group then measures the credit loss allowance on a financial instrument at an amount equal to 12-month expected credit losses for items categorized as stage 1 and lifetime credit losses for items categorized as stage 2 and stage 3.

The Group modeled the following inputs to the expected credit loss formula separately. The formula is applied to each financial asset, with certain exceptions wherein a collective or other general approach is applied:

Exposure at Default (EAD)

The Group defines EAD as the principal and interests that would not be collected assuming the borrower defaults during a future point in time. The Group computes for a financial asset's EAD using the expected contractual cash flows during the contractual life of the financial instrument. A financial asset's EAD is defined as the sum of EAD from principal and EAD from interest.

Probability of default (PD)

The Group uses forward-looking PD estimates that are unbiased and probability-weighted using a range of possible outcomes. The PD for each individual instrument is modelled based on historical data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Group segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts, and materiality of the segment as compared to the total portfolio. The Group's PDs are mainly categorized into three: (a) corporate; (b) sovereign; and (c) retail.

Loss given default (LGD)

The Group's LGD model considers certain factors such as the historical cash flow recovery and reasonable and supportable information about future economic conditions, where appropriate. Generally, the model utilizes the Group's existing loan exposure rating system which is designed to capture these factors as well as the characteristics of collaterals related to an exposure. In cases wherein this does not apply, the Group looks into the standard characteristics of collaterals (e.g., auto and housing loans) in order to estimate an LGD factor. In the case of exposures without collaterals (e.g., securities), the Group uses internationally-accepted standard LGD factors.

Credit Review

In accordance with BSP Circular 855, credit reviews are conducted on loan accounts to evaluate whether loans are granted in accordance with the Parent Company's policies and to assess loan quality and appropriateness of classification. Results of credit reviews are promptly reported to management to apprise them of any significant findings for proper corrective actions.

Market Risk

Market risk is the risk of loss that may result from changes in the value of a financial product. The Parent Company's market risk originates from its holdings of domestic and foreign-denominated debt securities, foreign exchange instruments, equities, foreign exchange derivatives, and interest rate derivatives.

The RMG of the Parent Company is responsible for assisting the ROC with its responsibility for identifying, measuring, managing, and controlling market risk. Market risk management measures the Parent Company market risk exposures through the use of VaR. VaR is a statistical measure that estimates the maximum potential loss from a portfolio over a holding period, within a given confidence level.

VaR assumptions

The Parent Company calculates the VaR in trading activities. The Parent Company uses the Historical Simulation Full Valuation approach to measure VaR for all treasury traded instruments, using a 99.00% confidence level and a 1-day holding period.

The use of a 99.00% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average, not more than once every hundred days. The validity of the VaR model is verified through back testing, which examines how frequently actual and hypothetical daily losses exceeds daily VaR. The Parent Company measures and monitors the VaR and profit and loss on a daily basis.

Since VaR is an integral part of the Parent Company's market risk management, VaR limits have been established for all trading positions and exposures are reviewed daily against the limits by management. Further, stress testing is performed for monitoring extreme events.

Limitations of the VaR Methodology

The VaR models are designed to measure market risk in a normal market environment using equally weighted historical data. The use of VaR has limitations because it is based on historical correlations and volatilities in market prices and assumes that future price movements will follow the same distribution. Due to the fact that VaR relies heavily on historical data to provide information and may not clearly predict the future changes and modifications of the risk factors, the probability of large market moves may be underestimated if changes in risk factors fail to align with the assumptions. VaR may also be under- or over-estimated due to the assumptions placed on risk factors and the relationship between such factors for specific instruments. Even though positions may change throughout the day, the VaR only represents the risk of the portfolios at the close of each business day, and it does not account for any losses that may occur beyond the 99.00% confidence level.

In practice, the actual trading results will differ from the VaR calculation and, in particular, the calculation does not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored regularly to test the validity of the assumptions and the parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that the Group would withstand an extreme market event.

A summary of the VaR position of the trading portfolio of the Parent Company is as follows (in millions):

Interest Rate Risk

The Group's interest rate risk originates from its holdings of interest rate sensitive assets and interest rate sensitive liabilities. The Parent Company follows prudent policies in managing its exposures to interest rate fluctuations, and constantly monitors and discusses its exposure in Asset and Liability Committee (ALCO) meetings held every week.

As of December 31, 2025 and 2024, 66.27% and 62.41% of the Group's total loan portfolio, respectively, comprise of floating rate loans which are repriced periodically by reference to the transfer pool rate which reflects the Group's internal cost of funds. As of December 31, 2025 and 2024, 72.96% and 68.12% of the Parent Company's total loan portfolio, respectively, were subject to interest repricing. In keeping with banking industry practice, the Group aims to achieve stability and lengthen the term structure of its deposit base, while providing adequate liquidity to cover transactional banking requirements of customers.

Savings account interest rates are set by reference to prevailing market rates, while interest rates on time deposits and special savings accounts are usually priced by reference to prevailing rates of short-term government bonds and other money market instruments or, in the case of foreign currency deposits, inter-bank deposit rates and other benchmark deposit rates in international money markets with similar maturities.

The Group is likewise exposed to fair value interest rate risk due to its holdings of fixed rate government bonds as part of its financial assets at FVOCI and FVTPL portfolios. Market values of these investments are sensitive to fluctuations in interest rates. The following table provides for the average effective interest rates of the Group and of the Parent Company as of December 31, 2025 and 2024:

The repricing gap analysis method is used by the Group to measure the sensitivity of its assets and liabilities to interest rate fluctuations. This analysis measures the Group's susceptibility to changes in interest rates. The repricing gap is calculated by first distributing the assets and liabilities contained in the Group's balance sheet into tenor buckets according to the time remaining to the next repricing date (or the time remaining to maturity if there is no repricing), and then obtaining the difference between the total of the repricing (interest rate sensitive) assets and the total of repricing (interest rate sensitive) liabilities.

A gap is considered negative when the amount of interest rate sensitive liabilities exceeds the amount of interest rate sensitive assets. A gap is considered positive when the amount of interest rate sensitive assets exceeds the amount of interest rate sensitive liabilities.

Accordingly, during a period of rising interest rates, a bank with a positive gap would be in a position to invest in higher yielding assets earlier than it would need to refinance its interest rate sensitive liabilities. During a period of falling interest rates, a bank with a positive gap would tend to see its interest rate sensitive assets repricing earlier than its interest rate sensitive liabilities, restraining the growth of its net income or resulting in a decline in net interest income.

The following tables set forth the repricing gap position of the Group and the Parent Company as of December 31, 2025 and 2024 (in millions):

The Group monitors its exposure to fluctuations in interest rates by using scenario analysis to estimate the impact of interest rate movements on its interest income. This is done by modeling the impact to the Group's interest income and interest expenses to parallel changes in the interest rate curve in a given 12-month period. Interest rate risk exposure is managed through approved limits.

The following tables set forth the estimated change in the Group's and the Parent Company's annualized net interest income due to a parallel change in the interest rate curve as of December 31, 2025 and 2024 (in millions):

Foreign Currency Risk

The Group's foreign exchange risk originates from its holdings of foreign currency-denominated assets (foreign exchange assets) and foreign currency-denominated liabilities (foreign exchange liabilities).

Foreign exchange liabilities generally consist of foreign currency-denominated deposits in the Group's FCDU account made in the Philippines or generated from remittances to the Philippines by persons overseas who retain for their own benefit or for the benefit of a third party, foreign currency deposit accounts with the Group.

Foreign currency liabilities are generally used to fund the Group's foreign exchange assets which generally consist of foreign currency-denominated loans and investments in the FCDU. Banks are required by the BSP to match the foreign currency-denominated liabilities with assets held in the FCDU that are denominated in the same foreign currency.

The Group's policy is to maintain foreign currency exposure within existing regulations, and within acceptable risk limits. The Group believes in ensuring its foreign currency is at all times within limits prescribed for financial institutions who are engaged in the same types of businesses in which the Group and its subsidiaries are engaged.

The table below summarizes the Group's and Parent Company's exposure to foreign exchange risk, excluding the US Dollar denominated assets and liabilities under FCDU with functional currency also in US Dollars. Included in the table are the Group's and Parent Company's assets and liabilities at carrying amounts (stated in US Dollars), categorized by currency, with its PHP equivalent:

The impact in pre-tax income and equity is due to the effect of foreign currency behaviour to Philippine Peso.

Equity Price Risk

Equity price risk is the risk that the fair values of equities change as a result of movements in both the level of equity indices and the value of individual stocks. The non-trading equity price risk exposure arises from the Group's investment portfolio.

The effect on the Group and Parent Company's equity as a result of a change in the fair value of equity instruments held as at FVOCI due to a reasonably possible change in equity indices, with all other variables held constant, is as follows (in millions):

	Consolidated		Parent Company	
	Change in equity index	Effect on Equity	Change in equity index	Effect on Equity
2025	+10%	₱32.4	+10%	₱33.4
	-10%	(42.5)	-10%	(35.5)
2024	+10%	₱5.8	+10%	₱5.8
	-10%	(0.8)	-10%	(0.8)

Liquidity Risk and Funding Management

Liquidity risk is generally defined as the current and prospective risk to earnings or capital arising from the Group's inability to meet its obligations when they become due without incurring unacceptable losses or costs.

The Group's liquidity management involves maintaining funding capacity to accommodate fluctuations in asset and liability levels due to changes in the Group's business operations or unanticipated events created by customer behavior or capital market conditions. The Group seeks to ensure liquidity through a combination of active management of liabilities, a liquid asset portfolio composed of deposits reserves and high quality securities, the securing of money market lines, and the maintenance of repurchase facilities to address any unexpected liquidity situations.

The tables below show the maturity profile of the Group's and the Parent Company's assets and liabilities, based on contractual undiscounted cash flows (in millions):

Liquidity risk is monitored and controlled primarily by a gap analysis of maturities of relevant assets and liabilities reflected in the MCO report, as well as an analysis of available liquid assets. Instead of relying solely on contractual maturities profile, the Parent Company uses Behavioral MCO to capture a going concern view. Furthermore, internal liquidity ratios and monitoring of large fund providers have been set to determine sufficiency of liquid assets over deposit liabilities. Liquidity is managed by the Parent Company and its subsidiaries on a daily basis, while scenario stress tests and sensitivity analysis are conducted periodically.

CBSI

Cost of investment includes the original amount incurred by the Parent Company from its acquisition of CBSI in 2007 amounting to ₱1.07 billion.

On August 2, 2023, the BOD of the Parent Company took up and approved, confirmed, and ratified the capital infusion amounting to ₱2.00 billion to CBSI, in order to support CBSI's sustained loan expansion and enhance its ability to cover and serve more segments of the banking and unbanked population. The additional capital is to be infused to CBSI in tranches and is based on certain conditions. On December 22, 2023, the Parent Company infused additional capital to CBSI amounting to ₱1.00 billion. On July 2, 2025, the Parent Company infused additional capital to CBSI amounting to ₱1.00 billion.

Merger of CBSI with PDB

The BOD of both CBSI and PDB, in their meeting held on June 26, 2014, approved the proposed merger of PDB with CBSI, with the latter as the surviving bank. On November 6, 2015, the BSP issued the Certificate of Authority on the Articles of Merger and the Plan of Merger, as amended, of CBSI and PDB. On December 17, 2015, CBSI obtained SEC's approval of its merger with PDB, whereby the entire assets and liabilities of PDB shall be transferred to and absorbed by CBSI.

Acquisition of PDB

In 2014, the Parent Company made tender offers to non-controlling stockholders of PDB. As of December 31, 2014, the Parent Company owns 99.85% and 100.00% of PDB's outstanding common and preferred stocks, respectively.

The consideration transferred for the acquisition of PDB amounted to:

Acquisition of majority of PDB's capital stock	₱1,421,346
Tender offers	255,354
	<u>₱1,676,700</u>

In 2014 and 2015, the Parent Company made additional capital infusion to PDB amounting to ₱1.30 billion and ₱1.70 billion, respectively.

In 2015, the Monetary Board (MB) of the BSP granted to the Group investment and merger incentives in the form of waiver of special licensing fees for 67 additional branch licenses in restricted areas. This is in addition to the initial investment and merger incentives of 30 new branches in restricted areas and 35 branches to be transferred from unrestricted to restricted areas granted to the Parent Company by the MB in 2014. These branch licenses were granted under the Strengthening Program for Rural Bank (SPRB) Plus Framework.

On April 6, 2016, the Parent Company's BOD approved the allocation of the 67 additional branch licenses in restricted areas as follows: 49 to the Parent Company and 18 to CBSI.

The branch licenses have the following fair values:

114 Commercial Bank branch licenses	₱2,280,000
18 Thrift Bank branch licenses	270,000
	<u>2,550,000</u>
Deferred tax liability	<u>(765,000)</u>
	<u>₱1,785,000</u>

Goodwill from acquisition of PDB is computed as follows:

Consideration transferred	₱1,676,700
Less: Fair value of identifiable assets and liabilities acquired	
Net liabilities of PDB*	(₱725,207)
Branch licenses, net of deferred tax liability (Note 14)	1,785,000
	<u>1,059,793</u>
	<u>₱616,907</u>

**inclusive of the existing branch licenses of PDB with an aggregate fair value of ₱289.50 million (Note 14)*

CBCC

On April 1, 2015, the BOD approved the investment of the Parent Company in an investment house subsidiary, CBCC, up to the amount of ₱500.00 million. On April 30, 2015, the BSP approved the Parent Company's investment of up to 100% or up to ₱500.00 million common shares in CBCC. On November 27, 2015, the SEC approved the Articles of Incorporation and By-Laws of CBCC and granted CBCC the license to operate as an investment house.

CBCC acquisition of CBCSec (formerly ATC Securities, Inc.)

On May 19, 2016, the BOD of CBCC approved the acquisition of ATC Securities, Inc. (ATC).

On June 29, 2016, CBCC and the shareholders of ATC (the Original Shareholders) entered into an Agreement for the Purchase of Shares whereby CBCC agreed to buy, and the Original Shareholders agreed to sell, 3,800,000 shares representing 100% of the issued and outstanding shares of ATC.

On July 6, 2017, the SEC approved the change of name from ATC Securities, Inc. to China Bank Securities Corporation.

On May 15, 2025, the BOD of CBCC declared and approved cash dividends amounting to ₱2.0 billion for stockholders on record as of April 30, 2025, payable on June 30, 2025.

CBC Assets One (SPC), Inc.

CBC Assets One (SPC), Inc. was incorporated on June 15, 2016 as a wholly-owned special purpose company of CBCC for asset-backed securitization. It has not yet commenced commercial operations.

Resurgent Capital (FIST-AMC), Inc.

Resurgent Capital (FIST-AMC), Inc. was incorporated on September 6, 2021 as a wholly-owned FIST Corporation of CBCC. The primary purpose is to invest in, or acquire, Non-Performing Assets ("NPAs") of any financial institution. It has not yet commenced commercial operations.

Investment in Associates

Investment in associates in the consolidated and the parent company financial statements pertain to investment in MCB Life and CBC-PCCI's investment in Urban Shelters (accounted for by CBC-PCCI in its financial statements as an investment in an associate). Investment in Urban Shelters is carried at nil amount as of December 31, 2025 and 2024.

MCB Life

On January 5, 2007, the Manufacturers Life Insurance Company (Manulife) and the Parent Company entered into the Bancassurance Alliance Agreement. On August 23, 2007, Manulife China Bank Life Assurance Corporation (MCB Life) and the Parent Company entered into the Cooperation Agreement. These agreements (collectively, the 2007 Agreements) set out the initial terms of cooperation between the Parent Company and MCB Life in connection with the promotion and sale of life insurance products for an initial term of 15 years.

The Parent Company acquired 5.00% interest in MCB Life on August 8, 2007. This investment is accounted for as an investment in an associate by virtue of the Bancassurance Alliance Agreement which provides the Parent Company with the right to be represented in MCB Life's BOD and, thus, exercise significant influence over the latter.

On September 12, 2014, the BSP approved the request of the Parent Company to raise its capital investment from 5.00% to 40.00% of MCB Life's authorized capital through purchase of 1.75 million common shares. On September 29, 2014, Manulife, MCB Life and the Parent Company (the Parties) signed the Bancassurance Agreement with an effective start date of July 1, 2014. The term of the Bancassurance Agreement shall be ten (10) years (from July 1, 2014 to June 30, 2024), during which time MCB Life, in exchange for the Parent Company's increase in equity stake in MCB Life and other considerations, will have exclusive rights to the Parent Company's distribution network and customers.

On June 19, 2024, the Parties signed and submitted the first extension letter to the Insurance Commission to extend the Bancassurance Agreement from July 1, 2024 by a period of three (3) months to October 1, 2024. The Parties submitted subsequent extension letters, the most recent of which extends the Bancassurance Agreement until the earlier between March 31, 2025 and the date on which the Insurance Commission approves a new bancassurance agreement.

In April 2025, the Parties agreed to the renewal of the joint venture for another 15 years. The terms of the renewal include the payment by MCB Life of an access fee over the 15-year period to the Parent Company amounting to ₱3.25 billion. Manulife will fund the access fee through a capital infusion into MCB Life in the form of additional paid-in capital. This capital infusion will not result in the issuance of any new shares, allowing the current ownership structure to remain unchanged and preserving existing ownership percentages among shareholders (i.e., Manulife holding 60% and the Parent Company holding 40%). As a result, the Parent Company recognized a one-time gain amounting to ₱1.3 billion representing its share in the increase in net assets of MCB Life, which is included in the 'Share in net income of an associate' in the statements of income.

The Parent Company received cash dividends from MCB Life of ₱240.00 million and ₱160.00 million on December 10, 2025 and November 29, 2024, respectively.

The following tables show the summarized financial information of MCB Life:

The Group adopted the deemed cost model on January 1, 2004 and considered the carrying value of the land determined under its previous accounting method (revaluation method) as the deemed cost of the asset as of January 1, 2005. Accordingly, revaluation increment amounting to ₱1.28 billion was closed to surplus (Note 24) in 2011.

On July 7, 2025, the Parent Company acquired additional interest in the VGP Condominium at a purchase price amounting to ₱2.10 billion, inclusive of transaction costs. The acquisition brings the Group's total ownership interest in the condominium to 94.47%. The condominium is significantly occupied by the Group's employees.

As of December 31, 2025 and 2024, the gross carrying amount of fully depreciated furniture, fixtures and equipment still in use amounted to ₱3.89 billion and ₱3.83 billion, respectively, for the Group and ₱2.88 billion and ₱2.86 billion, respectively, for the Parent Company.

Gains on sale of furniture, fixtures and equipment amounting to ₱0.2 million, ₱12.32 million, and ₱2.10 million in 2025, 2024, and 2023, respectively, for the Group and ₱0.2 million, ₱7.79 million, and ₱1.50 million in 2025, 2024, and 2023, respectively, for the Parent Company are included in the statements of income under 'Miscellaneous income' account (Note 22).

In 2023, depreciation and amortization amounting to ₱1.70 billion and ₱1.28 billion for the Group and Parent Company, respectively, are included in the statements of income under ‘Depreciation and amortization’ account.

In 2025, in view of the expiration and non-exercise of the repurchase option by the borrower or assignor-lessee, the Parent Company recognized as Investment Properties a real estate property which was subject to an assignment and leaseback transaction with option to repurchase entered into in 2023 as settlement of a loan receivable. The recognition resulted to a gain on asset foreclosure and dacion transactions amounting to ₱6.88 billion.

In 2023, depreciation and amortization amounting to ₱158.48 million and ₱103.59 million for the Group and Parent Company, respectively, are included in the statements of income under 'Depreciation and amortization' account.

Details of rental income earned and direct operating expenses incurred on investment properties follow:

Rent income earned from leasing out investment properties is included under 'Miscellaneous income' in the statements of income (Note 22).

Direct operating expenses include occupancy cost, repairs and maintenance, and taxes and licenses related to the investment properties.

14. Goodwill and Intangible Assets

Goodwill

Goodwill represents the excess of the acquisition costs over the fair value of the identifiable assets and liabilities of companies acquired by the Group.

The goodwill arising from the acquisitions of CBSI and PDB has been allocated to RBB and CBSI as the CGU, respectively. The goodwill is attributed to the factors such as an increase in geographical presence and customer base due to the branches acquired.

Following the acquisition of CBSI, certain assets and liabilities (including branch licenses) were transferred to the Parent Company. As the economic value of goodwill arising from the CBSI acquisition can be attributed to the branches transferred, such goodwill was transferred to the books of the Parent Company.

As of December 31, 2025 and 2024, the amount of goodwill per CGU follows:

	Consolidated	Parent Company
RBB	₱222,841	₱222,841
CBSI	616,907	—
Total	₱839,748	₱222,841

The recoverable amount of the CGUs has been determined based on a value-in-use calculation using cash flow projections from financial budgets approved by senior management covering a five-year period, which do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset base of the CGU being tested. Other than loans and deposits growth rates, the significant and most sensitive assumptions used in computing for the recoverable values of the CGUs follow:

	2025		2024	
	RBB	CBSI	RBB	CBSI
Discount rate	11.18%	8.84%	12.99%	15.72%
Long-term growth rate	4.58%	1.00%	1.00%	2.00%

With regard to the assessment of value-in-use of the CGU, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the goodwill to materially exceed its recoverable amount as of December 31, 2025 and 2024.

Exchange Trading Right

As of December 31, 2025 and 2024, the Group has an exchange trading right with the following carrying values:

	2025	2024
Cost	₱12,000	₱12,000
Allowance for impairment losses	(4,300)	(4,000)
	₱7,700	₱8,000

The trading right has an indefinite useful life and, thus, is not amortized but is subject for impairment at every reporting date. In 2025, 2024, and 2023, the Group recognized an impairment loss amounting to ₱0.30 million, nil, and ₱0.50 million, respectively.

Under the PSE rules, all exchange membership seats are pledged at its full value to the PSE to secure the payment of all debts to other members of the exchange arising out of or in connection with the present or future members' contracts.

Accounts receivable

Accounts receivable includes non-interest-bearing advances to officers and employees, with terms ranging from 1 to 30 days, and receivables of the Parent Company from automated teller machine (ATM) transactions of clients of other banks that transacted through any of the Parent Company's ATM terminals.

Sales contract receivable

This refers to the amortized cost of receivables arising from the subsequent sale of assets acquired in settlement of loans through foreclosure or dation in payment where the sale is on installment basis and the title to the said property is transferred to the buyers only upon full payment of the agreed selling price.

SCR bears fixed interest rates per annum ranging from 6.00% to 18.00% in 2025, from 6.00% to 18.00% in 2024, and from 3.50% to 18.00% in 2023 for the Group and from 6.00% to 9.00% in 2025, from 6.00% to 10.00% in 2024 and 2023 for the Parent Company.

Miscellaneous

Miscellaneous consists mainly of unissued stationery and supplies, inter-office float items, and deposits for various services.

BSP Circular No. 830 requires reserves against deposit liabilities. As of December 31, 2025 and 2024, due from BSP amounting to ₱43.14 billion and ₱52.06 billion, respectively, for the Group and ₱42.30 billion and ₱50.11 billion, respectively, for the Parent Company were set aside as reserves for deposit liabilities per latest report submitted to BSP.

As of December 31, 2025 and 2024, the Group is in compliance with the reserve requirement.

Long Term Negotiable Certificates of Deposits (LTNCD)

On March 7, 2018, the Board of Directors approved the Bank's Peso funding program of up to ₱50.00 billion via a combination of Long-Term Negotiable Certificate of Time Deposit and/or Retail Bonds and/or Commercial Papers. Part of the funding program is a ₱20.00 billion LTNCD program which was approved by BSP on June 14, 2018.

On July 12, 2018, the Parent Company issued at par LTNCDs with aggregate principal amount of ₱10.25 billion due January 12, 2024, representing the first tranche of the ₱20 billion LTNCD program. The LTNCDs bear a fixed coupon rate of 4.55% per annum, payable quarterly in arrears. The Parent Company settled the LTNCDs on January 12, 2024.

18. Bonds Payable

The Parent Company held the following bonds payable:

₱20.00 Billion Peso Fixed Rate Bonds

On February 18, 2021, the Parent Company issued ₱20.00 billion Peso fixed rate bonds, which bear a fixed coupon rate of 2.50% per annum, payable monthly, and matured on February 18, 2024.

\$150.00 Million Bonds Payable to IFC

On June 18, 2019, the Parent Company issued a \$150.00 million, seven-year bond to International Finance Corporation (IFC). The bond reprices semi-annually and carries an interest margin of 120 basis points over 6-month LIBOR.

Shortly thereafter, the Parent Company entered into a seven-year pay-fixed, receive-floating IRS with the same principal terms to hedge the exposure to interest rate risk attributable to variable cash flow payments on the floating-rate bonds payable. This transaction was designated as an accounting hedge with the bond payable as the hedged item and the IRS as the hedging instrument.

On May 11, 2023, the Parent Company informed IFC of its decision to pre-terminate the \$150 million bonds payable with the latter. The pretermination of the bonds took effect on June 15, 2023, and resulted in a loss of ₱17.98 million. On May 18, 2023, the Parent Company pre-terminated the IRS. The pretermination of the IFC bonds payable resulted in the discontinuance of the cash flow hedge and the recycling of the corresponding hedge reserve of the IRS from the OCI to profit or loss. Realized gains from the pre-termination of the IRS amounted to ₱468.35 million in 2023.

The Parent Company recognized an amortization of the discount and debt issue cost on the above bonds payable amounting to nil, ₱10.69 million, and ₱57.32 million in 2025, 2024, and 2023 respectively.

Surplus

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following BSP guidelines.

As of December 31, 2025 and 2024, surplus includes the amount of ₱1.37 billion, net of deferred tax effect of ₱456.17 million, representing transfer of revaluation increment on land which was carried at deemed cost when the Group transitioned to PFRS in 2005 (Note 12). This amount will be available to be declared as dividends upon sale of the underlying land.

In the consolidated financial statements, a portion of the Group's surplus corresponding to the net earnings of the subsidiaries and associates amounting to ₱18.35 billion and ₱13.93 billion as of December 31, 2025 and 2024, respectively, is not available for dividend declaration. The accumulated equity in net earnings becomes available for dividends upon declaration and receipt of cash dividends from the investees.

Reserves

In compliance with BSP regulations, 10.00% of the Parent Company's profit from trust business is appropriated to surplus reserve. This annual appropriation is required until the surplus reserves for trust business equals 20.00% of the Parent Company's authorized capital stock.

Upon adoption of PFRS 9, BSP requires appropriation of a portion of the Group's Surplus at an amount necessary to bring to at least 1% the allowance for credit losses on loans (Note 16).

Capital Management

The primary objectives of the Group's capital management are to ensure that it complies with externally imposed capital requirements and that it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies, and processes as of December 31, 2025 and 2024.

Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's unimpaired capital (regulatory capital) as reported to the BSP. This is determined on the basis of regulatory accounting policies which differ from PFRS in some respects.

In addition, the risk-based capital ratio of a bank, expressed as a percentage of qualifying capital to risk-weighted assets (RWA), should not be less than 10.00% for both solo basis (head office and branches) and consolidated basis (Parent Company and subsidiaries engaged in financial allied undertakings but excluding insurance companies). Qualifying capital and RWA are computed based on BSP regulations. RWA consists of total assets less cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board of the BSP.

On August 4, 2006, the BSP, under BSP Circular No. 538, issued the prescribed guidelines implementing the revised risk-based capital adequacy framework for the Philippine banking system to conform to Basel II capital adequacy framework. The BSP guidelines took effect on July 1, 2007. Thereafter, banks were required to compute their CAR using these guidelines.

Standardized credit risk weights were used in the credit assessment of asset exposures. Third party credit assessments were based on ratings by international credit assessment agencies – Standard & Poor's, Moody's, and Fitch, and BSP-recognized domestic credit assessment agencies such as PhilRatings. Per BSP guidelines, domestic debt issuances may be rated by BSP-recognized domestic credit assessment agencies or by international credit assessment agencies which have developed a national rating system acceptable to the BSP. Internationally-issued debt obligations shall be rated by BSP-recognized international credit assessment agencies only.

On January 15, 2013, the BSP issued Circular No. 781, *Basel III Implementing Guidelines on Minimum Capital Requirements*, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The circular took effect on January 1, 2014.

The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50%. It also introduces a capital conservation buffer of 2.50% comprised of CET1 capital. The BSP's existing requirement for Total CAR remains unchanged at 10.00% and this ratio shall be maintained at all times.

Further, existing capital instruments as of December 31, 2010 which do not meet the eligibility criteria for capital instruments under the revised capital framework shall no longer be recognized as capital upon the effectivity of Basel III. Capital instruments issued under BSP Circular Nos. 709 and 716 (the circulars amending the definition of qualifying capital particularly on Hybrid Tier 1 and Lower Tier 2 capitals), starting January 1, 2011 and before the effectivity of BSP Circular No. 781, shall be recognized as qualifying capital until December 31, 2017. In addition to changes in minimum capital requirements, this Circular also requires various regulatory adjustments in the calculation of qualifying capital.

The Group and the Parent Company have complied with all externally imposed capital requirements throughout the period.

The issuance of BSP Circular No. 639 covering the ICAAP in 2009 supplements BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this circular, the Parent Company has adopted and developed its ICAAP framework to ensure that appropriate level and quality of capital are maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market, and operational risks and onto other risks deemed material by the Parent Company. The level and structure of capital are assessed and determined in light of the Parent Company's business environment, plans, performance, risks, and budget, as well as regulatory edicts.

On April 16, 2021, the BSP issued Circular No. 1113, which requires that the recovery plan shall be distinct and separate from the ICAAP document. It should be submitted every June 30, beginning in 2022. On October 18, 2022, the BSP issued Circular No. 1158, which enumerates the new guidelines on recovery plan of banks. The Group has complied with the requirements for the 2025 submission.

Leverage Ratio

On June 9, 2015, BSP issued circular No. 881, which approved the guidelines for the implementation of the Basel III Leverage Ratio in the Philippines. The Basel III Leverage Ratio is designed to act as a supplementary measure to the risk-based capital requirements. The leverage ratio intends to restrict the build-up of leverage in the banking sector to avoid destabilizing deleveraging processes which can damage the broader financial system and the economy. Likewise, it reinforces the risk-based

requirements with a simple, non-risk based “backstop” measure. The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator). The monitoring of the leverage ratio was implemented as a Pillar 1 minimum requirement effective on 1 July 2018. The Basel III leverage ratio of the banks shall not be less than 5.00%.

The BLR of the Group and the Parent Company as of December 31, 2025 and 2024 as reported to the BSP are shown in the table below.

Leverage Ratio	9.49%	9.33%	9.47%	9.18%

Liquidity Coverage Ratio

On 18 February 2016, BSP issued Circular No. 905 which approved the attached liquidity standards, which include guidelines on liquidity coverage ratio (LCR) and LCR disclosure standards that are consistent with the Basel III framework. Banks are required to adopt Basel III's LCR aimed at strengthening the short-term liquidity position of banks. This requires banks to have available High Quality Liquid Assets (HQLA) to meet anticipated net cash outflow for a 30-day period under stress conditions. The standard prescribes that, under a normal situation, the value of the liquidity ratio be no lower than 100% on a daily basis because the stock of unencumbered HQLA is intended to serve as a defense against potential onset of liquidity stress. Beginning January 1, 2019, the prescribed minimum ratio of LCR is 100.00%. As of December 31, 2025 and 2024, the LCR in single currency is 121.64% and 110.67%, respectively, for the Group and 120.88% and 108.67%, respectively, for the Parent Company.

Net Stable Funding Ratio

On 24 May 2018, BSP issued Circular No. 1007 which approved the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards - Net Stable Funding Ratio (NSFR). Banks are required to adopt Basel III's NSFR aimed to promote long-term resilience of banks against liquidity risk. Banks shall maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. The NSFR complements the LCR, which promotes short-term resilience of a Bank's liquidity profile. The Group started monitoring and reporting NSFR to the BSP in 2019. The banks shall maintain a NSFR of at least 100.00% at all times. As of December 31, 2025 and 2024, the NSFR is 113.40% and 112.92%, respectively, for the Group and 111.88% and 110.82%, respectively, for the Parent Company.

25. Retirement Plan

The Group has separate funded noncontributory defined benefit retirement plans covering substantially all its officers and regular employees. The retirement plans are administered by the Parent Company's Trust Group which acts as the trustee of the plans. Under these retirement plans, all covered officers and employees are entitled to cash benefits after satisfying certain age and service requirements. The latest actuarial valuation studies of the retirement plans were made as of December 31, 2025.

The Group's annual contribution to the retirement plan consists of a payment covering the current service cost, unfunded actuarial accrued liability, and interest on such unfunded actuarial liability.

As of December 31, 2025 and 2024, the Parent Company assessed that the hedging relationships are expected to be highly effective.

The aggregate net interest income on the IRS designated as hedge amounted to ₱1.18 billion, ₱302.73 million, and ₱2.78 billion in 2025, 2024, and 2023, respectively. The ineffective portion of the hedging relationships recognized under ‘Trading and securities gain (loss) - net’ in the statements of income is a gain amounting to nil, nil, and ₱124.52 million for 2025, 2024, and 2023, respectively (Note 22).

The amortization of the forward element pertaining to the cost of hedging presented under 'Foreign exchange loss – net' in the statements of income amounted to ₱15.01 billion, ₱14.01 billion, and ₱7.90 billion for 2025, 2024, and 2023, respectively.

27. Lease Contracts

The lease contracts are for periods ranging from one (1) to 15 years from the dates of the contracts and are renewable under certain terms and conditions. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 5.00% to 10.00%.

Movements in the lease liabilities account are as follows:

	Consolidated		Parent Company	
	2025	2024	2025	2024

28. Income and Other Taxes

Income taxes include corporate income tax and FCDU final taxes, as discussed below, and final tax paid at the rate of 20.00% on gross interest income from government securities and other deposit substitutes. These income taxes, as well as the deferred tax benefits and provisions, are presented as 'Provision for income tax' in the statements of income.

Republic Act (RA) No. 9337, *An Act Amending National Internal Revenue Code*, as amended by RA 10963 otherwise known as the Tax Reform for Acceleration and Inclusion (TRAIN) and RA 11534 otherwise known as Corporate Recovery and Tax Incentives for Enterprises (CREATE), provides that Regular Corporate Income Tax (RCIT) rate shall be 25.00% while interest expense allowed as a deductible expense is reduced to 20.00% of interest income subject to final tax.

CREATE Law reduced the rate of Minimum Corporate Income Tax (MCIT) from 2.00% to 1.00%, however, Revenue Memorandum Circular (RMC) No. 69-2023 reverted MCIT to 2.00% starting July 1, 2023. An MCIT of 2.00% on gross income is computed and compared with the RCIT. Any excess MCIT over RCIT is deferred and can be used as a tax credit against future income tax liability for the next three years. In addition, the NOLCO is allowed as a deduction from taxable income in the next three years from the year of inception.

Effective in May 2004, RA No. 9294 restored the tax exemption of FCDUs and offshore banking units (OBUs). Under such law, the income derived by the FCDU from foreign currency transactions with nonresidents, OBUs, local commercial banks including branches of foreign banks is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% gross income tax. All other income of the FCDU is subject to the 25.00% corporate tax under the CREATE Law.

CMEPA Law

RA No. 12214 otherwise known as Capital Markets Efficiency Promotion Act (CMEPA) was signed into law last May 29, 2025. The law took effect on July 1, 2025.

The key changes to the Philippine tax law pursuant to the CMEPA Law which have an impact to the Group are the following:

- Standardization of 20.00% final tax on any currency deposits, regardless of tenure (i.e., removing the previous tax exemption on interest income from long-term deposits), except for non-resident alien not engaged in trade or business (NRANETB) and non-resident foreign corporation (NRFC), whose interest income will still be subject to 25.00% final withholding tax (FWT);
- Gains realized from long-term bonds, debentures, or other certificate of indebtedness are now part of gross income, therefore, subject to 25.00% RCIT;
- Exclusion from gross income of gains from redemption of shares of units of participation in mutual fund and unit investment trust fund (UITF), thus, exempt from 25.00% RCIT, provided that prior to such redemption, final taxes due on realized gains have been withheld at the level of the underlying assets;
- Revised Documentary Stamp Tax (DST) rate of 75.00% of 1.00% on original issuance of shares and debt instruments while original issuances of UITFs and mutual funds are now exempt from DST, as well as the sale, exchange, redemption or other disposition of shares of stock listed and traded through a foreign stock exchange.
- Exclusion of Reverse Repurchase Agreements with BSP under the definition of deposit substitute. Interest income from reverse repurchase transaction is now subject to 25.00% RCIT, which was previously subject to final withholding tax.

The provision for income tax consists of:

29. Trust Operations

Securities and other properties (other than deposits) held by the Parent Company in fiduciary or agency capacities for clients and beneficiaries are not included in the accompanying balance sheets since these are not assets of the Parent Company (Note 31).

In compliance with the requirements of current banking regulations relative to the Parent Company's trust functions: (a) government bonds included under financial assets at FVOCI with total face value of ₱3.35 billion and ₱3.16 billion as of December 31, 2025 and 2024, respectively, are deposited with the BSP as security for the Parent Company's faithful compliance with its fiduciary obligations (Note 9); and (b) a certain percentage of the Parent Company's trust fee income is transferred to surplus reserve. This yearly transfer is required until the surplus reserve for trust function equals 20.00% of the Parent Company's authorized capital stock.

30. Related Party Transactions

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- key management personnel, close family members of key management personnel and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members,
- significant investors,
- subsidiaries, joint ventures and associates and their respective subsidiaries, and
- post-employment benefit plans for the benefit of the Group's employees.

The Group has several business relationships with related parties. Transactions with such parties are normally made in the ordinary course of business and based on the terms and conditions discussed below. Transactions with related parties are settled in cash, unless otherwise indicated.

Transactions with Retirement Plans

Under PFRS, certain post-employment benefit plans are considered as related parties. The Group has business relationships with a number of its retirement plans pursuant to which it provides trust and management services to these plans. Income earned by the Group and Parent Company from such services amounted to ₱83.69 million and ₱75.94 million, respectively, in 2025, ₱67.71 million and ₱59.84 million, respectively, in 2024, and ₱56.74 million and ₱49.77 million, respectively, in 2023. The Group's retirement funds may hold or trade the Parent Company's shares or securities. Significant transactions of the retirement fund, particularly with related parties, are approved by the Trust Investment Committee (TIC) and the Related Party Transaction (RPT) Committee of the Parent Company. The members of the TIC are directors and key management personnel of the Parent Company.

A summary of transactions with related party retirement plans follows:

32. Segment Information

The Group's operating businesses are recognized and managed separately according to the nature of services provided and the markets served, with each segment representing a strategic business unit. The businesses are organized to cater to the banking needs of market segments, facilitate customer engagement, ensure timely delivery of products and services as well as achieve cost efficiency and economies of scale. In 2022, the Lending Business Segment was split into two separate segments,

namely, Institutional Banking Segment and Consumer Banking Segment to integrate various business units for synergy and maximization of potential value in terms of market share, product line, customer base and operational efficiency. Corresponding segment information for all periods presented herein are restated to reflect such change.

The Group's business segments are as follows:

- a. Institutional Banking – principally handles lending, trade finance and related banking products and services for corporate, institutional, and selected middle market clients. This segment also manages retail and commercial loan portfolios progressively transferred from the Retail Banking Business Segment as part of the Parent Company's business realignment strategy;
- b. Consumer Banking – principally handles home loans, contract-to-sell receivables, loans to developers, auto loans and credit cards for individual and/or corporate customers;
- c. Retail Banking Business – principally handles deposits products, overdrafts and funds transfer facilities, trade services and other banking services for retail customers. Retail and commercial loan portfolios are being progressively transferred to Institutional Banking Segment under the Parent Company's business realignment strategy;
- d. Financial Markets – principally provides money market, trading and treasury services, manages the Parent Company's funding operations through the use of government securities, placements and acceptances with other banks as well as offers advisory and capital-raising services to corporate clients and remittance transactions;
- e. Others – handles other services including but not limited to trust and investment management services, wealth management services to high net-worth customers, asset management, credit management, operations and financial control, cash management services and other support services; and
- f. Subsidiaries – handles services of the subsidiaries and affiliates such as thrift banking business, investment house, insurance brokerage, bancassurance business, stock brokerage and computer-related services.

The Group reports its primary segment information to the Chief Operating Decision Maker (CODM) on the basis of the above-mentioned segments. The CODM of the Group is the President and Chief Executive Officer of the Parent Company.

Segment assets are those operating assets that are employed by a segment in its operating activities that are either directly attributable to the segment or can be allocated to the segment on a reasonable basis. Segment liabilities are those operating liabilities that result from the operating activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Interest income is reported net as management primarily relies on the net interest income as a measure of performance, instead of gross income and expense.

The segment results include internal transfer pricing adjustments across business units as deemed appropriate by management. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to the business units based on a pool of funds rate which approximates the marginal cost of funds.

Other operating income mainly consists of trading and securities gain (loss) - net, service charges, fees and commissions, trust fee income and foreign exchange gain - net. Other operating expense mainly consists of compensation and fringe benefits, provision for impairment and credit losses, taxes and licenses, occupancy, depreciation and amortization, stationery, supplies and postage and insurance. Other operating income and expense are allocated between segments based on equitable sharing arrangements.

The Group has no significant customers which contribute 10% or more of the consolidated revenues.

The Group's asset-producing revenues are located in the Philippines (i.e., one geographical location); therefore, geographical segment information is not presented.

33. Earnings Per Share

Basic EPS amounts are calculated by dividing the net income for the year by the weighted average number of common shares outstanding during the year.

The following reflects the income and share data used in the basic earnings per share computations:

	2025	2024	2023
a. Net income attributable to equity holders of the parent	₱27,977,951	₱24,803,274	₱22,010,790
b. Weighted average number of common shares outstanding (Note 24)	2,691,343	2,691,341	2,691,340
c. Earnings per share – basic and diluted (a/b)	₱10.40	₱9.22	₱8.18

As of December 31, 2025, 2024 and 2023, there were no outstanding dilutive potential common shares.

Related party loans

As required by the BSP, the Group discloses loan transactions with its and affiliates and investees and with certain directors, officers, stockholders, and related interests (DOSRI). Under existing banking regulations, the limit on the amount of individual loans to DOSRI, of which 70.00% must be secured, should not exceed the regulatory capital or 15.00% of the total loan portfolio, whichever is lower. These limits do not apply to loans secured by assets considered as non-risk as defined in the regulations.

BSP Circular No. 423, dated March 15, 2004, amended the definition of DOSRI accounts. The following table shows information relating to the loans, other credit accommodations, and guarantees classified as DOSRI accounts under regulations existing prior to said Circular, and new DOSRI loans, other credit accommodations granted under said Circular:

The amounts of loans disclosed for related parties above differ with the amounts disclosed for key management personnel since the composition of DOSRI is more expansive than that of key management personnel.

BSP Circular No. 560 provides that the total outstanding loans, other credit accommodations, and guarantees to each of the bank's/quasi-bank's subsidiaries and affiliates shall not exceed 10.00% of the net worth of the lending bank/quasi-bank, provided that the unsecured portion of which shall not exceed 5.00% of such net worth. Further, the total outstanding loans, credit accommodations, and guarantees to all subsidiaries and affiliates shall not exceed 20.00% of the net worth of the lending bank/quasi-bank; and the subsidiaries and affiliates of the lending bank/quasi-bank are not related interest of any director, officer, and/or stockholder of the lending institution, except where such director, officer, or stockholder sits in the BOD or is appointed officer of such corporation as representative of the bank/quasi-bank.

On May 12, 2009, BSP issued Circular No. 654 allowing a separate individual limit of twenty-five (25.00%) of the net worth of the lending bank/quasi-bank to loans of banks/quasi-banks to their subsidiaries and affiliates engaged in energy and power generation.

**GUIDELINES FOR PARTICIPATION VIA REMOTE COMMUNICATION
AND VOTING *IN ABSENTIA***

The 2026 Annual Stockholders’ Meeting (ASM) of the China Banking Corporation (Chinabank) is scheduled on April 16, 2026 at 4:00 P.M. (Manila Time). The Board of Directors has set the close of business on February 26, 2026 as the record date for the determination of stockholders entitled to notice of, to attend, and to vote during the ASM and any adjournment thereof.

On January 7, 2026, the Board of Directors has approved to allow the conduct of the ASM and participation therein by the stockholders in hybrid format. In-person attendance at the meeting will be held at the Chinabank Building - Penthouse, 8745 Paseo de Roxas cor. Villar St., Makati City. For those who are unable to attend in person, the Board of Directors has likewise approved and authorized attendance and participation via remote communication and the exercise of right to vote *in absentia*.

ONLINE REGISTRATION

Stockholders who wish to attend and participate in the 2026 ASM via remote communication must go through the entire registration process in order for them to gain access to Chinabank’s secure Online Voting Portal. Online registration shall be open until April 10, 2026.

Stockholders can access the Online Registration Portal, Voting Portal, Livestream Broadcast, as well as additional information about the event through Chinabank’s official 2026 ASM website at <https://www.chinabank.ph/asm2026>.

To begin the online registration process, the stockholders must visit the 2026 ASM website and navigate through the Registration page by clicking on the **REGISTER** button. Stockholders will then be prompted to provide an active email address. Once provided, the system will require the stockholder to validate using a One Time Password (OTP) sent to the stockholders’ email address. The stockholders are advised **not to share** their OTP to any person including any individual claiming to be an employee or representative of Chinabank.

After the email addressed is verified, the stockholder will receive an email containing a link to the Registration Portal.

To complete the registration process, the stockholders or their duly authorized representatives must upload and provide the following information or documents when prompted by the system:

1. Full Name (last name, given name, middle name)
2. Valid and active email address
3. Alternate email address (optional)
4. Tax Identification Number (optional)
5. Landline/Mobile Number (optional)
6. Government-issued ID with photo and signature (scanned front and back)
7. Total number of shares (estimate)

In addition, the following documents must be submitted based on the capacity in which the registrants are attending and participating in the ASM:

- Individual Certificated Stockholders (*for individuals or those with “AND/OR” certificates*)
 1. Stock Certificate Number (optional) – Only one (1) is required if the stockholder has multiple

If appointing a proxy:

- a. Copy of the duly signed Proxy Form of the stockholder
- b. Email address and contact number of the proxy

A sample Proxy Form can be downloaded from the ASM website.

- Representative of a Joint Account (*for “AND” certificates only*)
 1. Stock Certificate Number (optional) – Only one (1) is required if the stockholder has multiple
 2. Copy of the duly signed Proxy Form of the stockholder
 3. Authorization Letter

The authorization letter will serve as proof of authority of the stockholder voting the shares for and on behalf of the other registered stockholders. The authorization letter must reflect the stock certificate number of each of the representative's fellow joint stockholders. A template format can be downloaded from the ASM website.

- Representative of Corporate Stockholders
 1. Secretary's Certificate
 2. Copy of the duly signed Proxy Form of the stockholder
- Stockholders with Shares in a Broker's Account
 1. Stockbroker's Certification of Shareholding

If appointing a proxy:

- a. Copy of the duly signed Proxy Form of the stockholder
- b. Email address and contact number of the proxy

Stockholders attending and participating in the ASM in multiple capacities must go through the online registration process for each capacity. To illustrate, stockholders participating in their individual capacity and at the same time as representative of a Corporate Stockholder, must register twice (one time in their personal capacity and another time as company representative).

Registering stockholders must exert all effort to provide complete and accurate information. Stockholders must refrain from sending duplicate and inconsistent information which can result in failure of the registration process.

Once registration is complete, the information shall be verified and validated by Chinabank. If successful, an automated email will be sent to the stockholders' registered email address containing a link to the Online Voting Portal.

VOTING IN ABSENTIA (Online Voting)

Stockholders who successfully registered will receive an email containing their Registration Reference Number and link to the Online Voting Portal. Stockholders may cast their votes until the meeting is adjourned.

- Step 1. Once the stockholder has received access to the Online Voting Portal, the stockholder will be prompted for an OTP. This OTP can be sent by clicking “Send OTP” button.

The OTP will be sent to the stockholders’ registered email address.

- Step 2. The stockholders can vote on each agenda item. A brief description of each item for stockholders’ approval is appended to the Notice of the Meeting.

2.1. The stockholders may choose to vote “Yes”, “No” or “Abstain” on each agenda item for approval.

2.2. For the election of directors, the stockholders will have the option to vote for all the nominees, or vote for certain nominees only.

The stockholder may vote such number of shares for as many persons as there are directors to be elected or cumulate said shares and give one candidate as many votes as the number of directors to be elected multiplied by the number of shares owned, or distribute them on the same principle among as many candidates as may be seen fit, provided that the total number of votes cast shall not exceed the number of shares owned by the stockholder.

- Step 3. Once the stockholders are satisfied with their votes, they can complete the online voting process by clicking the SUBMIT button.

A summary of their votes will be presented and, once confirmed, an email notification will be sent.

Should the stockholder wish to change any of their votes, they are free to do so while Online Voting is still active.

A stockholder attending and participating in the ASM in multiple capacities must go through the voting process for each capacity.

Online voting will be available until adjournment of the ASM.

PARTICIPATION THROUGH REMOTE COMMUNICATION

The 2026 ASM will be broadcasted live and stockholders who have successfully registered can participate via remote communication. Details of the meeting, reminders, and step-by-step procedures will be sent to stockholders in the email they have provided to Chinabank. Instructions

on how to access the livestream are posted on the ASM website using the following link: <https://www.chinabank.ph/asm2026>.

Audio and video recordings of the ASM will be adequately maintained by Chinabank.

QUESTIONS AND ANSWERS

Stockholders may submit questions and comments, preferably on or before 5:30 P.M. on April 15, 2026, which will be read and answered during the livestream broadcast. Any questions or comments submitted and received but not addressed during the livestream shall be answered directly by email to the stockholder concerned. Additional questions or comments may be sent to investor-relations@chinabank.ph.

For any concerns, please contact Chinabank's Office of the Corporate Secretary at (+632) 8885-5135 or OCSSTOCKS@chinabank.ph, or Investor and Corporate Relations Group at (+632) 8885-5609 or investor-relations@chinabank.ph.

Thereafter, Mr. Florentino handed over the floor to the Chairman for the official conduct of the meeting.

Mr. Hans T. Sy, Chairman of the Board and of the Meeting, welcomed the stockholders and guests to the 2025 Annual Stockholders' Meeting of the Bank, held in a hybrid format, combining in-person and remote attendance. He called the meeting to order and presided over the same. Atty. Leilani B. Elarmo, Corporate Secretary, took the minutes of the proceedings.

To expedite the proceedings, stockholder Alvin A. Quintanilla moved to dispense with the reading of the list of stockholders present – whether in person, by proxy, through remote communication, or *in absentia*. The motion was duly seconded and carried.

The list of stockholders present in person, by proxy, through remote communication, or *in absentia*, with their respective number of shares, and other attendees is attached hereto as Annex "A".

II. PROOF OF NOTICE OF MEETING

The Chairman inquired from the Corporate Secretary about the sending of the required notice of meeting to the stockholders.

Atty. Elarmo confirmed that the stockholders were duly notified of the meeting in accordance with the Bank's By-Laws; the Securities and Exchange Commission's (SEC) Memorandum Circular No. 6, Series of 2020; Sections 23, 49, 50, 57 and other related provisions of the Revised Corporation Code; and SEC Notice dated 12 March 2025 on the alternative mode for distributing documents in connection with the 2025 annual stockholders' meeting.

Moreover, the Notice of Meeting and Information Statement were submitted to the SEC and the Philippine Stock Exchange (PSE) on 13 and 14 March 2025, respectively; and the Notice was published in the business sections of The Philippine Star and Manila Bulletin, both in print and online formats, on 17

and 18 March 2025. Additionally, electronic copies of the Notice of Meeting with Explanation of Agenda Items, Information Statement, Management Report, Annual Report and other pertinent documents were also made available on the Bank's website at www.chinabank.ph and on the PSE's EDGE Portal.

III. CERTIFICATION OF QUORUM

Chairman Sy asked the Corporate Secretary about the presence of a quorum.

The Corporate Secretary certified the existence of a quorum competent to transact business. Based on records and the final count of attendees, with the assistance of the Bank's transfer agent, STSI, in the tabulation of votes, and as verified by SGV, the independent party tasked with validating the votes for the meeting, out of 2,691,343,012 total subscribed and outstanding shares of the Bank, the holders of 2,100,191,206 shares, representing 78.04% or more than two-thirds (2/3) of the outstanding capital stock of the Bank are represented, either in person, by proxy, through remote communication, or *in absentia*.

The Guidelines for Participation via Remote Communication and Voting *in Absentia* was included as Schedule "A" of the Bank's Information Statement.

IV. APPROVAL OF MINUTES OF 18 APRIL 2024 ANNUAL MEETING OF STOCKHOLDERS

The Chairman proceeded to the next item on the Agenda, which is the approval of minutes of the annual stockholders' meeting held on 18 April 2024. The minutes was included in the Information Statement and can also be accessed through the Bank's website, www.chinabank.ph.

There being no objection or matter raised in relation to the minutes, on motion of stockholder Jay Angelo N. Anastacio, and seconded, the reading of the minutes of the Annual Meeting of Stockholders held on 18 April 2024 was dispensed with, and all matters reflected in the minutes were considered complete and accurate, and the minutes was approved for all intents and purposes.

Atty. Elarmo mentioned that the voting period will be opened until the adjournment of the meeting, with the final votes to be recorded in the minutes.

The final votes are as follows:

Opinion	Votes Cast		Percentage (based on shares present or represented at the meeting)	
For	-	2,100,076,711	-	99.995%
Against	-	0	-	0.000%
Abstain	-	0	-	0.000%
Uncast	-	114,495		0.005%

V. ANNUAL REPORT TO STOCKHOLDERS

Chairman Sy called on the Bank's President and Chief Executive Officer (CEO), Mr. Romeo D. Uyan, Jr., to deliver the annual report and provide an overview of the Bank's activities, business and financial performance, and other relevant data for the year 2024.

Mr. Uyan began by thanking everyone who joined the annual stockholders' meeting, whether in-person or virtually. He happily shared that 2024 was another strong year for Chinabank, with key achievements reinforcing its position among the top four largest private universal banks in the Philippines.

He reported that in 2024, businesses worldwide navigated rapid technological shifts and changing consumer expectations. Global GDP grew by 3.2%, with inflation easing in some countries, though

geopolitical and climate risks remained. In the Philippines, the economy strengthened, with 5.7% GDP growth driven by strong domestic demand and investment.

The Bank sustained strong growth in 2024, driven by investments in digital transformation, employee training, branding, and marketing. Chinabank ended the year stronger, backed by: Moody's reaffirmation of Baa2 investment-grade credit rating with a stable outlook; a workforce of 11,350, serving 2.9 million customers nationwide; and a strong financial performance. In 2024, Chinabank's net income reached a record P24.8 billion, up 13% from 2023. Profitability remained strong, with a 15.6% return on equity and 1.6% return on assets.

Chinabank remains the fourth largest private universal bank in the Philippines, with total assets of P1.6 trillion, up 11%. Asset quality improved with an NPL ratio of 1.6% and NPL cover of 139%. Strong deposit growth fueled lending, with deposits up 12% to P1.3 trillion and loans rising 18% to P933 billion. With P169 billion in equity, a 15.3% CET1 ratio, and a 16.2% Capital Adequacy Ratio (CAR), the Bank is well-positioned to support customers, drive growth, and deliver sustainable returns.

The Bank's share price and market capitalization more than doubled in 2024, reflecting strong market confidence in the Bank's fundamentals and growth prospects. Book value per share rose to P62.61 even after distributing P5.9 billion in cash dividends, up 16% from 2023. With this, the Bank rejoined the PSE blue-chip index on 03 February 2025.

Mr. Uyan noted that the Bank's success is driven by focus and commitment to delivering for its stakeholders. In 2024, the Bank earned notable recognition, including: Domestic Retail Bank of the Year from the Asian Banking & Finance; Five-Golden Arrow Award from the Institute of Corporate Directors for the third consecutive year; Outstanding Wealth Management Service for the second time from the Private Banker International; a Titanium Award for ESG excellence from The Asset; inclusion in TIME and Statista's rankings of the World's Best Companies of 2024 and Asia Pacific's Best Companies of 2025; and recognition of Chinabank Capital as the Best Bond Adviser in the Philippines by The Asset for the ninth consecutive year.

The President and CEO confirmed that 2024 was indeed a year of growth and transformation for Chinabank. The Bank embarked on its brand refresh program in 2024, introducing its first brand ambassador, Michelle Dee, and winning an Anvil Award. For its customers, the Bank launched the Instant Issuance program, enabling Filipinos to get a Chinabank Credit Card in only 30 minutes, a first in the Philippines. Also launched were Chinabank Velvet Visa Signature, its first Visa-branded credit card, to empower women and elevate everyday experiences, and Chinabank Income-Paying Dollar Bond Feeder Fund, its first feeder fund-structured UITF with a monthly income-payout feature. Early this year, the Bank enhanced its mobile app, My CBC, with new features for a more convenient and secure banking experience.

For its employees, the Bank continued to make the company a great place to work, with key initiatives focusing on career progression, expanded scholarship program with the SM Foundation, strengthened partnership with LinkedIn, and upgraded GenAI chatbot. The Bank's comprehensive HR strategy continues to attract, engage, develop, and retain top talents, supported by ONE Chinabank, its Anvil Award-winning employee engagement program.

In November 2024, the Bank transitioned its head office and Business Center in Manila to 100% renewable energy, reducing Chinabank's indirect greenhouse gas emissions by almost 20% or 3,300 metric tons of CO₂.

In 2025, the Philippines is projected to be among the fastest-growing economies, with GDP nearing 6% driven by strong domestic demand, lower inflation and increased investment. Stable inflation should boost consumption and allow the Bangko Sentral ng Pilipinas (BSP) to ease policy rates, while government-led infrastructure and business reforms will further support growth.

Chinabank is set for strong growth this year, focusing on CASA, loans, and fee income expansion. It continues to evolve, from its brand refresh to the construction of the new 32-storey head office in Makati, featuring sustainable design elements like solar panels and green roofs. The Bank's commitment remains clear, accelerating growth while strengthening digital, infrastructure, and talent capabilities.

To end his report, President and CEO Uyan stated that the Bank is committed to turning ambition into action, delivering value for stakeholders and building a sustainable future. On behalf of the Board of Directors, management, and employees, he thanked everyone for their continued trust and partnership.

After the presentation, Chairman Sy thanked the President and CEO and asked if there were any comments or questions. There being none raised, stockholder Denise Fe C. Lirio moved for the approval of the Annual Report, which was seconded. Thereafter, the Annual Report, an electronic copy of which is available on the Bank's website and on the Philippine Stock Exchange's (PSE) EDGE Portal, and as presented by the Bank's President and CEO, Mr. Uyan, was approved.

Chairman Hans Sy then requested the newly elected directors to stand up to be recognized.

IX. APPOINTMENT OF EXTERNAL AUDITOR

Proceeding with the next item on the agenda, the Chairman invited the Chairperson of the Audit Committee, Ms. Claire Ann T. Yap, to present the recommendation.

Ms. Yap stated that the Audit Committee, which consists of herself, Director Joaquin T. Dee and Independent Director Genaro V. Lapez, has reviewed the performance of SyCip Gorres Velayo & Co. (SGV) over the past year, and found it to be satisfactory. Following the evaluation, both the Audit Committee and the Board of Directors recommended the re-appointment of SGV as the Bank's external auditor for the ensuing year.

On motion of stockholder Juni H. Gotamco, duly made and seconded, the incumbent external auditor, SyCip Gorres Velayo & Co. (SGV), was re-appointed as the external auditor of the Bank for the ensuing year.

The breakdown of votes is as follows:

Opinion		Votes Cast		Percentage (based on shares present or represented at the meeting)

X. OTHER MATTERS

Before proceeding, the Chairman announced that the Board of Directors, in a special meeting held on 23 April 2025, approved and declared a regular cash dividend of P1.50 per share, and an additional special cash dividend of P1.00 per share. The total peso amount of the cash dividends is P6.7 billion, from P5.9 billion last year. Further, the Board approved to set 09 May 2025 as the record date and 22 May 2025 as the payment or issuance date of the cash dividends, with the closing of books from 12 to 22 May 2025. The Board also authorized the President and CEO to make any adjustments to these dates as may be required to comply with regulatory requirements.

Then, the Chairman opened the floor for additional questions or matters the stockholders may wish to raise in relation to the agenda or matters related to the Bank's business operations. Questions and comments submitted by stockholders via e-mail will also be addressed. He then called on ICRG Head, Mr. Florentino, to lead this portion of the agenda.

Mr. Florentino began by reading the question sent by Ms. Shiela Marie Cuvín. Ms. Cuvín asked how the Bank plans to sustain or improve profitability in the coming year.

President and CEO Uyan answered that the Bank will remain focused on its core competence, particularly in maintaining strong relationships with its corporate, commercial, retail, and wealth clients. The Bank will continue to strengthen its core businesses by driving growth in CASA deposits, loans, and core fee income. Simultaneously, it will integrate digital solutions and incorporate AI into its operations to improve productivity. These strategic initiatives aim to reinforce the Bank's position among the top four private commercial banks in the Philippines.

For the next email question, Mr. Rino Colasito inquired about how the Bank is addressing cybersecurity threats and protecting customer data.

Chief Innovation and Transformation Officer Delfin Jay M. Sabido IX responded that the Bank is tackling these challenges through a three-pronged approach. First, it is implementing best-in-class cybersecurity, data protection and anti-fraud solutions to safeguard both the Bank and its clients. Second, the Bank actively participates in industry associations to raise and address related concerns in collaboration with regulators such as the BSP, associations like the Bankers Association of the Philippines

(BAP), and other relevant organizations. He emphasized that concerted efforts and collaborations are essential to address serious issues on this front. Third, the Bank is continuously educating its customers, recognizing that attacks can originate from various sources.

Another email question came from Mr. Alexander Arce, who asked how Chinabank is responding to the changing landscape of digital non-banks, mobile wallets, and digital banks.

Mr. Sabido explained that the Bank has taken strides in its digitalization efforts, driving its digital transformation strategy. He noted that the Bank launched a redesigned and enhanced mobile banking app on 30 January 2025 for retail customers, providing a more seamless and convenient digital customer experience alongside traditional banking channels. A key enabler of the transformation is data analytics, which helps the Bank better understand and serve its customers. He also mentioned that a new version of the mobile banking app will be soon upgraded for corporate clients, to include features such as digital payment transfers, mobile check deposits, and more. Additionally, credit cards services will also be integrated into the mobile banking app to further enhance functionality.

Mr. Florentino read another email question from Mr. Tadeos Natividad, who asked for the Bank's assessment of the potential impact of current U.S. tariff policies on the Philippine economy, and how these may affect Chinabank's operations, particularly in providing financial services industries impacted by these changes.

President and CEO Uyan answered that the US tariff policies pose both challenges and opportunities for the Philippines. On the downside, he explained that tariffs could disrupt trade flows, especially for export-driven industries, such as electronics, textiles and agriculture, which are heavily reliant on the U.S. market. This may lead to a decline in demand for manufactured exports, leading to slower economic growth in the short term. It may also result in higher production costs for Filipino manufacturers who depend on imported raw materials from the U.S., affecting competitiveness in this market.

On the other hand, Mr. Uyan also discussed about the potential advantages presented by the tariff policies for the country. As a predominantly services-oriented country, the Philippines may not be as severely affected as some of its ASEAN neighbors. Further, the country's relatively low tariffs levels could attract foreign manufacturers looking to relocate operations, presenting new opportunities for growth. In light of these, he emphasized the importance of the Bank continuing to strengthen its role as a reliable financial partner, helping sectors to adapt to evolving economic landscape, further improving tailored financial products and services, and working capital loans or trade financing solutions to help mitigate the impact of higher tariffs or slower market demand.

Proceeding, Mr. Florentino opened the floor for live, in-person questions.

Mr. Edsel Duque stood and asked whether the Bank has any plans to raise capital in the near term.

President Uyan responded that, given the Bank's current level of profitability, there is no immediate need to raise capital. He noted that the Bank's CAR and CET1 ratio remain strong at approximately 15% to 16%, well above the regulatory limit. As long as the Bank maintains its current profitability trajectory, it will be able to support its expansion plans without the need to raise capital.

Dr. Genevieve Huang stood to express some personal concerns. Chairman Sy acknowledged her sentiments and explained that the Bank has conducted its own investigation on the matters raised and has responded to related inquiries from the BSP. He added that, given the stockholder's mention of contemplated actions, which she is entitled to pursue, the Bank is unable to provide a response at this time. He, however, assured her that the Bank will address these matters appropriately in the proper venue, following applicable rules and laws. Dr. Huang, however, persisted in airing her personal grievances and demanded an immediate response thereto.

Considering the Chairman's earlier explanation, Ms. Belenette C. Tan moved to declare the said stockholder out of order, noting that the matters raised were of a personal nature, and stating that other participants should be given the opportunity to ask questions. The motion was duly seconded.

The breakdown of votes on the matter subject of the foregoing motion is as follows:

Opinion		Votes Cast		Percentage (based on shares present or represented at the meeting)
For	-	2,099,080,170	-	99.947%
Against	-	62,991	-	0.003%
Abstain	-	933,550	-	0.044%
Uncast	-	114,495	-	0.005%

Ms. Lara Santiago stood and remarked that the Bank has declared special dividends over the past couple of years. She then asked whether this trend is expected to continue.

President and CEO Uyan replied that the Bank's dividend payout ratio has been about 27% over the past two years. He added that as long as the Bank continues its current trend of performance and economic conditions warrant it, it intends to continue declaring special dividends.

Chairman Sy added that regular cash dividends have steadily increased little by little over the years, reflecting the Bank's confidence in sustaining dividend declarations. As for special dividends, he explained that the Bank remains prudent, closely monitoring global economic developments. Nonetheless, he reassured the shareholders of the Bank's strong performance, financial stability, and continued growth prospects.

Thereafter, Mr. Florentino stated the conclusion of the question-and-answer session. As outlined in the Guidelines for participation in the meeting, which was posted on the Bank's website and included in the Information Statement, any questions submitted but not addressed during the meeting will be answered directly by e-mail to the concerned stockholder. He added that the Bank will reply directly by e-mail to all other inquiries from stockholders. He also announced that any other questions or concerns may be sent to the Bank through the e-mail address, investor-relations@chinabank.ph.

XI. ADJOURNMENT

There being no further matters to address and other business to transact, upon motion made by stockholder Hector B. Holgado and duly seconded, the meeting was adjourned at 4:56 P.M.

Chairman Sy, on behalf of the Board of Directors and Management of the Bank, expressed gratitude to all who participated in the meeting, and thanked everyone for their continued support.
