China Bank – Trust and Asset Management Group	Deutsche Bank AG, Manila Branch Philippine Depository & Trust Corp.	SGV & Co.	

¹As a percentage of average daily NAV for the month valued at Php1,092.26 million.

INVESTMENT OBJECTIVE AND STRATEGY

The Chinabank Equity Fund intends to achieve capital appreciation by investing in a diversified portfolio of choice equity issues listed in the Philippine Stock Exchange (PSE). Up to 95% of the Fund may be invested in equity issues at any point in time while the balance shall be in tradable fixed income securities and bank deposits. The Fund aims to outperform its benchmark which is 95% Philippine Stock Exchange PSEi Total Return Index (PSEi TRI) + 5% Bloomberg Philippine Sovereign Bond Index Money Market (BPHILMM Index).

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Before deciding to invest, clients are advised to read the Declaration of Trust, a copy of which is available at the Trustee’s principal office.

The Chinabank Equity Fund is suitable only for investors who:

- have an aggressive risk appetite;
- are willing to accept higher risks involving volatility of returns and possible erosion of principal in return for capital appreciation and potentially better long-term results; and
- have an investment horizon of at least five (5) years.

KEY RISKS AND RISK MANAGEMENT

The client should not invest in this Fund if the client does not understand or is not comfortable with the accompanying risks.

- **Interest Rate Risk.** This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
- **Market/Price Risk.** This is the possibility for an investor to experience losses due to changes in the market price of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations. Given that the Fund may be invested up to 95% in equity issues at any point in time, investors are deemed to be more exposed to this risk.
- **Liquidity Risk.** This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market.
- **Credit/Default Risk.** This is the possibility for an investor to experience losses due to a borrower’s failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans or other forms of security which the borrower issued. It also includes risk on a counterparty (a party the Trustee trades with) defaulting on a contract to deliver its obligation either in cash or securities.
- **Reinvestment Risk.** This is the possibility for an investor to have lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

The Trustee only transacts with reputable counterparties and invests in debt securities issued by prime corporate borrowers which have undergone a rigorous accreditation and evaluation process. Internal and regulatory exposure limits are monitored regularly to ensure that exposures are managed. The Fund also employs risk management measures to monitor significant declines in the Fund’s NAVPu and alert the Trustee to review current strategies and take corrective action as necessary. Furthermore, the Fund undergoes an annual review to ensure that it is equipped to fund any redemption requirement in a timely manner and at a reasonable cost during times of financial stress.

- THE UITF IS A TRUST PRODUCT AND NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED NOR GOVERNED BY THE PDIC.
- THE UITF IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUST ENTITY OR ITS AFFILIATES OR SUBSIDIARIES.
- DUE TO THE NATURE OF THE INVESTMENTS OF A UITF, THE RETURNS/YIELDS CANNOT BE GUARANTEED. HISTORICAL PERFORMANCE, WHEN PRESENTED, IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.
- ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT. AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.
- THE TRUSTEE IS NOT LIABLE FOR LOSSES UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.
- THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF’S PLAN, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.

STATISTICS

Weighted Average Duration	0.04
Volatility, Past 1 year ²	5.52%
Sharpe Ratio ³	1.03
Information Ratio ⁴	1.19

²**Volatility** measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. This is computed by getting the standard deviation of the yearly returns for the past 12 mos.

³**Sharpe Ratio** is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better. This is computed by dividing the excess return of the fund against the risk-free rate over the fund's volatility.

⁴**Information Ratio** measures the reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk. This is computed by dividing the excess return of the fund against the benchmark over the fund's volatility.

^aNew Benchmark; ^bOld Benchmark

The Fund's benchmark was amended from 95% PSEi + 5% BPHILMM Index to 95% PSEi TRI + 5% BPHILMM Index effective January 1, 2024 in compliance with BSP Circular No. 1178 (Guidelines on the Use of Benchmarks for Unit Investment Trust Funds) on the use of a total return benchmark that will more adequately represent the performance of the Fund.

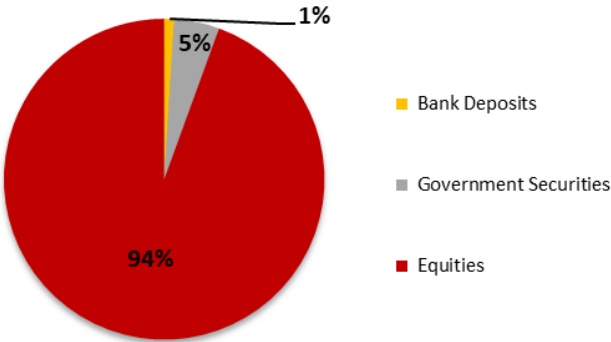

The PSEi TRI tracks the performance and income from dividend payments of the PSEi constituents by reinvesting cash back to the Index. The PSEi is a composite index that tracks the performance of the top 30 publicly listed companies in the Philippines based on market capitalization and is computed using a free-float, market capitalization-weighted methodology. It includes a diversified range of companies from various sectors of the economy including financials, property, industrials, services and holdings firms, among others. Additional information on PSEi TRI and/or its administrator is available on www.pse.com.ph/indices.

The BPHILMM Index is a systematically designed, rules-based, market value-weighted index that measures the performance of short-term, fixed-rate and zero-coupon local currency securities that are publicly issued by the Philippines. It includes liquid money market instruments such as treasury bills with maturities of less than one year and minimum par amounts of Php3.0Bn. This Index is adjusted for tax by the Trustee. Additional information on BPHILMM Index and/or its administrator can be found on Bloomberg, and be made available to investors upon request.

OTHER DISCLOSURES

RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper, amounting to Php799.24 thousand, which were approved by the Board of Directors/Trust Investment Committee. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

The Philippine Stock Exchange Index (PSEi) was in consolidation mode in March. This comes after the index logged four consecutive months of advance. During the month, the index went as high as 7021.04, and as low as 6790.06. Overall, the index declined by -41.18pts or -0.59%, closing at the 6903.53 level. In terms of market activity, the average daily traded value increased to Php5.77Bn, compared to February's Php4.96Bn. The month's figure was pulled up by FTSE rebalancing related flows. Large volume was seen on BPI and ICT as they were added to the FTSE ASEAN 40 Index, as well as on SMPH which was removed. Foreigners turned net sellers in March, reducing equity positions by \$45.79Mn.

In terms of sector performance, Mining and Oil (-4.55%), Industrials (-2.59%), Holding Firms (-1.38%), and property (-1.16%) registered declines. Services (+5.30%) bucked the overall weakness in the market and advanced during the month. Individually, WLCON (-17.69%), JGS (-11.22%), URC (-10.00%), AEV (-8.99%), and NIKL (-8.96%) led the list of index decliners. On the other hand, CNPF (+21.06%), ICT (+14.00%), MBT (+11.29%), CNVRG (+10.67%), and MONDE (+9.20%) led the advancers. Index breadth was even, with 15 decliners and 15 advancers, reflecting the sideways move of the PSEi. On the earnings front, the Q4 2023 and FY 2023 reports of index members continue to come in. Among the 30 index members, 24 have already reported, with 7 ahead (CNVRG, GTCAP, ICT, JGS, MER, SMC, and TEL), 8 behind (AEV, BLOOM, DMC, LTG, NIKL, SCC, URC, and WLCON), and 9 in-line (AC, ALI, BDO, BPI, GLO, JFC, MBT, SM, and SMPH) with consensus estimates. Separately, the calendar was filled with a number of mergers and acquisition announcements. In a landmark deal, MER, AP, and SMC disclosed that they are teaming up to invest in an LNG import and re-gasification terminal in Batangas. The project is valued at approximately Php168Bn, with MER having a 40.20% attributable stake, followed by SMC with 33%, and AP with 26.80%. This initiative marks a significant step towards a more sustainable future, in line with the Marcos administration's push for more natural gas in the country's energy mix. Meanwhile, SM disclosed that they are taking a 28.79% stake in CREIT, valued at Php5Bn. This deal allows the SM to increase its footprint in the renewable energy sector, while CREIT intends to use the proceeds to fund additional solar power projects.

On the macro front, inflation data from the Philippines for February showed that the headline figure accelerated to 3.40%. This was higher than January's 2.80%, with the 23.70% rice inflation as one of the major contributing factors. In the case of the US, inflation rose to 3.20%, also higher compared the prior month's 3.10% print due to uptick in gas and housing prices. Recently, officials from the Bangko Sentral ng Pilipinas commented that a 50bps cut may be appropriate this year, while the US Federal Reserve's dot plot shows that a 75bps cut remains on the table. While inflation prints may not change the narrative on the timing of rate cuts, the expected direction of policy rates remain supportive of risk assets. The PSEi's year to date performance stood at a +7.03% by the close of the month, supported by net foreign buying amounting to \$162.59Mn, while US equities markets continue to hover at all-time high levels.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may be invested or reinvested in the following:

- a) Equities listed in the PSE;
- b) Securities issued by or guaranteed by the Philippine government or the Bangko Sentral ng Pilipinas (BSP);
- c) Tradable fixed income securities issued by private and public corporations which are listed and traded in an organized exchange/market such as bonds and notes;
- d) Deposits and tradable money market instruments issued by local banks, including those of the Trustee's own bank, and foreign banks or their Philippine branches or any financial institution in any foreign country;
- e) Financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Fund, provided that these are accounted for in accordance with existing BSP hedging guidelines as well as the Trustee's risk management and hedging policies duly approved by the Trust Investment Committee and disclosed to participants; and
- f) Such other tradable investment outlets/categories as the BSP may allow.

OTHER BASIC FUND FACTS

Trust Fee:	1.00% p.a.	Minimum Maintaining Amount:	Php5,000.00
Initial NAVPu:	P1.000000	Minimum Redemption Amount:	None. Partial redemptions shall be allowed provided that the amount redeemed will not result to a balance below the minimum maintaining amount.
