China Bank – Trust and Asset Management Group		Deutsche Bank AG, Manila Branch Philippine Depository & Trust Corp.		SGV & Co.			

¹As a percentage of average daily NAV for the month valued at Php362.97 Million.

INVESTMENT OBJECTIVE AND STRATEGY

The Chinabank Fixed Income Fund intends to achieve a steady stream of income by investing in a diversified portfolio of high-grade marketable fixed income securities such as government securities, tradable corporate bonds and notes of varying tenors as well as bank deposits, money market placements and BSP securities with a weighted average portfolio modified duration of not more than ten (10) years. The Fund aims to outperform its benchmark which is the Bloomberg Philippine Sovereign Bond Index 5+ Year (BPHIL5 Index).

CLIENT SUITABILITY

A client profiling process shall be performed prior to participating in the Fund to guide the prospective investor if the Fund is suited to his/her investment objectives and risk tolerance. Before deciding to invest, clients are advised to read the Declaration of Trust, a copy of which is available at the Trustee's principal office.

The Chinabank Fixed Income Fund is suitable only for investors who:

- have a moderate risk appetite;
- are looking for higher yields;
- are willing to take the attendant risks that come with portfolios that may have investments with longer tenors; and,
- have an investment horizon of at least five (5) years.

KEY RISKS AND RISK MANAGEMENT

The client should not invest in this Fund if the client does not understand or is not comfortable with the accompanying risks.

- **Interest Rate Risk.** This is the possibility for an investor to experience losses due to changes in interest rates. The purchase and sale of a debt instrument may result in profit or loss because the value of a debt instrument changes inversely with prevailing interest rates.
- **Market/Price Risk.** This is the possibility for an investor to experience losses due to changes in the market price of securities. It is the exposure to the uncertain market value of a portfolio due to price fluctuations.
- **Liquidity Risk.** This is the possibility for an investor to experience losses due to the inability to sell or convert assets into cash immediately or in instances where conversion to cash is possible but at a loss. These may be caused by different reasons such as trading in securities with small or few outstanding issues, absence of buyers, limited buy/sell activity or underdeveloped capital market.
- **Credit/Default Risk.** This is the possibility for an investor to experience losses due to a borrower's failure to pay principal and/or interest in a timely manner on instruments such as bonds, loans or other forms of security which the borrower issued. It also includes risk on a counterparty (a party the Trustee trades with) defaulting on a contract to deliver its obligation either in cash or securities.
- **Reinvestment Risk.** This is the possibility for an investor to have lower returns or earnings when maturing funds or the interest earnings of funds are reinvested.

The Trustee only transacts with reputable counterparties and invests in debt securities issued by prime corporate borrowers which have undergone a rigorous accreditation and evaluation process. Regulatory exposure limits as well as the Fund's average duration are monitored regularly to ensure that exposures are managed. The Fund also employs risk management measures to monitor significant declines in the Fund's NAVPU and alert the Trustee to review current strategies and take corrective action as necessary. The Fund also undergoes an annual review to ensure that it is equipped to fund any redemption requirement in a timely manner and at a reasonable cost during times of financial stress.

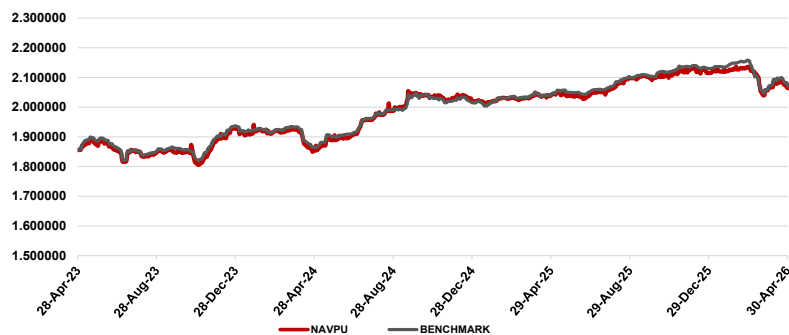

-THE UITF IS A TRUST PRODUCT AND NOT A DEPOSIT ACCOUNT, AND IS NOT INSURED NOR GOVERNED BY THE PDIC.
-THE UITF IS NOT AN OBLIGATION OF, NOR GUARANTEED, NOR INSURED BY THE TRUST ENTITY OR ITS AFFILIATES OR SUBSIDIARIES.
-DUE TO THE NATURE OF THE INVESTMENTS OF A UITF, THE RETURNS/YIELDS CANNOT BE GUARANTEED. HISTORICAL PERFORMANCE, WHEN PRESENTED, IS PURELY FOR REFERENCE PURPOSES AND IS NOT A GUARANTEE OF SIMILAR FUTURE PERFORMANCE.
-ANY LOSSES AND INCOME ARISING FROM MARKET FLUCTUATIONS AND PRICE VOLATILITY OF THE SECURITIES HELD BY THE UITF, EVEN IF INVESTED IN GOVERNMENT SECURITIES, ARE FOR THE ACCOUNT OF THE CLIENT. AS SUCH, THE UNITS OF PARTICIPATION OF THE CLIENT IN THE UITF, WHEN REDEEMED, MAY BE WORTH MORE OR WORTH LESS THAN HIS/HER INITIAL INVESTMENT/CONTRIBUTION.
-THE TRUSTEE IS NOT LIABLE FOR LOSSES UNLESS UPON WILLFUL DEFAULT, BAD FAITH OR GROSS NEGLIGENCE.
-THE INVESTOR MUST READ THE COMPLETE DETAILS OF THE FUND IN THE UITF'S PLAN, MAKE HIS/HER OWN RISK ASSESSMENT, AND WHEN NECESSARY, SEEK AN INDEPENDENT/PROFESSIONAL OPINION BEFORE MAKING AN INVESTMENT.

CUMULATIVE PERFORMANCE (%)

Period	1mo	3mos	6mos	1yr	3yrs
Fund	0.02%	-2.95%	-2.01%	1.07%	11.16%
Benchmark	0.43%	-3.40%	-2.29%	1.22%	11.71%

The BPHIL5 Index is a systematically designed, rules-based, market value-weighted index that measures the performance of long-term, fixed-rate local currency securities that are publicly issued by the Philippines. It includes a diversified range of fixed income securities with different coupon rates, maturities of 5 years or more, minimum par amounts of Php3.0Bn, and are traded in the Philippine market. This Index is adjusted for tax by the Trustee, but does not reflect deductions for fees and expenses. Additional information on the benchmark and/or its administrator can be found on Bloomberg, and be made available to investors upon request.

The benchmark provides a standard for evaluating the Fund's performance by helping investors/participants understand how the Fund is performing relative to the market or asset class the Fund represents. The benchmark reflects the performance of peso-denominated fixed income securities with maturities of 5 years or more. Additionally, its characteristics serve as reference point for the Fund's duration and credit positioning.

PORTFOLIO COMPOSITION

OTHER DISCLOSURES

RELATED PARTY TRANSACTIONS

The Fund has deposits with the Bank Proper, amounting to Php729.55 thousand, which were approved by the Board of Directors/Trust Investment Committee. Likewise, all related parties transactions are conducted on an arm's length basis.

OUTLOOK AND STRATEGY

Market sentiment during the month was largely driven by developments in the Middle East, particularly tensions surrounding the Strait of Hormuz. Initial reports of a proposed two-week ceasefire between the US and Iran sparked a relief rally. However, optimism faded as negotiations stalled despite mediation efforts from other nations, while renewed US naval activity in the Strait further escalated tensions. Brent crude oil futures initially declined by as much as 20% following the ceasefire announcement before recovering to end the month broadly unchanged. Locally, the Philippine Peso continued to weaken, with the USD/PHP exchange rate closing near an all-time high of 61.48. Headline inflation accelerated to 4.1% YoY in March, breaching the BSP's target range. In response, the Bangko Sentral ng Pilipinas raised its policy rate by 25 bps to 4.50%, signaling the end of the easing cycle. The BSP described the move as intended to preempt further inflationary pressures, and revised its CPI forecasts upward to 6.3% for 2026 and 4.3% for 2027.

NAVPU OVER THE PAST 12 MONTHS

Highest	2.136810
Lowest	2.027668

STATISTICS

Weighted Average Duration	6.07
Volatility, Past 1 year ²	2.08%
Sharpe Ratio ³	-1.40
Information Ratio ⁴	-0.31

²**Volatility** measures the degree to which the Fund fluctuates vis-à-vis its average return over a period of time. This is computed by getting the standard deviation of the yearly returns for the past 12 mos.

³**Sharpe Ratio** is used to characterize how well the return of a Fund compensates the investor for the level of risk taken. The higher the number, the better. This is computed by dividing the excess return of the fund against the risk-free rate over the fund's volatility.

⁴**Information Ratio** measures the reward-to-risk efficiency of the portfolio relative to the benchmark. The higher the number, the higher the reward per unit of risk. This is computed by dividing the excess return of the fund against the benchmark over the fund's volatility.

TOP HOLDINGS (%)

FXTN 13-01	5.1%
FXTN 25-07	5.1%
SMCGP 32 R29	4.9%

Yield movements were mixed during the month, with the 2-year benchmark ending at 6.054%, up 2 bps MoM, while the 10-year benchmark declined 4 bps to 6.935%. Meanwhile, the intermediate segment of the curve (3–7 years) underperformed, with yields rising by an average of 10bps. In the primary market, the Bureau of the Treasury raised a total of Php125Bn, with an average bid-to-cover ratio of 1.58x. Demand was strongest for the 5-year issuance, which recorded a 2.30x bid-to-cover ratio against the Php30Bn offering, prompting the BTr to open an additional Php10Bn tap facility. In contrast, the 10-year reissuance attracted weaker demand, with bid-to-cover reaching only 0.90x against the Php20Bn target. The BTr ultimately awarded just Php5.02Bn, rejecting higher-yielding bids. Meanwhile, S&P revised the Philippines' credit outlook to Stable from Positive while affirming its BBB+ rating, citing heightened geopolitical risks and slower infrastructure spending. Fitch likewise revised the country's credit outlook to Negative. On the positive side, J.P. Morgan announced that Philippine Peso-denominated government bonds will be included in its Government Bond Index-Emerging Markets (GBI-EM) series, effective 29 January 2027.

Looking ahead, yield movements are expected to remain volatile as markets reassess inflation expectations and the trajectory of central bank policy. Against this backdrop, the Fund remains selective in its bond purchases, seeking to enhance portfolio yield while carefully managing duration risk.

INVESTMENT POLICY / PROSPECTIVE INVESTMENTS

The Fund may be invested or reinvested in the following:

- a) Securities issued by or guaranteed by the Philippine government or the Bangko Sentral ng Pilipinas (BSP);
- b) Tradable fixed income securities issued by private and public corporations which are listed and traded in an organized exchange/market such as bonds, notes and preferred shares which are classified as debt securities under appropriate accounting standards;
- c) Deposits and tradable money market instruments issued by local banks, including those of the Trustee's own bank, and foreign banks or their Philippine branches or any financial institution in any foreign country;
- d) Financial derivatives instruments solely for the purpose of hedging risk exposures of the existing investments of the Fund, provided that these are accounted for in accordance with existing BSP hedging guidelines as well as the Trustee's risk management and hedging policies duly approved by the Trust Investment Committee and disclosed to participants; and
- e) Such other tradable investment outlets/categories as the BSP may allow.
