2021 ANNUAL FINANCIAL  
AND SUSTAINABILITY REPORT

---

## About the Report

102-46, 102-50, 102-51, 102-52, 102-54

This report highlights material information about the China Bank Group's financial and non-financial performance, operating context, risk management, corporate governance, and value creation for stakeholders from our products and services for the period January 1 to December 31, 2021. This report has been prepared in accordance with the GRI Standards: Core Option. It also referenced Sustainability Accounting Standards Board (SASB) for materiality disclosures. This is also aligned with the disclosure guidelines of the Bangko Sentral ng Pilipinas (BSP), the Securities and Exchange Commission (SEC), and the ASEAN Corporate Governance Scorecard.

---

## About the Cover

Sunrise is a symbol of hope, inspiration, growth, and fresh start. The sun rises each day and brings a ray of hope even in the most challenging of times. The cover of this report is a pixel art of a sunrise, symbolizing new beginnings as the world returns to normal, new opportunities in the digital age, and optimism for China Bank's next century of banking.

# About China Bank

102-1, 102-2, 102-6, 102-7, 102-10, 102-16, 102-54

China Banking Corporation (China Bank) is a leading private universal bank in the Philippines with over 100 years of banking experience and history. We provide a full range of banking products and services to individuals and businesses, including Peso and foreign currency deposits; corporate, business, and consumer loans (credit cards, housing, auto, personal, and automatic payroll deduction); remittance; treasury and foreign exchange trading; trust and asset management; wealth management; and cash management. We also serve the retail banking, investment banking, and insurance needs of our diverse customers through our subsidiaries China Bank Savings, China Bank Capital, China Bank Securities, Resurgent Capital, China Bank Insurance Brokers, and affiliate Manulife China Bank Life Assurance.

China Bank's head office is located in Makati City, Philippines. As of December 31, 2021, our nationwide footprint spanned 637 branches, complemented by self-service and digital banking channels available 24/7 — 1,037 ATMs, Cash Accept Machine, China Bank TellerPhone, China Bank Online, and China Bank Mobile App. Our manpower reached 9,747-strong, serving 2.4 million customers.

We are a member of the SM Group, one of the largest conglomerates in the Philippines. As of December 31, 2021, SM Investments Corporation has effective ownership in China Bank of 22.51%. Foreign shareholders owned 26.57%, while the remaining 50.92% were held by various investors.

**HEADQUARTERS:**

Our vision, mission, and the values passed on by China Bank's founders underpin our continuing story of sustainable growth, governance excellence, and enduring partnerships. For over a century, China Bank has been operating ethically and responsibly to drive economic growth, to uplift lives and livelihoods, and to help communities progress towards a sustainable future.

## VISION

Drawing strength from our rich history, we will be the best, most admired, and innovative financial services institution, partnering with our customers, employees, and shareholders in wealth and value creation.

## MISSION

We will be a leading provider of quality services consistently delivered to institutions, entrepreneurs, and individuals here and abroad, to meet their financial needs and exceed their rising expectations.

We will be a primary catalyst in the creation of wealth for our customers, driven by a desire to help them succeed, through a highly engaged team of competent and empowered professionals, guided by in-depth knowledge of their needs and supported by leading-edge technology.

We will maintain the highest ethical standards, sense of responsibility, and fairness with respect to our customers, employees, shareholders, and the communities we serve.

## CORE VALUES

- Integrity
- High Performance Standards
- Commitment to Quality
- Concern for People
- Efficiency
- Resourcefulness/Initiative
- Customer Service Focus

# Over A Century of Strength and Resilience

**1920**

Dee C. Chuan leads a group of top Chinese Filipino businessmen to establish China Bank. The Bank opens for business on August 16, 1920 at No. 90 Rosario St., Binondo, Manila

**1924**

Transfers its growing operation to its own building on Juan Luna corner Dasmariñas Sts., Binondo, its head office for the next seven decades

**1925**

Opens branch in Xiamen, China

**1927**

Becomes one of the first companies to be listed on the Manila Stock Exchange

**1929**

Opens branch in Shanghai, China

**1931**

The Great Depression adversely affects the Philippine banking sector; hit by runs, a rival bank goes under, but China Bank weathers the crisis unshaken

**1942**

The Japanese military shuts down China Bank, liquidates its assets, and jails its principal officers Albino SyCip and George Dee Se Kiat

**1945**

China Bank reopens and while working towards its own recovery, lends to key industries for post-war reconstruction and long-term development

**1948**

Opens China Bank Cebu, its first local branch

**1949**

Closes Xiamen and Shanghai branches when the Communists took over China

**1954**

Albino SyCip initiates the Liberty Wells project to provide potable water for millions of Filipinos

**1955**

Breaches the ₱100-million mark in assets, becoming the biggest local private commercial bank

**1960**

Opens its first branch in Manila, Sto. Cristo Branch

**1965**

Declares 100% stock dividend and increases its authorized capital stock from ₱10 million to ₱40 million

**1969**

Becomes the first bank in Southeast Asia to process deposits on-line, using the IBM 360

**1970**

Still the biggest local private commercial bank, with ₱566 million in resources

**1973**

Hits the P1-billion mark in assets; meets the Central Bank's requirement of a ₱100 million minimum paid-up capital for commercial banks

**1975**

Increases its Filipino ownership up to the 70% level required by the Central Bank, paving the way for China Bank's major branch expansion program

**1977**

Hikes capitalization to ₱300 million from ₱100 million; becomes one of the first banks authorized by the Central Bank to engage in foreign currency-denominated transactions

**1982**

Establishes CBC Properties and Computer Center, Inc. to provide computer-related services solely to China Bank and to manage its electronic banking and e-commerce requirements

**1988**

Launches Teller Phone, the first telephone banking service in the Philippines

**1990**

Joins seven other banks to create BancNet, the country's largest ATM network; transfers its corporate headquarters to its present location along Paseo de Roxas in Makati City

**1991**

Acquires its universal banking license

**1995**

Embarks on a five-year ₱150 million program to upgrade its technology infrastructure, acquiring leading-edge Dimension software from Kirchman Corp. and the latest IBM ES 9000 hardware

**1996**

Accesses the offshore capital markets for the first time by issuing US\$50 million Floating Rate Certificate of Deposit (FRCD)

**1997**

Issues US\$75 million FRCD; best capitalized bank during the Asian Financial Crisis, after a 2 for every 3 shares stock rights offering

**1998**

Establishes China Bank Insurance Brokers, Inc. to provide direct insurance broking for retail and corporate customers, with a wide and comprehensive range of plans for life and non-life insurance

**2005**

Launches its Internet banking facility, China Bank Online

**2007**

Acquires Manila Bank and operates it as China Bank Savings; enters into a bancassurance joint venture with Manulife to form China Bank Manulife Life Assurance Corp.

**2012**

Acquires Pampanga-based Unity Bank

**2014**

Acquires Plantersbank and merges it with China Bank Savings; raises ₱8 billion from its stock rights offering

**2015**

Enters the credit card business and launches China Bank MasterCard; rolls out its new core banking system, the powerful Finacle Core Banking Solution (FCBS) from Infosys; reorganizes its Investment Banking Group into a full-fledged investment house subsidiary, China Bank Capital

**2016**

Establishes China Bank Securities to provide clients with stock brokerage, securities research, and analysis services

**2017**

Gets investment grade credit rating of "Baa2" from Moody's; raises ₱15B from stock rights offer

**2018**

Signs US\$150 million Green Bond issuance for climate-smart projects with International Finance Corporation (IFC) as sole investor

**2019**

Raises P30 billion via maiden issue of fixed-rate retail bonds, one of the largest bond offerings for the year; begins restoration of original head office in Binondo

**2020**

Marks centennial; hits ₱1 trillion in assets and ₱100 billion in capital

**2021**

Inaugurates the restored China Bank Binondo Business Center and the new China Bank Museum; emerges as Best Bank in the Philippines and among the strongest banks in the country and in the Asia Pacific region.

---

# Message to Stakeholders

102-14, 102-15, 103-1

## To our fellow stakeholders:

The world is finally learning to live with COVID-19. Even as the pandemic lingers and some things will not likely go back to the way they were, we are seeing signs of normalcy and economic recovery, thanks to the vaccines and the government's policy support.

The global economy grew an estimated 5.9% in 2021, a welcome turnaround from the 3.1% contraction in 2020. The Philippines, while battered by the pandemic and typhoons Fabian and Odette, showed great resilience in 2021.

The government's relaxation of COVID-19 restrictions and vigorous vaccination drive enabled more businesses and workers to get back on their feet.

On the monetary front, the Bangko Sentral ng Pilipinas (BSP) kept the policy rate at its record low of 2% for the entire year to make loans more accessible. Meanwhile, the Duterte administration signed into law certain stimulus measures to help the Philippine economy recover from the pandemic shock, like the extension of the availability of the 2020 National Budget and funds appropriated through Bayanihan 2, the Corporate Recovery and Tax Incentives for Enterprises (CREATE) Act, the Financial Institutions Strategic Transfer (FIST) Act, and amendments to the Foreign Investments Act and the Retail Trade Liberalization Act.

All these bode well for the country. Gross Domestic Product (GDP) grew 12.0% in the second quarter of 2021, effectively lifting the Philippines out of recession. Third and fourth quarter growth rates were recorded at 6.9% and 7.7%, respectively, bringing the full-year increase to 5.6% from -9.6% in 2020. The rebound

was driven by increased capital formation spending and loosened mobility restrictions which boosted household consumption. We project a 7.1% GDP growth in 2022 on the back of higher vaccination rates, supportive policy measures and improving private sector confidence.

While uncertainties remain, everyone, including your Bank, is doing what needs to be done to stay on the road to recovery.

## Surging forward

Amid the challenges of a protracted pandemic, including lockdowns in late March and in August to curb the wave of new infections, 2021 has been a year of hope and optimism as economic recovery began to take shape.

At China Bank, we take pride in our team's hard work and dedication to serve and support our customers, and the execution of our strategies that enabled us to post consistent year-on-year growth in quarterly net income since the start of the global pandemic.

Your Bank ended the year stronger than ever before, with ₱15.1 billion in net income, 25% higher compared to 2020, on the back of sustained core business growth and effective cost management. This translated to an improved return on equity of 13.6% and return on assets of 1.5%.

Other key indicators were likewise positive: total assets of ₱1.1 trillion, up 7%; total deposits of ₱863 billion, up 3%, with an improved CASA (checking and savings accounts) ratio of 64% from 56%; net loans of ₱609 billion, up 9%. Total capital increased 13% to ₱119 billion. The healthy capital ratios also reflect your Bank's financial soundness—common equity tier 1 (CET 1) ratio of 14.9% and total capital adequacy ratio (CAR) of 15.7%.

**GILBERT U. DEE**  
Vice Chairman

**HANST. SY**  
Chairman

**WILLIAM C. WHANG**  
President

---

Moody's Investors Service affirmed China Bank's investment grade credit rating with a stable outlook, citing your Bank's improved capital and profitability to mitigate risks to asset quality. Philippine Rating Services Corporation (PhilRatings) also maintained China Bank's PRS Aaa (corp.) rating with a stable outlook, the local debt watcher's highest credit rating, on account of our established track record and resiliency, sound funding profile, lower interest expense, more-than-satisfactory asset quality, and ample capital buffer.

### **The best bank in the Philippines and one of the strongest banks in Asia Pacific**

The numbers speak volumes, but not as resoundingly as our well-deserved recognitions. We are incredibly proud and honored that China Bank was named the Best Bank in the Philippines in 2021 by The Asset, besting even the largest banks in the country. The international finance journal also named our investment banking arm, China Bank Capital, as the Best Bond Adviser (Domestic) for the sixth consecutive year.

The awards came on the heels of your Bank's landing the second top spot in the Strongest Philippine Banks by Balance Sheet ranking of The Asian Banker. China Bank made it to the top 20% of the regional publication's ranking of 500 strongest banks in the Asia Pacific region, jumping from 323rd place in 2020 to 81st place in 2021—the best improvement among the nine Philippine banks included in the prestigious list.

These distinctions attest to your Bank's strength, resilience, and agility in these difficult times; but more importantly, they are inspiring confirmations that we are on the right track. Our digital transformation and relentless efforts to build and maintain robust liquidity and capital levels over the years have positioned China Bank well to weather the ongoing storm, and at the same time, to help our customers and the country recover.

*The numbers speak volumes, but not as resoundingly as our well-deserved recognitions. We are incredibly proud and honored that China Bank was named the Best Bank in the Philippines in 2021 by The Asset, besting even the largest banks in the country.*

---

### **Embracing sustainability**

China Bank has been on a journey to do well by doing good. We continue to balance our financial growth with a sustainability mindset, progressively adopting sustainable business practices to direct our own corporate performance towards creating value for the environment and our stakeholders.

In 2021, the Board of Directors approved China Bank's Sustainable Finance Transition Plan to institutionalize the integration of sustainability principles in our business practices. As we continue to finance eligible projects with positive contributions to the U.N. Sustainable Development Goals, we also recognize the importance of identifying and managing environmental and social (E&S) risks in banking and financing activities. We made headways in the integration of E&S risks in our enterprise risk management process. We also intend to strengthen sustainability awareness through capacity building and stakeholder engagement endeavors.

Much work lies ahead to further embed sustainability into our operations, and at the same time, to help our stakeholders understand that their actions and decisions have an impact on the environment and society. We are determined to be stewards in this sustainability transformation journey—both for us and our stakeholders.

## Valuing what matters

From continuous service, process, and system enhancements to improve customer experience, to various initiatives to contribute to a sustainable future, your Bank is driven to create value every day, in any way we can.

For our shareholders, China Bank paid a total of ₱2.69 billion or ₱1.00 per share cash dividends in 2021. The consistent payment of dividends is a testament to your Bank's financial well-being and future prospects. For our employees, we issued 5.4 million shares to about 8,400 qualified China Bank Group employees under the Centennial Stock Grant Plan. This equity gift of 100 shares for every year of service is a big gesture of appreciation for the dedication of our partners in success.

For the revival of Binondo and for the next generation of China Bankers and customers, we completed the restoration of our original headquarters in Binondo and the construction of the China Bank Museum. The faithfully restored China Bank Binondo Business Center, which bears the historical marker from the National Historical Commission of the Philippines and the Important Cultural Property marker of the National Museum, stands proud today as a vestige of Binondo's heyday as the "Wall Street of the Philippines".

## Confidence in our future

Our strategies and measures to ensure the safety and well-being of our employees and customers, to adapt and innovate to operate efficiently and continuously in the new normal, and to deliver positive customer experiences across our distribution network and digital channels, combined with the unwavering trust and support of our stockholders and customers, resulted in China Bank's record performance in 2021.

We are moving forward, determined to achieve our objectives of expanding our business and future proofing our growth by focusing on asset quality, digital banking, and ESG implementation. And as we do so, we will continue to monitor and assess the pandemic's impact on our business and our responsiveness to the evolving environment, with a keen eye on cyber security and data privacy, and the scalability and resilience of China Bank's technology infrastructure.

The professionalism and dedication of our employees, as well as the loyalty of our stockholders and customers are truly inspiring. On behalf of the China Bank Board, we thank all of you for staying the course with us and for believing that we could rise above the adversities together.

We are more confident than ever in China Bank's capabilities to navigate the next normal and to create a greener and more inclusive future. We are very excited for the opportunities ahead. We hope you and your families stay healthy and safe.

Sincerely,

Hans T. Sy  
Chairman

Gilbert U. Dee

# CHINABANK

Since 1920

## OPERATIONAL HIGHLIGHTS

**T**he year 2021, though still very challenging, was better compared to 2020. The vaccines gave people hope and confidence, the rising tide caused by the reopening of the economy lifted nearly all boats, and the shift from crisis mode to recovery mode created a more palpable sense of normalcy.

With people's safety as still the top priority in 2021, China Bank settled into the rhythm of new normal operations—keeping what worked in 2020 and avoiding what did not, adapting and innovating at the speed of need, deftly balancing crisis management and forward thinking, and pushing ourselves, our systems, and our businesses to operate at their best to keep China Bank firmly on track, and most importantly, to better serve our customers.

## Ensuring safety and convenience across all customer touchpoints

*From the onset, our strategy is to provide customers with a great omni-channel experience that combines the best of human and digital services. We focused on enhancing our service delivery channels, making our branches safe havens for face-to-face transactions, and our e-banking channels—ATM, mobile banking app, internet banking, and phone banking—convenient and secure options for remote banking.*

- Maintained branch operations and expanded our branch network with three new branches while ensuring the safety of our employees and customers by implementing health protocols, vaccinating personnel, and regularly disinfecting facilities.
- Instituted a “Buddy Branch” system to lessen operational disruptions. When a branch is closed, its depositors can easily transact with the buddy branch.
- Posted regular advisories on China Bank’s website and social media accounts to inform customers on the branches that are open.

\* China Bank Mobile App and China Bank Online

- Maintained 99.9% availability of digital channels.
- Simplified registration in China Bank Mobile App—an enhanced self-service feature that lets customers complete their mobile app registration without having to visit a branch. Through the app, customers can also conveniently and securely request for ATM PIN, internet banking password reset, and card suspension. Transferring funds was also made easier via China Bank Mobile App using mobile number, email address, or QR code.
- Launched the Scan-to-Pay feature in China Bank Mobile App to enable QR code payments for purchases from any establishment or online store.
- Added more billers so customers can conveniently pay their bills from the safety of their homes.
- Waived fund transfer fees for InstaPay and PESONet until December 31, 2021.
- Opened the renovated China Bank Online Hub at the ground floor of the Bank’s Head Office in Makati City. Equipped with three new multi-touch

## PRESERVING A LEGACY

China Bank's original head office in Binondo was officially reopened to the public on January 28, 2021, with the transfer of the Binondo Business Center (BBC) Cash Department to the renovated lobby of the historic building.

To preserve the Bank's heritage and more importantly, to help revive the world's oldest Chinatown, we embarked on a true restoration of our original headquarters—the Binondo Heritage Restoration Project—the centerpiece of our centennial celebration.

The building's impressive transformation is very apparent. Outside, the meticulously restored original grills and arches, previously walled in for the last 70 years, give the refreshed building an elegant and nostalgic vibe. Meanwhile, the modern interior makes the branch lobby, with its high ceiling and beautiful granite floors, look grand and contemporary. The National Historical Commission of the Philippines and the National Museum recognized the China Bank Building with historical markers. The latter also declared it an important cultural property.

While the pandemic accelerated the adoption of online banking and self-service facilities, physical branches remain important. A branch is where customers go to for high value transactions like loans and investments, to resolve any issues, or to simply take comfort in a friendly face-to-face interaction.

ATMs, a wide screen monitor displaying the Bank's latest offerings, and two bunch recycler machines, the new China Bank Online Hub is a cozy place to experience the Bank's self-service channels.

- Provided business customers with robust cash management services (CMS) to help them quickly deploy contactless POS terminals, make and receive digital payments, and achieve more operating and cost efficiencies.
- Installed 24 more China Bank ATMs in branches and high traffic locations.
- Utilized social media, website, e-mail, and other communication channels to educate customers on the benefits of digital banking and how to bank safely and securely online.

## Encouraging saving and investing

*The pandemic has reminded people of the importance of being financially prepared during difficult times. To encourage our customers to prioritize securing their future, we focused on making China Bank’s deposit, investment, and insurance products very accessible by leveraging our vast branch network and the latest technology. We also offered customers more options to make the most of their hard-earned money, including China Bank bonds, government and corporate securities, and other investment opportunities like stocks, Real Estate Investment Trusts (REITs), and Initial Public Offerings (IPOs). We supported these with our financial literacy efforts to drive the uptake of financial services and investment instruments, as well as to protect the banking public from investment scams and cyber risks.*

- Launched “Save Big, Shop Big” deposit promo to make saving more rewarding. For every P5,000 monthly average daily balance, customers earn a reward point which can be exchanged for SM Gift Pass or China Bank Credit Card shopping credits.
- Upgraded to a fully digital trust and wealth management platform using Intellect’s Wealth Qube suite. With this robust straight-through processing solution, China Bank is able to

efficiently handle the growing business volume and stringent regulatory requirements, while providing enhanced end-to-end customer experience, and to deliver better digital solutions for our UITF customers in managing their investments.

- Launched the China Bank Philippine Equity Index Tracker Fund, a unit investment trust fund (UITF) that aims to provide capital appreciation by investing in a diversified portfolio of stocks representative of the Philippine Stock Exchange Index (PSEi) composition and its corresponding weights. The fund aims to mirror the return of its benchmark, which is the PSEi. China Bank now offers 11 UITFs to suit investors of every risk profile—from conservative to aggressive.
- Launched the Systematic Investment Plan (SIP), allowing existing UITF customers the opportunity to schedule monthly or quarterly subscriptions with the convenience of a one-time enrollment to a wide range of China Bank's UITFs.
- China Bank Securities launched its online trading platform, ChinaBankSec Online, to enable investors to buy and sell stocks using their laptops, personal computers, tablets or mobile phones. ChinaBankSec Online also allows investors to easily track and monitor their trades, view and assess the performance of their portfolio, and make informed decision by having access to charts

## BEST BANK IN THE PHILIPPINES AND AMONG THE STRONGEST IN ASIA PACIFIC

China Bank was named the Best Bank in the Philippines by Hong Kong-based financial publication, *The Asset*. China Bank bested the other banks in the country, including the largest ones.

China Bank was lauded as the Best Bank for its strong financial performance and proven expertise in corporate and institutional banking, advisory and transaction banking, as well as its environmental, social, and governance initiatives. The Bank and all the other awardees in Southeast Asia were recognized by *The Asset* for their zeal and versatility in seeking ways to adapt to challenging conditions and enhancing their services to end-users while recording fee income growth despite the market volatility caused by the global pandemic.

The Bank was the country's best performing bank in 2020 in terms of profitability, posting full year net income growth of 20%, while most banks' earnings dropped.

China Bank's financial strength was also recognized by *The Asian Banker*, ranking the Bank as the 2nd strongest in the Philippines and among the top 20% in the Asia Pacific region in *The Asian Banker's* Top 500 Strongest Banks ranking 2021.

The *Asian Banker* cited China Bank as having the lowest gross non-performing loans (NPL) ratio among Philippine banks included in The Asian Banker 500, at 2.3% as of December 2020, while its gross NPL cover exceeded the ideal 100% threshold. Meanwhile, the Bank achieved higher profitability following a decline in cost-to-income ratio to 49% from 59%, and an increase in return on assets to 1.2% from 1.1%. Apart from the 30% rise in net interest income, fee-based income also grew 19% on the back of better trading and securities gains. In addition, the robust capital and liquidity position helped improve overall balance sheet strength.

and market information. Active and sophisticated investors can use ChinaBankSec Alpha which offers more advanced trading tools and features such as conditional trading.

- Manulife China Bank Life Assurance Corporation (MCBL) launched Legacy Secure, a whole life insurance plan that provides policyholders guaranteed life insurance coverage until age 100 and other benefits like guaranteed cash payouts, potential dividends and lumpsum cash benefits.

- Released regular savings, investment, and fraud protection tips on social media and conducted various financial literacy and financial planning webinars.

## Making banking more inclusive

Millions of Filipinos at the fringes—the unbanked and underserved sector—are unable to participate in the formal financial system that would enable them to benefit from the country’s economic growth. We advocate financial inclusion, making our products and services affordable, our processes simple, and our locations accessible to reach out to those at the margins, particularly the overseas Filipino workers and their families, public school teachers, and government employees nationwide.

## EMPOWERING OFWS

Filipinos work abroad in pursuit of a better life for themselves and their families. The Overseas Workers Welfare Administration (OWWA) launched the Pre-Departure Orientation Seminar (PDOS) in 1983 as a mandatory seminar to help prepare departing Overseas Filipino Workers (OFWs) for life outside the country.

PDOS is an important part of OWWA's education policy and of the government's program for the safety and welfare of OFWs. It is also a key channel for China Bank's financial literacy program, strengthening our commitment to promote financial inclusion.

China Bank has a PDOS Center in Manila and has tie-ups with OWWA-accredited PDOS providers. With the switch to online PDOS during the pandemic, we continued to virtually educate OFWs on the importance of saving and investing. We conducted 147 sessions with 10,272 webinar participants. Financial literacy took on greater urgency with the uncertainties caused by COVID-19, especially the threat of repatriation. Through PDOS, we provided practical tips and advice to empower OFWs with a skill that will help secure their financial future: money management.

## Making credit available

*China Bank is committed to keeping businesses and the economy running, helping borrowers meet their loan obligations through Bayanihan 1 & 2 and other forbearance programs, and providing the needed financing boost so our customers can get back on their feet or achieve their dreams in the face of COVID-19. As loan demand started to slowly pick-up in 2021, we continued to balance making credit accessible while managing increased credit risks, and making credit available quickly while still performing all the necessary checks.*

- Automated eligibility checks to expedite loan origination and processing.
- Enhanced due diligence and risk management to manage the expected increase in non-performing loans (NPL) and the long-term effects on asset quality.
- Set aside ample credit provisioning to maintain sound asset quality.
- Loans to businesses and corporate clients—movers of the economy—accounted for 80% of total portfolio.
- Communicated through various communication channels on the relief measures, how to avail of the payment holiday, what to expect when payments resume, and to promote responsible credit practices.

**TOP HOUSING LOAN FINANCING PARTNER**

CBS was named Top Housing Loan Financing Partner by PHirst Park Homes, Inc. (PPHI) during its 2021 mid-year Sales Awards night. CBS bested established universal banks by booking ₱1.1 billion in loans, equivalent to 739 units financed, in just the first half of 2021.

“CBS and PHirst Park Homes share values, including integrity, customer-focus and concern for people,” said CBS Housing Loans Division Head Kristine Chavez Broadhurst. “By providing easy-to-access, uncomplicated banking services to first home buyers, CBS is living up to our commitment to promote financial inclusiveness and uplifting the quality of life in communities we serve.”

Since the start of the partnership in 2017, CBS successfully loaned out ₱3.1 billion to more than 2,000 homebuyers in various communities established by PPHI. PHirst Park Homes is the new First-Home brand of PPHI, a partnership between Century Properties Group, Inc. and Mitsubishi Corporation.

## Helping deepen the capital markets

*In 2021, the bond market was robust amid government and corporations' heightened financing needs. The equity market also had a vibrant year, closing with eight IPOs, 11 follow-on offerings, four stock rights offerings, and eight private placements. Through our investment banking arm, China Bank Capital, we helped many issuers raise their financing requirements from the local debt market, and at the same time, focused on bringing new names and products to the market, promoting financial inclusiveness to gain a wider investing public, and working closely with regulators to broaden and deepen the domestic capital markets amid the ongoing pandemic.*

- China Bank Capital was granted the most sole mandates, leading multiple transactions across various offering formats – China Bank Capital was sole issue manager of D&L Industries, Inc.'s maiden ₱5 billion bonds, sole arranger for AllHome Corp.'s ₱2.0 billion corporate notes, sole issue manager for Century Properties Group, Inc.'s ₱3 billion bonds, and 8990 Holdings Inc.'s ₱3.7 billion preferred shares.
- Remained at the forefront of developing and deepening the domestic debt capital market by introducing the most number of new issuers like D&L Industries, PHINMA Corporation, AllHome Corp. and Del Monte Philippines, Inc.; and enabling repeat issuers like Ayala Land, Inc., SM Prime Holdings, Inc., San Miguel Corporation, and Aboitiz Equity Ventures, Inc. to efficiently tap liquidity from institutional and retail investors.
- Played a key role in the rejuvenation of the equity markets through several landmark transactions such as AC Energy's stock

### China Bank Capital

**No.1**  
in the Local Corporate

**₱425B**  
raised for the private sector  
(USD and PHP deals)

rights offering, the IPOs of Monde Nissin, FIL REIT, RL Commercial REIT, and AllDay Marts, the Follow-On offering of The Keepers Holdings, and the preferred share issuance of Jollibee Foods Corp.

- Demonstrated strong commitment to helping the government in its fundraising efforts to combat the pandemic and support economic recovery. The Bureau of the Treasury selected China Bank Capital as an issue manager for three major issuances of the Republic of the Philippines – the 25<sup>th</sup> retail treasury bonds (RTB 25) with switch offer, the BTr's very first retail onshore dollar bonds, and the 26<sup>th</sup> retail treasury bonds (RTB26), all of which were launched and settled amidst quarantine conditions.
- Advised issuers on how to execute landmark deals. China Bank Capital was behind the structuring of two landmark offerings – China Banking Corp's ₱20 billion bank bond and San Miguel Corporation's ₱30 billion fixed rate bonds.

## 6-TIME BEST BOND ADVISER

China Bank Capital was named the Best Bond Adviser (Domestic) by *The Asset*, winning the distinction for the sixth consecutive year.

At the Triple A Awards 2021, *The Asset* affirmed China Bank Capital's solid position as the top investment bank in the Philippine bond market.

China Bank Capital was also named The Best Bond House, alongside BDO Capital, by the Investment House Association of the Philippines, and the Top Corporate Issue Manager/Arranger (Investment House Category) by the Philippine Dealing System.

China Bank Capital remained the adviser of choice of bond issuers in 2021 and was active across a wide range of fixed income deals, including all the National Government's Retail Treasury Bond and Premyo Bond issuances. It was also instrumental in introducing quality issuers to the debt capital markets and executing highly successful and socially impactful fixed income transactions.

# SUSTAINABILITY STRATEGY

An aerial photograph of a dense, vibrant green forest. A paved road with yellow and white markings curves through the trees in the upper right quadrant. Overlaid on the left side of the image is a large, semi-circular graphic composed of concentric rings of squares in various shades of green, yellow, and orange, creating a sunburst or ripple effect.

# How We Create Value

102-15, 103-2, 201-1, 201-4

We create value from the impact of our financial products and services to the environment, our stakeholders, and our national economy.

## Social Development

A total of **165,279** China Bank clients availed of health and life insurance from Manulife China Bank Life (MCBL), equivalent to **13.5%** increase from previous year.

China Bank's head office in Binondo, built in 1924, was restored to preserve the Bank's heritage and to help revive Binondo for future generations.

Micro, Small, and Medium Enterprises (MSME) loans amounted to **P18.4B** in 2021.

**9,747** permanent Filipino employees in 2021, **67%** of which are female employees.

## Environmental Protection

China Bank continued to fund renewable and green projects in 2021.

Funding for renewable energy and green projects translated to avoided greenhouse gas emissions.

## Economic Growth

China Bank, via China Bank Capital, raised **P425B** of capital for the private sector.

Through China Bank Capital, a total of **P903B** was raised for the government.

E-payments using China Bank Mobile App increased by **167%** in 2021.

Remittance transactions processed by China Bank reached **US\$1.68B** in 2021, a **6%** increase compared to previous year.

# Contribution to UN Sustainable Development Goals

The United Nations Sustainable Development Goals (UN SDGs) serve as a guidance for nations to address global environmental and social pain points. China Bank contributes to the achievement of the goals through our products and services, with making a difference and creating societal impact in mind.

UN SDGs	China Bank's Contribution to the UN SDGs Based on Specific Targets
 <p><b>1</b> NO POVERTY</p>	<p><b>1.4</b> By 2030, ensure that all men and women, in particular the poor and the vulnerable, have equal rights to economic resources, as well as access to basic services, ownership and control over land and other forms of property, inheritance, natural resources, appropriate new technology and financial services, including microfinance.</p> <p><b>1.a</b> Ensure significant mobilization of resources from a variety of sources, including through enhanced development cooperation, in order to provide adequate and predictable means for developing countries, in particular least developed countries, to implement programs and policies to end poverty in all its dimensions.</p> <p>Supported Filipino families by providing financial services to <b>2,570</b> MSME's in 2021.</p> <p>Contributed to economic development by dutifully paying taxes which amounted to <b>P5.8B</b> in 2021.</p>
 <p><b>3</b> GOOD HEALTH AND WELL-BEING</p>	<p><b>3.8</b> Achieve universal health coverage, including financial risk protection, access to quality essential health-care services and access to safe, effective, quality and affordable essential medicines and vaccines for all.</p> <p>Provided health and life insurance protection to more Filipinos. Manulife China Bank Life's gross premiums increased <b>77%</b> in 2021.</p> <p>Chinabank Insurance Brokers booked <b>176</b> dengue policies for a gross premium totalling <b>P100,660</b> in 2021, from only <b>P17,377</b> in 2020.</p>
 <p><b>4</b> QUALITY EDUCATION</p>	<p><b>4.4</b> By 2030, substantially increase the number of youth and adults who have relevant skills, including technical and vocational skills, for employment, decent jobs and entrepreneurship.</p> <p><b>4.7a</b> Build and upgrade education facilities that are child, disability and gender sensitive and provide safe, non-violent, inclusive and effective learning environments for all.</p> <p><b>3,287</b> participants benefitted from the various Financial Literacy Programs of China Bank and CBS in 2021.</p> <p>Disbursed <b>P4.45B</b> in loans to the education sector to build and improve schools.</p>

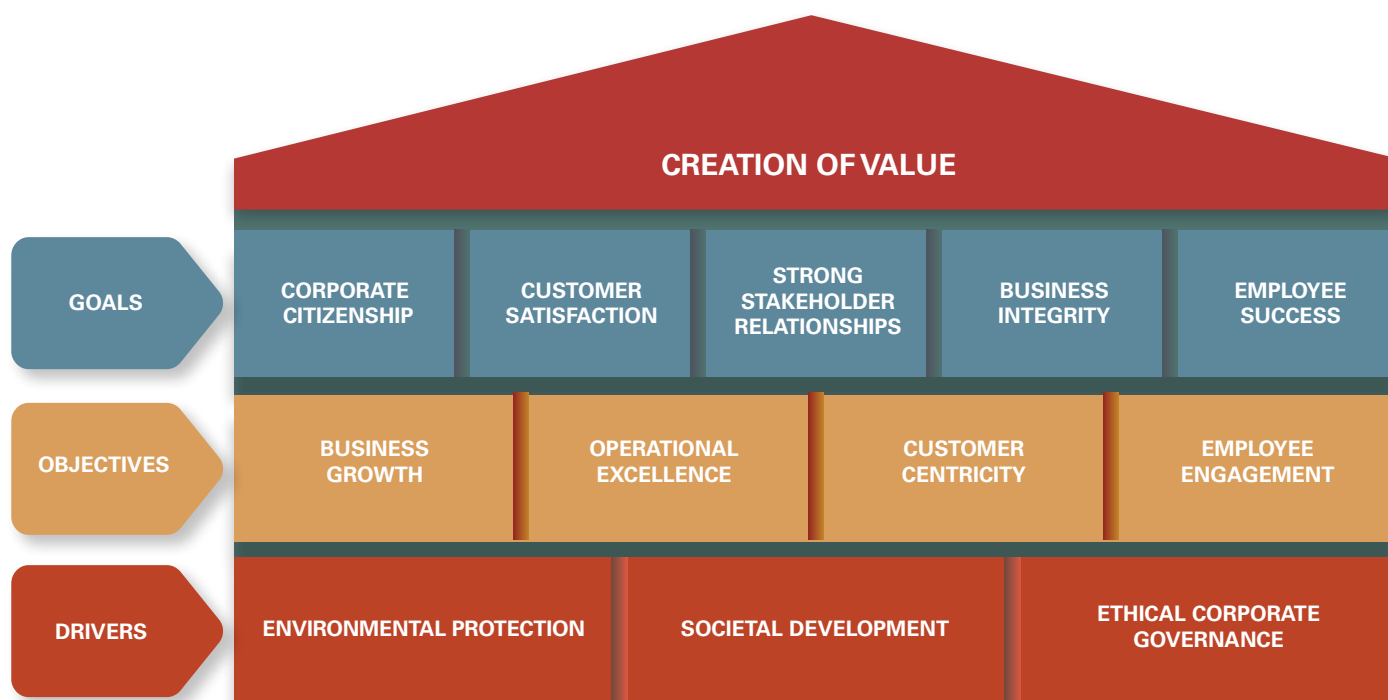

UN SDGs	China Bank's Contribution to the UN SDGs Based on Specific Targets
 <p><b>5</b> GENDER EQUALITY</p>	<p><b>5.5</b> Ensure women's full and effective participation and equal opportunities for leadership at all levels of decision-making in political, economic and public life.</p> <p>Female officers accounted for <b>18%</b> of the total officer population at China Bank. Two female Independent Directors are in the Board.</p>
 <p><b>7</b> AFFORDABLE AND CLEAN ENERGY</p>	<p><b>7.1</b> By 2030, ensure universal access to affordable, reliable and modern energy services.</p> <p>China Bank continued financing renewable and green projects in 2021.</p>
 <p><b>8</b> DECENT WORK AND ECONOMIC GROWTH</p>	<p><b>8.8</b> Protect labor rights and promote safe and secure working environments for all workers, including migrant workers, in particular women migrants, and those in precarious employment.</p> <p><b>8.10</b> Strengthen the capacity of domestic financial institutions to encourage and expand access to banking, insurance and financial services for all.</p> <p>Fully vaccinated <b>96%</b> of employees through the China Bank Group COVID Vaccination Program in 2021.</p> <p>China Bank's network of <b>637</b> branches, <b>1,037</b> ATMs, and robust digital channels provided customers with easy access to banking during the pandemic.</p> <p>Digital transactions through China Bank Mobile App increased by <b>103%</b> in 2021.</p>
 <p><b>12</b> RESPONSIBLE CONSUMPTION AND PRODUCTION</p>	<p><b>12.6</b> Encourage companies, especially large and transnational companies, to adopt sustainable practices and to integrate sustainability information into their reporting cycle.</p> <p>China Bank has been publishing a combined annual and sustainability report for the last four years.</p>
 <p><b>16</b> PEACE, JUSTICE AND STRONG INSTITUTIONS</p>	<p><b>16.6</b> Develop effective, accountable, and transparent institutions at all levels.</p> <p>China Bank's excellence in corporate governance was again recognized at the ASEAN Corporate Governance Scorecard Awards and the Four Golden Arrow Awards in 2021.</p>

# Sustainability Approach

102-32

In line with our mission to be a leading provider of financial products and services to institutions, entrepreneurs, and individuals to meet their financial needs and rising expectations, we are progressively integrating sustainability in the way we do business. We define sustainability based on how we create value for our stakeholders and for the environment. Our value creation is underpinned by our sustainability goals of corporate citizenship, customer satisfaction, strong stakeholder relationships, business integrity, and employee success.

- 1. Corporate Citizenship** – Be a responsible corporate citizen and a trustworthy partner in building a sustainable future for all.
- 2. Customer Satisfaction** – Deliver exceptional service and provide convenient access to fair and affordable financial solutions to help our customers achieve their financial goals at any life stage.
- 3. Strong Stakeholder Relationships** – Build strong relationships by protecting stakeholders’ rights and by responding to their needs and concerns.
- 4. Business Integrity** – Uphold high ethical standards to sustain stakeholders’ trust and confidence.
- 5. Employee Success** – Ensure our employees are engaged, fairly compensated, and provided with opportunities to reach their full potential.

**China Bank's Sustainability Strategy House**

Our business objectives – business growth, operational excellence, customer centricity, and employee engagement – go hand-in-hand with our sustainability goals. We believe in doing well by doing good; thus, our actions and decisions are also driven by environmental, social, and governance (ESG) considerations. Embedding sustainability in the business is a deliberate and conscientious decision from the top.

Our Board of Directors has the over-all oversight responsibility for China Bank’s effective corporate governance, risk management, and sustainability frameworks. The Board is supported by the Senior Management in the implementation of ESG activities.

The Sustainability Office, under the Office of the Chief Operating Officer, is responsible for leading the implementation of China Bank’s Sustainable Finance Transition Plan. This involves inculcating a sustainability mindset in the organization through capacity building, sustainability reporting, and ESG Risk inclusion in banking processes and standards.

The Sustainability Office is supported by the Sustainability Working Group composed of representatives from the Risk Management Group, Compliance Division, Institutional Banking Group and Investor and Corporate Relations Group.

---

# Stakeholder Engagement

102-40, 102-42, 102-43, 102-44

We share our long-term value creation commitments with our stakeholders. Our regular engagement and open communication with our various stakeholder groups enable us to understand their expectations and concerns, and ultimately, to be a better and more responsive banking partner to them.

Our Stakeholders	Key Engagement Channels	Their Concerns	Our Response
<b>CUSTOMERS</b>	<ul style="list-style-type: none"> <li>- Daily customer contact via branches, customer service hotline, e-mail, and social media accounts</li> <li>- Customer Satisfaction Survey</li> <li>- Bank-scheduled virtual interactions via Economic Briefing and Wealth Management Forum</li> </ul>	With the decreased mobility due to quarantine restrictions, our customers were mainly concerned about banking access, security, and responsive service.	We focused on ensuring our branches and digital channels remain available, that robust security measures are in place, and that customers can reach us through various communication channels for assistance.
<b>EMPLOYEES</b>	<ul style="list-style-type: none"> <li>- Regular Management Advisories</li> <li>- Daily Health Check App</li> <li>- Internal Customer Satisfaction Survey</li> <li>- Performance Appraisals</li> <li>- Online and face-to-face interactions and meetings</li> <li>- Retail Banking Business National Convention</li> <li>- Work-life Integration Programs</li> <li>- Town Hall meeting</li> </ul>	While our employees understand that we must continue to be in the frontlines to provide essential banking services amid the pandemic, their primary concerns were safety and flexibilities to continue learning and being productive.	Aside from our logistical support to ensure our people's safety, like service vehicles and dedicated COVID testing centers, we launched a group-wide vaccination program. We also switched to a modern workplace with Office 365 for easier communication and collaboration whether onsite or working from home, digitized our training programs, and made all our recognition and work-life integration programs virtual.
<b>SHAREHOLDERS</b>	<ul style="list-style-type: none"> <li>- Annual Stockholders' Meeting</li> <li>- Group Strategy Update</li> <li>- Participation in the SM Group's quarterly investor briefings</li> </ul>	Our shareholders recognize the impact of the pandemic on businesses and the economy. Their major concern is if we can sustain China Bank's strength and resilience to continue growing and providing good returns.	We kept our shareholders apprised of the Bank's performance with timely and transparent disclosures. We also continued to improve our governance practices to ensure our operations remain fundamentally sound and resilient.
<b>NON-GOVERNMENT ORGANIZATIONS (NGO's)</b>	<ul style="list-style-type: none"> <li>- Partnerships and collaborations for a cause</li> </ul>	The top concern of NGO's is to get support (financial and non-financial) for their projects and advocacies.	China Bank has been involved in a range of philanthropies, partnering with various NGO's to support worthy causes.
<b>REGULATORS</b>	<ul style="list-style-type: none"> <li>- Regular Audits and Reports</li> <li>- Regular Bangko Sentral ng Pilipinas examination</li> <li>- Regular correspondences through letters and e-mails</li> </ul>	With the stringent regulatory environment to ensure the stability of the financial system amid the pandemic, the regulators' primary concern continued to be compliance with the rules and regulations.	We endeavor to maintain a mutually beneficial relationship with our regulators by proactively collaborating with them to ensure that regulatory issuances are accurately interpreted/ applied, timely communicated and properly implemented across all levels in the organization.
<b>SUPPLIERS</b>	<ul style="list-style-type: none"> <li>- Online meetings</li> <li>- E-mail correspondences</li> <li>- Accreditation and bidding process</li> </ul>	The reopening of the economy eased some of the supply chain challenges. But as some problems remained, our suppliers were still mainly concerned with meeting delivery due dates.	We continued to be understanding of the issues faced by our suppliers. We allowed some leeway to the extent practicable.

# Materiality

102-46, 102-47

In addition to the topics covered in our GRI Content Index, we also considered the following topics from the Sustainability Accounting Standards Board (SASB) as material topics for commercial banks:

## Data Security

Activities involving identification and address of security risks.

## Incorporation of ESG factors in credit analysis

Activities that determine commercial and industry credit exposure of portfolio and integrate E&S aspects in credit analysis.

## Business Ethics

Actions to control ethical issues such as fraud, insider trading, anti-trust, anti-competitive behavior, market manipulation, malpractice, or other related financial industry laws or regulations.

## Systemic Risk Management

Incorporation of results of mandatory and voluntary stress tests into capital adequacy planning, long-term corporate strategy, and other business activities.

## Financial Inclusion and Capacity Building

Programs or actions designed to promote small businesses and community development, including financial literacy initiatives for unbanked, underbanked, or underserved customers.

We plan to conduct a comprehensive materiality assessment in 2022 via surveys and interviews to determine the level of impact of these material topics to our business and to our stakeholders. The materiality assessment process will be as follows:

The materiality assessment results will be discussed in the next edition of the Sustainability Report.

# SUSTAINABILITY PERFORMANCE

# STRONG STAKEHOLDER RELATIONSHIPS

103-1, 103-2

## **Protecting stakeholder rights**

*At China Bank, we value our stakeholders and we are committed to earn and maintain their trust. Amid the challenges of the pandemic and the evolving business landscape, we continue to protect our stakeholders' interests and rights by ensuring the security of transactions, understanding their concerns, and providing excellent service.*

## **Data privacy**

We protect our customers' confidential information as a way of building stronger relationships with our stakeholders. China Bank's data privacy policies and measures are anchored on the principles of transparency, legitimate purpose, and proportionality. We also adhere with the five pillars of compliance with existing data privacy regulations:

1. Commit to Comply
2. Know your Risks
3. Write your Plan
4. Be Accountable
5. Be Prepared for Breach

Protecting the personal data of China Bank customers is of utmost importance to us; thus, we are continually investing to improve our data protection measures. The Bank has a Data Privacy Officer to ensure the Bank's compliance with the Data Privacy Act of 2012, its implementing rules and regulations, policies, and related issuances from the National Privacy Commission.

### **Customers' data protection management** 418-1

China Bank has a Data Privacy Management Program to ensure that collection, recording, organization, storage, updating or modification, retrieval, consultation, use, consolidation, blocking, erasure, or destruction of personal data is compliant with the requirements of the Data Privacy Act of 2012, also known as RA 10173.

The Privacy Management Program covers among others, the identification and assessment of the privacy risks to customer information in each relevant area of operation, and the design, implementation, and monitoring of our data and privacy protection measures. In addition, the program includes awareness and training to China Bank employees on general data privacy, confidentiality, and security standards for handling personal information and sensitive personal information. In 2021, no significant data privacy breaches were recorded.

## Cyber security

Our digital transformation enables China Bank to implement technologies, policies, and protective mechanisms to facilitate safe and secure banking transactions. Cyber security is one of our top priorities and we have a dedicated team that continuously protects and monitors our systems against cyber threats 24 hours a day, 7 days a week. The Bank has a Chief Information Security Officer (CISO) that is independent from our IT Team and reports directly to the President. CISO is responsible for the Bank's Information Security Program.

We adopted a methodical and diligent approach in managing cyber threats and Information Technology (IT) risks. In place is a Cyber Security Program that is aligned with government and industry best security practices to provide a safe and secure banking environment for our customers. Our IT Team (China Bank Properties & Computer Center, Inc.), led by the Chief Technology Officer (CTO), work hand in hand with the Information Security Office (ISO) and the Risk Management Group (RMG) in managing and implementing the Bank's IT security strategy. Cyber security risks are among the risks regularly discussed in the Board's Risk Oversight Committee. No significant data privacy breaches were recorded in 2021.

## Proactive approach in cyber threat management

As we accelerate China Bank's digital transformation, we continue to strengthen our security foundation with preventive, detective, and responsive layers, while proactively enforcing cyber security governance bank wide. At the onset of the pandemic, we redoubled our cyber security efforts internally. We also created a stronger awareness among our customers and the banking public on the increased threat of scams and online threats. We release security tips and reminders on China Bank's website and social media accounts on an ongoing basis. Security assessments and penetration testing on our IT systems are also regularly conducted by independent parties and our own in-house cyber security team to ensure the effectiveness of our controls. In 2021, no significant cyberattacks were recorded.

## Consumer protection

We are committed to protecting and upholding consumers' rights, including their right to information about our products and services, their right to data privacy and transaction security, their right to fair treatment, and their right to redress.

The Board oversees China Bank’s over-all governance of consumer protection mechanisms and is regularly apprised of consumer-related developments that could impact the Bank. The Board also monitors the effectiveness of our Consumer Protection Framework which is anchored on the following pillars:

1. Board and Management Responsibility
2. Consumer Protection Risk Management System
3. Institutional Culture
4. Disclosure and Transparency
5. Effective and Robust Complaints Handling

## Client interactions

Our Customer Contact Center (CCC) ensures the resolution of client concerns within the standard turnaround time (TAT) of the Bangko Sentral ng Pilipinas (BSP). The team, led by the Chief Consumer Assistance Officer (CCAO), monitors and manages customer feedback and complaints based on set guidelines, reports consolidated complaints to the Risk Oversight Committee through the Risk Management Group, and submits quarterly reports to the Supervisory Data Center of the BSP.

In 2021, CCC handled 252,991 client calls, emails and social media messages. Majority or 53% of these interactions were inquiries; while only 5% were complaints, 96% of which were resolved within set standards.

## Branch customer feedback

We also get customer feedback through our branches nationwide. In 2021, we conducted a year-round survey to know how well we are serving our customers at our branches.

### Branch Customer Feedback/Survey Report

Attributes	2019	2020	2021
Overall Satisfaction	94%	96%	<b>95%</b>

Deposit/Withdrawal	95%	97%	<b>95%</b>
Branch Premises	96%	97%	<b>96%</b>
ATM Services	95%	98%	<b>96%</b>
Security Guards	97%	98%	<b>96%</b>

## Customer assistance channels

Online and offline, our customers can easily reach us for their banking/account inquiries or concerns. The details of our various customer assistance channels, aside from China Bank branches nationwide, are listed on page 154.

For reports on fraudulent activities or unethical behavior, customers can use our Whistleblowing channel. See page 71 for details.

For general information on China Bank, including products and services and corporate developments, customers can visit [www.chinabank.ph](http://www.chinabank.ph).

# CORPORATE CITIZENSHIP

103-1, 103-2

## ***Purpose beyond profit***

*Good business is not only about the bottom line. China Bank's responsibilities go beyond achieving financial targets and providing good shareholder returns. As we work hard to grow our business, we take to heart our environmental and social responsibilities to help build a sustainable future for all.*

## **Managing environmental footprint**

102-11, 103-1, 103-2, 302-1, 303-1, 305-1, 305-2

Due to the nature of the business, the environmental footprint of financial institutions is generally small. Nonetheless, we measure and monitor our environmental performance to ensure our impact is kept in check. Action plans to reduce any significant increase in utility consumption and waste generation are planned for implementation in the coming year. We will continue to engage our employees to progressively create an environmentally-conscious workplace.

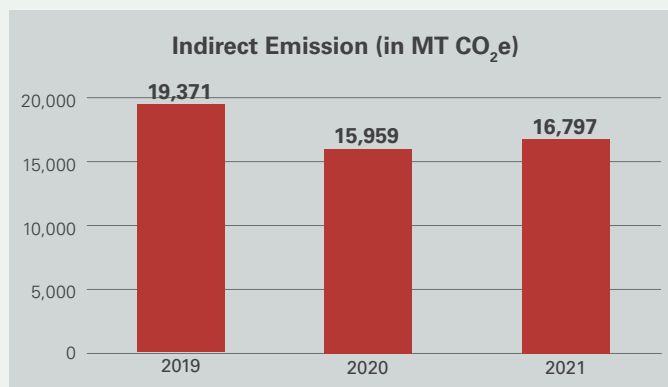

## Electricity consumption

China Bank's electricity consumption is driven by our branches and corporate offices during normal operations. This energy use constitutes our indirect emissions under Scope 2, defined as emissions that came from sources not owned or directly controlled by the company but related to company activities. Similar to the situation during 2020 COVID-19 surge, our 2021 consumption data was also affected by the lockdowns and temporary branch closures. For 2021, our electricity consumption was 22,449 MWh, a slight increase from 2020 consumption of 22,306 MWh.

## Indirect emission

China Bank's electricity consumption contributes to indirect or Scope 2 emission. 2021 electricity consumption translated to 16,797 MT CO<sub>2</sub>e indirect emission, which is proximate to the emission figures in 2020. Fuel consumption from third party sources amounted to 678 MT CO<sub>2</sub>e.

## Fuel consumption of owned vehicles and direct emission

Greenhouse gas emissions emanating from Bank-owned assets such as vehicles refer to direct emissions under Scope 1. Due to an improved data collection process in 2021, China Bank has accounted for more data sources compared to previous years. This resulted to an increase in the 2021 fuel consumption amounting to 509,753 Liters in 2021, which translates to a total of 19,064 MT CO<sub>2</sub>e Scope 2 emission.

Emission Scope	2021	2020	2019
Total Direct Emission (Scope 1), MT CO <sub>2</sub> e	19,064	10,371	8,381
Total Indirect Emission (Scope 2), MT CO <sub>2</sub> e	16,797	15,959	19,371

## Water consumption

Water usage of our branches and corporate offices was at 306,333 cubic meters in 2021. Increase in water consumption in 2021 compared to 2020 data signified more branches are already submitting data for environmental performance monitoring. An improved data collection process contributed to more robust water consumption data from the branches and administrative offices.

## Adapting to a sustainable regulatory environment

The Bangko Sentral ng Pilipinas (BSP) issued Circular 1128 in 2021. Related to BSP's earlier Circular 1085 which is focused on Sustainable Finance Framework, Circular 1128 further strengthens the necessity for financial institutions to integrate Sustainability principles in their banking processes; in particular, the integration of Environmental and Social risks to the bank-wide risk management processes.

In response, we continue to work on fulfilling and improving China Bank's Sustainable Finance Transition Plan with the additional actions linked to the new circular. We also began developing an exploratory plan for incorporating environmental and social risk exposure in our lending process.

In 2021, as part of China Bank's business planning and long-term goal setting, we developed a two-year roadmap for the integration of environmental and social (E&S) risk assessment in the overall credit risk management process by 2023. The first phase of the roadmap is focused on the identification and measurement of E&S risk in the Bank's portfolio, with emphasis on high-risk E&S exposures. The second phase, on the other hand, is geared towards a

more granular assessment of Environmental and Social risk at the borrower level and integrating the assessment as part of the credit rating and Expected Credit Loss (ECL) computation.

We will continue to undertake further action on this and disclose them as we progress.

## Environmental and Social Management System (ESMS)

China Bank has an Environmental and Social Management System (ESMS) approved by the Senior Management. It is used as a reference for identifying and managing the Environmental and Social risks of projects eligible for financing or re-financing under China Bank's green bonds, with International Finance Corporation (IFC) as the sole investor. China Bank's ESMS follows a process which includes transaction screening, E&S assessment and risk categorization, E&S due diligence process, presentation and decision-making, and disbursement. We are expanding the scope of ESMS to cover other eligible projects, particularly renewable energy, which will also undergo E&S risk assessment by the Sustainability Office prior to financing.

## Enabling sustainable finance

We support projects that would help create a sustainable future, like renewable energy and green building infrastructure. China Bank's Senior Management leads the incorporation of Sustainable Development aspects in the financing evaluation mechanism. The Institutional Banking Group (IBG) and the Sustainability Office ensure that Environmental and Social requirements are considered in Sustainable Finance transactions. The investment evaluation of Environmental and Social aspects is aligned

with International Finance Corporation (IFC) Performance Standards and local regulations. Environmental and Social issues and concerns are brought up to the Senior Management level to be addressed prior to financing.

Net proceeds from the issuance of Green bonds or other sustainability bonds/ loans are used to finance/ refinance sustainable development projects. This includes projects focused on environmental and social issues.

Category	Projects and Activities
Renewable energy	Projects that enable generation of energy from renewable sources such as, but not limited to solar, wind, hydro, biomass, geothermal, and tidal
Energy efficiency	Projects that can decrease energy consumption or improve energy usage efficiency
Water management	Water recycling and water re-use projects
Waste management	Projects that can reduce solid waste and GHG emission including recycling and methane capture from waste
Sustainable infrastructure	Green buildings and road construction
Sustainable transportation	Government-supported transportation vehicles, electric cars, and hybrid vehicles
Agricultural	Agricultural crops and livestock, including machineries and equipment that can improve agricultural process
Affordable housing, basic infrastructure, and consumer loans	Provide access to loan products for low-income population
Essential services and social projects	Hospitals, clinics, pharmaceutical products, educational institutions, and other learning facilities

## Community development

102-12, 413-1

As we pursue growth, we also give back to help uplift society in these challenging times. We create long-term value by utilizing our financial and intellectual capital to promote financial literacy, to make banking accessible to the unbanked and underserved sector, to encourage charitable giving among our ranks, and to help in relief and rehabilitation efforts in times of disasters.

- China Bank employees donated through the Human Resources Group's Personal Social Responsibility Program (PSRP) to buy medical supplies for the elderly wards of Kanlungan ni Maria in Antipolo and Christmas Noche Buena packs for the Bank's service personnel.
- China Bank had a donation drive to help those who were affected by typhoon Odette, a tropical cyclone that hit Southern part of the Philippines.

# CUSTOMER SATISFACTION

203-1

## Meeting expectations

*Our customers' success is our business. Thus, we are driven to deliver exceptional service to meet the needs and expectations of our customers and to provide convenient access to fair and affordable financial solutions to help them achieve their financial goals at any life stage.*

## Digitalization

We continue to provide high quality banking experience to meet the needs of our multi-generational clients. Our digital banking initiatives aim to enhance customer experience and facilitate convenient and secure remote banking to address the safety and mobility constraints in these difficult times.

### Initiatives in digital banking

- Launched ChinaBankSec Online, a platform that enables investors to buy and sell stocks from their mobile phones, tablets or computers.

**103%**  
increase in digital banking  
transactions in 2021

**182%**  
increase in InstaPay utilization  
in 2021

- Implemented InstaPay 2.0 Multi-proxy feature, enabling customers to transfer funds using a mobile number or email address, instead of an account number. China Bank was one of the pioneering banks to go live with this feature.

## JUST SCAN TO PAY

China Bank is committed to empower Filipinos through financial literacy and technology.

The Bank was a pilot participant in InstaPay, launched in 2018, and was one of the initial six participants in the pilot launch in 2019 of the National QR Code Standard, QR Ph for person-to-person payments or “QR Ph P2P”. When the COVID-19 pandemic struck in early 2020, digitalization took on greater urgency and more people embraced digital banking and contactless payment. In April 2021, QR Ph for person-to-merchant payments or “QR Ph P2M” was launched by the BSP to boost the digitalization of small businesses, and China Bank was again one of the seven participating institutions in the pilot run.

To help drive QR Ph adoption, we launched the Pay-to-Scan feature in our mobile app which can be used at any retail establishment or online store with a QR Ph code. The feature is interoperable across all major payment platforms, and there is no need to transfer funds to an e-Wallet as payment is debited directly from the customer’s China Bank account.

To pay, customers can simply tap “Scan to Pay or Transfer” on the China Bank Mobile App, scan the QR Code, and confirm the purchase by entering the one-time password sent to their mobile phone. The service is free of charge.

## Financial inclusion

We recognize the importance of easy access to financial products and services for all. We are committed to make our banking products and services affordable and accessible to customers of any social class.

### Support for MSMEs and retail investors

- Helped boost the digitalization of small businesses by being one of the seven participating institutions in BSP’s QR Ph for person-to-merchants or QR Ph P2M.
- Actively sold and promoted the government’s Premyo Bonds, Retail Treasury Bond 26 (RTB 26), and Retail Dollar Onshore Bonds which enabled retail investors to invest as low as ₱500, ₱5,000, and US\$300, respectively. China Bank Capital served as joint issue manager for these bond offerings.
- Launched Systematic Investment Plan (SIP), an investment service for regular and automatic subscription to China Bank’s Unit Investment Trust Funds (UITF)

## Remittance service access for the Muslim Community

Added a new cash pick-up partner, Al-Amanah Islamic Investment Bank of the Philippines (AAIIBP), to better serve the OFW families in the Mindanao region.

## Lending to the education sector

China Bank Savings implemented a lending program for public school teachers and DepEd staff, wherein qualified participants can borrow ₱1 million without collateral, payable in 12 to 36 months.

## Enabling an inclusive insurance coverage

Manulife China Bank Life Assurance (MCBL) launched Legacy Secure, in which the policyholders are guaranteed with life insurance coverage until age 100.

MCBL also launched Secure Pinoy. It is an affordable life insurance plan for minimum to average wage-earning clients. With Secure Pinoy, a ₱1 per day or ₱500 per year contribution enables clients to life protection and medical reimbursement coverage.

**13%**

increase in number of people who availed health and life insurance under MCBL

**77%**

increase in premiums for MCBL insurance in 2021

## In pursuit of financial inclusion

China Bank's retail banking arm, CBS, is expanding its market reach, particularly in the countryside to further promote financial inclusion. Aside from opening two regular branches in 2021, CBS opened 11 kiosk-type shops or branch-lites, ending the year with 160 branches and 16 branch-lite units.

"As a bank, we are genuinely concerned about promoting 'easy banking access for all' to contribute to the rapid recovery of the communities we serve. Our expansion effort is focused on making financial services highly accessible to teachers and staff of public schools through these CBS branch-lites," said CBS President James Christian T. Dee.

Branch-lites are simplified service outlets from the prescribed brick-and-mortar space. They may be set up to extend limited to full banking services in a marketplace or any location that is more accessible to low-income Filipinos. CBS branch-lites accept and process Easi-APDS loan applications.

"Our branch-lites are designed to provide our customers with warm, personalized service, with the assurance that business is conducted safely and comfortably," said Dee.

From the original focus on consumer banking, CBS has grown its franchise to include small enterprise and specialized lending segments like public school teachers and Department of Education employees.

# EMPLOYEE SUCCESS

103-1, 103-2, 102-7, 102-8, 401-1

## Ensuring talent management and well-being

*China Bank's strength and resilience through the years are largely because of our partners in success—China Bankers. We take good care of our employees, treating them fairly and equally, helping them reach their full potential, and building a good working environment to drive productivity and earn their loyalty.*

### Human Resource Management

People are key to business success. Our human resources policies, systems, and practices are designed and constantly improved to ensure we are able to attract, engage, and develop people to achieve both their personal aspirations and China Bank's business goals. As the 21<sup>st</sup> century workplace is reshaped by the pandemic and other developments, we will continue adapting and improving while preserving what makes us uniquely China Bank.

### Recruitment

We utilize social media and job portals to search for qualified candidates. In addition, we have a successful referral program that enjoins our current employees to take part in the search. Our total workforce in 2021 reached 9,770, of which 9,747 are permanent and 23 are fixed-term employment. There are also 1,030 new hires in 2021. We recorded a turnover rate of 11.31%, which is 58% higher than in 2020, but still lower than pre-pandemic years.

## Effective recruitment program

Our own employees are the best sources for candidates as they know the right fit for the Bank. China Bank's Internal Recruitment Drive, now on its 16<sup>th</sup> year, continued to be very effective, accounting for about 48% of the new employees hired in 2021. Open positions/Job vacancies filled by internal candidates is 944.

## Fair compensation

201-3, 401-2, 401-3

We ensure gainful employment, providing our full-time employees with competitive salary (basic salary, bonuses, overtime pay, profit sharing, and performance-based increase) and fringe benefits (HMO, group insurance coverage, paid leaves, allowances, employee loans, car plan for officers, and retirement benefits). We also have different parental leave types – Solo Parent Leave, Paternity Leave and Maternity Leave.

A total of 831 employees availed parental leaves, and the overall retention rate after parental leaves is 92.9%. Employees remain employed with China Bank even after having their leaves to take care of their families.

## EMPLOYEE SEPARATIONS

## Employee engagement

We keep our employees engaged and motivated to maintain productivity, but more importantly, to ensure their mental health and well-being amid this pandemic. We have various programs to drive meaningful collaborations, work-life balance, and a deeper sense of loyalty and camaraderie.

### Rewarding loyalty

- Issued 5,388,400 China Bank shares to over 8,300 employees under the Centennial Stock grant plan. The grantees received 100 China Bank shares for every year of service.
- China Bank recognized over 441 employees who rendered 10 to 45 years of service during the virtual service awards.

### Creating a safe and nurturing work environment

- Rolled out a group-wide vaccination program and conducted webinars on Covid-19 safety.
- Sustained the Work-life Integration Program with various online trainings to help employees effectively manage their finances, manage stress, learn a new skill, and adopt an active and healthy lifestyle.

## Performance appraisal

Our Performance Management System ensures that all our employees know their specific deliverables and that their individual performance is objectively evaluated to drive continuous improvement. In addition, we have a Succession Management Program to identify potential successors for Senior Leadership positions.

A total of 1,501 employees were promoted in 2021. Female promotion is 63%, while male promotion is 37%.

# Training and education

404-1, 404-2

We are committed to helping our people reach their full potential. In place are various training and development programs to drive our employees’ professional and personal growth and to help maximize individual and organizational capabilities.

In 2021, we recorded a total of 180,270 training hours, which translates to 18.45 training hours per employee. More female employees are attending China Bank’s training programs with 71% training hours compared to 29% for male employees.

The total amount invested for talent development was PhP 13.4 million, or PhP 1,374 per employee . All trainings were conducted virtually.

## Learning in the new normal

The pandemic is not a hindrance for continuous learning. We pivoted our usual face-to-face training sessions into engaging virtual lessons accessible through China Bank Academy’s e-learning portal.

## Targeted professional development

We have flagship development programs to hone the skills and knowledge of our employees in different levels of our organization:

- Supervisory Development Program – for rank & file employees who have the potential to assume first-line leadership roles.
- Junior Executive Development Program – for middle managers who are being developed to take on for more leadership responsibilities.
- Branch Heads Training Program – for branch managers to develop and strengthen their competencies to effectively lead their branches.

## INVESTMENTS ON TRAINING

### Total Amount Spent on Training (PHP)

### Amount Spent on Training per Employee (PHP/employee)

## Health and safety

403-2

We have health and safety policies and procedures that are kept updated with the latest regulations and industry best practices and standards. In addition, we have emergency procedures and evacuation plans in case of disasters and calamities, and health and wellness program to help manage work-related stress and to minimize cases of work-related ill health. We also aligned our various workplace policies in compliance with RA 11058 (An Act Strengthening Compliance with Occupational Safety and Health Standards):

- Drug-free workplace policy
- Tuberculosis Prevention and Control in the workplace policy
- Hepatitis B Prevention and control in the workplace policy
- HIV and AIDS Prevention and control in the workplace policy
- Breastfeeding policy

The Occupational Safety and Health Committee also ensures implementation of occupational health and safety standards across the Bank.

### Calamity response

We ensure that our employees are taken care of in the event of natural disasters. Calamity assistance in the form of financial assistance and Calamity Leave were provided to employees who were affected by Typhoons Odette and Marin in 2021 in accordance with the Calamity Assistance policy guidelines of the Bank. The total calamity financial assistance extended by the Bank in 2021 was ₱2.24 million.

### Fatalities and Lost-time injuries - Employees

#### No. of Lost-time Injuries

#### Employee total hours worked

#### Company Lost Time Injury Frequency Rate (LTIFR) - Employees

## COVID-19 vaccination drive

We protect our employee’s right to work in a healthy and safe environment. In addition to adapting our workplace health and safety protocols to the current context and situation, we strongly encouraged our employees to be vaccinated, including getting the booster shot. To expedite the vaccination of our employees, the Bank spent P6.81 million in 2021 for the purchase and inoculation of primary and booster vaccines which began June of 2021. As of December 31, 2021, 96% of our employees was already fully vaccinated with primary series and 6.2% was already vaccinated with booster shot.

- Implemented the China Bank Group Vaccination Program, in cooperation with the SM Group, to provide employees with the utmost protection against the virus and to achieve herd immunity.
- Secured approval from Makati LGU and city health office to certify Buendia Car Exchange as China Bank’s vaccination site

## Diversity and equal opportunity

405-1, 406-1

We have more female employees than male for the past three years. Out of the total 9,770 employees in 2021, 6,552 were women. In addition, more junior and senior leadership positions were held by women. In fact, 18% of middle and senior management positions are occupied by female employees. Fair, transparent, and performance-based compensation is accorded to all employees regardless of gender. No incidents of discrimination cases were filed by any China Bank employee in 2021.

### BREAKDOWN OF EMPLOYEES PER LEVEL

## Collective Bargaining Agreement

102-41

We uphold employees' freedom of association and collective bargaining rights in compliance with the Labor code. We also maintain a good relationship with the union groups of both China Bank and CBS.

China Bank's Collective Bargaining Agreement (CBA) was signed in 2020 and will be expiring in 2022, while CBS' CBA, concluded in 2019, will be up for negotiation in 2024. Open communication has been established over the years between management and our labor unions to discuss labor-related concerns or issues. In 2021, 53.7% of our workforce was covered by CBA.

# BUSINESS INTEGRITY

103-1, 103-2

## Upholding strong governance

*At China Bank, good corporate governance is a necessary component of what constitutes sound strategic business management. Our governance practices are guided by the principles of fairness, accountability, integrity, and transparency. The Board of Directors sets the tone for China Bank's governance beyond compliance, even amid the pandemic.*

### Significant developments in 2021

102-12

In 2021, along with the regular best governance practices, key initiatives were implemented to further strengthen our position as one of the best governed companies in the region. These practices and initiatives include the following:

- Amended the Bank's By-Laws, to comply with BSP's Manual of Regulations for Banks and the Revised Corporation Code of the Philippines.
- Conducted the virtual Annual Stockholders' Meeting, allowing stockholders to exercise their voting rights through a secured electronic registration and voting facilities.
- Put in place a 3-year Transition Plan towards the formulation of the Bank's Sustainable Finance Framework.
- Granted around 5.4 million common shares to eligible employees, in recognition of their contribution to the Bank and to foster a culture of ownership and commitment, in line with the Bank's 2020 Centennial Stock Grant Plan.
- Updated the Corporate Governance Manual to align with recent rules, regulations, and international practices.
- Enhanced the Board Committee Charters and Board Self-Assessment Forms.
- Performed the annual assessment for the Board, Board-level committees, Independent Directors, Compliance Division, External Auditor, and the President.

- Adopted the Conflict of Interest and RPT disclosure form for newly elected directors/re-elected directors.
- Elected the Bank's 4th independent director during the Annual Stockholders' Meeting since an independent director's term has expired.
- Conducted the online corporate governance training for the Bank's directors and key officers, facilitated by the Institute of Corporate Directors.
- Restored the China Bank Binondo building, now recognized as part of national history.

## Code of Ethics

The Bank is committed to conduct its business in an honest and ethical manner, well guided by its core values, namely: integrity, high performance standards, commitment to quality, customer service focus, concern for people, efficiency and resourcefulness, and initiative in carrying out its functions and in dealing with its clients. China Bank's Code of Ethics for Employees and Directors sets the guidelines for ethical and professional business conduct and articulate our strict policy against any criminal or illegal activities, not limited to financial misreporting, money laundering, fraud, bribery or corruption.

All new directors and employees are given a copy of the Code, required to acknowledge receipt thereof, and undergo the New Employees' Orientation Course wherein the Code is comprehensively discussed. Adherence to the Code is mandatory.

## Corporate Governance Manual

China Bank's Corporate Governance Manual contains the Bank's governance policies and structure, the duties and responsibilities of the Board and the individual directors, the compliance system and internal controls, and the guidelines on communication and the protection of the rights of various stakeholders, among others. The Manual is kept updated to align with latest regulatory issuances and international best practices. Compliance with the Manual is monitored by the Chief Compliance and Governance Officer (CCGO). In 2021, China Bank was fully compliant with all the material provisions of the Corporate Governance Manual.

## Governance structure

102-18, 102-26

The highest governing authority in China Bank is the Board of Directors. The Board sets the tone, defines our organizational culture and values, leads the practice of ethical and responsible business conduct and upholds a "beyond compliance" approach to corporate governance. The Senior Management team, led by the President, takes charge of executing strategies to meet business objectives and provides over-all guidance on the day-to-day management of business operations.

## Governance Principles

### Fairness

We treat our shareholders fairly and equitably – whether minority or majority, local or foreign. We balance our profit motive, ensuring that the investment of all shareholders is protected.

### Accountability

We are accountable and responsible for our actions and performance and commit to uphold the law, behave ethically, and protect the resources entrusted in our care.

### Integrity

We adhere to a moral code of honesty and professionalism in our thoughts, words, and actions.

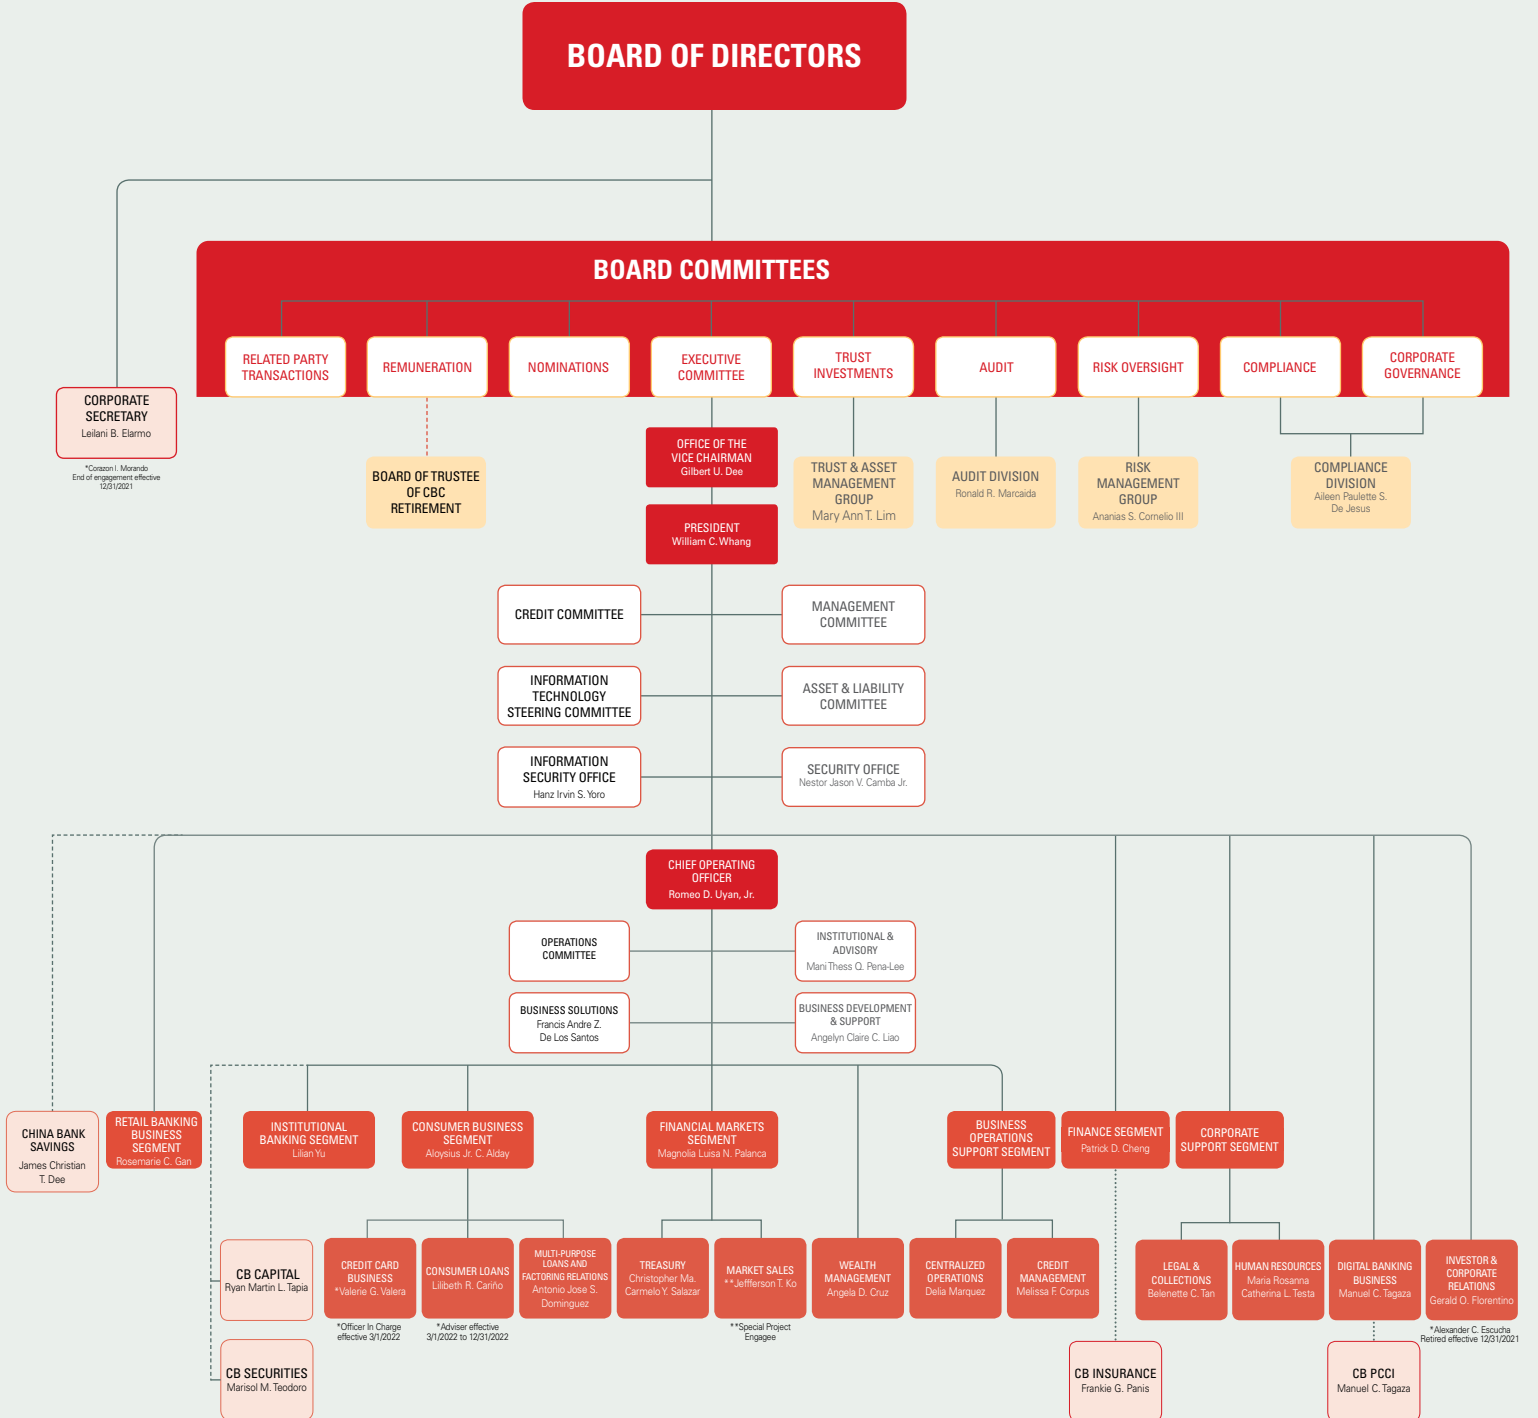

### Transparency

We are truthful and forthcoming, ensuring the accurate and timely disclosure of and easy access to all material matters, such as the financial situation, performance, ownership, and governance of the corporation.

# Organizational Chart

As of April 18, 2022

## Separation of roles

Our Chairman and President work in close cooperation with one another, but their roles are kept separate with a clear division of duties and responsibilities to foster appropriate balance of power, increased accountability, and better capacity for independent decision-making by the Board. Our Chairman is responsible for the leadership and effective running of the Board, while our President leads the management team in the day-to-day running of China Bank to execute the strategies and achieve the objectives approved by the Board.

## Board of Directors

The China Bank Board has the overall responsibility for the institution's long-term success and sustainability. To achieve this, the Board, among others:

- defines the corporate culture and values
- approves the business objectives and strategies, and oversees its implementation
- appoints key members of senior management and heads of control functions

- approves the director and management succession plan
- oversees the development and implementation of internal control systems and sound policies
- approves and oversees the implementation of the various frameworks on corporate governance enterprise risk management, business continuity, sustainability, and consumer protection
- sets and oversees the environmental, social, and governance initiatives

The China Bank Board is composed of twelve directors and one advisor, commensurate with the size and complexity of our operations. Two of the directors are executive directors and the rest are non-executive directors. To ensure a strong element of independence, we have four Independent (non-executive) Directors, including the Lead Independent Director. The Bank's Independent Directors are independent of management and major/substantial shareholders, and free from any business, family or any other relationship with the Bank, which could affect their judgment. The profiles of our directors are on pages 84 to 87.

Lead Independent Director	Independent Director	Executive Director	Non-Executive Director
<ul style="list-style-type: none"> <li>• Has sufficient authority to lead the Board in cases where Management has clear conflict of interest</li> <li>• Serves as an intermediary between the Chairman and the other directors when necessary</li> <li>• Also a non-executive director</li> <li>• Convenes and chairs meeting of the independent directors and/or non-executive directors without the presence of the executive directors</li> </ul>	<ul style="list-style-type: none"> <li>• Holds no interests or relationships with China Bank, the controlling shareholders, or the Management that would influence his decisions or interfere with his exercise of independent judgment, among others</li> <li>• Also a non-executive director</li> <li>• Provides objective judgment independent of management</li> <li>• Oversees management performance, including prevention of conflict of interest and to balance competing demands of the corporation</li> </ul>	<ul style="list-style-type: none"> <li>• Has executive responsibility of day-to-day operations of a part or the whole of the organization</li> </ul>	<ul style="list-style-type: none"> <li>• Has no executive responsibility and does not perform any work related to the operations of the corporation</li> <li>• Provides objective judgment independent of management</li> <li>• Challenges and monitors management's delivery of strategy within the risk and governance structure agreed by the Board</li> <li>• Has oversight responsibility for the Bank's internal control and effectiveness of the risk management system</li> </ul>

\*\*Elected as Lead Independent Director on May 6, 2021

\*\*\*Elected Independent Director on May 6, 2021

## Nomination and election

102-24

In place is a rigorous and transparent procedure for the nomination and election of directors, undertaken by the Nominations and Corporate Governance Committees, to ensure that only qualified, fit and proper candidates are considered for election to the Board. We have clear Nomination Rules that are reviewed and updated annually and posted on the Bank's website.

In case of vacancy, our By-Laws provide the procedures to be observed in accordance with the Revised Corporation Code of the Philippines. We use professional search firms or other external sources to search for a suitable replacement (see Retirement and Succession on page 65). For incumbent directors, the Nominations Committee evaluates the results of the Board self-assessment and their attendance and participation in board meetings.

### Nomination Process

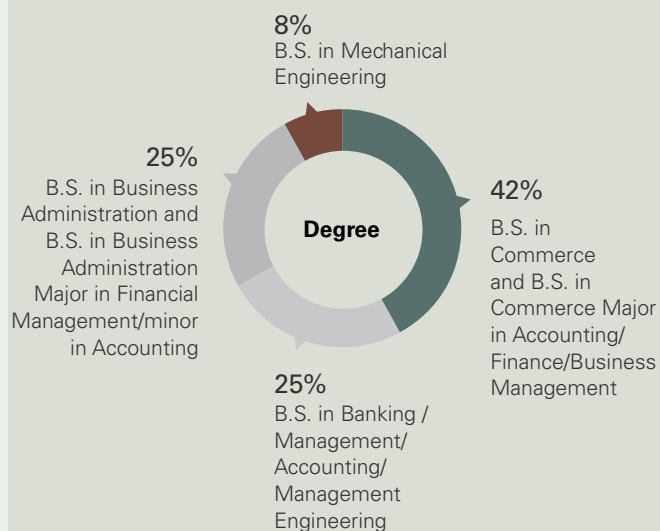

## Board diversity

China Bank has a Board Diversity Policy which states, among others, that the Board should be composed of directors with a collective working knowledge, educational background and experience or expertise that is relevant to the Bank's industry, and that there should be an appropriate mix of skills, competence and expertise, etc. The Board ensures that its members remain qualified for their positions individually and collectively in order to operate effectively, and be able to fulfill its roles and responsibilities and respond to the needs of the organization based on the evolving business environment and strategic direction. For more diversity, we have two (2) female Independent Directors in our Board.

### Board Demographics

### Board Experience/Skills

**100%**

of the directors are skilled and experienced in banking/operations, management, finance, marketing/sales, investment, risk management, accounting, credit, anti-money laundering, and internal control

## Induction and continuing education

102-27

New directors undergo an orientation program from an SEC-accredited training provider and they also receive an orientation kit containing the Specific Duties and Responsibilities of Directors, Corporate Governance Manual and applicable Board Committee Charters, among others. All of our directors attend the mandatory annual governance training facilitated by an SEC-accredited institution to continually update and expand their knowledge of governance practices and market developments and to ensure they are updated with the latest regulations and industry best practices. Refresher training and information sessions to address current business or emerging trends and issues are arranged by the Compliance Division, as needed.

On September 1, 2021, our directors, key bank and subsidiary officers attended the Annual Corporate Governance Training, organized by Compliance Division and facilitated by the Institute of Corporate Directors. The topics discussed were Digital Transformation, Corporate Governance in a Nutshell: What Effective Boards Focus on Before Everything Else, and Anti-Money Laundering Updates.

## Board remuneration

The amendment to the Bank's By-Laws\* included the increase in the per diem of the directors up to ten thousand pesos (₱10,000.00) for attending a regular Board or Committee meeting, or any other regular or special meeting as may be determined from time to time. Directors also receive a portion of the net earnings. Executive directors get performance-related compensation based on their performance, banking experience, position, and rank, while non-executive directors do not receive any performance-based compensation.

\*As approved by the BSP on February 24, 2022, thus enabling us to register with SEC.

In 2021, each member of the Board of Directors received the following amount as compensation:

Hans T. Sy	₱6,436,400
Gilbert U. Dee	6,344,200
William C. Whang	6,421,600
Peter S. Dee	6,423,450
Joaquin T. Dee	6,450,300
Herbert T. Sy	6,168,500
Harley T. Sy	6,247,750
Jose T. Sio	6,222,750
Alberto S. Yao <sup>(a)</sup>	6,287,150
Margarita L. San Juan	6,399,200
Philip S.L. Tsai	6,422,150
Claire Ann T. Yap	2,341,550
Genaro V. Lapez <sup>(b)</sup>	115,000

<sup>(a)</sup> Lead Independent Director until the expiration of his term on May 6, 2021

<sup>(b)</sup> Elected Independent Director on May 6, 2021

## Performance evaluation

102-28

The Board, all Board-level Committees, individual Directors, and the President annually accomplish a self-evaluation to assess their individual effectiveness and collective performance, as well as to identify areas for improvement. The Compliance Division summarizes the results of the evaluation and reports it to the Board through the Corporate Governance Committee. A 5-point scale rating system is used for the self-assessment. The lowest is 0, equivalent to "Poor," and the highest is 5, equivalent to "Excellent".

Rating	Description
0	Poor – Leading practice or principle is not adopted in the company's Manual of Corporate Governance
1	Needs Improvement – Leading practice or principle is adopted in the Manual but compliance has not yet been made
2-3	Fair – Leading practice or principle is adopted in the Manual and compliance has been made but with major deviation(s) or incompleteness
4	Good – Leading practice or principle is adopted in the Manual and compliance has been made but with minor deviation(s) or incompleteness
5	Excellent – Leading practice or principle is adopted in the Manual and full compliance with the same has been made

The self-assessments focus on the following key aspects:

**A. For the Board as a whole:**

- Structure (size and composition; skills, expertise and competencies)
- Organization and functioning (conduct of meetings, quality of reporting, training areas, reporting by committees)
- Dynamics and internal culture (formal and informal engagement)

**B. For the Board Committees:**

- Leadership, size and composition (including skills)
- Responsibilities
- Quality of reporting and timelines

**C. For the Individual Directors**

- Upholding the guiding principles and best practices stipulated in the Code of Ethics for Directors
- Practicing due diligence in carrying out duties as director
- Willingness to speak at the meetings
- Receptiveness to other views
- Constructively challenging fellow directors and proposals and management of senior management
- Applying a strategic mindset to board
- Attendance at Board and Committee meetings

**D. For the President**

- Leadership
- Cooperation and collaboration with the Board
- Execution of strategies
- External relations

The 2021 evaluation revealed the following:

- The positive assessment of the Directors reflects their view that overall, the Board is seen as effective in carrying out its function.
- The Directors are generally satisfied with the progress the Board has made to enhance its effectiveness.
- The size and level of independence within the Board and Committees are deemed appropriate.
- The committee leadership is deemed effective and operates on a high level of competency.
- There is strong commitment among the Directors and the President to fulfill their obligations
- There is a high degree of confidence that the Directors and the President are competent to serve their roles to a high standard.

In compliance with the SEC Code of Corporate Governance, the results of the Board Self-Assessment are evaluated by an external facilitator every three years.

## Retirement and succession

The wisdom that senior directors contribute is highly recognized at China Bank; thus, we do not discriminate when it comes to age. A director may remain on the Board for as long he/she continues to be physically and mentally fit for the position and able to discharge his/her duties in accordance with the regulatory requirements for banks. The By-laws provides the rules on succession, replacement or vacancy in the Board due to retirement or any other reason, stating that vacancies in the Board may be filled up by appointment or election of the remaining directors, if still constituting a quorum; otherwise, the stockholders shall fill such vacancy in a regular or special meeting called for this purpose. For Independent Directors, the Bank complies with SEC and BSP rules on term limit.

---

## Corporate secretary

All directors have access to the services of the Corporate Secretary, a senior, strategic-level corporate officer who has the vital role of official record keeper responsible for the administrative side of Board and committee meetings, corporate governance gatekeeper responsible for overseeing sound board practices, and Board liaison who works and deals fairly and objectively with the Board, Management, stockholders, and other stakeholders.

## Board committees

102-19, 102-20, 102-21, 102-22, 102-23, 102-26

To effectively carry out its mandate of good corporate governance through compliance with laws, rules, regulations and best practices, the Bank's Board is supported by various committees, as follows:

- **Executive Committee** has the powers of the Board, when the latter is not in session, in the management of the business and affairs of the Bank to the fullest extent permitted under its By-Laws and Philippine laws. The committee also decides on credit applications or transactions, as endorsed by the Credit Committee (if they exceed the latter's credit authority), as well as on such other matters brought to its attention from time to time.
- **Corporate Governance Committee** is responsible for ensuring that the Bank's Corporate Governance framework is regularly reviewed, updated, and always implemented accordingly. It provides assistance to the Board in fulfilling its responsibilities by ensuring compliance with, and proper observance of governance laws, rules, principles, and best practices, including the continuing education program for the directors and conduct of the Board assessment, among others.
- **Audit Committee** primarily oversees all matters pertaining to audit – mainly the evaluation of the adequacy and effectiveness of the Bank's internal control system, as well as the integrity of its financial statements. It appoints, reviews, and concurs in the appointment or replacement of the Chief Audit Executive (CAE), and is responsible for ensuring that the CAE and internal audit function are free from interference by outside parties. It also ensures that an annual review is performed about the effectiveness of the internal audit mechanism, including compliance with the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing and Code of Ethics. It provides oversight over Management's activities in maintaining an adequate internal control framework, managing credit, market, liquidity, operational, legal, and other risks of the Bank, including regular receipts from management of information on risk exposures and risk management activities. It likewise ensures that internal and external auditors remain independent and are given unrestricted access to records, properties, and personnel, to enable them to perform their respective audit functions. It is also responsible for the recommendation on the appointment and removal of the external auditor. It has the explicit authority to investigate any matter within its terms of reference, to ensure the effectiveness and efficiency of the Bank's internal controls.
- **Compliance Committee** is tasked to monitor compliance with established bank laws, rules, and regulations specifically in creating a dynamic and responsive compliance risk management system for identifying and mitigating risks that may erode the franchise value of the Bank and ensuring that management is doing business in accordance with the said prescribed laws, rules and regulations including policies, procedures, guidelines, and best practices.

- **Risk Oversight Committee** is responsible for the development and oversight of the Bank's risk management functions, including the evaluation of the effectiveness of the enterprise risk management framework and ensuring that corrective actions are in place to address concerns in a timely manner. It oversees the risk-taking activities of the Bank and warrants the continued relevance, comprehensiveness, and overall value of the institutional risk management plan.
- **Nominations Committee** is responsible for reviewing and evaluating the qualifications of all persons nominated to the Board. Jointly with the Corporate Governance Committee, it oversees the nomination process for, and evaluates the qualifications of all persons nominated to Department and Division Head positions, as well as all promotions to any Bank Officer position. It also undertakes the process of reviewing the qualifications of the Board candidates, to ensure that their qualities and/or skills are aligned with the Bank's strategic directions, appropriate for leading and assisting the Bank in achieving its vision and corporate goals.
- **Remuneration Committee** provides oversight over the remuneration of senior management and other key personnel, ensuring that compensation is consistent with the interest of all stakeholders and the Bank's culture, strategy, and control environment.
- **Related Party Transactions Committee** is responsible for reviewing all material related party transactions (RPTs) to ensure that they are conducted at an arm's length. Composed entirely of Independent Directors, the committee oversees the proper implementation of the RPT Policy and ensures that corresponding transactions are duly identified, measured, monitored, controlled, and reported.
- **Trust Investment Committee** provides oversight functions, overall strategic business development and financial policy directions to the Trust and Asset Management Group. It oversees the trust, investment management and fiduciary activities of the Bank, and ensures that they are conducted in accordance with applicable rules and regulations, and judicious practices. Moreover, it ensures that prudent operating standards and internal controls are in place and that the Board's objectives are clearly understood and duly implemented by the concerned units and personnel.

Additional details on the Committees and their charters can be accessed through the Bank's website at [www.chinabank.ph](http://www.chinabank.ph).

### Board and committee meetings

The Board of Directors conducts business through meetings of the Board and its committees. Regular Board meetings are held at least once a month, set to be every first Wednesday, to review China Bank's financial performance, to approve strategies, policies, and business plans, as well as to consider business and other proposals which require the Board's approval. Special Board meetings may also be called to deliberate and assess corporate proposals or business issues that also require Board approval.

Board and committee meetings are conducted consistent with the Bank's By-Laws. Majority of the Board constitutes quorum and a majority of the quorum is generally what is required for Board decisions.

The directors are committed to their duty by studying the materials to prepare for the meetings. When exigencies prevent a director from physically attending a Board or committee meeting, he/she could join through remote communication such as videoconferencing, teleconferencing or other alternative platforms/media that allow them reasonable opportunity to participate.

To ensure sound and objective decision making, Board papers are provided to the directors five days before the meeting. The directors also have access to senior management, external consultants and advisors, and the Corporate Secretary.

## Governance policies

102-9, 102-11, 102-25, 102-35, 102-36, 205-1

In place are various internal policies that reflect China Bank's commitment to good governance. To guide employees, these policies are posted on our intranet facility, as well as our corporate website, [www.chinabank.ph](http://www.chinabank.ph).

- Insider Trading:** The policy prohibits China Bank directors, officers, and employees who have knowledge of material facts or changes in the affairs of the Bank which have not yet been publicly disclosed, including any information likely to affect the share price of the Bank's stock, from directly or indirectly engaging in financial transactions. Any transactions by the Directors and principal officers involving the Bank's shares are required to be disclosed within three business days from the date of the transaction.
- Conflict of Interest:** The policy stipulates the avoidance of conflict of interest (COI) between the Bank and employees. However, should a conflict arise, the interest of the Bank must prevail. Employees are not permitted to be involved in any financial interests that are in conflict or appear to be in conflict with their duties and responsibilities to China Bank. They are likewise barred from engaging in work outside of the Bank unless with duly approved permission, as well as perform activities or work in direct competition with the Bank.

We have reinforced our governance practices to prevent COI by requiring our directors to accomplish the COI and RPT disclosure form after their election and after gaining knowledge of any actual or potential COI situation.

- Related Party Transactions (RPT):** The policy requires the thorough review of all transactions with related parties as having been conducted in the ordinary course of business, at arm's length basis, at fair market prices, and upon terms not less favorable to the Bank versus terms offered to others. The RPT Framework serves as a guide for the China Bank

Group in dealing with related parties. All material RPTs are reviewed and vetted by the RPT Committee before they are endorsed to the Board for approval and are ratified by the stockholders during the Annual Stockholders' Meeting. To prevent conflict of interest, no director is allowed to participate in the discussion, deliberation, and approval of a transaction where he is a related party. Specific materiality thresholds on a per transaction basis have been established. The Bank's RPT policy is kept relevant and aligned with recent regulatory issuances.

Below is a summary of material RPTs and outstanding loan balances in 2021. Details have been disclosed through the submission of required periodic reports to the BSP and/or SEC.

Related Party	Total Amount <sup>1</sup>	Total Outstanding Balance <sup>2</sup>
China Bank Group	₱4.3B	
	\$6.1M	
SM Group	₱106.7B	₱10.4B
	\$ 653.0M	\$ 174.6M
Other Related Parties	₱71.2B	₱2.2B
	\$8.5M	

<sup>1</sup> Covers all transactions

<sup>2</sup> For loan transactions approved in 2021

- Anti-Bribery & Anti-Corruption:** Any form of bribery and corruption is not tolerated at China Bank. As established in the Code of Ethics, all directors and employees are prohibited from offering, promising, or giving a financial or other advantage to any person or party, including public officials, with the intention of inducing or rewarding improper performance by them of their duties or to facilitate Bank transactions. They are likewise prohibited from accepting any financial or other advantage as a reward for participating in any act prejudicial to the Bank or any of its stakeholders. In 2021, a total of 1,468 employees attended the training on Code of Ethics and related trainings, in which anti-bribery and anti-corruption were included.

- **Anti-Money Laundering (AML) Governance:** China Bank upholds the applicable laws, rules and regulations to combat money laundering and terrorist financing; ensuring that it is not used as a channel for such activities. In order to ensure bank wide compliance with the Anti-Money Laundering and Counter-Terrorism Financing (AML/CTF) laws, rules and regulations, the Bank has adopted a Money Laundering and Terrorist Financing Prevention Program (MTPP), approved by the Board of Directors. It is designed in accordance with the Bank's corporate structure and risk profile and is reviewed and updated regularly to incorporate recent regulatory issuances and approved amendments. The MTPP provides guidelines to combat money laundering and terrorism financing activities, and promotes high ethical and professional standards.

The Anti-Money Laundering Department of Compliance Division oversees and manages the Bank's compliance with the MTPP and AML laws and regulations, conducts compliance testing to ensure adherence to policies and procedures, and manages the AML System to ensure the effective monitoring of transactions and the timely and accurate reporting of covered and suspicious transactions to the Anti-Money Laundering Council (AMLC).

The MTPP is disseminated to all officers and staff of the Bank who are required by law and by the Bank's policies to implement the program. Regular AML trainings and seminars are also conducted to update the Bank's directors, officers and staff of the latest AML/CTF requirements, latest trends, emerging risks, and to continuously inform them of their obligations under the AMLA. The Bank has also adopted an AML e-Learning platform to efficiently expand the reach of AML training nationwide. A total of 3,160 employees completed the mandatory AML e-learning course in 2021.

- **Whistleblowing:** The policy aims to encourage employees, customers, shareholders, and third party service providers to report questionable activity, bribery and corruption issues, unethical behavior,

incidents of fraud or any other malpractice within China Bank, without fear of reprisal or retaliation, as well as to provide avenues to raise those concerns confidentially. The Chief Compliance and Governance Officer (CCGO) determines the substance and validity of the whistleblowing report or disclosure, and if deemed sufficient in form and substance, refers it to the appropriate unit for proper investigation.

Whistleblowing disclosures may be reported directly to HRG, Audit Division, Risk Management Group or the CCGO:

**Chief Compliance and Governance Officer**

Tel. No.: 8885-5731

Mobile No.: 0947-9960573

Fax No.: 8864-5007

Email: [whistle\\_chib@yahoo.com.ph](mailto:whistle_chib@yahoo.com.ph).

A whistleblower disclosure form is also available at [www.chinabank.ph](http://www.chinabank.ph).

- **Creditors:** The policy focuses on honoring agreements with and respecting the rights of China Bank's creditors—depositors and bondholders—including complying with post-issuance regulatory requirements like continuing disclosures and tax compliance.
- **Suppliers and Contractors:** The Bank is committed to fair market practices and in engaging suppliers and contractors that are reputable, comply with national laws and international standards, and have good track records and sustainable business practices. The policy also sets out the processes for vendor accreditation, selection, and audit to ensure that vendor bids are evaluated based on established criteria and to prevent favoritism or conflicts of interest. The Bank also has an outsourcing policy that is aligned with the outsourcing regulations of the BSP to ensure that all outsourced activities are conducted in compliance with applicable laws, and that risks arising from outsourced activities are identified, monitored, and mitigated.

- Senior Management Appointment and Succession:** The Bank is prudent and exercises due diligence in selecting the members of its Senior Management. The Succession Management Program is an active process of the China Bank Group ensuring that ample preparation is made to identify and ready the successors to ensure that the Bank would have high-caliber leaders. A formal process is followed to ensure that the Talent chosen for the Senior Management role is fit and proper for said key position taking into account their experience in finance / banking or related field, and integrity amongst other requirements. The process involves the Talent profile review by Senior Management led by the President through an interview aside from HRG conducting the reference background check. Furthermore, the Talent profile is also reviewed by the Nominations and/or Corporate Governance Committees as applicable and if found suitable then the Talent is endorsed to Executive Committee / Board of Directors for final appointment approval.
- Executive Compensation:** The Bank's remuneration policy is anchored on the principle of fair, transparent, and performance-based reward to encourage employees' long-term commitment, to support the Bank's long-term outlook and plans, and to address the challenge of attracting and retaining the best talents. Remuneration for senior officers varies according to rank, function, and performance. Regular salary reviews are conducted to ensure market competitiveness of total remuneration.

In 2021, the Bank paid a total of ₱117.7 million to the five most senior executives\*: Vice Chairman Gilbert U. Dee, President William C. Whang, Chief Operating Officer Romeo D. Uyan Jr., Chief Finance Officer Patrick D. Cheng, and RBB Segment Head Rosemarie C. Gan.

Year	Salary	Bonuses & Other Compensation	TOTAL
2021	₱59,808,878	₱57,874,732	₱117,683,610
2020	₱56,072,606	₱49,666,179	₱105,738,786
2019	₱54,416,702	₱43,245,548	₱97,662,250

\* Due to the competitiveness and high demand for talent in the banking industry, individually disclosing the remuneration of the top five officers, as per corporate governance best practices, would be disadvantageous to the Bank.

- Dividends:** The policy sets out the Bank's commitment to providing shareholders with an equitable share of profits. Cash dividends are declared at a payout ratio of approximately thirty percent (30%) of the net income of the prior year, subject to the conditions and limitations set forth in more detail in the updated dividend policy. Dividend payouts, as part of our capital management policy and process, are reviewed and calibrated annually, taking into account the economic and business environment, the Bank's risk profile and appetite, and trends in capital markets and regulatory environment to achieve the following objectives:
  - Delivering to stockholders satisfactory returns and enhanced shareholder value
  - Healthy capital adequacy ratios to comply with regulatory capital requirements and maintain strong credit rating
  - Capital buffer to support business growth and pursue business opportunities

	2017	2018	2019	2020	2021
Stock Dividend	8%	–	–	–	–
Cash Dividend	8%	8.3%	8.8%	10.0%	10.0%

- **Disclosure and Transparency:** As a publicly-listed company, China Bank complies with the disclosure and reportorial requirements of regulators—BSP, PSE, and SEC, and maintains an up-to-date corporate website and a Corporate Governance microsite to provide stakeholders with timely and accurate information to facilitate understanding of the Bank’s true financial condition. Accuracy and timeliness are observed with respect to major and market-price sensitive information such as dividend declarations, joint ventures and acquisitions, sale and disposition of significant assets, as well as financial and non-financial information that may affect or influence the decision of our shareholders and other stakeholders, in the form of disclosures through EDGE for posting on the PSE website, media releases, and news updates on our corporate website. In addition, the Investor and Corporate Relations Group conducts/participates in investor briefings with analysts and members of the media.

## Enforcing effective internal controls

China Bank’s strength amid adversities is underpinned by effective internal controls. The Board is responsible for the development and review of the Bank’s internal control system, while the day-to-day responsibility for internal control rests with Management. In varying degrees, internal control is the responsibility of everyone in the Bank. Our employees understand their role in the internal control process to manage and mitigate risks, to ensure the reliability and integrity of financial information and compliance with laws and regulations, to achieve our strategic objectives and profitability targets, and to maintain operational resilience in difficult times.

## Internal audit

Business integrity requires an astute evaluation of internal controls. Internal audit determines the effectiveness of China Bank’s risk management, control and governance systems and processes, providing relevant recommendations based on independent and objective assurance reviews, meaningful advice on the shifting risks and controls landscape, and insights on emerging risks to Senior Management and the Board to enhance and protect organizational value.

The internal audit function rests with the Audit Division headed by the Chief Audit Executive (CAE), who reports functionally to the Audit Committee to maintain organizational independence, and administratively to the President. The Audit Division’s authority cuts across all functions, units, processes, records, and personnel in relation to the conduct of its role. It has a Board-approved Internal Audit Charter, which serves as a guide in the performance of mandated duties and basis in evaluating the effectiveness and efficiency of China Bank’s internal audit function.

- **External audit:** Sycip Gorres Velayo & Company (SGV), China Bank’s external auditor for over 20 years, is responsible for providing reasonable assurance that the Bank’s financial statements are presented accurately and in conformity with the Philippine Financial Reporting Standards (PFRS). In compliance with regulations, the signing partners are rotated every five years of engagement which was increased to seven years effective August 2019. None of the Bank’s external auditors have resigned during the two most recent fiscal years (2020 and 2021) or any interim period. SGV is again recommended for appointment at the scheduled annual stockholders’ meeting.

- **Audit and audit-related Fees:** China Bank paid a total of ₱15 million in 2021. Audit and Audit-Related Fees cover services rendered for the performance of the audit or review of the Bank's financial statements including the combined financial statements of Trust Group, and the issuance of comfort letters relative to the Bank's bond issuances amounting to ₱20 billion in 2021 and ₱15 billion in 2020. The 2021 and 2020 audit fees were taken up and approved by the Audit Committee.

Tax fees related to the audit of tax accounting and compliance are already incorporated in the year-end audit fees under Audit and Audit-Related Fees category as this is part of the audit process conducted by the external auditors.

The Board/Audit Committee likewise discussed, approved, and authorized to engage the services of SGV & Co in non-audit work for review and advisory services and independent validation of votes in the annual stockholders' meeting in both 2021 and 2020. Payment for these services is included under All Other Fees.

SGV & Co. also confirmed that they did not have any disagreement with Management that could be significant to the Bank's financial statements or their auditor's report. Further, there are no matters that in their professional judgment may reasonably be thought to bear on their independence or that they gave significant consideration to in reaching the conclusion that independence has not been impaired.

Year	Audit and Audit-Related Fees	All Other Fees
2021	₱11,415,712	₱3,616,173
2020	₱10,554,544	₱ 1,900,326

## Compliance

The Bank believes that an effective Board and senior management oversight is the foundation of an effective compliance system that is rooted in doing what is right to maintain the trust and confidence of our stakeholders.

Local regulations set by Philippine government agencies need to be strictly complied with by financial institutions. Thus the Bank is committed to comply with existing laws, rules and regulations. The Board is responsible for ensuring that appropriate policies are in place to manage and mitigate compliance risks, while Management is responsible for implementing these policies and undertakes to timely address critical issues to preserve the franchise value of the Bank.

Compliance management forms part of the Bank's fundamental business activities and is upheld in all levels of the organization. China Bank observes the 3-lines-of-defense governance framework which allows everyone to distinguish and give appropriate attention to compliance priorities, enabling the Bank to readily respond to compliance, governance, and related risks.

## Compliance system

Compliance Division ("Compliance"), which stands at the forefront of the Compliance System, continues to play an important role in driving the effective management of compliance risks that seeks to identify, remediate and mitigate risks that may erode the franchise value of the Bank, and in promoting compliance culture and understanding of compliance issues. It also assists the Board in carrying out its governance function to protect the interests of the Bank's stakeholders.

At the helm of the Bank's Compliance function is the Chief Compliance and Governance Officer (CCGO), who also oversees the Group-wide compliance for the China Bank Group and functionally reports to the Compliance and the Corporate Governance committees of the Board, and administratively to the Bank's President. Compliance is independent from business operations, and operates as a second line-of-defense in the overall control structure. It is composed of six departments: Regulatory Compliance, Anti-Money Laundering, Corporate Governance, IT Compliance, Subsidiaries Compliance and Associated Person.

Compliance continuously endeavors to drive a strong compliance culture within the Group, thru a dynamically-responsive compliance program and corresponding activities such as the preparation and enhancement of compliance policies and procedures, risk assessment of the institution, conduct of independent testing and promotion of compliance awareness. It ensures that employees at all levels are kept abreast of changes in the laws and regulations through regular trainings and dissemination of vital/latest issuances, advisories, notices, and other regulatory matters. The compliance function and program are subject to independent review by the Internal Audit Division.

## Risk management

102-11

Risks are part of doing business. Effective risk management rather than outright risk avoidance has been a guiding principle at China Bank, enabling us to maintain highly profitable and stable operations while undertaking only well-calculated risks for commensurate returns. Risk oversight is a primary Board responsibility, setting the tone for a sound risk culture. Management handles the implementation of the Enterprise Risk Management Framework and day-to-day risk management, ensuring the Bank operates within the established risk appetite and limits. Effective risk management is reinforced as a discipline group-wide through trainings and communication.

## Risk governance system

At China Bank, managing risks is everyone's business. Our framework ensures that the Board direction on strategy and risks are well articulated in the risk policies and that risk appetites, limits, and measures are identified and monitored.

We subscribe to a Three Lines of Defense approach to effectively manage group-wide risks. The first line of defense is risk management by the business lines, wherein business unit engages in risk-taking within the established range of risk appetite, and promptly implements risk control at the on-site level when a risk arises. The second line of defense is Compliance and Risk Management. Compliance Division is in charge of the compliance risk management system to identify and mitigate risk that may erode the franchise value of the Bank, while the Risk Management Group (RMG) acts as a restraint function for the risk taking of the first line of defense, and supervises and provides guidance regarding the risk governance system. RMG reports on the status of risk management to the Board of Directors through the Risk Oversight Committee. The third line of defense is the Audit Division which validates the effectiveness and appropriateness of the group-wide risk governance system and processes from an independent standpoint.

## Risk Management Group

102-30

The Risk Management Group (RMG), headed by the Chief Risk Officer (CRO), performs overall risk management, identifies and evaluates group-wide risks, creates a risk management process, formulates recovery strategies, and sets risk limits in accordance with the Board-approved risk management policies. RMG applies the principles of sound governance to the identification, assessment, monitoring, and mitigation of risks. Risk identification and assessment are embedded in our work processes and critical business systems to ensure that decision-making is based on valid data. RMG distinguishes the different types of risk and takes an integrated approach, guided by

---

supporting frameworks and policies which are regularly reviewed and enhanced, to effectively manage the Bank's financial, nonfinancial, and emerging risks.

## Credit risk

During the normal course of lending and credit underwriting, the Bank is exposed to credit risk which is the risk of financial loss where a customer or counterparty fails to meet their financial obligations to China Bank. The policies for managing credit risk are determined at the business level with specific procedures for different risk environments and business goals. Risk limits and thresholds have been established to monitor and manage credit risk from individual counterparties and/or group of counterparties, countries, and industry sectors. Periodic assessments are also conducted to review the creditworthiness of our counterparties.

Credit risk for large corporates and medium-sized entities is measured through the Internal Credit Risk Rating System (ICRRS). For smaller businesses, retail and individual loan accounts, the credit scoring system used is the Borrower Credit Score (BCS). There is a separate application scorecard for auto loans and housing loans, while Transunion Bureau score is used for credit cards in conjunction with other credit acceptance criteria.

The Bank also has a rating system for Philippine universal, commercial, thrift, rural, and cooperative banks. In addition, the Bank has a Sovereign Risk Rating Model used to assess the strength of the country rated with reference to its economic fundamentals, fiscal policy, institutional strength, and vulnerability to extreme events.

Moody's Analytics performed a quantitative and qualitative validation of the ICRRS in 2014, followed by the model recalibration in 2015. In 2016, with the assistance of Teradata as its technology provider, the Bank completed the statistical validation of the BCS using the same methodology applied to the validation of its corporate risk rating model. In 2017 and 2018, the Bank conducted the validation of the two proposed recalibrated ICRRS models

and the results were used as basis for the selection of the new ICRRS model that was approved by the Board in 2019. The Bank also continued to perform statistical review of the BCS from 2019 to 2021. For the auto and housing loans scorecards, the review was completed in 2020 with the results documented in 2021.

## Market and liquidity risk

Operating in a market that is dynamic and often unpredictable, China Bank is exposed to market risk—the risk of changes in market factors, such as foreign exchange, interest rates and equity prices negatively impacting earnings. This includes interest rate risk in the banking book which is the risk to interest income from a mismatch between the duration of assets and liabilities. The Bank is also exposed to liquidity risk, which is the current and future risk arising from a company's inability to meet its financial obligations when they come due. The objective of our market risk policies is to obtain the best balance of risk and return while meeting our stakeholders' requirements. On the other hand, our liquidity risk policies center on maintaining adequate liquidity at all times to be in a position to meet all obligations as they fall due. Market risk, interest rate risk, and liquidity risk exposures are managed through a risk management framework comprising of limits, triggers, monitoring, and reporting process that are in accordance with the risk appetite of the Board.

Market risk exposures are measured and monitored through reports from our Market Risk Management System. We use Historical Simulation Value-at-Risk (VaR) approach for all treasury traded instruments, including fixed income bonds, foreign exchange swaps and forwards, interest rate swaps, and equity securities. Meanwhile, liquidity and interest rate risk exposures are measured and monitored through the Maximum Cumulative Outflow (MCO) and Earnings-at-Risk (EaR) reports from our Asset and Liability Management (ALM) system. Based on the latest annual validation of Internal Audit, our internal risk measurement models –VaR, EaR, and MCO – remain appropriate and adequate.

## Operational risk

China Bank looks to be an admired and innovative financial services institution that partners with customers, employees and shareholders in wealth and value creation. The bank recognizes that operating soundly and innovating nimbly are keys to sustaining the faith and credit its stakeholders. Our Operational Risk Management Framework provides guidelines that operational workflows sustain the Bank's growth and profit objectives. Our framework advocates a culture of risk recognition, risk control and risk management. It includes policies, processes, procedures, and various tools, which includes Risk Assessment, Control Self-Assessment, Loss Incident Reporting System and reporting of Key Risk Indicators to manage operational risks.

## Business continuity management (BCM)

China Bank recognizes infrastructure availability to be critical in minimizing the effects of potentially disruptive events. We strengthen the ability of our operations to recover from significant business disruptions that may include natural calamities, pandemics, and disasters through developing, reviewing and testing our resilience plans.

## Information technology (IT) risk

China Bank recognizes the horizons that open with the use of Information Technology to deliver products and services or to increase the efficiency of service fulfilment and product delivery. The Bank's information technology risk infrastructure centers on ensuring: the soundness of IT Operations, the effectivity of IT Security in the face of increasing cyber threat landscape, the orderliness of implementation of IT Projects particularly as the

Bank prepares to embark on a digitization effort. The Board of the Parent Bank delegates to the IT Steering Committee (ITSC) the responsibility for implementing our IT strategies and cohesively monitor IT performance. Our ITSC includes the participation of two directors who oversee the institution's IT function as well as members of management that oversee business execution and business support functions. Governance functions participate in ITSC meetings in advisory capacity. The ITSC aggregates IT concerns from all over the enterprise to ensure concerted implementation of the Group's IT Strategy. The allied subsidiary and affiliate enterprises ensure their respective Boards, Senior Managements and Risk functions remain aware of all businesses they raise before the ITSC.

## Trust risk

With the extensive development of the financial market, the Bank continues to place great importance on managing all the risks specific to our Trust business, including legal, strategic, and reputational risks. Trust risk is managed in accordance with the Guidelines in Strengthening Corporate Governance and Risk Management Practices on Trust, Other Fiduciary Business, and Investment Management Activities (BSP Circular 766), as well as the Bank's internal Trust Risk Management Guidelines.

## Integrated stress test

RMG has an Integrated Stress Testing (IST) framework to evaluate the Bank's overall vulnerabilities on specific events or crisis and gauge the ability to withstand stress events, in addition to the silo stress tests. The IST covers all the major risk areas of the Bank and complements the Pillar I Plus Approach which is the basis for the Internal Capital Adequacy Assessment Process (ICAAP) capital charge under normal condition.

## Stock information

China Bank common shares are listed and traded on the Philippine Stock Exchange under the symbol "CHIB". The Bank's common shares were valued at ₱26.00 per share as of December 31, 2021 (last trading day), and at ₱26.55 per share as of March 17, 2022 (latest practicable trading date).

The Bank has an authorized capital stock of ₱33 billion divided into 3.3 billion shares with a par value of ₱10.00 per share. As of February 28, 2022, there were approximately 1,876 holders of 2,691,288,212 common shares.

# Board of Directors

## **HANS T. SY**

Chairman

---

Hans T. Sy, 66, Filipino, is the Chairman of the Board since May 5, 2011. He has been a member of the China Bank Board since May 21, 1986 and served as Vice Chairman from 1989 to 2011. He also serves as Director and Chairman of the Executive Committee of SM Prime Holdings, Inc. (SMPH)\*, Adviser to the Board of SM Investments Corporation (SMIC)\*, and Chairman of the Board of Trustees of National University, Inc. He holds other key positions in several companies within the SM Group. Chairman Sy graduated from De la Salle University with a Bachelor of Science degree in Mechanical Engineering. He attends and participates in various trainings and seminars, the latest of which was the Advanced Corporate Governance training conducted by the Institute of Corporate Directors (ICD) in September 2021.

## **GILBERT U. DEE**

Vice Chairman, Executive Director

---

Gilbert U. Dee, 86, Filipino, is the Vice Chairman of the Board since May 5, 2011. He became a member of the China Bank Board on March 6, 1969 and was the Chairman from 1989 to 2011. He is also currently the Chairman of Union Motor Corporation and China Bank subsidiary CBC Properties and Computer Center, Inc. (CBC-PCCI). He previously served as director on the boards of Philippine Pacific Capital Corporation, Philex Mining Corporation, and CBC Finance Corporation. Vice Chairman Dee holds a Bachelor of Science degree in Banking from De La Salle University and a Master's in Business Administration (MBA) degree in Finance from the University of Southern California. Among the trainings in banking and other related fields he has attended over the years included ICD's Advanced Corporate Governance Training in September 2021.

## **WILLIAM C. WHANG**

President, Executive Director

---

William C. Whang, 63, Filipino, is the Director and President of China Bank since November 1, 2017. He previously held several key positions in the Bank from 2011 to 2017: as Chief Operating Officer, Head of Lending Business Segment, and Head of Institutional Banking Group. He currently sits on the boards of China Bank subsidiaries China Bank Securities Corporation (CBSC) as Chairman; and China Bank Savings, Inc. (CBSI), China Bank Insurance Brokers, Inc. (CBC-IBI), CBC-PCCI, and China Bank Capital Corporation (CBCC) as director. He also holds other directorship positions, representing China Bank, in BancNet, Inc., Bankers Association of the Philippines, Philippine Payments Management Inc., and Manulife China Bank Life Assurance Corporation (MCBLife). He has over 40 years of banking experience, previously holding key positions both in local and international financial institutions. Director and President Whang earned his Bachelor of Science degree in Commerce, Major in Business Management, from De La Salle University. He attended various trainings in banking and other related fields such as corporate governance, anti-money laundering (AML), branch-based marketing, quality service management, sales management, and principle-centered leadership.

## **PETER S. DEE**

Non-Executive Director

---

Peter S. Dee, 80, Filipino, is a China Bank Board member since April 14, 1977. He served as President and Chief Executive Officer from 1985 to 2014. At present, he is an independent director of City & Land Developers, Inc.\* and Cityland Development Corporation\*. He is also a member of the boards of China Bank subsidiary CBC-PCCI, Hydee Management & Resources Corporation, Commonwealth Foods, Inc., GDSK Development Corporation, Makati Curb Holdings Corporation, Great Expectation Holdings, Inc., and The Big D Holdings Corporation. He previously served as director of Sinclair (Phils.) Inc., Can Lacquer, Inc., CBC Forex Corporation, and CBC-IBI, among others. Director Dee obtained his Bachelor of Science degree, Major in Commerce, from De La Salle University and the University of the East, and attended a Special Banking Course at the American Institute of Banking. He attended various trainings, the latest of which was in September 2021 on AML and corporate governance.

\* Listed on the Philippine Stock Exchange

**JOAQUIN T. DEE**

Non-Executive Director

Joaquin T. Dee, 86, Filipino, is a member of the China Bank Board since May 10, 1984. He is also on the boards of JJACCIS Development Corporation, Enterprise Realty Corporation, and Suntree Holdings Corporation. He served as Vice President of Wellington Flour Mills from 1964 to 1995. Director Dee is a graduate of Letran College with a Bachelor of Science degree in Commerce. He attended trainings and seminars related to banking, such as on data privacy, corporate governance, and AML.

**HARLEY T. SY**

Non-Executive Director

Harley T. Sy, 62, Filipino, is a member of the China Bank Board since May 24, 2001. He is also the Executive Director of SM Investments Corporation, one of the largest publicly listed companies in the Philippines, and holds various positions in other non-listed companies in the SM group. Director Sy graduated with a Bachelor of Science degree in Commerce, Major in Finance, from De La Salle University. He participated in extensive trainings focused on enhancing his banking skills, including programs on AML, corporate governance, and BSP supervisory assessment framework.

**HERBERT T. SY**

Non-Executive Director

Herbert T. Sy, 65, Filipino, was first elected to the China Bank Board on January 7, 1993. ## **MARGARITA L. SAN JUAN**

Lead Independent Director

---

Margarita L. San Juan, 68, Filipino, is the Lead Independent Director of China Bank. She was first elected to the China Bank Board on May 4, 2017. She is also Independent Director in Bank subsidiaries CBSI, CBCC, CBC-IBI, and CBCC's wholly-owned subsidiary Resurgent Capital (FISTC-AMC) Inc. (RCI). She does not hold directorship position in any other PSE-listed company. In the past, she worked with Ayala Investment and Development Corporation, Commercial Bank and Trust Co., and in the Bank's Account Management Group as Senior Vice President and Group Head until her retirement in 2012. Director San Juan earned her Bachelor of Science degree in Business Administration, Major in Financial Management, from the University of the Philippines, and completed the Advanced Bank Management Program of the Asian Institute of Management (AIM). She participated in various seminars and trainings including development financing, international banking operations, marketing, financial analysis and control, credit, risk management, lending and investment banking, restructuring and corporate rehabilitation, and the latest on AML and corporate governance in September 2021.

## **PHILIP S.L. TSAI**

Independent Director

---

Philip S.I. Tsai, 71, Filipino, is an Independent Director of China Bank since November 7, 2018. He also serves as Independent Director of China Bank subsidiaries CBSI, CBCC, and CBC-IBI. He has about 40 years of banking and financial experience, previously holding key positions in First CBC Capital (Asia) Limited, Midwest Medical Management, Fortune Travel International Inc., Chemical Bank New York, Plastic Container Packaging/Consolidated Can Corp., and in the Bank's Retail Banking Business until his retirement in 2015. Director Tsai obtained his Bachelor of Science degree in Business Administration from the University of the Philippines and his master's degree in Business Administration from the Roosevelt University in Chicago, Illinois. He participated in several trainings on corporate governance, bank protection, related party transactions, AML, and branch-based marketing, among others. His latest trainings include sustainability in the board room and risk management in the age of COVID-19 in 2020, and effective corporate governance board focus and digital transformation in 2021.

## **CLAIRE ANNT. YAP**

Independent Director

---

Claire Ann T. Yap, 66, Filipino, is an Independent Director of the Bank since October 1, 2020. She also serves as Independent Director of China Bank subsidiaries CBSI, CBCC, and CBSC, and CBCC subsidiary RCI. She is also a Board Trustee and the Vice Chairperson of Vedruna Foundation, Inc., and a Director of Ayala Heights Village Association, Inc. She has over 30 years of banking and finance experience from local and multinational organizations. She was the Senior Vice President and Head of Global Service Centre of Global Payments Process Centre, Inc., a Fortune 500 company and worldwide leader providing payments and financial technology solutions. She also previously held executive leadership positions at Australia and New Zealand Banking Group Ltd. and Hongkong and Shanghai Banking Corporation. She served as Chairman of the Credit Card Association of the Philippines from 2009 to 2010 and President from 2007 to 2009. A Certified Public Accountant, Director Yap graduated cum laude from De La Salle University with a Bachelor of Science degree in Accountancy. She has had various trainings on managing customer experience, credit card fraud and security, information security and data privacy, AML, and corporate governance.

**GENARO V. LAPEZ**

Independent Director

---

Genaro V. Lapez, 64, Filipino, was elected as Independent Director of China Bank on May 6, 2021. He serves as Independent Director in the Bank subsidiaries CBSI and CBSC. He is a seasoned strategic and tactical thinker with extensive local and international experience in banking and consumer marketing. He was most recently a Senior Advisor at Union Bank of the Philippines where he also previously served as Executive Vice President and Head of Center for Strategic Partnerships and Head of Consumer Finance. In the past, he held various senior leadership positions at Royal Numico, Coca-Cola Bottlers Phils. Inc., San Miguel Corporation, Nabisco, and Time Life/Time-Warner Inc. He earned his Bachelor of Science degree in Management Engineering from the Ateneo de Manila University. He has attended various seminars and training programs, including The Asian Banker's Retail Banking Leadership (Certificate Program), John Clements Consultants and Harvard Business School's Retail Banking Future Workshop (Certificate Program), European Financial Management Association's Global Consumer Banking (Certificate Program), and AML updates, Corporate Governance, and Technology Governance for Directors from the ICD.

**RICARDO R. CHUA**

Advisor to the Board

---

Ricardo R. Chua, 70, Filipino, is Advisor to the Board since November 1, 2017. He previously held several key positions in the Bank: as Director from 2008 up to October 2017, President and Chief Executive Officer from September 2014 up to October 2017, and Chief Operating Officer from 2012 to 2014. He is the Advisor of the Bank's Technology Steering Committee and sits on the boards of CBSI and CBCC as Chairman, and CBC-PCCI as Director. A Certified Public Accountant, Mr. Chua graduated with a Bachelor of Science degree in Business Administration, Major in Accounting, cum laude, from the University of the East, and obtained his Master's in Business Management from the AIM. He has had trainings in banking operations and corporate directorship, and completed AML updates online course and advanced corporate governance training, among others.

## Capital Fundamentals

We believe that China Bank can only achieve sustainable growth by maintaining strong capital fundamentals. Major business initiatives are undertaken with the appropriate capital planning which also takes into consideration constraints and changes in the regulatory environment. This is necessary to ensure that the Bank's commercial objectives are equally aligned with its ability to maintain a capital position at par with the industry. The Board and Senior Management recognizes that a balance should be achieved with respect to China Bank's earnings outlook vis-à-vis capital fundamentals that can take advantage of growth opportunities while maintaining sufficient capacity to absorb shocks.

Risk-based capital components, including deductions, on a consolidated and parent company basis:

Common Capital Equity (Basel III)	Consolidated	Parent Company
In PhP Million	2021

<b>Total capital ratio</b>	<b>14.73%</b>	<b>14.59%</b>

The regulatory Basel III qualifying capital of the Group consists of Common Equity Tier 1 capital (going concern capital), which comprises paid-up common stock, additional paid-in capital, surplus including current year profit, other comprehensive income and minority interest less required deductions such as unsecured credit accommodations to DOSRI, deferred income tax, other intangible assets, goodwill, defined benefit pension fund assets/liabilities, and investment in subsidiaries. The other component of regulatory capital is Tier 2 capital (gone-concern capital), which includes general loan loss provision. A capital conservation buffer of 2.5% comprised of CET 1 capital is likewise imposed in the Basel III capital ratios.

Full reconciliation of all regulatory capital elements back to the balance sheet in the audited financial statements is presented below:

## Market Risk-Weighted Assets

The Standardized Approach is used in China Bank's market risk-weighted assets. The total market risk-weighted asset of the Bank as of December 2021 is P28,261.17 million on a consolidated basis and P28,194.25 million for the parent company. This is composed of Interest Rate exposures amounting to P27,357.40 million and Foreign Exposures amounting to P903.77 million on a consolidated basis, and Interest Rate exposures amounting to P27,357.40 million and Foreign Exposures amounting to P836.85 million for the parent company.

## Operational, Legal, and Other Risks

The enterprise-wide risk management framework of the bank covers measurement of operational risks to facilitate management and the setting up of capital cover. The Bank monitors its operational risk exposures through using tools that include Key Risk Indicators, Risk Assessments and Control Self Assessments as well as scenario analyses. The capital allocated by the bank for Operational Risk amounted to PHP 6,060 million of which PHP 5,060 million was allocated to the operation of the Parent Bank. Both figures were more than adequate to cover the computed overall operational risk exposure for the Group and for the parent respectively. In addition, the Bank through its Legal & Collection Group identified and assessed potential losses attributed to Legal Risk and the amount is not material to significantly affect the Bank's capital position.

### Operational Risk-Weighted Assets

The bank risk weights its assets for purposes of operational risk using the Basic Indicators Approach. Banks using this method recognize a risk weighted asset that is 1.25 times fifteen percent of the average operating income reported by the bank over the last three reporting periods. Total Operational Risk Weighted Assets reported were as follows:

In PHP millions	2021	2020
Parent	50,603	42,559
Group	60,599	51,921

### Interest Rate Risk In The Banking Book

The Bank's interest rate risk in the banking book (IRRBB) originates from its holdings of interest rate sensitive assets and interest rate sensitive liabilities. The repricing mismatch exposes the Bank to movements in interest rates. To measure the impact to the Bank's net interest income, a sensitivity analysis thru the Earnings-at-Risk (EaR) method is performed. In this method, Loans are assumed affected by interest rate movements on its repricing date for floating rates and on its maturity for fixed rates. Demand and savings deposits, on the other hand, are generally considered not sensitive to interest rate movements. EaR results are discussed in Asset and Liability (ALCO) meetings every week. Aside from measuring exposure to movements in interest rates, the Bank also performs stress testing for adverse changes in interest rates during stress events. Results are reported to the Risk Oversight Committee (ROC) every month.

Provided in the table below are the approximate addition and reduction in annualized net interest income of a 100bps change across the yield curve.

Earnings-at-Risk in PhP Million	Consolidated		Parent Company	
	2021	2020	2021	2020
Upward	1,428	1,433	1,369	1,430
Downward	1,465	1,398	1,385	1,396

# Report of the Audit Committee

The Audit Committee provides a structured, systematic oversight of the governance, risk management and internal control processes of China Banking Corporation. It is a Board-level Committee exercising primary oversight over all matters pertaining to the internal control system, financial reporting, internal and external audit processes, whistleblowing, and compliance of the Bank with applicable laws and regulations. It provides the Board with independent and objective advice and guidance on the adequacy and effectiveness of management's activities and initiatives and potential improvement in areas within its authority.

The Committee is composed of three (3) non-executive members of the Board of Directors – Independent Director Claire Ann T. Yap serves as the Chairperson, with Non-Executive Director Joaquin T. Dee and Independent Director Philip S.L. Tsai as members. All of the members have relevant background, knowledge, skills and experience in the areas of accounting, auditing and financial management commensurate with the size, complexity of operations and risk profile of the Bank.

For the year ended 31 December 2021, the Committee held twelve regular meetings and two special meetings. The participation in the meetings was exercised in person or through remote communication in accordance with the Board-approved Guidelines for Participation in Board and Committee Meetings through Remote Communication. The Committee discussed and deliberated on matters set out below.

## INTERNAL CONTROL AND COMPLIANCE SYSTEM

The Committee exercised oversight over management to ensure that an adequate, effective and efficient internal control system, including information technology security and control, is established, maintained and improved. It reviewed and discussed with management, external auditors and internal audit various matters including management's assessment of the adequacy of internal controls of the Bank as a whole and its individual units. It evaluated the actions and responses to the internal control issues noted during internal audit and determined that appropriate and timely corrective actions were taken to address significant deficiencies and weaknesses. Reports on matters of significance arising from work performed by providers of financial and internal control assurance were provided to the Committee for its disposition.

The Committee also reviewed the effectiveness of the Bank's system for monitoring compliance with laws and regulations and the results of management's investigation and follow-up of any instances of non-compliance. It also invited relevant resource persons to provide updates to the Committee on outstanding audit issues arising from the regular, limited and special audits of branches and units, and status of unresolved or unacted high risk audit and management issues.

## FINANCIAL REPORTING FRAMEWORK

The Committee looked into the financial reporting processes, practices and controls of the Bank to make sure that the reporting framework enabled the generation and preparation of accurate and comprehensive information and reports. The Committee reviewed the annual audited financial statements, taking into account key audit matters and areas of audit emphasis, changes in accounting policies and practices, standards and interpretations and their related impact. The Committee discussed with the external auditors the management letter containing comments and suggestions to improve the Bank's financial reporting framework.

## EXTERNAL ASSURANCE PROCESSES AND PROVIDERS

The Committee recommended to the Board and stockholders the re-engagement in 2021 of SyCip Gorres Velayo & Co. (SGV) as the external auditor of the Bank after obtaining reasonable assurance with respect to the work of the external assurance providers and upon careful evaluation of their qualifications, performance, competence, integrity, and independence.

The Committee discussed with SGV the annual audited financial statements, management letter, and the disposition of the recommendations, regulatory and accounting issues and developments and their effect on the financial statements. The discussion also focused on results of audit and confirmation procedures and covered areas prescribed by the Bangko Sentral ng Pilipinas (BSP) and other regulatory agencies.

The Committee approved SGV's engagement fees in connection with the audit of the Bank's financial statements, independent validation of votes for the stockholders' meeting, and other non-audit work. It improved its approval process for both non-audit and audit engagements with external assurance providers to ensure that any non-audit work that will conflict with the duties of the external auditors is disallowed.

## INTERNAL AUDIT FUNCTION

The Committee monitored and reviewed the effectiveness of the internal audit function. To obtain reasonable assurance with respect to the Bank's internal audit function, the Committee reviewed and approved the Bank's risk-based internal audit plan, scope, frequency of work and budget, including the resources necessary to achieve the plan. It evaluated the strategies and results of activities versus plans of Audit Division's Audit Quality Assurance Department, Branch Audit Department, Head Office and Subsidiaries Audit Department, and IT Audit Department. The discussions included updates, deferments and changes in their respective audit engagements and audit plans, the impact of the COVID-19 pandemic to Audit Division's operations, actions taken and strategies in terms of audit coverage and scope, and the internal auditors' continuing professional development activities. It also approved the Policy on Coordination and Reliance with other Assurance Service Providers. The full integration to the Bank of subsidiary China Bank Savings' internal audit function was also taken up and favorably acted upon as part of the strategic plan to promote a group-wide mindset aimed to continuously harmonize and rationalize processes and procedures and to leverage on the economies of scale.

In addition, the Committee discussed the Chief Audit Executive's confirmation of the organizational independence of internal audit activity and auditors' objectivity, his attestation on the Bank's control processes and his adherence to the Institute of Internal Auditors' Standard and Implementation Guide 2130 on Control. Further, the Committee evaluated the performance of the Chief Audit Executive and ensured that his performance of the internal audit function is free from interference by outside parties. It also monitored the conformance of the internal audit function with the Institute of Internal Auditors' International Standards for the Professional Practice of Internal Auditing, and the Code of Ethics.

Based on the foregoing, the Committee views that the Bank's internal control, compliance system and financial reporting framework are in place, adequate, effective and efficient, and that the financial statements present fairly the financial position and performance of the Bank in all material respects in accordance with the relevant auditing and accounting standards.

## Statement of Management's Responsibility for Financial Statements

The management of China Banking Corporation (the Bank) is responsible for the preparation and fair presentation of the consolidated financial statements including the schedules attached therein, for the years ended December 31, 2021 and 2020, in accordance with the prescribed financial reporting framework indicated therein, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Bank's financial reporting process.

The Board of Directors reviews and approves the consolidated financial statements including the schedules attached therein, and submits the same to the stockholders.

SyCip Gorres Velayo & Co., the independent auditors appointed by the stockholders, has audited the consolidated financial statements of the Bank in accordance with Philippine Standards on Auditing, and in its report to the stockholders, has expressed its opinion on the fairness of presentation upon completion of such audit.

## Report on the Consolidated and Parent Company Financial Statements

### Opinion

We have audited the consolidated financial statements of China Banking Corporation and its subsidiaries (the Group) and the parent company financial statements of China Banking Corporation, which comprise the consolidated and parent company balance sheets as at December 31, 2021 and 2020, and the consolidated and parent company statements of income, consolidated and parent company statements of comprehensive income, consolidated and parent company statements of changes in equity and consolidated and parent company statements of cash flows for each of the three years in the period ended December 31, 2021, and notes to the consolidated and parent company financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated and parent company financial statements present fairly, in all material respects, the financial position of the Group and the Parent Company as at December 31, 2021 and 2020, and their financial performance and their cash flows for each of the three years in the period ended December 31, 2021 in accordance with Philippine Financial Reporting Standards (PFRSs).

### Basis for Opinion

We conducted our audits in accordance with Philippine Standards on Auditing (PSAs). Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report. We are independent of the Group and the Parent Company in accordance with the Code of Ethics for Professional Accountants in the Philippines (Code of Ethics) together with the ethical requirements that are relevant to our audit of the consolidated and parent company financial statements in the Philippines, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated and parent company financial statements of the current period. These matters were addressed in the context of our audit of the consolidated and parent company financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements* section of our report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the consolidated and parent company financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated and parent company financial statements.

### Applicable to the audit of the Consolidated and Parent Company Financial Statements

#### *Adequacy of allowance for credit losses*

The Group's and the Parent Company's application of the expected credit loss (ECL) model in calculating the allowance for credit losses on loans and receivables is significant to our audit as it involves the exercise of significant management judgment. Key areas of judgment include: segmenting the Group's and the Parent Company's credit risk exposures; determining the method to estimate ECL; defining default; identifying exposures with significant deterioration in credit quality, taking into account extension of payment terms and payment holidays provided as a result of the coronavirus pandemic; determining assumptions to be used in the ECL model such as the counterparty credit risk rating, the expected life of the financial asset, expected recoveries from defaulted accounts, and impact of any financial support and credit enhancements extended by any party; and incorporating forward-looking information, including the impact of the coronavirus pandemic, in calculating ECL.

Allowance for credit losses for loans and receivables as of December 31, 2021 for the Group and the Parent Company amounted to ₱15.06 billion and ₱12.49 billion, respectively. Provision for credit losses of the Group and the Parent Company in 2021 amounted to 8.88 billion and ₱7.68 billion, respectively.

Refer to Notes 3 and 16 of the financial statements for the disclosure on the details of the allowance for credit losses using the ECL model.

#### *Audit Response*

We obtained an understanding of the board approved methodologies and models used for the Group's and the Parent Company's different credit exposures and assessed whether these considered the requirements of PFRS 9, *Financial Instruments* to reflect an unbiased and probability-weighted outcome, and to consider time value of money and the best available forward-looking information.

We (a) assessed the Group's and the Parent Company's segmentation of its credit risk exposures based on homogeneity of credit risk characteristics; (b) tested the definition of default and significant increase in credit risk criteria against historical analysis of accounts, credit risk management policies and practices in place, and management's assessment of the impact of the coronavirus pandemic on the counterparties; (c) tested the Group's and the Parent Company's application of internal credit risk rating system, including the impact of the coronavirus pandemic on the borrowers, by reviewing the ratings of sample credit exposures; (d) assessed whether expected life is different from the contractual life by testing the maturity dates reflected in the Group's and the Parent Company's records and considering management's assumptions regarding future collections, advances, extensions, renewals and modifications; (e) tested loss given default by inspecting historical recoveries and related costs, write-offs and collateral valuations, and the effects of any financial support and credit enhancements provided by any party; (f) tested exposure at default considering outstanding commitments and repayment scheme; (g) evaluated the forward-looking information used for overlay through corroboration of publicly available information and our understanding of the Group's and the Parent Company's lending portfolios and broader industry knowledge, including the impact of the coronavirus pandemic; and (h) tested the effective interest rate used in discounting the expected loss.

Further, we compared the data used in the ECL models from source system reports to the data warehouse and from the data warehouse to the loss allowance analysis/models and financial reporting systems. To the extent that the loss allowance analysis is based on credit exposures that have been disaggregated into subsets of debt financial assets with similar risk characteristics, we traced or re-performed the disaggregation from source systems to the loss allowance analysis. We also assessed the assumptions used where there are missing or insufficient data.

We involved our internal specialist in the performance of the above procedures. We recalculated impairment provisions on a sample basis.

#### ***Accounting for disposals of investment securities under a hold-to-collect business model***

In 2021, the Parent Company disposed investment securities managed under the hold-to-collect (HTC) business model with aggregate carrying amount of ₱55.77 billion. The disposals resulted in a gain of ₱4.06 billion. Investment securities held under a hold-to-collect business model, which are classified as 'Investment securities at amortized cost', are managed to realize cash flows by collecting contractual payments over the life of the instrument.

The accounting for the disposals is significant to our audit because the amounts involved are material (23.01% and 23.60% of the total investment securities at amortized cost of the Group and the Parent Company, respectively). Moreover, it involves the exercise of significant judgment by management in assessing whether the disposals are consistent with the HTC business model and that it would not impact the measurement of the remaining securities in the affected portfolios.

The disclosures related to the disposals of investment securities are included in Notes 3 and 9 to the financial statements.

#### ***Audit Response***

We obtained an understanding of the Parent Company's objectives for disposals of investment securities at amortized cost through inquiries with management and review of approved internal documentations, including governance over the disposals. We evaluated management's assessment of the impact of the disposals in reference to the Parent Company's business models and the provisions of the relevant accounting standards and regulatory issuances. We recalculated the gains on the disposals and the measurement of the remaining securities in the affected portfolios.

We reviewed the disclosures related to the disposals based on the requirements of PFRS 7, Financial Instruments: Disclosures, PFRS 9 and Philippine Accounting Standard (PAS 1), Presentation of Financial Statements.

#### ***Impairment testing of goodwill and branch licenses with indefinite useful life***

Under PFRS, the Group and the Parent Company are required to perform annual impairment test of goodwill and branch licenses with indefinite useful life. As of December 31, 2021, the goodwill recognized in the consolidated and parent company financial statements amounting to ₱222.84 million is attributed to the Parent Company's Retail Banking Business (RBB) segment, while goodwill of ₱616.91 million in the consolidated financial statements is attributed to the subsidiary bank, China Bank Savings, Inc. (CBSI). In addition, the respective branches are identified as the cash-generating units (CGUs) for purposes of impairment testing of branch licenses. The Group and the Parent Company performed the impairment testing using the CGUs' value-in-use.

Management's assessment process requires significant judgment and is based on assumptions which are subject to higher level of estimation uncertainty due to the current economic conditions which have been impacted by the coronavirus pandemic, specifically loan and deposit growth rates, discount rate and the long-term growth rate. Hence, the annual impairment test is significant to our audit.

The Group's disclosures about goodwill and branch licenses are included in Notes 3 and 14 to the financial statements.

#### ***Audit Response***

We evaluated the methodologies used and the management's assumptions by comparing the key assumptions used, such as loan and deposit growth and long-term growth rates against the historical performance of the branches, RBB and CBSI, industry/market outlook and other relevant external data, taking into consideration the impact associated with the coronavirus pandemic. We tested the parameters used in the determination of the discount rate against market data. We also reviewed the Group's disclosures about those assumptions to which the outcome of the impairment test is most sensitive; specifically those that have the most significant effect on the determination of the recoverable amount of goodwill and branch licenses.

# Independent Auditors' Report

## Recoverability of deferred tax assets

As of December 31, 2021, the deferred tax assets of the Group and the Parent Company amounted to P4.62 billion and P3.41 billion. The recognition of deferred tax assets is significant to our audit because it requires significant judgment and is based on assumptions such as availability of future taxable income and the timing of the reversal of the temporary differences that are affected by expected future market or economic conditions and the expected performance of the Group. The estimation uncertainty on the Group's and the Parent Company's expected performance has increased as a result of the uncertainties brought about by the coronavirus pandemic.

The disclosures in relation to deferred income taxes are included in Notes 3 and 28 to the financial statements.

## Audit Response

We involved our internal specialist in interpreting the tax regulations, testing the temporary differences identified by the Group and the Parent Company, and the applicable tax rate. We also re-performed the calculation of the deferred tax assets. We evaluated the management's assessment on the availability of future taxable income in reference to financial forecast and tax strategies. We evaluated management's forecast by comparing the loan portfolio and deposit growth rates to the historical performance of the Group and the industry, including future market circumstances and taking into consideration the impact associated with the coronavirus pandemic. We also assessed the timing of the reversal of future taxable and deductible temporary differences.

## Other Information

Management is responsible for the other information. The other information comprises the information included in the SEC Form 20IS (Definitive Information Statement), SEC Form 17A and Annual Report for the year ended December 31, 2021, but does not include the consolidated and parent company financial statements and our auditor's report thereon. The SEC Form 20IS (Definitive Information Statement), SEC Form 17A and Annual Report for the year ended December 31, 2021 are expected to be made available to us after the date of this auditor's report.

Our opinion on the consolidated and parent company financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audits of the consolidated and parent company financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated and parent company financial statements or our knowledge obtained in the audits, or otherwise appears to be materially misstated.

## Responsibilities of Management and Those Charged with Governance for the Consolidated and Parent Company Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated and parent company financial statements in accordance with PFRSs, and for such internal control as management determines is necessary to enable the preparation of consolidated and parent company financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated and parent company financial statements, management is responsible for assessing the Group's and Parent Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group and the Parent Company or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's and Parent Company's financial reporting process.

## Auditor's Responsibilities for the Audit of the Consolidated and Parent Company Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated and parent company financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with PSAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated and parent company financial statements.

As part of an audit in accordance with PSAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated and parent company financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and Parent Company's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's and Parent Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated and parent company financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group and the Parent Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated and parent company financial statements, including the disclosures, and whether the consolidated and parent company financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated and parent company financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

#### Report on the Supplementary Information Required Under Bangko Sentral ng Pilipinas (BSP) Circular No. 1074 and Revenue Regulations 152010

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information required under BSP Circular No. 1074 in Note 38 and Revenue Regulations 152010 in Note 39 to the financial statements is presented for purposes of filing with the BSP and Bureau of Internal Revenue, respectively, and is not a required part of the basic financial statements. Such information is the responsibility of the management of China Banking Corporation. The information has been subjected to the auditing procedures applied in our audit of the basic financial statements. In our opinion, the information is fairly stated, in all material respects, in relation to the basic financial statements taken as a whole.

The engagement partner on the audit resulting in this independent auditor's report is Janet A. Paraiso.

# Management's Discussion on Result of Operations and Financial Condition

## RESULT OF OPERATIONS

China Bank posted a 25.1% increase in net income to P15.1 billion in 2021 on the back of sustained core business growth and effective cost management. This translated to an improved return on equity of 13.58% and return on assets of 1.45%.

Net interest income grew by 13.2% to P38.3 billion from P33.8 billion in 2020, supported by lower interest expense which dropped by 44.3% to P7.4 billion. This resulted in a better net interest margin of 4.20% from 3.92%.

Non-interest income recorded a 3.5% uptick to P10.4 billion, underpinned by a 38.6% increase in core fee-based income and the P4.0 billion net gain on trading and disposal of investment securities at amortized cost. Service charges, fees, and commissions rose by 29.2% to P3.5 billion due to higher investment banking commissions and loans- and deposits-related revenues. Trust fee income saw a 10.0% jump to P451.0 million following the sustained build-up in trust department accounts. Foreign exchange gain rose by 3.2x to P686.9 million because of favorable foreign exchange trading activities. The upturn in sales of foreclosed assets resulted in the doubling of gain on sale of investment properties to P388.3 million and a P110.2 million swing in gain on asset foreclosure and *dacion* transactions to P87.5 million. Miscellaneous income totaled P1.3 billion, up 32.6% from P952.2 million driven by higher bancassurance fees and other transaction-based revenues.

The Bank controlled the movement in operating expenses (excluding provision for impairment and credit losses) at P22.3 billion. The material components of which include compensation and fringe benefits which accounted for 34% of total expenses, taxes & licenses at 16%, insurance at 9%, and miscellaneous expenses at 15%. China Bank's combined efforts of prudent spending, digitization, and continued investment in growth strategies led to a better cost-to-income ratio of 46% from 49%.

The Bank recognized provision for impairment and credit losses worth P8.9 billion, unchanged vis-à-vis the 2020 amount.

For 2021, China Bank paid a cash dividend of P1.00 per share or a total of P2.7 billion, which represents a total payout of 22% of prior year's net income.

## FINANCIAL CONDITION

China Bank's consolidated assets ended at P1.1 trillion as of December 31, 2021, up P76.3 billion or 7.4% year-on-year, fueled by the expansion in investment securities and loans.

Total investment securities amounted to P279.4 billion, up 18.4%. Financial assets at fair value through profit or loss dropped 46.2% to P7.2 billion due to securities disposal during the year. Meanwhile, financial assets at fair value through other comprehensive income and investment securities at amortized cost posted increases by 41.6% and 19.8%, respectively, with the growth in such investments. Derivative contracts designated as hedges amounting to P1.1 billion was also booked in relation to interest rate swap contracts used as hedging instruments against time deposits. The Bank's liquidity ratio was recorded at 42%, slightly lower than 43% as of end-2020.

Gross loans grew by 9.1% to P624.3 billion, underscored by a normalizing demand for credit in both business and consumer sectors as the economy gradually opens up with loosened COVID-related restrictions. Net loans stood at P609.0 billion. Consumer loans, which accounted for 20% of the total portfolio, grew 7.7% to P122.5 billion. The Bank's gross non-performing loans (NPL) ratio was lower (better) than industry at 2.5%, and NPL cover remained sufficient at 116%.

On the funding side, deposits ended the year higher by 3.3% at P862.9 billion, which was fueled by the 18.4% build-up in current and savings account (CASA) deposits. The Bank's CASA ratio significantly improved to 64% from 56%. On the other hand, bonds payable decreased by 18.4% to P42.5 billion. The net decrease reflects the settlement of the Bank's P30 billion fixed-rate bond, as well as the issuance of another P20 billion fixed-rate bond in February 2021 and due in 2024.

Total capital reached P119.1 billion, 13.5% higher than the P105.0 billion recorded in 2020. The Bank's Common Equity Tier 1 ratio was computed at 14.92%, while total Capital Adequacy Ratio was at 15.75%. Both are above the regulatory minimum requirement.

**China Bank Savings, Inc. (CBS)** began operations on September 8, 2008 following the acquisition of Manila Bank by China Bank in 2007. Subsequent mergers with Unity Bank and Planters Development Bank bolstered CBS as a leading thrift bank in the industry. With a nationwide retail banking network and strong platform for auto, housing, teachers and enterprise finance, CBS is dedicated to servicing the needs of entry-level customers, the broad consumer market and small business owners. CBS is committed to promoting financial inclusiveness and uplifting the quality of life of consumers and entrepreneurs, in line with its *Easy Banking for You* brand of service.

**China Bank Capital Corporation (China Bank Capital)** is the multi-awarded, wholly-owned investment banking subsidiary of China Banking Corporation. It was registered and licensed as an investment house in 2015 after the spin-off from China Banking Corporation's Investment Banking Group. The firm offers a full suite of investment banking solutions, which include arranging, managing, and underwriting bond offerings, corporate notes issuances, initial public offerings and follow-on offerings of common and preferred shares, private placement of securities, structured loans, project finance, real estate investment trusts, and asset securitizations. China Bank Capital also provides financial advisory services, such as structuring, valuation, and execution of M&A deals, joint ventures and other corporate transactions.

**China Bank Securities Corporation (China Bank Securities)** is the wholly-owned stock brokerage subsidiary of China Bank Capital Corporation. China Bank Securities complements China Bank Capital's equity underwriting activities covering the distribution of issues under initial and/or follow-on offerings and providing research and related equity services.

CBSB operates as a stock brokerage licensed by the SEC to engage in dealing, for its own and for its customers' accounts, securities listed in the Philippine Stock Exchange. The company is eligible to trade dollar-denominated securities or DDS, real estate investment trust or REITs and also offers an online stock trading platform.

## **INTERNATIONAL BANKING PRODUCTS & SERVICES**

### **Letter of Credit**

An irrevocable written undertaking by the Issuing Bank on behalf of the Applicant to pay the Beneficiary against presentation of complying documents as stipulated in the credit.

**Standby Letter of Credit**

An irrevocable written undertaking by the Issuing Bank on behalf of the Applicant to pay the Beneficiary in case the Applicant defaults on performance of the agreement.

**Shipping Guarantee**

A document issued by a bank at the request of Applicant, addressed to the shipping line, requesting to release stated merchandise to the importer in lieu of submission of the original bill of lading upon arrival of goods.

**Documents against Payment**

A bank to bank transaction in which the exporter sends documents to the Exporter's bank with accompanying instruction to release documents to the importer once payment was received by the Importer's Bank.

**Documents against Acceptance**

A bank to bank transaction in which the exporter sends documents to the Exporter's bank with accompanying instruction to release documents to the importer only upon submission of signed bill of exchange payable at a future date.

**Advance Payment**

Payments made in advance by the importer/ buyer to the exporter/supplier prior to receiving the goods or services.

**Open Account**

An arrangement wherein the exporter directly sends the documents to the importer and ships the merchandise for payment at a future date (minimum of 30 days from shipment date).

**Trust Receipt Loans**

A document executed by an importer in favor of a bank to finance an import transaction.

**Export Bills Purchase**

The Bank advances the receivables to the exporter at a discount.

**Export Collections**

An arrangement wherein the Presenting Bank sends the documents to the Collecting Bank on collection basis. Payment to the Exporter is made upon receipt of proceeds from the Importer.

**Customs and Duties Tax Payments**

Collection and remittance of taxes, duties and other levies to the Bureau of Customs.

**Advising of Letters of Credit and Standby Letters of Credit**

Letters of Credit and/or Standby Letters of Credit received from the Issuing Bank which are checked by the Advising Bank for its authenticity and workability for further advise to the Beneficiary.

**Purchase and Sale of Foreign Exchange**

Buy and/or sell of foreign exchange to service Trade and Non Trade requirements.

**Inward and Outward Remittance Service -Domestic and International**

Send and receive money within the Philippines or to and from other countries.

**Foreign Currency Loans**

Working capital loans to help strengthen cash flow or help fund day to day operations.

**INVESTMENT BANKING SERVICES****Bonds**

Fixed income instruments that represent an obligation to an investor made by a borrower (typically corporate or government entities).

**Syndicated Loans**

Financing offered by a group of lenders – referred to as a syndicate – who work together to provide funds for a single borrower.

**Corporate Notes**

Typically medium to long-term debt instrument issued by corporations to a limited set or number of investors, such as to primary institutional lenders or qualified buyers.

**Structured Loan**

Business loan given based on a company's performance. It takes into account cash flow more than asset base, and it can be a creative financing tool to overcome challenges in the business cycle.

**Project Finance**

Financing arrangements serve to provide financial resources for specific projects, which are operated as individual business entities, and the income and cash flows generated by these projects are used to repay their financial obligations.

**Long-Term Negotiable Certificate of Deposit (LTNCD)**

Bank product offered to investors which has features of a term or time deposit and can be negotiated, transferred or traded by a holder to another individual.

**Enrolled Notes (Short Dated Notes/QB Notes)**

Short to medium-term debt instruments issued to qualified buyers and are enrolled in Philippine Dealing and Exchange Corporation's Fixed Income Board.

**Initial Public Offering**

Type of public offering in which shares of a company is issued or sold to the public typically consisting of both institutional and retail investors. IPO's allow companies to raise capital from public investors.

### **Follow On Offering**

Issuance of stock subsequent to the company's initial public offering (IPO).

### **Preferred Shares**

Type of shares which typically give preference to the shareholders in the distribution of assets of the corporation in case of liquidation and/or in the distribution of dividends.

### **Convertible Shares**

Shares of stock that have a feature that allows the holder to convert the share into another security.

### **Exchangeable Shares**

Type of instrument that allows the holder to exchange the instrument to another instrument, typically an instrument other than that of the existing instrument of the issuer, at some future date and under prescribed conditions.

### **Mergers & Acquisition Advisory**

Covers a broad spectrum of services which include advising on mergers and acquisitions, evaluation of strategic alternatives, analysis of business plans, and assessment of potential strategic and financial partners.

### **Corporate Restructuring**

Corporate action undertaken by a company to modify its operating activities or its existing capital structure.

### **Valuation**

Analytical process of determining the current (or projected) worth of an asset or a company.

### **Securitization**

Financial arrangement that involves issuing securities backed by a pool of assets.

## **TRUST PRODUCTS & SERVICES**

### **China Bank Money Market Fund**

A Peso-denominated Unit Investment Trust Fund (UITF) classified as a money market fund which offers a high level of liquidity and better earnings potential than those offered by regular savings and short-term time deposit accounts by investing in a diversified portfolio of marketable fixed-income securities comprised of deposits, tradable money market instruments, government securities and corporate bonds and notes. The Fund's average duration is not more than one (1) year and caters to investors with moderate risk appetite.

### **China Bank Cash Fund**

A Peso-denominated UITF classified as a money market fund which offers a high level of liquidity and better earnings potential than those offered by regular savings and short-term time deposit accounts by investing primarily in special savings deposits. The Fund's average duration is not more than one (1) year and caters to conservative investors.

### **China Bank Short-Term Fund**

A Peso-denominated UITF classified as a money market fund which offers a high level of liquidity and better earnings potential than those offered by money market placements, regular savings and short-term time deposit accounts by investing primarily in a diversified portfolio of marketable financial instruments including deposits, money market instruments, government securities, and corporate bonds/notes and preferred shares of stock (classified as debt). The Fund's average duration is not more than one (1) year and caters to moderate investors.

### **China Bank Intermediate Fixed-Income Fund**

A Peso-denominated UITF classified as an intermediate bond fund which intends to achieve for its participants income in the intermediate term by investing primarily in a diversified portfolio of high-grade marketable fixed-income securities comprised of deposits, tradable money market instruments, government securities, corporate bonds and notes and preferred shares of stock (classified as debt). The Fund's average duration is not more than three (3) years and caters to investors with moderate risk appetite.

### **China Bank Fixed Income Fund**

A Peso-denominated UITF classified as a long-term bond fund which intends to achieve for its participants a steady stream of income by investing primarily in a diversified portfolio of high-grade marketable fixed-income securities such as government securities, tradable corporate bonds and notes of varying tenors as well as bank deposits and money market placements. The Fund's average duration is not more than ten (10) years and caters to investors with moderate risk appetite.

### **China Bank Balanced Fund**

A Peso-denominated UITF classified as a balanced fund which intends to achieve for its participants capital appreciation as well as a steady stream of income by primarily investing in a diversified portfolio of high-grade tradable fixed-income securities issued by the Philippine government and local corporations and choice equity issues listed in the Philippine Stock Exchange (PSE). The equity component of the Fund shall not exceed 60% of the portfolio at any given time with an average duration of not more than ten (10) years for the fixed-income investments. The Fund caters to aggressive investors.

### **China Bank Equity Fund**

A Peso-denominated UITF classified as an equity fund which offers capital appreciation by primarily investing in a diversified portfolio of choice equity issues listed in the PSE. The Fund caters to aggressive investors with its equity component not exceeding 95% of the portfolio at any given time.

**China Bank High Dividend Equity Fund**

A Peso-denominated UITF classified as an equity fund which offers long-term capital appreciation by primarily investing in a diversified portfolio of choice common and preferred equity issues listed in the PSE which have regular dividend payment policy and/or dividend payment track record. The Fund caters to aggressive investors with its equity component not exceeding 95% of the portfolio at any given time.

**China Bank Dollar Fund**

A US Dollar-denominated UITF classified as a long-term bond fund which intends to achieve for its participants a steady stream of income by investing primarily in a diversified portfolio of high-grade marketable securities comprised mainly of Philippine sovereign bonds as well as US treasury bonds of varying tenors. The Fund's average duration is not more than ten (10) years and caters to investors with moderate risk appetite.

**China Bank Dollar Cash Fund**

A US Dollar-denominated UITF classified as a money market fund which offers liquidity and higher earnings potential than USD time deposits by investing primarily in fixed-income securities mostly time deposits, special savings accounts and government securities. The Fund's average duration is not more than one (1) year and caters to conservative investors.

**China Bank Philippine Equity Index Tracker Fund**

China Bank Philippine Equity Index Tracker Fund  
A Peso-denominated UITF classified as an equity index tracker fund which offers capital appreciation by investing in a diversified portfolio of stocks representative of the Philippine Stock Exchange Index (PSEi) composition and its corresponding weights. The Fund is catered to aggressive investors and aims to mirror the returns of its benchmark, the PSEi.

**Investment Management Arrangement**

China Banking Corporation - Trust and Asset Management Group (CBC - TAMG) handles the administration and investment of funds and assets of an individual in order to meet his objectives. The arrangement may be discretionary wherein CBC - TAMG has full authority to make investment decisions based on pre-agreed investment guidelines, but may also be non-discretionary wherein investment decisions require prior client consent.

**Personal Management Trust**

A living trust arrangement wherein CBC - TAMG acts as a trustee to manage the client's wealth or estate, generally for the preservation of assets or property for future use of the beneficiaries, which may or may not be a third party, and/or to answer for current needs. CBC - TAMG shall ensure fair and equitable distribution of wealth in accordance with the client's wishes and defined instructions.

**Escrow Services Arrangement**

An arrangement wherein CBC - TAMG acts as an independent third party or an escrow agent to safeguard the interest of the parties to a transaction on assets, documents or funds while the terms and conditions of the contract are being fulfilled. CBC - TAMG offers the following types of escrow services: CGT, Buy & Sell, POEA, DHSUD, and PAGCOR.

**Employee Benefit Fund Management**

A cost-effective corporate arrangement where CBC - TAMG helps the company set up and manage its retirement fund to benefit its employees, avoid unnecessary cash flow disruptions brought about by payment of retirement benefits and avail of possible tax savings. The arrangement covers assistance in the development of the retirement plan rules and regulations, coordination with the actuary, registration of the retirement plan with the Bureau of Internal Revenue for tax-exemption qualification, and the development and implementation of investment strategies to maximize the fund's earnings.

**Corporate Fund Management**

CBC - TAMG acts as an Investment Manager authorized to administer the funds of a corporation in accordance with pre-agreed investment guidelines based on the company's objectives, liquidity requirements, yield expectation, and risk tolerance. The arrangement may either be discretionary wherein CBC - TAMG has full authority to make investment decisions or non-discretionary wherein the company has control on how the funds shall be invested.

**Facility Agency Arrangement**

CBC - TAMG acts as a liaison between a corporate borrower and a group of lenders to primarily ensure compliance by the parties with all the terms and conditions in syndicated loan facilities. The arrangement may also cover receipt from and disbursement of loan payments to the parties, dissemination of notices and information to all concerned, and coordination of creditors' meetings, among others.

**Security Trusteeship Arrangement**

CBC - TAMG acts as a trustee over the properties or assets offered as collateral or are the subject of mortgage in favor of a syndicate of creditors. The arrangement may include the monitoring of required collateral value, custodianship of security documents such as agreements, titles to properties, and insurance policies.

**Collecting and Paying Agency Arrangement**

CBC - TAMG facilitates the collection of payment and prompt disbursement of amounts due to a syndicate of lenders.

## 1. CORPORATE INFORMATION

China Banking Corporation (the Parent Company) is a publicly listed universal bank incorporated in the Philippines. The Parent Company acquired its universal banking license in 1991. It provides expanded commercial banking products and services such as deposit products, loans and trade finance, domestic and foreign fund transfers, treasury products, trust products, foreign exchange, corporate finance and other investment banking services through a network of 477 and 476 local branches as of December 31, 2021 and 2020, respectively.

The Parent Company acquired its original Certification of Incorporation issued by the Securities and Exchange Commission (SEC) on July 20, 1920. On December 4, 1963, the Board of Directors (BOD) of the Parent Company approved the Amended Articles of Incorporation to extend the corporate term of the Parent Company for another 50 years or until July 20, 2020, which was confirmed by the stockholders on December 23, 1963, and approved by the SEC on October 5, 1964. On March 2, 2016, the BOD approved the amendment of the Third Article of the Parent Company's Articles of Incorporation, to further extend the corporate term for another 50 years from and after July 20, 2020, the expiry date of its extended term. The approval was ratified by the stockholders during their scheduled annual meeting on May 5, 2016. On November 7, 2016, the SEC issued the Certificate of Filing of Amended Articles of Incorporation, amending the Third Article thereof to extend the term of corporate existence of the Parent Company. By virtue of Section 11 of Republic Act No. 11232 also known as the "Revised Corporation Code of the Philippines," which took effect on February 23, 2019, the Parent Company now has a perpetual existence.

The Parent Company has the following subsidiaries:

Subsidiary	Effective Percentages of Ownership		Country of Incorporation and Place of Business	Principal Activities
	2021	2020		
Chinabank Insurance Brokers, Inc. (CIBI)	100.00%	100.00%	Philippines	Insurance brokerage
CBC Properties and Computer Center, Inc. (CBC-PCCI)	100.00%	100.00%	Philippines	Computer services
China Bank Savings, Inc. (CBSI)	98.29%	98.29%	Philippines	Retail and consumer banking
China Bank Capital Corporation (CBCC)	100.00%	100.00%	Philippines	Investment house
CBC Assets One (SPC) Inc.	100.00%	100.00%	Philippines	Special purpose corporation
China Bank Securities Corporation (CBCSec)	100.00%	100.00%	Philippines	Stock brokerage
Resurgent Capital (FIST-AMC) Inc.†	100.00%	–	Philippines	FIST Corporation

*†Established in 2021, 100% owned through CBCC*

The Parent Company has no ultimate parent company. SM Investments Corporation, its significant investor, has effective ownership in the Parent Company of 22.51% and 22.55% as of December 31, 2021 and 2020, respectively. The Parent Company's principal place of business is at 8745 Paseo de Roxas cor. Villar St., Makati City.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### Basis of Preparation

The accompanying consolidated financial statements include the financial statements of the Parent Company and its subsidiaries (collectively referred to as "the Group").

The accompanying financial statements have been prepared on a historical cost basis except for financial instruments at fair value through profit or loss (FVTPL), derivative contracts designated as hedges and financial assets at fair value through other comprehensive income (FVOCI). The financial statements are presented in Philippine peso, and all values are rounded to the nearest thousand except when otherwise indicated.

The financial statements of the Parent Company reflect the accounts maintained in the Regular Banking Unit (RBU) and Foreign Currency Deposit Unit (FCDU). The financial statements of these units are combined after eliminating inter-unit accounts.

Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency. The functional currency of each of the Parent Company's subsidiaries is the Philippine peso, except for the FCDU of CBSI whose functional currency is USD.

### Statement of Compliance

The financial statements of the Group and the Parent Company have been prepared in compliance with Philippine Financial Reporting Standards (PFRS).

### Presentation of Financial Statements

The balance sheets of the Group and of the Parent Company are presented in order of liquidity. An analysis regarding recovery of assets or settlement of liabilities within 12 months after the reporting date (current) and more than 12 months after the reporting date (non-current) is presented in Note 23.

Financial assets and financial liabilities are offset and the net amount reported in the balance sheets only when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis, or to realize the asset and settle the liability simultaneously. The Group and the Parent Company assess that they have currently enforceable right of offset if the right is not contingent on a future event, and is legally enforceable in the normal course of business, event of default, and event of insolvency or bankruptcy of the Group, the Parent Company and all of the counterparties.

Income and expenses are not offset in the statement of income unless required or permitted by any accounting standard or interpretation, and as specifically disclosed in the accounting policies of the Group and the Parent Company.

### Basis of Consolidation and Investments in Subsidiaries

The consolidated financial statements of the Group are prepared for the same reporting year as the Parent Company, using consistent accounting policies. All significant intra-group balances, transactions and income and expenses resulting from intra-group transactions are eliminated in full.

Subsidiaries are consolidated from the date on which control is obtained by the Parent Company.

The Group controls an investee if and only if the Group has:

- power over the investee (i.e., existing rights that give it the current ability to direct the relevant activities of the investee);
- exposure, or rights, to variable returns from its involvement with the investee, and
- the ability to use its power over the investee to affect its returns.

When the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:

- the contractual arrangement with the other vote holders of the investee
- rights arising from other contractual arrangements
- the Group's voting rights and potential voting rights.

The Group re-assesses whether or not it controls an investee if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary. Assets, liabilities, income and expenses of a subsidiary acquired or disposed of during the year are included in the consolidated financial statements from the date the Group gains control until the date the Group ceases to control the subsidiary. Profit or loss and each component of other comprehensive income (OCI) are attributed to the equity holders of the Group and to the non-controlling interests. When necessary, adjustments are made to the financial statements of the subsidiary to bring its accounting policies into line with the Group's accounting policies. All intra-group assets and liabilities, equity, income, expenses and cash flows relating to transactions between members of the Group are eliminated in full on consolidation.

A change in the ownership interest of a subsidiary, without a loss of control, is accounted for as an equity transaction. If the Group loses control over a subsidiary, it:

- Derecognizes the assets (including goodwill) and liabilities of the subsidiary
- Derecognizes the carrying amount of any non-controlling interest
- Derecognizes the related OCI recorded in equity and recycle the same to profit or loss or surplus
- Recognizes the fair value of the consideration received
- Recognizes the fair value of any investment retained
- Recognizes the remaining difference in profit or loss
- Reclassifies the parent's share of components previously recognized in OCI to profit or loss or retained earnings, as appropriate, as would be recognized if the Group had directly disposed of the related assets or liabilities

Non-Controlling Interest

Non-controlling interest represents the portion of profit or loss and net assets not owned, directly or indirectly, by the Parent Company.

Non-controlling interest is presented separately in the consolidated statement of income, consolidated statement of comprehensive income, and within equity in the consolidated balance sheet, separately from parent shareholders' equity. Any losses applicable to the non-controlling interest are allocated against the interests of the non-controlling interest even if this results in the non-controlling interest having a deficit balance.

**Changes in Accounting Policies and Disclosures**

The accounting policies adopted are consistent with those of the previous financial year except for the following amendments to PFRS which became effective as of January 1, 2021. Except as otherwise indicated, these changes in the accounting policies did not have any significant impact on the financial position or performance of the Group:

- Amendments to PFRS 9, PFRS 7, PFRS 4 and PFRS 16, *Interest Rate Benchmark Reform – Phase 2*

The amendments provide the following temporary reliefs which address the financial reporting effects when an interbank offered rate (IBOR) is replaced with an alternative nearly risk-free interest rate (RFR):

- Practical expedient for changes in the basis for determining the contractual cash flows as a result of IBOR reform
- Relief from discontinuing hedging relationships
- Relief from the separately identifiable requirement when an RFR instrument is designated as a hedge of a risk component

The Group shall also disclose information about:

- The about the nature and extent of risks to which the entity is exposed arising from financial instruments subject to IBOR reform, and how the entity manages those risks; and
- Their progress in completing the transition to alternative benchmark rates, and how the entity is managing that transition

The Group has certain cash flow hedges whose interest rate benchmark is linked to United States (US) London Interbank Offered Rate (LIBOR). This Phase 2 of the IBOR reform provides temporary reliefs that allow the Group's hedging relationships to continue upon the replacement of an existing interest rate benchmark with an RFR. The reliefs require the Group to amend hedge designations and hedge documentation. This includes redefining the hedged risk to reference an RFR, redefining the description of the hedging instrument and/or the hedged item to reference the RFR and amending the method for assessing hedge effectiveness. Updates to the hedging documentation must be made by the end of the reporting period in which a replacement takes place.

- Amendment to PFRS 16, COVID-19-related Rent Concessions beyond 30 June 2021

The amendment provides relief to lessees from applying the PFRS 16 requirement on lease modifications to rent concessions arising as a direct consequence of the COVID-19 pandemic. A lessee may elect not to assess whether a rent concession from a lessor is a lease modification if it meets all of the following criteria:

- The rent concession is a direct consequence of COVID-19;
- The change in lease payments results in a revised lease consideration that is substantially the same as, or less than, the lease consideration immediately preceding the change;
- Any reduction in lease payments affects only payments originally due on or before June 30, 2022; and
- There is no substantive change to other terms and conditions of the lease.

A lessee that applies this practical expedient will account for any change in lease payments resulting from the COVID-19 related rent concession in the same way it would account for a change that is not a lease modification, i.e., as a variable lease payment.

The amendment is effective for annual reporting periods beginning on or after April 1, 2021. Early adoption is permitted.

The Group adopted the amendment beginning April 1, 2021.

## Significant Accounting Policies

### Foreign Currency Translation

The consolidated financial statements are presented in Philippine peso.

### *Transactions and balances*

The books of accounts of the RBU are maintained in Philippine peso, the RBU's functional currency, while those of the FCDU are maintained in United States (US) dollars (USD), the FCDU's functional currency.

### *RBU*

For financial reporting purposes, the foreign currency-denominated monetary assets and liabilities in the RBU are translated in Philippine peso based on the Bankers Association of the Philippines (BAP) closing rate at end of the year, and foreign currency-denominated income and expenses, at the exchange rates on transaction dates. Foreign exchange differences arising from restatements of foreign currency-denominated assets and liabilities are credited to or charged against operations in the period in which the rates change. Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

### *FCDU*

As at the reporting date, the assets and liabilities of the FCDU are translated into the Parent Company's presentation currency (the Philippine Peso) at the BAP closing rate at the reporting date, and its income and expenses are translated at the BAP weighted average rate for the year. Exchange differences arising on translation are taken directly to the statement of comprehensive income under 'Cumulative translation adjustment'. Upon actual remittance or transfer of the FCDU income to RBU, the related exchange difference arising from translation lodged under 'Cumulative translation adjustment' is recognized in the statement of income of the RBU books.

### Fair Value Measurement

The Group measures financial instruments, such as financial instruments at FVTPL, derivative contracts designated as hedges and financial assets at FVOCI at fair value at each reporting date. Also, fair values of financial instruments measured at amortized cost are disclosed in Note 5.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

- in the principal market for the asset or liability, or
- in the absence of a principal market, in the most advantageous market for the asset or liability.

The principal or the most advantageous market must be accessible by the Group. The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

If an asset or a liability measured at fair value has a bid price and an ask price, the price within the bid-ask spread that is most representative of fair value in the circumstances shall be used to measure fair value regardless of where the input is categorized within the fair value hierarchy.

A fair value measurement of a non-financial asset takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities
- Level 2 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable
- Level 3 - Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

For assets and liabilities that are recognized in the financial statements on a recurring basis, the Group determines whether transfers have occurred between Levels in the hierarchy by re-assessing categorization (based on the lowest level input that is significant to the fair value measurement as a whole) at the end of each reporting period.

#### Cash and Cash Equivalents

For purposes of reporting cash flows, cash and cash equivalents include cash and other cash items, due from BSP and other banks, interbank loans receivables and securities purchased under resale agreements (SPURA) that are convertible to known amounts of cash which have original maturities of three months or less from dates of placements and that are subject to an insignificant risk of changes in value. Due from BSP includes the statutory reserves required by the BSP which the Group considers as cash equivalents wherein withdrawals can be made to meet the Group's cash requirements as allowed by the BSP.

#### SPURA

Securities purchased under agreements to resell at a specified future date ('reverse repos') are not recognized in the balance sheet. An asset corresponding to the cash paid, including accrued interest, is recognized in the balance sheet as SPURA. The difference between the purchase price and the resale price is treated as interest income and is accrued over the life of the agreement using the EIR method.

Financial Instruments - Initial Recognition

#### *Date of recognition*

Purchases or sales of financial assets, except for derivative instruments, that require delivery of assets within the time frame established by regulation or convention in the marketplace are recognized on the settlement date. Settlement date accounting refers to (a) the recognition of an asset on the day it is received by the Group, and (b) the derecognition of an asset and recognition of any gain or loss on disposal on the day that such asset is delivered by the Group. Any change in fair value of a financial asset is recognized in the statement of income for assets classified as financial assets at FVTPL, and in equity for assets classified as financial assets at FVOCI. Derivatives are recognized on a trade date basis. Deposits, amounts due to banks, and customers loans and receivables are recognized when cash is received by the Group or advanced to the borrowers.

#### *Initial recognition of financial instruments*

All financial instruments are initially recognized at fair value. Except for financial assets and financial liabilities at FVTPL, the initial measurement of financial instruments includes transaction costs.

#### *'Day 1' difference*

Where the transaction price in a non-active market is different with the fair value from other observable current market transactions in the same instrument or based on a valuation technique whose variables include only data from observable market, the Group recognizes the difference between the transaction price and fair value (a 'Day 1' difference) in the statement of income. In cases where the transaction price used is made of data which is not observable, the difference between the transaction price and model value is only recognized in the statement of income when the inputs become observable or when the instrument is derecognized. For each transaction, the Group determines the appropriate method of recognizing the 'Day 1' difference amount.

#### Classification and Measurement

Under PFRS 9, the classification and measurement of financial assets is driven by the contractual cash flow characteristics of the financial assets and the entity's business model for managing the financial assets.

As part of its classification process, the Group assesses the contractual terms of financial assets to identify whether they meet the 'solely payments of principal and interest' (SPPI) test. 'Principal' for the purpose of this test is defined as the fair value of the financial asset at initial recognition and may change over the life of the financial asset (e.g., if there are repayments of principal or amortization of the premium or discount).

The most significant elements of interest within a lending arrangement are typically the consideration for the time value of money and credit risk. To make the SPPI assessment, the Group applies judgment and considers relevant factors such as the currency in which the financial asset is denominated and the period for which the interest rate is set. In contrast, contractual terms that introduce a more than de minimis exposure to risks or volatility in the contractual cash flows that are unrelated to a basic lending arrangement do not give rise to contractual cash flows that are solely payments of principal and interest on the amount outstanding. In such cases, the financial asset is required to be measured at FVTPL.

The Group determines its business model at the level that best reflects how it manages groups of financial assets to achieve its business objective.

The Group's business model is not assessed on an instrument-by-instrument basis, but at a higher level of aggregated portfolios and is based on observable factors such as:

- how the performance of the business model and the financial assets held within that business model are evaluated and reported to the entity's key management personnel;
- the risks that affect the performance of the business model (and the financial assets held within that business model) and, in particular, the way those risks are managed;
- how managers of the business are compensated (for example, whether the compensation is based on the fair value of the assets managed or on the contractual cash flows collected); and
- the expected frequency, value, and timing of sales are also important aspects of the Group's assessment.

The business model assessment is based on reasonably expected scenarios without taking 'worst case' or 'stress case' scenarios into account. If cash flows after initial recognition are realized in a way that is different from the Group's original expectations, the Group does not change the classification of the remaining financial assets held in that business model, but incorporates such information when assessing newly originated or newly purchased financial assets going forward; unless a change in business model has taken place, in which case, reclassification is necessary.

The Group's measurement categories are described below:

#### *Financial assets at Amortized Cost*

Financial assets are measured at amortized cost if both of the following conditions are met:

- the asset is held within the Group's business model whose objective is to hold financial assets in order to collect contractual cash flows; and
- the contractual terms of the instrument give rise, on specified dates, to cash flows that are SPPI on the principal amount outstanding.

Financial assets meeting these criteria are measured initially at fair value plus transaction costs. They are subsequently measured at amortized cost using the effective interest method less any impairment in value. The amortization is included in 'Interest income' in the statement of income. Gains or losses are recognized in the statement of income when these investments are derecognized or impaired, as well as through the amortization process. The expected credit losses (ECL) are recognized in the statement of income under 'Provision for impairment and credit losses'. The effects of revaluation of foreign currency-denominated investments are recognized in the statement of income. Gains or losses arising from disposals of these instruments are included in 'Gains (losses) on disposal of investment securities at amortized cost' in the statement of income.

The Group's financial assets at amortized cost are presented in the statement of financial position as Due from BSP, Due from other banks, Interbank loans receivable and SPURA, Investment securities at amortized cost, Loans and receivables, Accrued interest receivables and certain financial assets under Other assets.

The Group may irrevocably elect at initial recognition to classify a financial asset that meets the amortized cost criteria above as at FVTPL if that designation eliminates or significantly reduces an accounting mismatch had the financial asset been measured at amortized cost.

#### *Financial Assets at FVTPL*

Debt instruments that neither meet the amortized cost nor the FVOCI criteria, or that meet the criteria but the Group has chosen to designate as at FVTPL at initial recognition, are classified as financial assets at FVTPL. Equity investments are classified as financial assets at FVTPL, unless the Group irrevocably designates an equity investment that is not held for trading as at FVOCI at initial recognition. The Group's financial assets at FVTPL include government securities, corporate bonds, derivatives, and equity securities which are held for trading purposes.

A financial asset is considered as held for trading if:

- it has been acquired principally for the purpose of selling it in the near term;
- on initial recognition, it is part of a portfolio of identified financial instruments that the Group manages together and has evidence of a recent actual pattern of short-term profit-taking; or
- it is a derivative that is not designated and effective as a hedging instrument or financial guarantee.

Gains and losses arising from changes in the fair value (mark-to-market) of the financial assets at FVTPL are included in 'Trading and securities gain (loss) - net' account in the statement of income.

Interest recognized based on the contractual interest rate of these investments is reported in the statement of income under 'Interest income' account while dividend income is reported in the statement of income under 'Miscellaneous income' account when the right of payment has been established.

#### *Derivative instruments*

The Parent Company is a party to derivative instruments, particularly, forward exchange contracts, interest rate swaps (IRS), futures, and warrants. These contracts are entered into as a service to customers, as a means of reducing and managing the Parent Company's foreign exchange risk and interest rate risk, as well as for trading purposes. Such derivative financial instruments, which are not designated as accounting hedges, are carried at fair value through profit or loss.

Any gains or losses arising from changes in fair value of derivative instruments that are not designated as accounting hedges are taken directly to the statement of income under 'Foreign exchange gain (loss) - net' for forward exchange contracts and 'Trading and securities gain (loss) - net' for IRS, futures and warrants.

An embedded derivative is a component of a hybrid instrument that also includes a non-derivative host contract with the effect that some of the cash flows of the combined instrument vary in a way similar to a stand-alone derivative. An embedded derivative causes some or all of the cash flows that otherwise would be required by the contract to be modified according to a specified interest rate, financial instrument price, commodity price, foreign exchange rate, index of prices or rates, credit rating or credit index, or other variable, provided that, in the case of a non-financial variable, it is not specific to a party to the contract. A derivative that is attached to a financial instrument, but is contractually transferable independently of that instrument, or has a different counterparty from that instrument, is not an embedded derivative, but a separate financial instrument.

Derivatives embedded in financial liability or a non-financial host are separated from the host and accounted for as separate derivatives if: the economic characteristics and risks are not closely related to the host; a separate instrument with the same terms as the embedded derivative would meet the definition of a derivative; and the hybrid contract is not measured at fair value through profit or loss. Embedded derivatives are measured at fair value with changes in fair value recognized in profit or loss. Reassessment only occurs if there is either a change in the terms of the contract that significantly modifies the cash flows that would otherwise be required or a reclassification of a financial asset out of the fair value through profit or loss category.

#### *Financial Assets at FVOCI - Equity Investments*

At initial recognition, the Group can make an irrevocable election (on an instrument-by-instrument basis) to designate equity investments as at FVOCI. However, such designation is not permitted if the equity investment is held by the Group for trading. The Group has designated certain equity instruments as at FVOCI.

Financial assets at FVOCI are initially measured at fair value plus transaction costs. Subsequently, they are measured at fair value, with no deduction for any disposal costs. Gains and losses arising from changes in fair value are recognized in other comprehensive income and accumulated in 'Net unrealized gain (loss) on financial assets at FVOCI' in the balance sheet. When the asset is disposed of, the cumulative gain or loss previously recognized in the 'Net unrealized gain (loss) on financial assets at FVOCI' account is not reclassified to profit or loss, but is reclassified directly to Surplus account. Any dividends earned on holding these equity instruments are recognized in profit or loss under 'Miscellaneous income' account.

#### *Financial Assets at FVOCI - Debt Investments*

The Group applies the category of debt instruments measured at FVOCI when both of the following conditions are met:

- the instrument is held within a business model, the objective of which is achieved by both collecting contractual cash flows and selling financial assets; and
- the contractual terms of the financial asset meet the SPPI test.

FVOCI debt instruments are subsequently measured at fair value with gains and losses arising due to changes in fair value being recognized in OCI. Interest income and foreign exchange gains and losses are recognized in profit or loss. Provision for credit and impairment losses is recognized in profit or loss with the corresponding allowance for ECL recognized in OCI.

On derecognition, cumulative gains or losses previously recognized in OCI are reclassified from OCI to profit or loss.

### *Reclassification*

The Group can only reclassify financial assets if the objective of its business model for managing those financial assets changes. Accordingly, the Group is required to reclassify financial assets:

- i. from amortized cost to fair value, if the objective of the business model changes so that the amortized cost criteria are no longer met; and
- ii. from fair value to amortized cost, if the objective of the business model changes so that the amortized cost criteria start to be met and the characteristic of the instrument's contractual cash flows meet the amortized cost criteria.

A change in business model occurs when the Group either begins or ceases to perform an activity that is significant to its operations. A change in the objective of the Group's business model will be effected only at the beginning of the next reporting period following the change in the business model.

### Impairment of Financial assets

ECL represents credit losses that reflect an unbiased and probability-weighted measure of expected cash shortfalls, discounted at the EIR, which is determined by evaluating a range of possible outcomes, the time value of money, and reasonable and supportable information about past events, current conditions, and forecasts of future economic conditions. A cash shortfall is the difference between the cash flows that are due to an entity in accordance with the contract and the cash flows that the entity expects to receive. ECL allowances are measured at amounts equal to either (i) 12-month ECL or (ii) lifetime ECL for those financial instruments which have experienced a significant increase in credit risk (SICR) since initial recognition (General Approach). The 12-month ECL is the portion of lifetime ECL that results from default events on a financial instrument that are possible within the 12 months after the reporting date. Lifetime ECL pertains to credit losses that result from all possible default events over the expected life of a financial instrument.

For non-credit-impaired financial instruments:

- Stage 1 consists of all non-impaired financial instruments which have not experienced a SICR since initial recognition. The Group and the Parent Company recognize a 12-month ECL for Stage 1 financial instruments.
- Stage 2 consists of all non-impaired financial instruments which have experienced a SICR since initial recognition. The Group and the Parent Company recognize a lifetime ECL for Stage 2 financial instruments.

For credit-impaired financial instruments:

- Financial instruments are classified as Stage 3 when there is objective evidence of impairment as a result of one or more loss events that have occurred after initial recognition with a negative impact on the estimated future cash flows of a financial asset or a portfolio of financial assets. The ECL model requires that lifetime ECL be recognized for impaired financial instruments.

The Group uses internal credit assessment and approvals at various levels to determine the credit risk of exposures at initial recognition. Assessment can be quantitative or qualitative and depends on the materiality of the facility or the complexity of the portfolio to be assessed. ECL is a function of the probability of default (PD), exposure at default (EAD), and loss given default (LGD), with the timing of the loss also considered, and is estimated by incorporating forward-looking economic information and through the use of experienced credit judgment.

The PD represents the likelihood that a credit exposure will not be repaid and will go into default in either a 12-month horizon for Stage 1 or lifetime horizon for Stage 2. EAD represents an estimate of the outstanding amount of credit exposure at the time a default may occur. For off-balance sheet exposures and undrawn amounts, EAD includes an estimate of any further amounts to be drawn within the contractual availability period of the irrevocable commitments. LGD is the amount that may not be recovered in the event of default. LGD takes into consideration the amount and quality of any collateral held. Please refer to Note 6 for other information related to the Bank's models for PD, EAD, and LGD.

The calculation of ECL, including the estimation of PD, EAD, LGD, and discount rate, is made on an individual basis for most of the Group's financial assets, and on a collective basis for retail products such as credit card receivables. The collective assessments are made separately for portfolios of facilities with similar credit risk characteristics.

In certain circumstances, the Group modifies the original terms and conditions of a credit exposure to form a new loan agreement or payment schedule. The modifications can be given depending on the borrower's or counterparty's current or expected financial difficulty. The modifications may include, but are not limited to, change in interest rate and terms, principal amount, maturity date, date and amount of periodic payments, and accrual of interest and charges. Distressed restructuring with indications of unlikelihood to pay are categorized as impaired accounts and are moved to Stage 3.

*Restructured loans*

Where possible, the Group seeks to restructure loans rather than to take possession of the collateral. This may involve extending the payment arrangements and the agreement of new loan conditions. Once the terms have been renegotiated, the loan is no longer considered past due. Management continuously reviews restructured loans to ensure that all criteria are met and that future payments are likely to occur. The loans continue to be subject to an individual or collective impairment assessment, calculated using the loan's original EIR. The difference between the recorded value of the original loan and the present value of the restructured cash flows, discounted at the original EIR, is recognized in 'Miscellaneous income' or 'Miscellaneous expense' in the statement of income, as applicable.

When the loan has been restructured but not derecognized, the Group also reassesses whether there has been a SICR and considers whether the assets should be classified as Stage 3. If the restructuring terms are substantially different, the loan is derecognized and a new 'asset' is recognized at fair value using the revised EIR.

Hedge Accounting

For the purpose of hedge accounting, hedges are classified as:

- Fair value hedges when the risk being hedged is the exposure to changes in the fair value of a recognized asset or liability or an unrecognized firm commitment;
- Cash flow hedges when the risk being hedged is the exposure to variability in cash flows that is either attributable to a particular risk associated with a recognized asset or liability or a highly probable forecast transaction or the foreign currency risk in an unrecognized firm commitment; and
- Hedges of a net investment in a foreign operation.

At the inception of a hedge relationship, the Parent Company formally designates and documents the hedge relationship to which it wishes to apply hedge accounting and the risk management objective and strategy for undertaking the hedge.

The documentation includes identification of the hedging instrument, the hedged item, the nature of the risk being hedged and how the Parent Company will assess whether the hedging relationship meets the hedge effectiveness requirements (including the analysis of sources of hedge ineffectiveness and how the hedge ratio is determined).

A hedging relationship qualifies for hedge accounting if it meets all of the following effectiveness requirements:

- There is an economic relationship between the hedged item and the hedging instrument.
- The effect of credit risk does not dominate the value changes that result from that economic relationship.
- The hedge ratio of the hedging relationship is the same as that resulting from the quantity of the hedged item that the Parent Company actually hedges and the quantity of the hedging instrument that the Parent Company actually uses to hedge that quantity of hedged item.

An economic relationship exists when the hedging instrument and the hedged item have values that generally move in opposite directions in response to movements in the same risk (hedged risk). The Parent Company assesses economic relationship by performing prospective qualitative or quantitative hedge effectiveness assessment at each reporting date. In addition, the Parent Company measures ineffectiveness by comparing the cumulative change in the fair value of the hedging instrument with the cumulative change in the fair value of the hedged item.

*Cash flow hedges*

The effective portion of the gain or loss on the hedging instrument is recognized in OCI in the cash flow hedge reserve, while any ineffective portion is recognized immediately in the statement of income. The cash flow hedge reserve is adjusted to the lower of the cumulative gain or loss on the hedging instrument and the cumulative change in fair value of the hedged item.

As of December 31, 2021 and 2020, the Parent Company has interest rate swaps that have been designated as hedging instruments in cash flow hedges (Note 26).

Financial Liabilities

Financial liabilities which include deposit liabilities, bills payable, bonds payable, and other liabilities (except tax-related payables, pre-need reserves and post-employment defined benefit obligation) are recognized when the Group becomes a party to the contractual terms of the instrument.

Financial liabilities are recognized initially at their fair value and subsequently measured at amortized cost using the effective interest method. All interest-related charges incurred on financial liabilities are recognized as an expense in the statements of income under the caption 'Interest expense'.

Deposit liabilities are stated at amounts in which they are to be paid. Interest is accrued periodically and recognized in a separate liability account before recognizing as part of deposit liabilities.

'Bills payable' and 'Bonds payable' are recognized initially at fair value, which is the issue proceeds (fair value of consideration received) less any issuance costs. These are subsequently measured at amortized cost, any difference between the proceeds net of transaction costs and the redemption value is recognized in the statement of income over the period of the borrowings using the effective interest method.

Derivative liabilities are recognized initially and subsequently measured at fair value with changes in fair value recognized in the statement of income, unless designated as an accounting hedge.

Other liabilities, apart from derivative liabilities, are recognized initially at their fair value and subsequently measured at amortized cost, using effective interest method.

#### Derecognition of Financial Assets and Liabilities

##### *Financial assets*

A financial asset (or, where applicable, a part of a financial asset or part of a group of financial assets) is derecognized when:

- the rights to receive cash flows from the asset have expired; or
- the Group retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass-through" arrangement; or
- the Group has transferred its rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained the risks and rewards of the asset but has transferred control of the asset.

Where the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement, and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

##### *Modification of financial assets*

The Group derecognizes a financial asset when the terms and conditions have been renegotiated to the extent that, substantially, it becomes a new asset, with the difference between its carrying amount and the fair value of the new asset recognized as a derecognition gain or loss in profit or loss, to the extent that an impairment loss has not already been recorded.

The Group considers both qualitative and quantitative factors in assessing whether a modification of financial asset is substantial or not. When assessing whether a modification is substantial, the Group considers the following factors, among others:

- Change in currency;
- Introduction of an equity feature;
- Change in counterparty; and
- If the modification results in the asset no longer considered SPPI.

The Group also performs a quantitative assessment similar to that being performed for modification of financial liabilities. In performing the quantitative assessment, the Group considers the new terms of a financial asset to be substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the present value of the remaining cash flows of the original financial asset.

When the contractual cash flows of a financial asset are renegotiated or otherwise modified and the renegotiation or modification does not result in the derecognition of that financial asset, the Group recalculates the gross carrying amount of the financial asset as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR (or credit-adjusted EIR for purchased or originated credit-impaired financial assets) and recognizes a modification gain or loss in the statement of income.

When the modification of a financial asset results in the derecognition of the existing financial asset and the subsequent recognition of a new financial asset, the modified asset is considered a 'new' financial asset. Accordingly, the date of the modification shall be treated as the date of initial recognition of that financial asset when applying the impairment requirements to the modified financial asset. The newly recognized financial asset is classified as Stage 1 for ECL measurement purposes, unless the new financial asset is deemed to be purchased or originated as credit impaired (POCI).

#### *Financial liabilities*

A financial liability is derecognized when the obligation under the liability is discharged, cancelled, or has expired. Where an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of income.

#### *Exchange or modification of financial liabilities*

The Group considers both qualitative and quantitative factors in assessing whether a modification of financial liabilities is substantial or not. The terms are considered substantially different if the present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the present value of the remaining cash flows of the original financial liability. However, under certain circumstances, modification or exchange of a financial liability may still be considered substantial, even where the present value of the cash flows under the new terms is less than 10% different from the present value of the remaining cash flows of the original financial liability. There may be situations where the modification of the financial liability is so fundamental that immediate derecognition of the original financial liability is appropriate (e.g., restructuring a financial liability to include an embedded equity component).

When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability. The difference between the carrying value of the original financial liability and the fair value of the new liability is recognized in profit or loss.

When the exchange or modification of the existing financial liability is not considered as substantial, the Group recalculates the gross carrying amount of the financial liability as the present value of the renegotiated or modified contractual cash flows discounted at the original EIR and recognizes a modification gain or loss in profit or loss.

If modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognized as part of the gain or loss on the extinguishment. If the modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the financial instrument and are amortized over the remaining term of the modified financial instrument.

#### Financial Guarantees and Undrawn Loan Commitments

The Group issues financial guarantees and loan commitments. Financial guarantees are those issued by the Group to creditors as allowed under existing rules and regulations whereby it guarantees third party obligations by signing as guarantor in the contract/agreement. Undrawn loan commitments and letters of credit are commitments under which the Group is required, over the duration of the commitment, to provide a loan with pre-specified terms to the customer. The nominal contractual value of financial guarantees and undrawn loan commitments, where the loan agreed to be provided is on market terms, are not recorded in the statement of financial position. These contracts are in the scope of the ECL requirements where the Group estimates the expected portion of the undrawn loan commitments that will be drawn over their expected life. The ECL related to loan commitments is recognized in 'Other liabilities'.

#### Write-offs

Financial assets are written off either partially or in their entirety when the Group no longer expects collections or recoveries within a foreseeable future. If the amount to be written off is greater than the accumulated loss allowance, the difference is first treated as an addition to the allowance that is then applied against the gross carrying amount. Any subsequent recoveries are credited to the 'Miscellaneous income' account.

#### Investment in Associates

Associates pertain to all entities over which the Group has significant influence, but not control, generally accompanying a shareholding of between 20.00% and 50.00% of the voting rights. In the consolidated and parent company financial statements, investments in associates are accounted for under the equity method of accounting.

Under the equity method, an investment in an associate is carried in the balance sheet at cost plus post-acquisition changes in the Group's share of the net assets of the associates. Goodwill, if any, relating to an associate is included in the carrying value of the investment and is not amortized. The statement of income reflects the share of the results of operations of the associate. Where there has been a change recognized directly in the equity of the associate, the Group recognizes its share of any changes and discloses this, when applicable, in the statement of changes in equity.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the associate. Profits or losses resulting from transactions between the Group and an associate are eliminated to the extent of the interest in the associate.

Dividends earned on this investment are recognized as a reduction from the carrying value of the investment.

The financial statements of the associate are prepared for the same reporting period as the Parent Company. Where necessary, adjustments are made to bring the accounting policies in line with those of the Group.

Upon loss of significant influence over the associate, the Group measures and recognizes any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognized in profit or loss.

#### Investment in Subsidiaries

In the parent company financial statements, investment in subsidiaries is accounted for under the equity method of accounting similar to the investment in associates.

#### Business Combinations and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value, and the amount of any non-controlling interest in the acquiree. For each business combination, the acquirer measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are charged to profit or loss.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances, and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognized at fair value at the acquisition date. Subsequent changes to the fair value of the contingent consideration which is deemed to be an asset or liability, will be recognized in accordance with PFRS 9, either in profit or loss or as a charge to OCI. If the contingent consideration is classified as equity, it should not be remeasured until it is finally settled within equity.

Goodwill is initially measured at cost, being the excess of the aggregate of fair value of the consideration transferred and the amount recognized for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized in profit or loss as gain on bargain purchase under 'Miscellaneous income'.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses.

Goodwill is tested for impairment annually or more frequently if events or changes in circumstances indicate the carrying value may be impaired. For the purpose of impairment testing, goodwill acquired in a business combination is, from the date of acquisition, allocated to each of the Group's CGUs, or groups of CGUs, that are expected to benefit from the synergies of the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units or group of units. Each unit or group of units to which the goodwill is allocated:

- represents the lowest level within the Group at which the goodwill is monitored for internal management purposes; and
- is not larger than an operating segment identified for segment reporting purposes.

Where goodwill forms part of a CGU (or group of CGUs) and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the CGU retained.

#### Cash Dividend and Non-cash Distribution to Equity Holders of the Parent Company

The Group recognizes a liability to make cash or non-cash distributions to equity holders of the Parent Company when the distribution is authorized and the distribution is no longer at the discretion of the Group. A corresponding amount is recognized directly in equity.

Non-cash distributions are measured at the fair value of the assets to be distributed, with fair value remeasurement recognized directly in equity.

Upon distribution of non-cash assets, any difference between the carrying amount of the liability and the carrying amount of the assets distributed is recognized in the statement of income.

#### Bank Premises, Furniture, Fixtures and Equipment

Land is stated at cost less any impairment in value while depreciable properties such as buildings, leasehold improvements, and furniture, fixtures and equipment are stated at cost less accumulated depreciation and amortization, and any impairment in value. Such cost includes the cost of replacing part of the bank premises, furniture, fixtures and equipment when that cost is incurred and if the recognition criteria are met, but excluding repairs and maintenance costs.

Construction-in-progress is stated at cost less any impairment in value. The initial cost comprises its construction cost and any directly attributable costs of bringing the asset to its working condition and location for its intended use, including borrowing costs. Construction-in-progress is not depreciated until such time that the relevant assets are completed and put into operational use.

Depreciation and amortization is calculated using the straight-line method over the estimated useful life (EUL) of the depreciable assets as follows:

	<u>EUL</u>
Buildings	50 years
Furniture, fixtures and equipment	3 to 5 years
Leasehold improvements	Shorter of 6 years or the related lease terms

The depreciation and amortization method and useful life are reviewed periodically to ensure that the method and period of depreciation and amortization are consistent with the expected pattern of economic benefits from items of bank premises, furniture, fixtures and equipment and leasehold improvements.

An item of bank premises, furniture, fixtures and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of income in the year the asset is derecognized.

#### Investment Properties

Investment properties include real properties acquired in settlement of loans and receivables which are measured initially at cost, including certain transaction costs. Investment properties acquired through a nonmonetary asset exchange is measured initially at fair value unless (a) the exchange lacks commercial substance or (b) the fair value of neither the asset received nor the asset given up is reliably measurable. The difference between the fair value of the investment property upon foreclosure and the carrying value of the loan is recognized under 'Gain on asset foreclosure and dacion transactions' in the statement of income. Subsequent to initial recognition, depreciable investment properties are stated at cost less accumulated depreciation and any accumulated impairment in value except for land which is stated at cost less impairment in value.

Expenditures incurred after the investment properties have been put into operation, such as repairs and maintenance costs, are normally charged against income in the period in which the costs are incurred.

Depreciation is calculated on a straight-line basis using the remaining EUL of the building and improvement components of investment properties which ranged from 10 to 33 years from the time of acquisition of the investment properties.

Investment properties are derecognized when they have either been disposed of or when the investment properties are permanently withdrawn from use and no future benefit is expected from their disposal. Any gains or losses on the derecognition of an investment property are recognized as 'Gain on sale of investment properties' in the statement of income in the year of derecognition.

Transfers are made to investment properties when, and only when, there is a change in use evidenced by ending of owner occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is a change in use evidenced by commencement of owner occupation or commencement of development with a view to sale.

### Intangible Assets

Intangible assets include software cost and branch licenses resulting from the Parent Company's acquisition of CBSI, Unity Bank and PDB (Notes 11 and 14).

#### *Software costs*

Costs related to software purchased by the Group for use in operations are amortized on a straight-line basis over 3 to 10 years. The amortization method and useful life are reviewed periodically to ensure that the method and period of amortization are consistent with the expected pattern of economic benefits embodied in the asset.

#### *Branch licenses*

The branch licenses are initially measured at cost as of the date of acquisition (at fair value if part of assets acquired in a business combination) and are deemed to have an indefinite useful life as there is no foreseeable limit to the period over which they are expected to generate net cash inflows for the Group.

Such intangible assets are not amortized, instead they are tested for impairment annually either individually or at the CGU level. Impairment is determined by assessing the recoverable amount of each CGU (or group of CGUs) to which the intangible asset relates. Recoverable amount represents the CGU's value in use. Where the recoverable amount of the CGU is less than its carrying amount, an impairment loss is recognized.

Gains and losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in earnings when the asset is derecognized.

#### *Exchange Trading Right*

Exchange trading right is a result of the Philippine Stock Exchange (PSE) conversion plan, as discussed in Note 14, to preserve access of CBCSec to the trading facilities and continue transacting business in the PSE. Exchange trading right is carried at original cost less any allowance for impairment loss. CBCSec does not intend to sell the exchange trading right in the near future.

The exchange trading right is an intangible asset that is regarded as having an indefinite useful life as there is no foreseeable limit to the period over which this asset is expected to generate net cash inflows for the Group but is tested annually for any impairment in realizable value.

### Impairment of Non-financial Assets

At each reporting date, the Group assesses whether there is any indication that its non-financial assets (e.g., investment in associates, investment properties, bank premises, furniture, fixtures and equipment, goodwill and intangible assets) may be impaired. When an indicator of impairment exists or when an annual impairment testing for an asset is required, the Group makes a formal estimate of recoverable amount.

Recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets, in which case the recoverable amount is assessed as part of the CGU to which it belongs. Where the carrying amount of an asset (or CGU) exceeds its recoverable amount, the asset (or CGU) is considered impaired and is written down to its recoverable amount. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset (or CGU). An impairment loss is charged to operations in the year in which it arises.

For non-financial assets, excluding goodwill and branch licenses, an assessment is made at each reporting date as to whether there is any indication that previously recognized impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognized impairment loss is reversed, except for goodwill, only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognized. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of income. After such a reversal, the depreciation expense is adjusted in future years to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining life.

### Accounting Policy on Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

*Group as a lessee*

The Group applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

*i) Right-of-use assets*

The Group recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized adjusted by lease payments made at or before the commencement date and lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the depreciable assets. The depreciation expense is presented under 'Depreciation and Amortization' in the statement of income.

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets are also subject to impairment. Refer to the accounting policies on Impairment of Non-financial Assets.

*ii) Lease liabilities*

At the commencement date of the lease, the Group recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognized as expenses in the period in which the event or condition that triggers the payment occurs. In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments), or a change in the assessment of an option to purchase the underlying asset.

*iii) Short-term leases and leases of low-value assets*

The Group applies the short-term lease recognition exemption to its short-term leases of ATM sites (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of ATM sites that are considered to be low value. Lease payments on short-term leases and leases of low value assets are recognized as expense on a straight-line basis over the lease term.

*Group as a lessor*

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising from leased properties is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of income due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognized over the lease term on the same basis as rental income. Contingent rents are recognized as revenue in the period in which they are earned.

Capital Stock

Capital stocks are recorded at par. Proceeds in excess of par value are recognized under equity as 'Capital paid in excess of par value' in the balance sheet. Incremental costs incurred which are directly attributable to the issuance of new shares are shown in equity as a deduction from proceeds, net of tax.

Revenue Recognition*Revenues within the scope of PFRS 15, Revenue from Contracts with Customers*

Revenue from contract with customers is recognized upon transfer of promised goods or services to customers at an amount that reflects the consideration to which an entity expects to be entitled in exchange for transferring goods or services to a customer. The Group and the Parent Company exercise judgment, taking into consideration all of the relevant facts and circumstances, when applying each step of the five-step model to contracts with customers.

The following specific recognition criteria must be met before revenue is recognized for contracts within the scope of PFRS 15:

#### *Fee and commission income*

The Group earns fee and commission income from a diverse range of services it provides to its customers. Fee income can be divided into the following two categories:

- a. *Fee income earned from services that are provided over a certain period of time*  
Fees earned for the provision of services over a period of time are accrued over that period. These fees include investment fund fees, custodian fees, fiduciary fees, credit-related fees, asset management fees, portfolio and other management fees, and advisory fees.
- b. *Fee income from providing transactions services*  
Fees arising from negotiating or participating in the negotiation of a transaction for a third party - such as commission income, underwriting fees, corporate finance fees, and brokerage fees for the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses - are recognized on completion of the underlying transaction. Fees or components of fees that are linked to a certain performance are recognized after fulfilling the corresponding criteria.

Loan syndication fees are recognized in the statement of income when the syndication has been completed and the Group retains no part of the loans for itself or retains part at the same EIR as for the other participants.

#### *Service charges and penalties*

Service charges and penalties are recognized only upon collection or accrued where there is a reasonable degree of certainty as to their collectability.

#### *Other income*

Income from sale of service is recognized upon rendition of the service. Income from sale of properties is recognized when control has been transferred to the counterparty and when the collectability of the sales price is reasonably assured.

#### Revenues outside the scope of PFRS 15

##### *Interest income*

For all interest-bearing financial assets, interest income is recorded either (i) at EIR, which is the rate that exactly discounts estimated future cash payments or receipts through the expected life of the financial instrument or a shorter period, where appropriate, to the net carrying amount of the financial asset or financial liability, or (ii) at rate stated in the contract. The calculation takes into account all contractual terms of the financial instrument (for example, prepayment options), includes any fees or incremental costs that are directly attributable to the instrument and are an integral part of the EIR, as applicable, but not future credit losses. The adjusted carrying amount is calculated based on the original EIR. The change in carrying amount is recorded as 'Interest income'. Loan commitment fees for loans that are likely to be drawn down are deferred (together with any incremental costs) and recognized as an adjustment to the EIR on the loan. If the commitment expires without the Group making the loan, the commitment fees are recognized as other income on expiry.

Once the recorded value of a financial asset or group of similar financial assets has been reduced due to an impairment loss, interest income continues to be recognized using the original EIR applied to the new carrying amount.

##### *Dividend income*

Dividend income is recognized when the Group's right to receive payment is established.

##### *Trading and securities gain (loss) - net*

This represents results arising from trading activities and sale of FVOCI debt financial assets.

##### *Gain on disposal of investment securities at amortized cost*

This represents results arising from sale of investment securities measured at amortized cost.

#### Expense Recognition

Expense is recognized when it is probable that a decrease in future economic benefits related to a decrease in an asset or an increase in liability has occurred and the decrease in economic benefits can be measured reliably. Revenues and expenses that relate to the same transaction or other event are recognized simultaneously.

##### *Interest expense*

Interest expense for all interest-bearing financial liabilities are recognized in 'Interest expense' in the statement of income using the EIR of the financial liabilities to which they relate.

*Operating expenses*

Operating expenses constitute costs which arise in the normal business operation and are recognized when incurred.

*Taxes and licenses*

This includes all other taxes, local and national, including gross receipts taxes (GRT), documentary stamp taxes, real estate taxes, licenses and permit fees and are recognized when incurred.

**Retirement Benefits***Defined benefit plan*

The net defined benefit liability or asset is the aggregate of the present value of the defined benefit obligation at the end of the reporting period reduced by the fair value of plan assets and adjusted for any effect of limiting a net defined benefit asset to the asset ceiling. The defined benefit obligation is calculated annually by an independent actuary. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates on government bonds that have terms to maturity approximating the terms of the related retirement liability. The asset ceiling is the present value of any economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

The cost of providing benefits under the defined benefit plans is actuarially determined using the projected unit credit method.

Defined benefit costs and remeasurements comprise the following:

- (a) service cost;
- (b) net interest on the net defined benefit liability or asset; and
- (c) remeasurements of net defined benefit liability or asset.

Service costs which include current service costs, past service costs, and gains or losses on non-routine settlements are recognized as expense in profit or loss. Past service costs are recognized when plan amendment or curtailment occurs.

Net interest on the net defined benefit liability or asset is the change during the period in the net defined benefit liability or asset that arises from the passage of time which is determined by applying the discount rate based on Philippine government bonds to the net defined benefit liability or asset. Net interest on the net defined benefit liability or asset is recognized as expense or income in profit or loss.

Remeasurements comprising actuarial gains and losses, return on plan assets and any change in the effect of the asset ceiling (excluding net interest on defined benefit liability) are recognized immediately in OCI in the period in which they arise. Remeasurements are not reclassified to profit or loss in subsequent periods.

Plan assets are assets that are held by a long-term employee benefit fund. Plan assets are not available to the creditors of the Group, nor can they be paid directly to the Group. The fair value of plan assets is based on market price information. When no market price is available, the fair value of plan assets is estimated by discounting expected future cash flows using a discount rate that reflects both the risk associated with the plan assets and the maturity or expected disposal date of those assets (or, if they have no maturity, the expected period until the settlement of the related obligations).

The Group's right to be reimbursed of some or all of the expenditure required to settle a defined benefit obligation is recognized as a separate asset at fair value when, and only when, reimbursement is virtually certain. If the fair value of the plan assets is higher than the present value of the defined benefit obligation, the measurement of the resulting defined benefit asset is limited to the present value of economic benefits available in the form of refunds from the plan or reductions in future contributions to the plan.

*Employee leave entitlement*

Employee entitlements to annual leave are recognized as a liability when they are accrued to the employees. The undiscounted liability for leave expected to be settled after the end of the annual reporting period is recognized for services rendered by employees up to the end of the reporting period.

**Share-based Payments (Stock Grants)**

Employees (including senior executives) of the Group receive remuneration in the form of share-based payments (stock grants), whereby employees render services as consideration for equity instruments (equity-settled transactions).

#### Equity-settled transactions

The cost of equity-settled transactions is determined by the fair value at the date when the grant is made using an appropriate valuation model. That cost is recognized in employee benefits expense, together with a corresponding increase in equity (other capital reserves), over the period in which the service and, where applicable, the performance conditions are fulfilled (the vesting period). The cumulative expense recognized for equity-settled transactions at each reporting date until the vesting date reflects the extent to which the vesting period has expired and the Group's best estimate of the number of equity instruments that will ultimately vest. The expense or credit in the statement of income for a period represents the movement in cumulative expense recognized as at the beginning and end of that period.

Service and non-market performance conditions are not taken into account when determining the grant date fair value of awards, but the likelihood of the conditions being met is assessed as part of the Group's best estimate of the number of equity instruments that will ultimately vest. Market performance conditions are reflected within the grant date fair value. Any other conditions attached to an award, but without an associated service requirement, are considered to be non-vesting conditions. Non-vesting conditions are reflected in the fair value of an award and lead to an immediate expensing of an award unless there are also service and/or performance conditions. No expense is recognized for awards that do not ultimately vest because non-market performance and/or service conditions have not been met. Where awards include a market or non-vesting condition, the transactions are treated as vested irrespective of whether the market or non-vesting condition is satisfied, provided that all other performance and/or service conditions are satisfied. When the terms of an equity-settled award are modified, the minimum expense recognized is the grant date fair value of the unmodified award, provided the original vesting terms of the award are met. An additional expense, measured as at the date of modification, is recognized for any modification that increases the total fair value of the share-based payment transaction, or is otherwise beneficial to the employee. Where an award is cancelled by the Group or by the counterparty, any remaining element of the fair value of the award is expensed immediately through profit or loss.

When the equity-settled transactions vest immediately but the grant date is not yet determined as of reporting date, the Group recognizes the expense and the corresponding increase in equity using the estimated grant date fair value as of reporting date. Subsequently, once the grant date is determined, the Group revises the estimate based on the actual grant date fair value.

#### Provisions and Contingencies

Provisions are recognized when the Group has a present obligation (legal or constructive) as a result of a past event and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. Where the Group expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognized as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the statement of income, net of any reimbursement. If the effect of the time value of money is material, provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects current market assessments of the time value of money and, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as an interest expense.

Contingent liabilities are not recognized in the financial statements but are disclosed, unless the possibility of an outflow of resources embodying economic benefits is remote. Contingent assets are not recognized but are disclosed in the financial statements when an inflow of economic benefits is probable.

#### Income Taxes

##### *Current tax*

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted as of the reporting date. Effective January 1, 2019, management periodically evaluates positions taken in the tax return with respect to situations in which applicable tax regulations are subject to interpretations and establishes provisions where appropriate.

##### *Deferred tax*

Deferred tax is provided, using the balance sheet liability method, on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences, carry forward of unused tax credits from the excess of minimum corporate income tax (MCIT) over the regular corporate income tax (RCIT), and unused net operating loss carryover (NOLCO), to the extent that it is probable that sufficient taxable profit will be available against which the deductible temporary differences and carry forward of unused tax credits from MCIT and unused NOLCO can be utilized. Deferred tax, however, is not recognized on temporary differences that arise from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting income nor taxable income.

Deferred tax liabilities are not provided on non-taxable temporary differences associated with investments in domestic subsidiaries and associates.

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are reassessed at each reporting date and are recognized to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are applicable to the period when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Current tax and deferred tax relating to items recognized directly in equity is also recognized in equity and not in the statement of income.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and deferred taxes relate to the same taxable entity and the same taxation authority.

#### Earnings per Share

Basic earnings per share (EPS) is computed by dividing net income for the year by the weighted average number of common shares outstanding during the year after giving retroactive effect to stock splits, stock dividends declared and stock rights exercised during the year, if any.

The Parent Company computes diluted EPS when there are outstanding dilutive potential common shares. Diluted EPS is computed by adjusting both the net income for the year and the weighted average number of common shares outstanding during the year with the impact of the dilutive potential common stock issuance transaction.

#### Dividends on Common Shares

Dividends on common shares are recognized as a liability and deducted from equity when approved by the respective shareholders of the Parent Company and its subsidiaries. Dividends declared during the year that are approved after the reporting date are dealt with as an event after the reporting date.

#### Segment Reporting

The Group's operating businesses are organized and managed separately according to the nature of the products and services provided, with each segment representing a strategic business unit that offers different products and serves different markets. Financial information on business segments is presented in Note 32. The Group's revenue-producing assets are located in the Philippines (i.e., one geographical location). Therefore, geographical segment information is no longer presented.

#### Fiduciary Activities

Assets and income arising from fiduciary activities together with related undertakings to return such assets to customers are excluded from the financial statements where the Parent Company acts in a fiduciary capacity such as nominee, trustee, or agent.

#### Events after the Reporting Period

Any post year-end events that provide additional information about the Group's position at the reporting date (adjusting event) are reflected in the Group's financial statements. Post year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

#### Standards Issued but Not Yet Effective

There are new PFRSs, amendments, interpretation and annual improvements, to existing standards which are effective for annual periods subsequent to 2021. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Group's financial statements:

##### *Effective beginning on or after January 1, 2022*

- Amendments to PFRS 3, *Reference to the Conceptual Framework*

The amendments are intended to replace a reference to the Framework for the Preparation and Presentation of Financial Statements, issued in 1989, with a reference to the Conceptual Framework for Financial Reporting issued in March 2018 without significantly changing its requirements. The amendments added an exception to the recognition principle of PFRS 3, *Business Combinations* to avoid the issue of potential 'day 2' gains or losses arising for liabilities and contingent liabilities that would be within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets* or Philippine-IFRIC 21, *Levies*, if incurred separately.

At the same time, the amendments add a new paragraph to PFRS 3 to clarify that contingent assets do not qualify for recognition at the acquisition date.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022 and apply prospectively.

- Amendments to PAS 16, *Plant and Equipment: Proceeds before Intended Use*

The amendments prohibit entities deducting from the cost of an item of property, plant and equipment, any proceeds from selling items produced while bringing that asset to the location and condition necessary for it to be capable of operating in the manner intended by management. Instead, an entity recognizes the proceeds from selling such items, and the costs of producing those items, in profit or loss.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 and must be applied retrospectively to items of property, plant and equipment made available for use on or after the beginning of the earliest period presented when the entity first applies the amendment.

- Amendments to PAS 37, *Onerous Contracts – Costs of Fulfilling a Contract*

The amendments specify which costs an entity needs to include when assessing whether a contract is onerous or loss-making. The amendments apply a “directly related cost approach”. The costs that relate directly to a contract to provide goods or services include both incremental costs and an allocation of costs directly related to contract activities. General and administrative costs do not relate directly to a contract and are excluded unless they are explicitly chargeable to the counterparty under the contract.

The amendments are effective for annual reporting periods beginning on or after January 1, 2022. The Group will apply these amendments to contracts for which it has not yet fulfilled all its obligations at the beginning of the annual reporting period in which it first applies the amendments.

- Annual Improvements to PFRSs 2018-2020 Cycle

- Amendments to PFRS 1, *First-time Adoption of Philippines Financial Reporting Standards, Subsidiary as a first-time adopter*

The amendment permits a subsidiary that elects to apply paragraph D16(a) of PFRS 1 to measure cumulative translation differences using the amounts reported by the parent, based on the parent’s date of transition to PFRS. This amendment is also applied to an associate or joint venture that elects to apply paragraph D16(a) of PFRS 1.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted.

- Amendments to PFRS 9, *Financial Instruments, Fees in the ‘10 per cent’ test for derecognition of financial liabilities*

The amendment clarifies the fees that an entity includes when assessing whether the terms of a new or modified financial liability are substantially different from the terms of the original financial liability. These fees include only those paid or received between the borrower and the lender, including fees paid or received by either the borrower or lender on the other’s behalf. An entity applies the amendment to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

The amendment is effective for annual reporting periods beginning on or after January 1, 2022 with earlier adoption permitted. The Group will apply the amendments to financial liabilities that are modified or exchanged on or after the beginning of the annual reporting period in which the entity first applies the amendment.

- Amendments to PAS 41, *Agriculture, Taxation in fair value measurements*

The amendment removes the requirement in paragraph 22 of PAS 41 that entities exclude cash flows for taxation when measuring the fair value of assets within the scope of PAS 41.

An entity applies the amendment prospectively to fair value measurements on or after the beginning of the first annual reporting period beginning on or after January 1, 2022 with earlier adoption permitted.

*Effective beginning on or after January 1, 2023*

- Amendments to PAS 12, *Deferred Tax related to Assets and Liabilities arising from a Single Transaction*

The amendments narrow the scope of the initial recognition exception under PAS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences.

The amendments also clarify that where payments that settle a liability are deductible for tax purposes, it is a matter of judgement (having considered the applicable tax law) whether such deductions are attributable for tax purposes to the liability recognized in the financial statements (and interest expense) or to the related asset component (and interest expense).

An entity applies the amendments to transactions that occur on or after the beginning of the earliest comparative period presented for annual reporting periods on or after January 1, 2023.

- Amendments to PAS 8, *Definition of Accounting Estimates*

The amendments introduce a new definition of accounting estimates and clarify the distinction between changes in accounting estimates and changes in accounting policies and the correction of errors. Also, the amendments clarify that the effects on an accounting estimate of a change in an input or a change in a measurement technique are changes in accounting estimates if they do not result from the correction of prior period errors.

An entity applies the amendments to changes in accounting policies and changes in accounting estimates that occur on or after January 1, 2023 with earlier adoption permitted. The amendments are not expected to have a material impact on the Group.

- Amendments to PAS 1 and PFRS Practice Statement 2, *Disclosure of Accounting Policies*

The amendments provide guidance and examples to help entities apply materiality judgements to accounting policy disclosures. The amendments aim to help entities provide accounting policy disclosures that are more useful by:

- o Replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'material' accounting policies, and
- o Adding guidance on how entities apply the concept of materiality in making decisions about accounting policy disclosures

The amendments to the Practice Statement provide non-mandatory guidance. Meanwhile, the amendments to PAS 1 are effective for annual periods beginning on or after January 1, 2023. Early application is permitted as long as this fact is disclosed. The amendments are not expected to have a material impact on the Group.

*Effective beginning on or after January 1, 2024*

- Amendments to PAS 1, *Classification of Liabilities as Current or Non-current*

The amendments clarify paragraphs 69 to 76 of PAS 1, *Presentation of Financial Statements*, to specify the requirements for classifying liabilities as current or non-current. The amendments clarify:

- What is meant by a right to defer settlement;
- That a right to defer must exist at the end of the reporting period;
- That classification is unaffected by the likelihood that an entity will exercise its deferral right; and
- That only if an embedded derivative in a convertible liability is itself an equity instrument would the terms of a liability not impact its classification.

The amendments are effective for annual reporting periods beginning on or after January 1, 2023 and must be applied retrospectively. However, in November 2021, the International Accounting Standards Board (IASB) tentatively decided to defer the effective date to no earlier than January 1, 2024.

---

*Effective beginning on or after January 1, 2025*

- PFRS 17, *Insurance Contracts*

PFRS 17 is a comprehensive new accounting standard for insurance contracts covering recognition and measurement, presentation and disclosure. Once effective, PFRS 17 will replace PFRS 4, *Insurance Contracts*. This new standard on insurance contracts applies to all types of insurance contracts (i.e., life, non-life, direct insurance and re-insurance), regardless of the type of entities that issue them, as well as to certain guarantees and financial instruments with discretionary participation features. A few scope exceptions will apply.

The overall objective of PFRS 17 is to provide an accounting model for insurance contracts that is more useful and consistent for insurers. In contrast to the requirements in PFRS 4, which are largely based on grandfathering previous local accounting policies, PFRS 17 provides a comprehensive model for insurance contracts, covering all relevant accounting aspects. The core of PFRS 17 is the general model, supplemented by:

- A specific adaptation for contracts with direct participation features (the variable fee approach)
- A simplified approach (the premium allocation approach) mainly for short-duration contracts

On December 15, 2021, the FRSC amended the mandatory effective date of PFRS 17 from January 1, 2023 to January 1, 2025. This is consistent with Circular Letter No. 2020-62 issued by the Insurance Commission which deferred the implementation of PFRS 17 by two (2) years after its effective date as decided by the IASB.

PFRS 17 is effective for reporting periods beginning on or after January 1, 2025, with comparative figures required. Early application is permitted.

---

### 3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the financial statements in accordance with PFRS requires the Group to make judgments and estimates that affect the reported amounts of assets, liabilities, income, and expenses and disclosure of contingent assets and contingent liabilities at reporting date. Future events may occur which will cause the judgments and assumptions used in arriving at the estimates to change. The effects of any change in judgments and estimates are reflected in the financial statements as they become reasonably determinable.

Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### Judgments

a. *Financial instruments*

Where the fair values of financial assets and financial liabilities recorded on the balance sheet or disclosed in the notes cannot be derived from active markets, they are determined using discounted cash flow model, incorporating inputs such as current market rates of comparable instruments. The carrying values and corresponding fair values of financial instruments, as well as the manner in which fair values were determined, are discussed in more detail in Note 5.

b. *Contingencies*

The Group is currently involved in various legal proceedings. The estimate of the probable costs for the resolution of these claims has been developed in consultation with outside counsel handling the Group's defense in these matters and is based upon an analysis of potential results. The Group currently does not believe that these proceedings will have a material adverse effect on the financial statements (Note 31).

c. *Evaluation of business model in managing financial assets*

The Group manages its financial assets based on business models that maintain an adequate level of financial assets to match its expected cash outflows, largely arising from customers' withdrawals and continuing loan disbursements to borrowers, while maintaining a strategic portfolio of financial assets for investment and trading activities consistent with its risk appetite.

The Group developed business models which reflect how it manages its portfolio of financial instruments. The Group's business models need not be assessed at the entity level or as a whole but applied at the level of a portfolio of financial instruments (i.e., group of financial instruments that are managed together by the Group) and not on an instrument-by-instrument basis (i.e., not based on intention or specific characteristics of individual financial instrument).

In determining the classification of a financial instrument under PFRS 9, the Group evaluates in which business model a financial asset or a portfolio of financial assets belong to, taking into consideration the objectives of each business model established by the Group, various risks and key performance indicators being reviewed and monitored by responsible officers, as well as the manner of compensation for them. The Group also considers the frequency, value, reasons, and timing of past sales and expectation of future sales activity in this evaluation.

In addition, PFRS 9 emphasizes that if more than an infrequent and more than an insignificant sale is made out of a portfolio of financial assets carried at amortized cost, an entity should assess whether and how such sales are consistent with the objective of collecting contractual cash flows. In making this judgment, the Group considers certain circumstances to assess that an increase in the frequency or value of sales of financial instruments in a particular period is not necessarily inconsistent with a held-to-collect business model if the Group can explain the reasons for those sales and why those sales do not reflect a change in the Group's objective for the business model.

The business model assessment is based on reasonably expected scenarios without taking worst case or stress case scenarios into account. If cash flows, after initial recognition, are realized in a way that is different from the Group's and the Parent Company's original expectations, the Group and the Parent Company does not change the classification of the remaining financial assets held in that business model but incorporates such information when assessing newly originated or newly purchased financial assets going forward; unless a change in business model has taken place, in such case, reclassification is necessary.

In 2021 and 2020, the Parent Company sold investment securities at amortized cost whose carrying values prior to the sale amounted ₱55.77 billion and ₱30.14 billion at a net gain of ₱4.06 billion and ₱2.19 billion, respectively. In 2019, the Group and the Parent Company sold investment securities at amortized cost whose carrying values prior to the sale amounted to ₱18.62 billion at a net gain of ₱1.38 billion and ₱13.33 billion at a net gain of ₱1.30 billion, respectively. The reasons for the disposals are disclosed in Note 9.

The above disposals in 2021, 2020, and 2019 were assessed by the Group and Parent Company as not inconsistent with the portfolios' business models considering the conditions and reasons for which the disposals were made. Further, these disposals did not result in a change in business model and the remaining securities in the affected portfolios continue to be accounted for at amortized cost (see Note 9).

*d. Testing the cash flow characteristics of financial assets*

In determining the classification of financial assets under PFRS 9, the Group assesses whether the contractual terms of the financial assets give rise on specified dates to cash flows that are SPPI on the principal amount outstanding, with interest representing time value of money and credit risk associated with the principal amount outstanding. The assessment as to whether the cash flows meet the test is made in the currency in which the financial asset is denominated. Any other contractual term that changes the timing or amount of cash flows (unless it is a variable interest rate that represents time value of money and credit risk), i.e., cash flows that are non-SPPI, does not meet the amortized cost criteria. In cases where the relationship between the passage of time and the interest rate of the financial instrument may be imperfect, known as modified time value of money, the Group assesses the modified time value of money feature to determine whether the financial instrument still meets the SPPI criterion. The objective of the assessment is to determine how different the undiscounted contractual cash flows could be from the undiscounted cash flows that would arise if the time value of money element was not modified (the benchmark cash flows). If the resulting difference is significant, the SPPI criterion is not met. In view of this, the Group considers the effect of the modified time value of money element in each reporting period and cumulatively over the life of the financial instrument.

*e. Hedge accounting*

In 2019, the Parent Company designated the hedge relationship between its floating rate bond payable (see Note 18) and an interest rate swap as a cash flow hedge. In addition, in 2021, the Parent Company designated the hedge relationships between (i) the interest rate risk component of its Treasury time deposits and Retail Banking Business Segment (RBB) time deposits and (ii) interest rate swaps as cash flow hedges.

The Parent Company's hedge accounting policies include an element of judgment and estimation, in particular, in respect of the existence of highly probable cash flows for inclusion within the cash flow hedge. Estimates of future interest rates and the general economic environment will influence the availability and timing of suitable hedged items, with an impact on the effectiveness of the hedge relationships. Details of the Parent Company's hedging transactions are described in Note 26.

The Parent Company applies the temporary reliefs provided by the IBOR reform Phase 1 amendments, which enable its hedge accounting to continue during the period of uncertainty, before the replacement of an existing interest rate benchmark with an alternative nearly RFR. For the purpose of determining whether a forecast transaction is highly probable, the reliefs require it to be assumed that the IBOR on which the hedged cash flows are based is not altered as a result of the IBOR reform. The reliefs end when the Parent Company judges that the uncertainty arising from IBOR reform is no longer present for the hedging relationships referenced to IBORs. This applies when the hedged item has already transitioned from IBOR to an RFR and also to exposures that will transition via fallback to an RFR when one-week and two-month LIBORs cease on January 1, 2022. The cessation of these LIBORs does not have an impact on the Parent Company's existing hedge relationships.

The IBOR reform Phase 2 amendments provide temporary reliefs to enable the Parent Company's hedge accounting to continue upon the replacement of an IBOR with an RFR.

#### Estimates

##### *a. Expected credit losses on financial assets and commitments*

The Group reviews its debt financial assets and commitments at each reporting date to determine the amount of ECL to be recognized in the balance sheet and any changes thereto in the statement of income. Additional considerations were made in estimating the ECL in response to the changing credit environment brought about by the coronavirus (COVID-19) pandemic. In particular, judgments and estimates by management are required in determining:

- whether a financial asset has had a significant increase in credit risk since initial recognition. Note 6 discusses how the Group considered the impact of COVID-19 pandemic in its credit risk management and allowance provisioning;
- whether a default has taken place and what comprises a default;
- macro-economic factors that are relevant in measuring a financial asset's probability of default as well as the Group's forecast of these macro-economic factors;
- probability weights applied over a range of possible outcomes such as slow or early recovery from the impact of COVID-19 pandemic;
- sufficiency and appropriateness of data used and relationships assumed in building the components of the Group's expected credit loss models; and
- the measurement of the exposure at default for unused commitments on which an expected credit loss should be recognized and the applicable loss rate.

The related allowance for credit losses of financial assets and commitments of the Group and the Parent Company are disclosed in Notes 16 and 21.

##### *b. Impairment of goodwill and branch licenses*

The Group performs impairment review of goodwill and branch licenses with indefinite useful life annually or more frequently if events or changes in circumstances indicate that the carrying value may be impaired. Impairment is determined for goodwill and branch licenses by assessing the recoverable amount of the cash generating unit (CGU) to which the goodwill and branch licenses are attributed. The recoverable amount of the CGU is determined based on a value in use (VIU) calculation using cash flow projections from financial budgets approved by senior management covering a five-year period. For VIU, the Group estimates the discount rate used for the computation of the net present value by reference to the weighted cost of capital of comparable banks. The impairment assessment process requires significant judgment and is based on assumptions, specifically loan and deposit growth rates, discount rate, and the long-term growth rates.

Where the recoverable amount is less than the carrying amount of the CGU to which goodwill and branch licenses have been allocated, an impairment loss is recognized immediately in the statement of income. Impairment losses relating to goodwill cannot be reversed for subsequent increases in its recoverable amount in future periods. The carrying values of the Group's goodwill and branch licenses are disclosed in Note 14.

##### *c. Present value of defined benefit obligation and retirement expense*

The determination of the Group's net present value of defined benefit obligation and annual retirement expense is determined using actuarial valuations. An actuarial valuation involves making assumptions that may differ from actual developments in the future. These assumptions include, among others, discount rates and salary rates.

The assumed discount rates were determined using the market yields on Philippine government bonds with terms consistent with the expected employee benefit payout as of the reporting date. The salary increase rates were based on the Group's expectations of future salary increases, which take into account the inflation, seniority and promotion

The present value of the defined benefit obligation, including the details of the assumptions used in the calculation, are disclosed in Note 25.

d. *Recognition of deferred income taxes*

Deferred tax assets are recognized for deductible temporary differences to the extent that it is probable that taxable profit will be available against which the losses can be utilized. Management discretion is required to determine the amount of deferred tax assets that can be recognized, based on the forecasted level of future taxable profits and the related future tax planning strategies. Key assumptions used in forecast of future taxable income include loan portfolio and deposit growth rates.

The Group believes it will be able to generate sufficient taxable income in the future to utilize its recorded deferred tax assets. Taxable income is sourced mainly from interest income from lending activities and earnings from service charge, fees, commissions, and trust activities.

The recognized and unrecognized deferred tax assets are disclosed in Note 28.

e. *Impairment on non-financial assets*

The Group assesses impairment on its non-financial assets (e.g., investment properties and bank premises, furniture, fixtures and equipment) and considers the following impairment indicators:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

An impairment loss is recognized whenever the carrying amount of an asset exceeds its recoverable amount. Except for investment properties where recoverable amount is determined based on fair value less cost to sell, the recoverable amount of all other non-financial assets is determined based on the asset's value in use computation which considers the present value of estimated future cash flows expected to be generated from the continued use of the asset. The Group is required to make estimates and assumptions that can materially affect the carrying amount of the asset being assessed.

The carrying values of the Group's non-financial assets are disclosed in Notes 12 and 13.

#### 4. FINANCIAL INSTRUMENT CATEGORIES

The following table presents the total carrying amount of the Group's and the Parent Company's financial instruments per category:

	Consolidated		Parent Company	
	2021	2020	2021	2020
<b>Financial assets</b>				
Cash and other cash items	<b>₱16,024,863</b>	₱15,984,210	<b>₱13,649,247</b>	₱13,724,265

<b>Total financial liabilities</b>	<b>P991,164,036</b>	P928,590,310	<b>P907,050,606</b>	P840,969,569

\*Accrued interest and other expenses excludes accrued taxes and other licenses. (Note 20).

## 5. FAIR VALUE MEASUREMENT

The Group has assets and liabilities in the Group and Parent Company balance sheets that are measured at fair value on a recurring and non-recurring basis after initial recognition. Recurring fair value measurements are those that another PFRS requires or permits to be recognized in the balance sheet at the end of each financial reporting period. These include financial assets and liabilities at FVTPL and financial assets at FVOCI.

As of December 31, 2021 and 2020, except for the following financial instruments, the carrying values of the Group's and the Parent Company's financial assets and liabilities as reflected in the balance sheets and related notes approximate their respective fair values:

	2021			
	Consolidated		Parent Company	
	Carrying Value	Fair Value	Carrying Value	Fair Value
<b>Financial Assets</b>				
Investment securities at amortized cost (Note 9)				
Government bonds	<b>P120,586,399</b>	P122,959,933	<b>P115,324,372</b>	P117,746,647

Bills payable (Note 19)	23,655,851	41,351,248	23,655,851	41,351,248
Bonds payable (Note 18)	52,065,678	52,101,935	52,065,678	52,101,935
	₱442,078,543	₱456,165,237	₱393,861,414	₱407,938,621

The methods and assumptions used by the Group and Parent Company in estimating the fair values of the financial instruments follow:

*Cash and other cash items, due from BSP and other banks, interbank loans receivable and SPURA and accrued interest receivable* – The carrying amounts approximate their fair values in view of the relatively short-term maturities of these instruments.

*Debt securities* – Fair values are generally based on quoted market prices. If the market prices are not readily available, fair values are estimated using either values obtained from independent parties offering pricing services or adjusted quoted market prices of comparable investments or using the discounted cash flow methodology.

*Equity securities* – For publicly traded equity securities, fair values are based on quoted prices. For unquoted equity securities, remeasurement to their fair values is not material to the financial statements.

*Loans and receivables and sales contracts receivable (SCR) included in other assets* – Fair values of loans and receivables and SCR are estimated using the discounted cash flow methodology, where future cash flows are discounted using the Group's current incremental lending rates for similar types of loans and receivables.

*Accounts receivable, RCOCI and other financial assets included in other assets* – Quoted market prices are not readily available for these assets. These are reported at cost and are not significant in relation to the Group's total portfolio of financial assets.

*Derivative instruments (included under FVTPL and designated as hedges)* – Fair values are estimated based on discounted cash flows, using prevailing interest rate differential and spot exchange rates.

*Deposit liabilities (time, demand and savings deposits)* – Fair values of time deposits are estimated using the discounted cash flow methodology, where future cash flows are discounted using the Group's current incremental borrowing rates for similar borrowings and with maturities consistent with those remaining for the liability being valued. For demand and savings deposits, carrying amounts approximate fair values considering that these are currently due and demandable.

*Bonds payable and Bills payable* – Unless quoted market prices are readily available, fair values are estimated using the discounted cash flow methodology, where future cash flows are discounted using the current incremental borrowing rates for similar borrowings and with maturities consistent with those remaining for the liability being valued.

*Manager's checks and accrued interest and other expenses* – Carrying amounts approximate fair values due to the short-term nature of the accounts.

*Other liabilities* Quoted market prices are not readily available for these liabilities. These are reported at cost and are not significant in relation to the Group's total portfolio.

#### Fair Value Hierarchy

The Group uses the following hierarchy for determining and disclosing the fair value of assets and liabilities by valuation technique:

*Level 1:* quoted prices in active markets for identical assets or liabilities;

*Level 2:* inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices); and

*Level 3:* inputs that are not based on observable market data or unobservable inputs.

As of December 31, 2021 and 2020, the fair value hierarchy of the Group's and the Parent Company's assets and liabilities are presented below:

	Consolidated			
	2021			
	Level 1	Level 2	Level 3	Total
<b>Recurring fair value measurements</b>

There were no transfers between Level 1 and Level 2 fair value measurements and no transfers into and out of Level 3 fair value measurements in 2021 and 2020.

The inputs used in the fair value measurement based on Level 2 are as follows:

*Government securities* – interpolated rates based on market rates of benchmark securities as of reporting date.

*Derivative assets and liabilities* – fair values are calculated by reference to the prevailing interest differential and spot exchange rate as of the reporting date, taking into account the remaining term to maturity of the derivative assets and liabilities.

Inputs used in estimating fair values of financial instruments carried at amortized cost and categorized under Level 3 include risk-free rates and applicable risk premium.

The fair values of the Group's and Parent Company's investment properties have been determined by the appraisal method by independent external and in-house appraisers based on highest and best use of the property being appraised. Valuations were derived on the basis of recent sales of similar properties in the same areas as the investment properties and taking into account the economic conditions prevailing at the time the valuations were made and comparability of similar properties sold with the property being valued.

The table below summarizes the valuation techniques used and the significant unobservable inputs used in the valuation for each type of investment properties held by the Group and the Parent Company:

	Valuation Techniques	Significant Unobservable Inputs
Land	Market Data Approach	Price per square meter, size, location, shape, time element and corner influence
Land and Building	Market Data Approach and Cost Approach	Reproduction Cost New

Descriptions of the valuation techniques and significant unobservable inputs used in the valuation of the Group and the Parent Company's investment properties are as follows:

#### Valuation Techniques

Market Data Approach	A process of comparing the subject property being appraised to similar comparable properties recently sold or being offered for sale.
Cost Approach	It is an estimate of the investment required to duplicate the property in its present condition. It is reached by estimating the value of the building "as if new" and then deducting the depreciated cost. Fundamental to the Cost Approach is the estimate of Reproduction Cost New of the improvements.

#### Significant unobservable inputs

Reproduction Cost New	The cost to create a virtual replica of the existing structure, employing the same design and similar building materials.
Size	Size of lot in terms of area. Evaluate if the lot size of property or comparable conforms to the average cut of the lots in the area and estimate the impact of lot size differences on land value.
Shape	Particular form or configuration of the lot. A highly irregular shape limits the usable area whereas an ideal lot configuration maximizes the usable area of the lot which is associated in designing an improvement which conforms with the highest and best use of the property.
Location	Location of comparative properties whether on a Main Road, or secondary road. Road width could also be a consideration if data is available. As a rule, properties located along a Main Road are superior to properties located along a secondary road.
Time Element	"An adjustment for market conditions is made if general property values have appreciated or depreciated since the transaction dates due to inflation or deflation or a change in investors' perceptions of the market over time". In which case, the current data is superior to historic data.
Discount	Generally, asking prices in ads posted for sale are negotiable. Discount is the amount the seller or developer is willing to deduct from the posted selling price if the transaction will be in cash or equivalent.
Corner influence	Bounded by two (2) roads.

---

## 6. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's activities are principally related to the profitable use of financial instruments. Risks are inherent in these activities but are managed by the Group through a rigorous, comprehensive, and continuous process of identification, measurement, monitoring and mitigation of these risks, partly through the effective use of risk and authority limits and thresholds, process controls and monitoring, and independent controls. As reflected in its corporate actions and organizational improvements, the Group has placed due importance on expanding and strengthening its risk management process and considers it as a vital component to the Group's continuing profitability and financial stability. Central to the Group's risk management process is its adoption of a risk management program intended to avoid unnecessary risks, manage and mitigate inherent risks, and maximize returns from taking acceptable risks necessary to sustain its business viability and good financial position in the market.

The key financial risks that the Group faces are: credit risk, market risk and liquidity risk. The Group's risk management objective is primarily focused on controlling and mitigating these risks. The Parent Company and its subsidiaries manage their respective financial risks separately. The subsidiaries, particularly CBSI, have their own risk management processes but are structured similar to that of the Parent Company. To a large extent, the respective risk management programs and objectives are the same across the Group. The severity of risk, materiality, and regulations are primary considerations in determining the scope and extent of the risk management processes put in place for the subsidiaries.

### ***Risk Management Structure***

The BOD of the Parent Company is ultimately responsible for the oversight of the Parent Company's risk management processes. On the other hand, the risk management processes of the subsidiaries are the separate responsibilities of their respective BODs. The BOD of the Parent Company created a separate board-level independent committee with explicit authority and responsibility for managing and monitoring risks.

The BOD has delegated to the Risk Oversight Committee (ROC) the formulation and supervision of the risk management process which includes, among others, determining the appropriate risk mitigating strategies and operating principles, adoption of industry standards, development of risk metrics, monitoring of key risk indicators, and the imposition of risk parameters. The ROC is composed of three members of the BOD, all of whom are independent directors.

The Risk Management Group (RMG) is the operating unit of the ROC primarily responsible for the implementation of the risk management strategies approved by the Board of Directors. The implementation cuts across all departments of the Parent Company and involves all of the Parent Company's financial instruments, whether "on-books" or "off-books." The RMG is likewise responsible for monitoring the implementation of specific risk control procedures and enforcing compliance thereto. The RMG is also directly involved in the day-to-day monitoring of material risks ensuring that the Parent Company, in its transactions and dealings, engages only in risk-taking activities duly approved by the ROC. The RMG also ensures that relevant information is accurately and completely captured on a timely basis in the management reporting system of the Parent Company. The RMG is headed by the Chief Risk Officer (CRO) who reports the results of risk measurements to the ROC.

Apart from RMG, each business unit has created and put in place various process controls which ensure that all the external and internal transactions and dealings of the unit are in compliance with the unit's risk management objectives.

The Internal Audit Division also plays a crucial role in risk management primarily because it is independent of the business units and reports exclusively to the Audit Committee which, in turn, is comprised of independent directors. The Internal Audit Division focuses on ensuring that adequate controls are in place and on monitoring compliance to controls. The regular audit covers all processes and controls, including those under the risk management framework handled by the RMG. The audit of these processes and controls is undertaken at least annually. The audit results and exceptions, including recommendations for their resolution or improvement, are discussed initially with the business units concerned before these are presented to the Audit Committee.

### ***Risk Management Reporting***

The CRO reports to the ROC and is a resource of the Management Committee (ManCom), Credit Committee (CreCom), Asset-Liability Committee (ALCO), Operations Committee (OpsCom) and Technology Steering Committee (TSC). The CRO reports on key risk indicators and specific risk management issues that would need resolution from top management. This is undertaken after the risk issues and key risk indicators have been discussed with the business units concerned. The RMG's function, particularly, that of the CRO, as well as the Board's risk oversight responsibilities are articulated under BSP Circular No. 971, Guidelines on Risk Governance.

The key risk indicators were formulated on the basis of the financial risks faced by the Parent Company. These indicators contain information from all business units that provide measurements on the level of the risks taken by the Parent Company in its products, transactions, and financial structure. Among others, the report on key risk indicators includes information on the Parent Company's aggregate credit exposure, credit metric forecasts, hold limit exceptions, Value-at-Risk (VaR), Maximum Cumulative Outflow (MCO) and Earnings-at-Risk (EAR) analysis, utilization of market and credit limits and thresholds, liquidity risk limits and ratios, overall loan loss provisioning and risk profile changes. Loan loss provisioning and credit limit utilization are, however, discussed in more detail in the Credit Committee. On a monthly basis, detailed reporting of industry, customer and geographic risks is included in the discussion with the ROC. A comprehensive risk report is presented to the BOD on a periodic basis for an overall assessment of the level of risks taken by the Parent Company. On the other hand, the Chief Audit Executive reports to the Audit Committee on a monthly basis on the results of branch or business unit audits and for the resolution of pending but important internal audit issues.

#### ***Risk Mitigation***

The Parent Company uses derivatives to manage exposures to financial instruments resulting from changes in interest rates and foreign currencies exposures. However, the nature and extent of use of these financial instruments to mitigate risks are limited to those allowed by the BSP for the Parent Company and its subsidiaries.

To further mitigate risks throughout its different business units, the Parent Company formulates risk management policies and continues to improve its existing policies. These policies further serve as the framework and set of guidelines in the creation or revisions of operating policies and manuals for each business unit. In the process design and implementation, preventive controls are preferred over detection controls. Clear delineation of responsibilities and separation of incompatible duties among officers and staff, as well as, among business units are reiterated in these policies. To the extent possible, reporting and accounting responsibilities are segregated from units directly involved in operations and frontline activities (i.e., players must not be scorers). This is to improve the credibility and accuracy of management information. Any inconsistencies in the operating policies and manuals with the risk framework created by the RMG are taken up and resolved in the ROC and ManCom.

The Operational Risk Assessment Program and IT Risk Frameworks require the Parent Company to undergo periodic operational risk assessment and for all business units & allied businesses to conduct risk and control self-assessments. These enable determination of priority risk areas, assessment of mitigating controls in place, and institutionalization of additional measures to ensure both a controlled operating environment and proper handling of IT risk exposures. RMG maintains and updates the Parent Company's Centralized Loss Database wherein all reported incidents of losses shall be encoded to enable assessment of weaknesses in the processes and come up with viable improvements to avoid recurrence.

Monitoring and controlling risks are primarily performed based on various limits and thresholds established by the top management covering the Group's transactions and dealings. These limits and thresholds reflect the Group's business strategies and market environment, as well as the levels of risks that the Group is willing to tolerate, with additional emphasis on selected industries. In addition, the Group monitors and measures the overall risk-bearing capacity in relation to the aggregate risk exposure across all risk types and activities.

Liquidity and interest rate risk exposures are measured and monitored through the Maximum Cumulative Outflow and Earnings-at-Risk reports from the Asset and Liability Management (ALM) system. It was implemented in 2013 and was upgraded in 2018 to a new version which includes modules for calculating Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR). The system also has a Funds Transfer Pricing module used by the Treasury Group and Corporate Planning Group.

For the measurement of market risk exposures, the Parent Company uses Historical Simulation VaR approach for all treasury traded instruments, including fixed income bonds, foreign exchange swaps and forwards, IRS and equity securities. Market risk exposures are measured and monitored through reports from the Market Risk Management System which has been implemented in 2018 to enhance risk measurement and automate daily reporting.

BSP issued Circular No. 639 dated January 15, 2009 which mandated the use of the Internal Capital Adequacy Assessment Process (ICAAP) by all universal and commercial banks to determine their minimum required capital relative to their business risk exposures. In this regard, the Board approved the engagement of the services of a consultant to assist in the bank-wide implementation and embedding of the ICAAP, as provided for under Pillar 2 of Basel II and BSP Circular No. 639.

On June 2, 2021, the BOD approved the 2021 ICAAP document for submission to the BSP. There were no changes made in the Priority Risk Areas of the Parent Company and the approved trigger events for the review of Capital Ratios MAT and Priority Risks. Pertinent activities emphasizing the Bank's response to the COVID19 pandemic, however, were included in this submission.

---

The Parent Company submitted its annually-updated ICAAP document, in compliance with BSP requirements on June 28, 2021. The document disclosed that the Parent Company has an appropriate level of internal capital relative to the Group's risk profile.

For this submission, the Parent Company retained the Pillar 1 Plus approach using the Pillar 1 capital as the baseline. The process of allocating capital for all types of risks above the Pillar 1 capital levels includes quantification of capital buffer for Pillar 2 risks under normal business cycle/condition, in addition to the quantification based on the results of the Integrated Stress Test (IST). The adoption of the IST allows the Parent Company to quantify its overall vulnerability to market shocks and operational losses in a collective manner driven by events rather than in silo. The capital assessment in the document discloses that the Group and the Parent Company has appropriate and sufficient level of internal capital.

#### ***Group's Response to the COVID-19 Pandemic***

The COVID-19 pandemic has impacted all types of businesses and the banking sector is among the severely hit, at least operationally. As the National Government imposed stringent quarantine measures and mobility becomes limited, being part of the sector essential to the economy, the need for the Group to quickly adapt to the rapidly changing business climate becomes apparent. In spite of the exceedingly challenging situation, the Group continued to open its doors to serve the public while looking after the health, safety, and well-being of the workers including service personnel and customers.

The Group developed "The New Normal Work Force and Work Management Plan for the COVID-19 Pandemic". The plan is designed to provide general direction and guidance in sustaining the operations of the Group while we manage and exert effort to reduce exposure to COVID-19. In place are team rotation work schedules, work from home arrangements, mandatory health and safety measures, and case management protocols which are all included in the Group's Work Management Plan. In addition, the buddy branch system was implemented in the branches and split office operations were established for the head office units to ensure uninterrupted services even with the extension of community quarantine particularly in the NCR.

The Group continued to implement all its market limits and triggers without changes even with the reduced trading hours in the market and shorter working hours of the Group during the Enhanced Community Quarantine. The Financial Markets Segment also issued guidance on work-from-home setup during this period for its trading personnel. Under this setup, for control purposes, Deal limits of Sales Traders were reduced to zero in the Treasury system to automatically require supervisor authorization of any transaction facilitated offsite.

In view of the heightened credit risk arising from the COVID 19- pandemic, the Group responded by issuing several credit bulletins in 2020 on the changes in credit granting and lending other credit risk management policies. This includes, among others, the implementation of guidelines to comply with the provisions of the Bayanihan to Heal as One Act, the Bayanihan to Recover as One Act, and the tightening of credit approval requirements for new loans and new credit facilities both to new and existing clients. Special Approving Authority was also delegated by the Board to selected senior officers with regards to further extension of credit line expiry. In addition, there were also guidelines on post-ECQ collection, policies for managing loans affected by the Covid-19 crisis, and procedures for the availment of the regulatory relief measure stated in BSP memoranda No. M-2020-008 (Regulatory Relief for BSFIs Affected by the Corona Virus Disease 2019) and M-2020-032 (Amendments to M-2020-008).

In 2021, as the economy slowly recovered from the pandemic, the approval requirements for grant of new loans/new facilities were gradually relaxed. A new process was temporarily adopted for consumer loans to address the slowdown in the processing of mortgage registration by the Registry of Deeds as a result of the lockdowns. In addition, guidelines were issued regarding the booking of modified loans to comply with the provisions under BSP Memo M-2020-061 (Supervisory Expectations on the Measurement of Expected Credit Losses and the Treatment of Regulatory Relief Measures Granted Amid the Novel Coronavirus Disease 2019 (COVID-19) Pandemic). Recognizing the possible benefits of the FIST Act, guidelines for the transfer or disposal of non-performing assets under its IRR and according to the issuances of the BSP for its implementation were also disseminated.

RMG also continued to run approximations of the increase in NPL under Base, Moderate, and Severe scenarios and presented the results to the Risk Oversight Committee. The assumptions were modified to take into account the improving economic condition and the fact that the borrowers severely affected by the pandemic have already been identified and booked as non-performing. The condition of accounts that were restructured or with terms modification continued to be monitored and those with high risk rating were considered in the NPL approximations.

**Credit Risk**

Credit risk is the risk of financial loss on account of a counterparty to a financial product failing to honor its obligation. The Group faces potential credit risks every time it extends funds to borrowers, commits funds to counterparties, guarantees the paying performance of its clients, invests funds to issuers (i.e., investment securities issued by either sovereign or corporate entities) or enters into either market-traded or over-the-counter derivatives, through implied or actual contractual agreements (i.e., on or off-balance sheet exposures). The Group manages its credit risk at various levels (i.e., strategic level, portfolio level down to individual credit or transaction).

RMG also continued to run approximations of the increase in NPL under Base, Moderate, and Severe scenarios and presented the results to the Risk Oversight Committee. The assumptions were modified to take into account the improving economic condition and the fact that the borrowers severely affected by the pandemic have already been identified and booked as non-performing. The condition of accounts that were restructured or with terms modification continued to be monitored and those with high risk rating were considered in the NPL approximations.

The Group established risk limits and thresholds for purposes of monitoring and managing credit risk from individual counterparties and/or groups of counterparties, major industries, as well as countries. It also conducts periodical assessment of the creditworthiness of its counterparties. In addition, the Group obtains collateral where appropriate, enters into master netting agreements and collateral arrangements with counterparties, and limits the duration of exposures.

**Credit Risk Rating and Scoring Models**

The Parent Company has four credit risk rating models in place: for corporate borrowers, for retail small and medium entities and individual accounts (non-consumer), for financial institutions, and for sovereign / country exposures. In addition, it also has two scoring models for auto and housing loan applicants.

In compliance with BSP requirements, the Parent Company established an Internal Credit Risk Rating System (ICRRS) for the purpose of measuring credit risk for corporate borrowers in a consistent manner, as accurately as possible, and thereafter uses the risk information for business and financial decision making. The ICRRS covers corporate borrowers with total assets, total facilities, or total credit exposures amounting to ₱15 million and above.

Further, the ICRRS was designed within the technical requirements defined under BSP Circular No. 439. It has two components, namely: a) Borrower Risk Rating which provides an assessment of the creditworthiness of the borrower, without considering the proposed facility and security arrangements, and b) Loan Exposure Rating which provides an assessment of the proposed facilities as mitigated or enhanced by security arrangements.

On February 6, 2019, the Board of Directors approved the recalibrated ICRRS model. Among the changes made was in the rating scale which was expanded from ten to fourteen rating grades, ten of which fall under unclassified accounts, with the remaining four falling under classified accounts in accordance with regulatory provisioning guidelines. In 2021, RMG reviewed the methodology in determining the security points and presented the proposed changes to the Risk Oversight Committee (ROC) on October 20, 2021. The revised methodology was approved by the Board on November 3, 2021. Changes that were made include simplifying the computation by already considering the loan value in the proposed security points and aligning the security points with the estimated recovery value associated with the collateral/guarantee.

The Parent Company launched in 2011 the Borrower Credit Score (BCS), a credit scoring system designed for retail small and medium entities and individual loan accounts. In 2018, RMG completed the statistical validation of the BCS using the same methodology applied to the validation of the corporate risk rating model. The validation process was conducted with the assistance of Teradata which provided the analytics platform, tools and technical guidance for both credit model performance assessment and recalibration.

The CAMELOT rating system was approved by the BOD in 2006 to specifically assess Philippine universal, commercial and thrift banks. In 2009, the Parent Company implemented the rating system for rural and cooperative banks as well as the rating system for foreign financial institutions.

The Parent Company also developed a Sovereign Risk Rating Model, which provided the tool for the Parent Company to assess the strength of the country rated in reference to its economic fundamentals, fiscal policy, institutional strength, and vulnerability to extreme events. The model was approved by the Board on September 7, 2018.

The scorecards for auto and housing loans were officially launched in November 2016, adopting the models developed by CBS with a third-party consultant, and utilizing internally developed software interfaces for their implementation.

For the Parent Company's credit cards, starting September 2017, Transunion score is being used in lieu of an acquisition scorecard to determine application acceptance in conjunction with other credit acceptance criteria.

#### **Concentration of Assets and Liabilities and Off-Balance Sheet Items**

Concentrations arise when a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentrations indicate the relative sensitivity of the Parent Company's performance to developments affecting a particular industry or geographical location.

In order to avoid excessive concentrations of risk, the Parent Company's policies and procedures include specific guidelines focusing on maintaining a diversified portfolio. Identified concentrations of credit risks are controlled and managed accordingly.

The distribution of the Group's and Parent Company's assets and liabilities, and credit commitment items by geographic region as of December 31, 2021 and 2020 (in millions) follows:

Geographic Region	Consolidated

**Maximum exposure to credit risk**

The tables below provide the analysis of the maximum exposure to credit risk of the Group's and the Parent Company's financial instruments, excluding those where the carrying values as reflected in the balance sheets and related notes already represent the financial instrument's maximum exposure to credit risk, before and after taking into account collateral held or other credit enhancements:

	Consolidated		
	2021		
	Gross maximum exposure	Net exposure	Financial effect of collateral or credit enhancement
Credit risk exposure relating to on-balance sheet items are as follows			
Loans and receivables	P609,006,732	P406,823,424	P202,183,308
Interbank loans receivable and SPURA	36,559,224	-	36,559,224
Sales contracts receivable	1,101,891	-	1,101,891
	<b>P646,667,847</b>	<b>P406,823,424</b>	<b>P239,844,423</b>

	Consolidated		
	2020

	<b>P576,678,373</b>	<b>P358,707,660</b>	<b>P217,970,713</b>

	Parent		
	2021		
	Gross maximum exposure	Net exposure	Financial effect of collateral or credit enhancement
Credit risk exposure relating to on-balance sheet items are as follows			
Loans and receivables	P544,171,738	P384,840,851	P159,330,887
Interbank loans receivable and SPURA	35,030,996	-	35,030,996
Sales contracts receivable	213,399	-	213,399
	<b>P579,416,133</b>	<b>P384,840,851</b>	<b>P194,575,282</b>

	Parent		Financial effect of collateral or credit enhancement
	2020		
	Gross maximum exposure	Net exposure	
Credit risk exposure relating to on-balance sheet items are as follows			
Loans and receivables	₱491,994,476	₱334,229,018	₱157,765,458
Interbank loans receivable and SPURA	15,604,167	–	15,604,167
Sales contracts receivable	185,350	–	185,350
	₱507,783,993	₱334,229,018	₱173,554,975

For the Group, the fair values of collateral held for loans and receivables and sales contracts receivable amounted to ₱402.68 billion and ₱2.55 billion, respectively, as of December 31, 2021 and ₱314.67 billion and ₱2.59 billion, respectively, as of December 31, 2020.

For the Parent Company, the fair values of collateral held for loans and receivables and sales contracts receivable amounted to ₱359.84 billion and ₱0.81 billion, respectively, as of December 31, 2021 and ₱273.93 billion and ₱0.86 billion, respectively, as of December 31, 2020.

The fair values of the financial collaterals held for SPURA are disclosed in Note 35.

Credit risk, in respect of derivative financial products, is limited to those with positive fair values, which are included under financial assets at FVTPL (Note 9). As a result, the maximum credit risk, without taking into account the fair value of any collateral and netting agreements, is limited to the amounts on the balance sheet plus commitments to customers such as unused commercial letters of credit, outstanding guarantees and others as disclosed in Note 31 to the financial statements.

#### **Collateral and other credit enhancements**

The amount and type of collateral required depends on an assessment of the credit risk of the counterparty. Guidelines are implemented with regards to the acceptability of types of collateral and valuation parameters.

The main types of collateral obtained are as follows:

- For securities lending and reverse repurchase transactions – cash or securities
- For consumer lending – real estate and chattel over vehicle
- For corporate lending and commercial lending- real estate, chattel over properties, assignment of deposits, shares of stocks, bonds, and guarantees

Management requests additional collateral in accordance with the underlying agreement and takes into consideration the market value of collateral during its review of the adequacy of allowance for credit losses.

It is the Group's policy to dispose of repossessed properties in an orderly fashion. The proceeds are used to reduce or repay the outstanding claim. In most cases, the Parent Company does not occupy repossessed properties for business use.

#### **Collateral valuation**

To mitigate its credit risks on financial assets, the Group seeks to use collateral, where possible. The collateral comes in various forms, such as cash, securities, letters of credit/guarantees, real estate, receivables, inventories, other non-financial assets and credit enhancements such as netting agreements. Collateral, unless repossessed, is not recorded on the Group's balance sheet. However, the fair value of collateral affects the calculation of loss allowances. It is generally assessed, at a minimum, at inception and re-assessed on an annual basis. To the extent possible, the Group uses active market data for valuing financial assets held as collateral. Other financial assets which do not have readily determinable market values are valued using models. Non-financial collateral, such as real estate, is valued based on data provided by internal or external appraisers.

### **Credit quality per class of financial assets**

#### Loans and Receivables

The credit quality of financial assets is managed by the Group using an internal credit rating system for the purpose of measuring credit risk in a consistent manner as accurately as possible. The model on risk ratings is assessed regularly because the Group uses this information as a tool for business and financial decision making. Aside from the periodic review by the Parent Company's Internal Audit Group, the Parent Company likewise engaged the services of third-party consultants in 2014, 2015, and 2017 for purposes of conducting an independent validation of the credit risk rating model.

It is the Parent Company's policy to maintain accurate and consistent risk ratings across the credit portfolio. This facilitates focused management of the applicable risks and the comparison of credit exposures across all lines of business, geographic regions and products. The rating system is supported by a variety of financial analytics, combined with processed market information to provide the main inputs for the measurement of counterparty risk. All internal risk ratings are tailored to the various categories and are derived in accordance with the Parent Company's rating policy. The attributable risk ratings are assessed and monitored regularly.

The rating categories are further described below.

#### *High Grade*

This includes all borrowers whose ratings are considered as Low Risk and/or those where the exposures are covered by Government Guarantee. Thus, these borrowers have a very low probability of going into default in the coming year.

In terms of borrower credit ratings, these include the following:

- A. ICRRS-Covered
  - Borrower Risk Rating (BRR) 1 (Exceptional)
  - BRR 2 (Excellent)
  - BRR 3 (Strong)
  - BRR 4 (Good)
- B. BCS-Covered
  - Strong

Generally, a Low Risk (High Grade) rating is indicative of a high capacity to fulfill its obligations supported by robust financials (i.e., profitable, with returns considerably higher than the industry, elevated capacities to service its liabilities), gainful positioning in growing industries (i.e., participation in industries where conditions are very favorable and in which they are able to get a good share of the market), and very strong leadership providing clear strategic direction and/or excellent training and development programs.

#### *Standard Grade*

This includes all borrowers whose ratings are considered as Moderate Risk and are seen to withstand typical swings in the economic cycle without going into default. However, any prolonged unfavorable economic period would create deterioration that may already be beyond acceptable levels.

In terms of borrower credit ratings, these include the following:

- A. ICRRS-Covered
  - BRR 5 (Satisfactory)
  - BRR 6 (Acceptable)
  - BRR 7 (Fair)
- B. BCS-Covered
  - Satisfactory
  - Acceptable

Generally, a Moderate Risk (Standard Grade) rating signifies a borrower whose financial performance is sufficient to service obligations and is at par with competitors in the industry. In terms of management, it is run by executives with adequate personal and professional qualifications and sufficient experience in similar companies. In terms of growth potential, it is engaged in an industry with stable outlook, supportive of continuing operations.

#### *Sub-Standard Grade*

In terms of borrower credit ratings, this includes the following:

#### Unclassified

- A. ICRRS-Covered
  - BRR 8 (Watchlist)
  - BRR 9 (Speculative)
  - BRR 10 (Highly Speculative)
- B. BCS-Covered
  - Watchlist

#### Adversely Classified

- A. ICRRS and BCS-Covered
  - BRR 11 (Especially Mentioned)
  - BRR 12 (Substandard)
  - BRR 13 (Doubtful)
  - BRR 14 (Loss)

For accounts that are Unclassified, a High Risk (Sub-Standard Grade) rating is indicative of borrowers where there are unfavorable industry or company-specific factors. This may be financial in nature (i.e., marginal operating performance, returns that are lower than those of the industry, and/or diminished capacity to pay off obligations that are due), related to management quality (including negative information regarding the company or specific executives) and/or unfavorable industry conditions. The borrower might find it very hard to cope with any significant economic downturn and a default in such a case is more than a possibility. These accounts require a closer monitoring for any signs of further deterioration, warranting adverse classification.

Adversely Classified accounts are automatically considered as high-risk and generally includes past due accounts. However, in some cases, even accounts that are neither past due nor impaired, qualifies for adverse classification. Reasons for this include among others the following: consecutive net losses, emerging weaknesses in terms of cash flow, negative equity, and/or breach in the covenants per term loan agreement.

For consumer loans that are covered by application scorecards which provide either a pass/fail score, the basis for credit quality rating is the BSP classification for those that are booked as Current (i.e., Standard Grade if Unclassified and Sub Standard Grade if Classified) and impairment status for those that are booked as Past Due / Items in Litigation. The Parent Company has applied this policy consistently for its consumer loans as of December 31, 2021 and 2020. Beginning December 31, 2021, the Group has applied this policy for CBS in determining the credit quality rating for consumer loans. This resulted in the "Standard grade" classification for the consumer loans of CBS amounting to ₱46.61 billion as of December 31, 2021. Had this been applied as of December 31, 2020, there would have been a decrease amounting to ₱41.27 billion under "High grade" and a corresponding increase for the same amount under "Standard grade" to account for CBS' consumer loans in the Group's credit exposures.

The financial assets are also grouped according to stage whose description is explained as follows:

*Stage 1* – those that are considered current and up to 30 days past due, and based on change in rating, delinquencies and payment history, do not demonstrate significant increase in credit risk.

*Stage 2* – those that, based on change in rating, delinquencies and payment history, demonstrate significant increase in credit risk, and/or are considered more than 30 days past due but does not demonstrate objective evidence of impairment as of reporting date.

*Stage 3* – those that are considered in default or demonstrate objective evidence of impairment as of reporting date.

The following tables illustrate the Group's and the Parent Company's credit exposures (amounts in millions).

**Depository accounts with the BSP and counterparty banks, Trading and Investment Securities**

For these financial assets, outstanding exposure is rated primarily based on external risk rating of S&P, Moody's, and/or Fitch when available; otherwise, rating is based on risk grades by Philratings.

For this year's disclosure, the Group retained the use of internal rating for counterparties with no external rating. However, to improve the process, instead of mapping the internal rating to its equivalent external rating and then getting the category (i.e. high grade, standard grade or substandard grade) based on external rating, the category of the internal rating was directly applied.

Exposures with neither external nor internal ratings are included under "Unrated".

The external risk rating of the Group's depository accounts with the BSP and counterparty banks, trading and investment securities, is grouped as follows:

Credit Quality Rating	External Credit Risk Rating	Credit Rating Agency
High Grade	AAA, AA+, AA, AA-	S&P
	Aaa, Aa1, Aa2, Aa3	Moody's
	AAA, AA+, AA, AA-	Fitch
Standard Grade	A+, A, A-, BBB+, BBB, BBB-	S&P
	A1, A2, A3, Baa1, Baa2, Baa3	Moody's
	A+, A, A-, BBB+, BBB, BBB-	Fitch
Substandard Grade	BB+, BB, BB-, B/B+, CCC, CC, R, SD & D	S&P
	Ba1, Ba2, Ba3, B1, B2, R, SD & D	Moody's
	BB+, BB, BB-, B/B+, CCC, R, SD & D	Fitch

**Rating Description**

*High grade*

AAA – An obligor has extremely strong capacity to meet its financial commitments.

AA – An obligor has very strong capacity to meet its financial commitments. It differs from the highest-rated obligors at a minimal degree.

*Standard Grade*

A – An obligor has strong capacity to meet its financial commitments but is somewhat more susceptible to the adverse effects of changes in circumstances and economic conditions than obligors in higher-rated categories.

BBB and below:

BBB – An obligor has adequate capacity to meet its financial commitments. However, adverse economic conditions or changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitments.

*Substandard Grade*

BB – An obligor is less vulnerable in the near term than other lower-rated obligors. However, it faces major ongoing uncertainties and exposure to adverse business, financial, or economic conditions which could lead to the obligor's inadequate capacity to meet its financial commitments.

B – An obligor is more vulnerable than the obligors rated 'BB', but the obligor currently has the capacity to meet its financial commitments. Adverse business, financial, or economic conditions will likely impair the obligor's capacity or willingness to meet its financial commitments.

CCC – An obligor is currently vulnerable and is dependent upon favorable business, financial, and economic conditions for the obligor to meet its financial commitments.

CC – An obligor is currently vulnerable. The rating is used when a default has not yet occurred, but expects default to be a virtual certainty, regardless of the anticipated time to default.

R – An obligor is under regulatory supervision owing to its financial condition. During the pendency of the regulatory supervision, the regulators may have the power to favor one class of obligations over others or pay some obligations and not others.

SD and D – An obligor is in default on one or more of its financial obligations including rated and unrated financial obligations but excluding hybrid instruments classified as regulatory capital or in non-payment according to terms.

In the case of PHP-denominated securities which are not rated by either S&P, Moody's, or Fitch, but have an external rating by Philratings, the following grouping was applied.

<b>Credit Quality Rating</b>	<b>External Credit Risk Rating</b>
High grade	PRSAaa, PRSAa+, PRSAa, PRSAa-
Standard grade	PRSA+, PRSA, PRSA-, PRSBaa+, PRSBaa, PRSBaa-
Substandard grade	PRSBa+, PRSBa, PRSBa-, PRSB+, PRSB, PRSB-, PRSCaa+, PRSCaa, PRSCaa-, PRSCa+, PRSCa, PRSCa-, PRSC+, PRSC, PRSC-

Rating Description

*High grade*

PRSAaa – The obligor's capacity to meet its financial commitment on the obligation is extremely strong.

PRSAa – The obligor's capacity to meet its financial commitment on the obligation is very strong.

*Standard Grade*

PRSA – With favorable investment attributes and are considered as upper-medium grade obligations. Although obligations rated 'PRSA' are somewhat more susceptible to the adverse effects of changes in economic conditions, the obligor's capacity to meet its financial commitments on the obligation is still strong.

PRSBaa – An obligation rated 'PRSBaa' exhibits adequate protection parameters. However, adverse economic conditions and changing circumstances are more likely to lead to a weakened capacity of the obligor to meet its financial commitment on the obligation. PRSBaa-rated issues may possess certain speculative characteristics.

### *Substandard Grade*

PRSBa – An obligation rated ‘PRSBa’ is less vulnerable to nonpayment than other speculative issues. However, it faces major ongoing uncertainties relating to business, financial or economic conditions, which could lead to the obligor’s inadequate capacity to meet its financial commitment on the obligation.

PRSB – An obligation rated ‘PRSB’ is more vulnerable to nonpayment than obligations rated ‘PRSBa’, but the obligor currently has the capacity to meet its financial commitment on the obligation. Adverse economic conditions will likely impair the obligor’s capacity to meet its financial commitment on the obligation. The issue is characterized by high credit risk.

PRSCaa – An obligation rated ‘PRSCaa’ is presently vulnerable to nonpayment and is dependent upon favorable business, financial and economic conditions for the obligor to meet its financial commitments on the obligation. In the event of adverse economic conditions, the obligor is not likely to have the capacity to meet its financial commitment on the obligation. The issue is considered to be of poor standing and is subject to very high credit risk.

PRSCa – An obligation rated “PRSCa” is presently highly vulnerable to nonpayment. Likely already in or very near default with some prospect for partial recovery of principal or interest.

PRSC – An obligation is already in default with very little prospect for any recovery of principal or interest.

For counterparty banks with no external rating but rated under the Bank’ Camelot Rating System, the following grouping was applied:

<b>Credit Quality Rating</b>	<b>Camelot Rating</b>
High grade	A1, A2, A3, B1, B2, B3
Standard grade	C1, C2, C3, C4
Substandard grade Rating Description	D1, D2, D3, D4, E1, E2, E3, E4

### *High Grade*

A – Exceptional Bank with strong business franchise, financials and prospects

B – Bank with good fundamentals; some minor weaknesses may exist but should be resolved in due course

### *Standard Grade*

C – Bank with adequate fundamentals; some aspects raise concerns that prevent it from achieving a higher rating

### *Substandard Grade*

D – Bank with weaknesses; capability / ability to resolve such weaknesses is put into question

E – Bank with very serious problems / negative fundamentals

For corporate issuers with no external rating but are rated under the Bank’s ICRRS, the grouping used for corporate borrowers will apply effective as of December 31, 2021. This change in the determination of the category for internally-rated counterparties did not result to any change in the 2021 classification. However, for 2020, if we apply the same, the percentage of High Grade exposures for the Parent Bank will increase from 10.14% to 14.28%, with a corresponding decrease in Standard Grade exposures from 86.32% to 82.18%.

The succeeding tables show the credit exposure of the Group and the Parent Company related to these financial assets (amounts in millions).

Impairment Assessment (Including the Impact of the COVID-19 Pandemic)

The Group recognizes a credit loss allowance on a financial asset based on whether it has had a significant increase in credit risk since initial recognition. Accordingly, the Group categorizes its financial assets into three categories: stage 1 – financial asset that has not had a significant increase in credit risk; stage 2 – financial asset that has had a significant increase in credit risk; and stage 3 – financial asset in default.

Generally, the Group assesses the presence of a significant increase in credit risk based on the number of notches that a financial asset's credit risk rating has declined. When applicable, the Group also applies a rebuttable presumption that the credit risk on a financial asset has increased significantly since initial recognition when contractual payments are more than 30 days past due.

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit impaired, in all cases when the borrower becomes at least 90 days past due on its contractual payments. As a part of a qualitative assessment of whether a customer is in default, the Group also considers a variety of instances that may indicate unlikeliness to pay. When such events occur, the Group carefully considers whether the event should result in treating the customer as defaulted. An instrument is considered to be no longer in default (i.e., to have cured) when it no longer meets any of the default criteria for a consecutive period of 180 days (i.e., consecutive payments from the borrowers for 180 days).

The criteria for determining whether credit risk has increased significantly vary by portfolio and include quantitative changes in probabilities of default and qualitative factors such as downgrade in the credit rating of the borrowers and a backstop based on delinquency. The credit risk of a particular exposure is deemed to have increased significantly since initial recognition if, based on the Group's internal credit assessment, the borrower or counterparty is determined to require close monitoring or with well-defined credit weaknesses. For exposures without internal credit grades, if contractual payments are more than a specified days past due threshold (i.e., 30 days), the credit risk is deemed to have increased significantly since initial recognition. Days past due are determined by counting the number of days since the earliest elapsed due date in respect of which full payment has not been received. In subsequent reporting periods, if the credit risk of the financial instrument improves such that there is no longer a SICR since initial recognition, the Group shall revert to recognizing a 12-month ECL.

Further, the Group considers a financial asset as in default when (a) as a result of one or more loss events, there is objective evidence that its recoverable value is less than its carrying amount; (b) it is classified as doubtful or loss under prudential reporting; (c) it is in litigation; and/or (d) full repayment of principal and interest is unlikely without foreclosure of collateral, if any. When applicable, the Group also applies a rebuttable presumption that default does not occur later than when a financial asset is 90 days past due unless the Group has reasonable and supportable information to demonstrate that a more lagging default criterion is more appropriate.

In view of the government moratorium on loan payments (see Note 10), the Group considered how the availment of the borrowers and counterparties will affect the stage classification of the financial assets. In particular, the Group assessed how the availment of the mandatory grace period, together with other relevant information about the borrower (e.g., impact of the pandemic to its industry and operations, potential cash flow pressures affecting the borrower's capacity to pay amounts becoming due), will affect SICR and default assessments. Based on these assessments, in the absence of indicators of impairment or SICR since initial recognition, exposures to borrowers and counterparties who availed of the mandatory grace period as provided for by law are classified as stage 1.

The Group then measures the credit loss allowance on a financial instrument at an amount equal to 12-month expected credit losses for items categorized as stage 1 and lifetime credit losses to items categorized as stage 2 and stage 3.

The Group modeled the following inputs to the expected credit loss formula separately. The formula is applied to each financial asset, with certain exceptions wherein a collective or other general approach is applied:

#### *Exposure at Default (EAD)*

The Group defines EAD as the principal and interests that would not be collected assuming the borrower defaults during a future point in time. The Group computes for a financial asset's EAD using the expected contractual cash flows during the contractual life of the financial instrument. A financial asset's EAD is defined as the sum of EAD from principal and EAD from interest.

In relation to the modification of loans and receivables (see Note 10), the Group utilized the revised or modified cash flows of financial assets as EAD in calculating allowance for credit losses.

#### *Probability of default (PD)*

The Group uses forward-looking PD estimates that are unbiased and probability-weighted using a range of possible outcomes. The PD for each individual instrument is modelled based on historical data and is estimated based on current market conditions and reasonable and supportable information about future economic conditions. The Group segmented its credit exposures based on homogenous risk characteristics and developed a corresponding PD methodology for each portfolio. The PD methodology for each relevant portfolio is determined based on the underlying nature or characteristic of the portfolio, behavior of the accounts, and materiality of the segment as compared to the total portfolio. The Group's PDs are mainly categorized into three: (a) corporate; (b) sovereign; and (c) retail.

The PDs used in calculating allowance for credit losses have been updated with information after considering the impact of the pandemic to current market conditions as well as expectations about future economic conditions (i.e., forward-looking information).

#### *Loss given default (LGD)*

The Group's LGD model considers certain factors such as the historical cash flow recovery and reasonable and supportable information about future economic conditions, where appropriate. Generally, the model utilizes the Group's existing loan exposure rating system which is designed to capture these factors as well as the characteristics of collaterals related to an exposure. In cases wherein this does not apply, the Group looks into the standard characteristics of collaterals (e.g., auto and housing loans) in order to estimate an LGD factor. In the case of exposures without collaterals (e.g., securities), the Group uses internationally-accepted standard LGD factors. As of December 31, 2021, the Group has updated all available collateral information in order to incorporate the impact of the pandemic, to the extent possible, in measuring LGD.

The Group will continue to assess the current market conditions and forecasts of future economic conditions, and its impact to the aforementioned items, in order to update the ECL on a timely basis in the upcoming reporting periods, as the country continues to deal with this public health crisis.

#### **Credit Review**

In accordance with BSP Circular 855, credit reviews are conducted on loan accounts to evaluate whether loans are granted in accordance with the Parent Company's policies and to assess loan quality and appropriateness of classification.

Results of credit reviews are promptly reported to management to apprise them of any significant findings for proper corrective actions.

#### **Market Risk**

Market risk is the risk of loss that may result from changes in the value of a financial product. The Parent Company's market risk originates from its holdings of domestic and foreign-denominated debt securities, foreign exchange instruments, equities, foreign exchange derivatives, and interest rate derivatives.

The RMG of the Parent Company is responsible for assisting the ROC with its responsibility for identifying, measuring, managing, and controlling market risk. Market risk management measures the Parent Company market risk exposures through the use of VaR. VaR is a statistical measure that estimates the maximum potential loss from a portfolio over a holding period, within a given confidence level.

#### **VaR assumptions**

The Parent Company calculates the VaR in trading activities. The Parent Company uses the Historical Simulation Full Valuation approach to measure VaR for all treasury traded instruments, using a 99.00% confidence level and a 1-day holding period.

The use of a 99.00% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average, not more than once every hundred days. The validity of the VaR model is verified through back testing, which examines how frequently actual and hypothetical daily losses exceeds daily VaR. The Parent Company measures and monitors the VaR and profit and loss on a daily basis.

Since VaR is an integral part of the Parent Company's market risk management, VaR limits have been established for all trading positions and exposures are reviewed daily against the limits by management. Further, stress testing is performed for monitoring extreme events.

**Limitations of the VaR Methodology**

The VaR models are designed to measure market risk in a normal market environment using equally weighted historical data. The use of VaR has limitations because it is based on historical correlations and volatilities in market prices and assumes that future price movements will follow the same distribution. Due to the fact that VaR relies heavily on historical data to provide information and may not clearly predict the future changes and modifications of the risk factors, the probability of large market moves may be underestimated if changes in risk factors fail to align with the assumptions. VaR may also be under- or over-estimated due to the assumptions placed on risk factors and the relationship between such factors for specific instruments. Even though positions may change throughout the day, the VaR only represents the risk of the portfolios at the close of each business day, and it does not account for any losses that may occur beyond the 99.00% confidence level.

In practice, the actual trading results will differ from the VaR calculation and, in particular, the calculation does not provide a meaningful indication of profits and losses in stressed market conditions. To determine the reliability of the VaR models, actual outcomes are monitored regularly to test the validity of the assumptions and the parameters used in the VaR calculation. Market risk positions are also subject to regular stress tests to ensure that the Group would withstand an extreme market event.

A summary of the VaR position of the trading portfolio of the Parent Company is as follows:

	Interest Rate <sup>1</sup>	Foreign Exchange <sup>2</sup>	Price <sup>3</sup>	Interest Rate <sup>4</sup>	Interest Rate <sup>5</sup>

<sup>2</sup> FX VaR is the bankwide foreign exchange risk

<sup>3</sup> Price VaR for equity securities and futures

<sup>4</sup> Interest rate VaR for FX swaps and FX forwards

<sup>5</sup> Interest rate VaR for IRS

**Interest Rate Risk**

The Group's interest rate risk originates from its holdings of interest rate sensitive assets and interest rate sensitive liabilities. The Parent Company follows prudent policies in managing its exposures to interest rate fluctuations, and constantly monitors and discusses its exposure in Asset and Liability Committee (ALCO) meetings held every week.

As of December 31, 2021 and 2020, 62.29% and 65.48% of the Group's total loan portfolio, respectively, comprised of floating rate loans which are repriced periodically by reference to the transfer pool rate which reflects the Group's internal cost of funds. As of December 31, 2021 and 2020, 63.85% and 68.02% of the Parent's total loan portfolio, respectively, were subject to interest repricing. As of December 31, 2021 and 2020, 49.42% and 46.55% of the Subsidiary's total loan portfolio, respectively, were subject to periodic interest repricing. In keeping with banking industry practice, the Group aims to achieve stability and lengthen the term structure of its deposit base, while providing adequate liquidity to cover transactional banking requirements of customers.

Interest is paid on demand accounts, which constituted 29.24% and 25.43% of the total deposits as of December 31, 2021 and 2020, respectively for the Group and 29.32% and 25.89% of the total deposits as of December 31, 2021 and 2020, respectively for the Parent Company.

Interest is paid on savings accounts and time deposits accounts, which constitute 35.10% and 35.66%, respectively of the Group's total deposits, and 36.13% and 34.55%, respectively of the Parent Company's total deposits, respectively as of December 31, 2021, and 30.70% and 43.87%, respectively, of the Group's total deposits, and 31.76% and 42.35%, respectively of the Parent Company's total deposits, respectively as of December 31, 2020.

Savings account interest rates are set by reference to prevailing market rates, while interest rates on time deposits and special savings accounts are usually priced by reference to prevailing rates of short-term government bonds and other money market instruments, or, in the case of foreign currency deposits, inter-bank deposit rates and other benchmark deposit rates in international money markets with similar maturities.

The Group is likewise exposed to fair value interest rate risk due to its holdings of fixed rate government bonds as part of its financial assets at FVOCI and FVTPL portfolios. Market values of these investments are sensitive to fluctuations in interest rates. The following table provides for the average effective interest rates of the Group and of the Parent Company as of December 31, 2021 and 2020:

	Consolidated		Parent Company	
	2021	2020	2021	2020

\* Consisting of financial assets at FVTPL, Financial assets at FVOCI and Investment securities at amortized cost.

The repricing gap analysis method is used by the Group to measure the sensitivity of its assets and liabilities to interest rate fluctuations. This analysis measures the Group's susceptibility to changes in interest rates. The repricing gap is calculated by first distributing the assets and liabilities contained in the Group's balance sheet into tenor buckets according to the time remaining to the next repricing date (or the time remaining to maturity if there is no repricing), and then obtaining the difference between the total of the repricing (interest rate sensitive) assets and the total of repricing (interest rate sensitive) liabilities.

A gap is considered negative when the amount of interest rate sensitive liabilities exceeds the amount of interest rate sensitive assets. A gap is considered positive when the amount of interest rate sensitive assets exceeds the amount of interest rate sensitive liabilities.

Accordingly, during a period of rising interest rates, a bank with a positive gap would be in a position to invest in higher yielding assets earlier than it would need to refinance its interest rate sensitive liabilities. During a period of falling interest rates, a bank with a positive gap would tend to see its interest rate sensitive assets repricing earlier than its interest rate sensitive liabilities, restraining the growth of its net income or resulting in a decline in net interest income.

The following tables set forth the repricing gap position of the Group and Parent Company as of December 31, 2021 and 2020 (in millions):

The Group monitors its exposure to fluctuations in interest rates by using scenario analysis to estimate the impact of interest rate movements on its interest income. This is done by modeling the impact to the Group's interest income and interest expenses to parallel changes in the interest rate curve in a given 12-month period. Interest rate risk exposure is managed through approved limits.

The following tables set forth the estimated change in the Group's and Parent Company's annualized net interest income due to a parallel change in the interest rate curve as of December 31, 2021 and 2020:

	<b>Consolidated</b>			
	<b>2021</b>			
	<b>Change in interest rates (in basis points)</b>			
	<b>100bp rise</b>	<b>50bp rise</b>	<b>50bp fall</b>	<b>100bp fall</b>
Change in annualized net interest income	2,414	1,207	(P1,207)	(P2,414)
As a percentage of the Group's net interest income for the year ended December 31, 2021	6.30%	3.15%	(3.15%)	(6.30%)
	Consolidated			
	2020

#### Foreign Currency Risk

The Group's foreign exchange risk originates from its holdings of foreign currency-denominated assets (foreign exchange assets) and foreign currency-denominated liabilities (foreign exchange liabilities).

Foreign exchange liabilities generally consist of foreign currency-denominated deposits in the Group's FCDU account made in the Philippines or generated from remittances to the Philippines by persons overseas who retain for their own benefit or for the benefit of a third party, foreign currency deposit accounts with the Group.

Foreign currency liabilities are generally used to fund the Group's foreign exchange assets which generally consist of foreign currency-denominated loans and investments in the FCDU. Banks are required by the BSP to match the foreign currency-denominated assets with liabilities held in the FCDU that are denominated in the same foreign currency.

The Group's policy is to maintain foreign currency exposure within existing regulations, and within acceptable risk limits. The Group believes in ensuring its foreign currency is at all times within limits prescribed for financial institutions who are engaged in the same types of businesses in which the Group and its subsidiaries are engaged.

The table below summarizes the Group's and Parent Company's exposure to foreign exchange risk, excluding the assets and liabilities under FCDU which are denominated in US Dollars. Included in the table are the Group's and Parent Company's assets and liabilities at carrying amounts (stated in US Dollars), categorized by currency with its PHP equivalent:

The following table sets forth, for the period indicated, the impact of the range of reasonably possible changes in the US\$ exchange rate and other currencies per Philippine peso on the pre-tax income and equity (in millions).

	Consolidated				
	2021		2020		
	Change in Foreign Exchange Rate	Sensitivity of Pretax Income	Sensitivity of Equity	Sensitivity of Pretax Income	Sensitivity of Equity
USD	1%	₱13	₱165	₱20	₱98
Other	1%	-	1	-	1
USD	(1%)	(13)	(165)	(20)	(98)
Other	(1%)	-	(1)	-	(1)
	Parent Company				
	2021		2020		
	Change in Foreign Exchange Rate	Sensitivity of Pretax Income	Sensitivity of Equity	Sensitivity of Pretax Income	Sensitivity of Equity
USD	1%	₱13	₱157	₱20	₱90
Other	1%	-	1	-	1
USD	(1%)	(13)	(157)	(20)	(90)
Other	(1%)	-	(1)	-	(1)

The impact in pre-tax income and equity is due to the effect of foreign currency behaviour to Philippine peso.

#### Equity Price Risk

Equity price risk is the risk that the fair values of equities change as a result of movements in both the level of equity indices and the value of individual stocks. The non-trading equity price risk exposure arises from the Group's investment portfolio.

The effect on the Group and Parent Company's equity as a result of a change in the fair value of equity instruments held as at FVOCI due to a reasonably possible change in equity indices, with all other variables held constant, is as follows (in millions):

	Consolidated		Parent Company	
	Change in equity index	Effect on Equity	Change in equity index	Effect on Equity
2021	+10%	₱3.9	+10%	₱2.7
	-10%	(20.3)	-10%	(19.2)
2020	+10%	(0.9)	+10%	(3.9)
	-10%	(₱7.4)	-10%	(₱5.1)

#### Liquidity Risk and Funding Management

Liquidity risk is generally defined as the current and prospective risk to earnings or capital arising from the Group's inability to meet its obligations when they become due without incurring unacceptable losses or costs.

The Group's liquidity management involves maintaining funding capacity to accommodate fluctuations in asset and liability levels due to changes in the Group's business operations or unanticipated events created by customer behavior or capital market conditions. The Group seeks to ensure liquidity through a combination of active management of liabilities, a liquid asset portfolio composed of deposits reserves and high quality securities, the securing of money market lines, and the maintenance of repurchase facilities to address any unexpected liquidity situations.

The tables below show the maturity profile of the Group's and the Parent Company's assets and liabilities, based on contractual undiscounted cash flows (in millions):

Liquidity risk is monitored and controlled primarily by a gap analysis of maturities of relevant assets and liabilities reflected in the MCO report, as well as an analysis of available liquid assets. Instead of relying solely on contractual maturities profile, the Parent Company uses Behavioral MCO to capture a going concern view. Furthermore, internal liquidity ratios and monitoring of large fund providers have been set to determine sufficiency of liquid assets over deposit liabilities. Liquidity is managed by the Parent Company and its subsidiaries on a daily basis, while scenario stress tests and sensitivity analysis are conducted periodically.

	<b>P242,353,729</b>	P202,240,631	<b>P236,347,682</b>	P196,794,826

Effective interest rates for peso-denominated investment securities at amortized cost for the Group range from 1.28% to 7.14% in 2021, 1.06% to 8.92% in both 2020 and 2019. Effective interest rates for foreign currency-denominated investment securities at amortized cost range from 0.01% to 10.35% in 2021, 0.57% to 10.35% in 2020 and 1.82% to 6.97% in 2019.

*Sale of Investment Securities at Amortized Cost*

In 2021 and 2020, the Parent Company sold investment securities at amortized cost whose carrying values prior to the sale amounted P55.77 billion and P30.14 billion, respectively. In 2019, the Group and the Parent Company sold investment securities at amortized cost whose carrying values prior to the sale amounted to P18.62 billion and P13.33 billion, respectively. Details of these sales, including the reason for selling, are presented in the succeeding tables.

The Parent Company sold the following investment securities at amortized cost in 2021 (amounts in millions):

Reason for selling	Parent Company	
	Carrying amount	Gain on sale
Additional liquidity to support planned loan growth	<b>P51,316</b>	<b>P3,787</b>
Redemption by issuer to effect its debt refinancing or in view of minimal outstanding amounts	<b>3,735</b>	<b>226</b>
Additional liquidity to take advantage of a change in a regulatory loan limit *	<b>589</b>	<b>27</b>
A change in the funding profile of the Parent Company **	<b>134</b>	<b>24</b>
<b>Total</b>	<b>P55,774</b>	<b>P4,064</b>

\*The sales are based on the assessments made in 2020.

\*\*The sales are based on the assessments made in 2019.

In 2020, the Parent Company sold the following investment securities at amortized cost (amounts in millions):

Reason for selling	Parent Company	
	Carrying amount	Gain on sale
Additional liquidity to take advantage of a change in a regulatory loan limit	₱25,761	₱1,782
Redemption by issuer to effect its debt refinancing	2,641	145
A change in the funding profile of the Parent Company *	698	243
To address requirements on regulatory and internal limit of the Parent Company	536	5
A highly probable change in regulations with a potentially adverse impact to the financial assets' contractual cash flows	507	12
<b>Total</b>	<b>₱30,143</b>	<b>₱2,187</b>

\* The sales are based on the assessments made in 2019.

The Group and the Parent Company sold the following investment securities at amortized cost in 2019 (amounts in millions):

Reason for selling	Group		Parent Company	
	Carrying amount	Gain on sale	Carrying amount	Gain on sale
A change in funding profile of the Parent Company	₱10,445	₱1,156	₱10,445	₱1,156
To address requirements on regulatory and internal limit of the Group and Parent Company	6,275	168	982	86
An increase in the financial assets' credit risk due to political uncertainty affecting the sovereign issuer's environment	1,169	43	1,169	43
A highly probable change in regulations with a potentially adverse impact to the financial assets' contractual cash flows	729	14	729	14
<b>Total</b>	<b>₱18,618</b>	<b>₱1,381</b>	<b>₱13,325</b>	<b>₱1,299</b>

These disposals of investment securities at amortized cost were assessed by the Group as not inconsistent with the portfolios' business models considering the conditions and reasons for which the disposals were made (see Note 3).

#### Modification of Loans and Receivables

On March 25, 2020, Republic Act No. 11469, otherwise known as the Bayanihan to Heal as One Act ("Bayanihan 1 Act") was enacted. Bayanihan 1 Act provides that all covered institutions shall implement a 30-day grace period for all loans with principal and/or interest and lease amortization falling due within the enhanced community quarantine (ECQ) period without incurring interest on interest, penalties, fees and other charges. Subsequently, on September 11, 2020, Republic Act No. 11494, otherwise known as the Bayanihan to Recover as One Act ("Bayanihan 2 Act"), was enacted. Under Bayanihan 2 Act, a one-time 60-day grace period is granted for the payment of all existing, current and outstanding loans falling due, or any part thereof, on or before December 31, 2020, without incurring interest on interests, penalties, fees, or other charges and thereby extending the maturity of the said loans. Furthermore, a minimum 30-day grace period shall also be granted by covered institutions to all payments due within the period of community quarantine on rent and utility-related expenditures without incurring penalties, interest and other.

In 2020, the Group and the Parent Company, in addition to the reliefs provided under Bayanihan 1 Act and Bayanihan 2 Act, have offered financial reliefs to their borrowers or counterparties as a response to the effect of the COVID-19 pandemic, particularly the modification of existing loans and receivables which includes extension of payment terms.

Based on the Group's and the Parent Company's assessments, the modifications in the contractual cash flows as a result of the above reliefs are not substantial and, therefore, do not result in the derecognition of the affected financial assets but would require the recognition of modification losses. The total modification losses resulting from Bayanihan 1 Act and Bayanihan 2 Act are not material for the Parent Company. For CBS, the total modification loss amounted to P203.75 million. The net impact of the loan modification after subsequent accretion in 2020 of the modified loans amounted to P141.79 million. In 2021, the accretion on the modified loans amounted to P69.57 million.

The Group's loans and receivables that had loss allowances measured at an amount equal to lifetime ECL and whose cash flows were modified in 2020 but have not resulted in derecognition had an amortized cost before modification amounting to P6.79 billion and P5.28 billion for the Group and the Parent Company, respectively. The modification loss for these loans and receivables is not material to the Parent Company. For CBS, the modification loss on these loans and receivables amounted to P5.90 million in 2020.

The Group's loans and receivables having loss allowance measured at an amount equal to lifetime ECL at the time of modification but were not derecognized in 2020 and for which credit risk has significantly improved as at the end of reporting period, resulting in a change in loss allowance to 12-month ECL, had an amortized cost as follows (figures in billions):

	<b>Consolidated</b>	<b>Parent Company</b>
Prior to modification	P1.28	P1.13
As of December 31, 2020	1.25	1.10
As of December 31, 2021 (after accretion, transfers between ECL measurement, and principal payments)	1.14	0.98

#### Interest Income on Loans and Receivables

As of December 31, 2021 and 2020, 62.29% and 65.48%, respectively, of the total receivables from customers of the Group and 63.85% and 68.02%, respectively, of the total receivables from customers of the Parent Company were subject to interest repricing.

Remaining receivables of the Group carry annual fixed interest rates ranging from 1.02% to 39.42% in 2021, from 1.02% to 39.42% in 2020, and from 1.66% to 39.43% in 2019 for foreign currency-denominated receivables and from 1.50% to 30.00% in 2021, 2020 and 2019 for peso-denominated receivables.

Remaining receivables of the Parent Company carry annual fixed interest rates ranging from 1.02% to 10.50% in 2021, from 1.02% to 16.25% in 2020, and from 1.66% to 10.50% in 2019 for foreign currency-denominated receivables and from 1.50% to 30.00% in 2021, 2020 and 2019 for peso-denominated receivables.

CBSI

Cost of investment includes the original amount incurred by the Parent Company from its acquisition of CBSI in 2007 amounting to ₱1.07 billion.

Merger of CBSI with PDB

The BOD of both CBSI and PDB, in their meeting held on June 26, 2014, approved the proposed merger of PDB with CBSI, with the latter as the surviving bank. On November 6, 2015, the BSP issued the Certificate of Authority on the Articles of Merger and the Plan of Merger, as amended, of CBSI and PDB. On December 17, 2015, CBSI obtained SEC's approval of its merger with PDB, whereby the entire assets and liabilities of PDB shall be transferred to and absorbed by CBSI.

Acquisition of PDB

In 2014, the Parent Company made tender offers to non-controlling stockholders of PDB. As of December 31, 2014, the Parent Company owns 99.85% and 100.00% of PDB's outstanding common and preferred stocks, respectively.

The consideration transferred for the acquisition of PDB amounted to:

Acquisition of majority of PDB's capital stock	₱1,421,346
Tender offers	255,354
	<u>₱1,676,700</u>

In 2014 and 2015, the Parent Company made additional capital infusion to PDB amounting to ₱1.30 billion and ₱1.70 billion, respectively.

In 2015, the MB of the BSP granted to the Group investment and merger incentives in the form of waiver of special licensing fees for 67 additional branch licenses in restricted areas. This is in addition to the initial investment and merger incentives of 30 new branches in restricted areas and 35 branches to be transferred from unrestricted to restricted areas granted to the Parent Company by the MB in 2014. These branch licenses were granted under the Strengthening Program for Rural Bank (SPRB) Plus Framework.

The branch licenses have the following fair values:

114 Commercial Bank branch licenses	₱2,280,000
18 Thrift Bank branch licenses	270,000
	<u>2,550,000</u>
Deferred tax liability	765,000
	<u>₱1,785,000</u>

On April 6, 2016, the Parent Company's BOD approved the allocation of the 67 additional branch licenses in restricted areas as follows: 49 to the Parent Company and 18 to CBSI. Pursuant to a memorandum dated March 18, 2017, the 67 branch licenses were awarded as incentives by the Monetary Board as a result of the Parent Company's acquisition of PDB. Goodwill from acquisition of PDB is computed as follows:

Consideration transferred		₱1,676,700
Less: Fair value of identifiable assets and liabilities acquired		
Net liabilities of PDB*	(₱725,207)	
Branch licenses, net of deferred tax liability (Note 14)	1,785,000	1,059,793
		<u>₱616,907</u>

\*inclusive of the existing branch licenses of PDB with an aggregate fair value of ₱289.50 million (Note 14)

CIBI

On January 16, 2020, the BOD declared and approved cash dividends amounting to ₱100 million for stockholders on record as of declaration date, payable on February 21, 2020. On December 10, 2020, the BOD declared and approved another cash dividends amounting to ₱50 million for stockholders on record as of declaration date, payable on December 21, 2020.

CBCC

On June 11, 2020, the BOD declared and approved cash dividends of ₱50 million for stockholders on record as of declaration date, payable on June 30, 2020.

On April 1, 2015, the BOD approved the investment of the Parent Company in an investment house subsidiary, CBCC, up to the amount of ₱500.00 million. On April 30, 2015, the BSP approved the Parent Company's investment of up to 100% or up to ₱500.00 million common shares in CBCC. On November 27, 2015, the SEC approved the Articles of Incorporation and By-Laws of CBCC and granted CBCC the license to operate as an investment house.

*CBCC acquisition of CBCSec (formerly ATC Securities, Inc.)*

On May 19, 2016, the BOD of CBCC approved the acquisition of ATC Securities, Inc. (ATC).

On June 29, 2016, CBCC and the shareholders of ATC (the Original Shareholders) entered into an Agreement for the Purchase of Shares (Agreement), whereby CBCC agreed to buy, and the Original Shareholders agreed to sell, 3,800,000 shares representing 100% of the issued and outstanding shares of ATC.

On July 6, 2017, the SEC approved the change of name from ATC Securities, Inc. to China Bank Securities Corporation.

CBC Assets One (SPC) Inc.

CBC Assets One (SPC) Inc. was incorporated on June 15, 2016 as a wholly-owned special purpose company of CBCC for asset-backed securitization. It has not yet commenced commercial operations.

Resurgent Capital (FIST-AMC) Inc.

Resurgent Capital (FIST-AMC) Inc. was incorporated on September 6, 2021 as a wholly-owned FIST Corporation of CBCC. The primary purpose is to invest in, or acquire, Non-Performing Assets (“NPAs”) of any financial institution. It has not yet commenced commercial operations.

Investment in Associates

Investment in associates in the consolidated and the parent company financial statements pertain to investment in MCB Life and CBC-PCCI's investment in Urban Shelters (accounted for by CBC-PCCI in its financial statements as an investment in an associate). Investment in Urban Shelters is carried at nil amount as of December 31, 2021 and 2020.

MCB Life

In 2006, the Parent Company and Manufacturers Life Insurance Company (Manulife) entered into a joint project where the Parent Company will invest in a life insurance company owned by Manulife, and such company will be offering innovative insurance and financial products for health, wealth and education through the Parent Company's branches nationwide. The Parent Company acquired 5.00% interest in Manulife China Bank Life Assurance Corporation (MCB Life) on August 8, 2007. This investment is accounted for as an investment in an associate by virtue of the Bancassurance Alliance Agreement which provides the Parent Company the right to be represented in MCB Life's BOD and, thus, exercise significant influence over the latter.

The BSP requires the Parent Company to maintain a minimum of 5.00% ownership over MCB Life in order for MCB Life to be allowed to continue distributing its insurance products through the Parent Company's branches.

On September 12, 2014, the BSP approved the request of the Parent Company to raise its capital investment in MCB Life from 5.00% to 40.00% of its authorized capital through purchase of ₱1.75 million common shares.

On December 5, 2018, the Parent Company's BOD approved the additional capital infusion in the amount of ₱40.00 million in MCB Life. This represents 40% of the 100.00 million total capital infusion in MCB Life with the balance of ₱60.00 million to be provided by Manulife Philippines. On top of complying with the higher capital requirements for insurance companies, the additional capital will improve MCB Life's capacity to underwrite more business and enhance its competitive position. On February 22, 2019, the BSP approved the Bank's capital infusion of ₱40.0 million to MCB Life to comply with the capitalization requirement of the Insurance Commission for insurance companies, which was paid on March 21, 2019.

On January 11, 2021, the Parent Company received ₱40 million cash dividends from MCB Life. The following tables show the summarized financial information of MCB Life:

	2021	2020
Total assets	<b>₱55,544,393</b>	₱43,089,159
Total liabilities	<b>53,602,517</b>	40,856,962
Equity	<b>1,941,876</b>	2,232,197
	2021	2020
Revenues	<b>₱16,502,813</b>	₱9,402,315
Benefits, claims and operating expenses	<b>16,535,119</b>	8,932,982
Income before income tax	<b>(32,306)</b>	469,333
Net income	<b>(4,023)</b>	381,102

Commission income earned by the Group from its bancassurance agreement amounting to ₱432.08 million, ₱282.00 million, ₱303.45 million in 2021, 2020 and 2019, respectively, is included under 'Miscellaneous income' in the statements of income (Note 22).

The Group adopted the deemed cost model as of January 1, 2004 and considered the carrying value of the land determined under its previous accounting method (revaluation method) as the deemed cost of the asset as of January 1, 2005. Accordingly, revaluation increment amounting to ₱1.28 billion was closed to surplus (Note 24) in 2011.

As of December 31, 2021 and 2020, the gross carrying amount of fully depreciated furniture, fixtures and equipment still in use amounted to ₱3.29 billion and ₱2.90 billion, respectively, for the Group and ₱2.44 billion and ₱2.09 billion, respectively, for the Parent Company.

Gain on sale of furniture, fixtures and equipment amounting to nil, ₱1.25 million and ₱1.44 million in 2021, 2020 and 2019, respectively, for the Group and nil, ₱0.02 million and ₱1.44 million in 2021, 2020 and 2019, respectively, for the Parent Company are included in the statements of income under 'Miscellaneous income' account (Note 22).

In 2019, depreciation and amortization amounting to ₱1.59 billion and ₱1.19 billion for the Group and Parent Company, respectively, are included in the statements of income under 'Depreciation and amortization' account.

Balance at beginning and end of year	912,826	201,689	1,114,515
Disposals/write-off/reclassification*	(236,728)	–	(236,728)
Balance at end of year	676,098	201,689	877,787
<b>Net Book Value at End of Year</b>	<b>₱666,409</b>	<b>₱812,524</b>	<b>₱1,478,933</b>

\*Includes transfers to bank premises amounting to ₱14.46 million (Note 12).

The Group's investment properties consist entirely of real estate properties acquired in settlement of loans and receivables. The difference between the fair value of the investment property upon foreclosure and the carrying value of the loan is recognized under 'Gain on asset foreclosure and dacion transactions' in the statements of income.

In 2019, depreciation and amortization amounting to ₱173.38 million and ₱101.93 million for the Group and Parent Company, respectively, are included in the statements of income under 'Depreciation and amortization' account.

Details of rental income earned and direct operating expenses incurred on investment properties follow:

	<b>Consolidated</b>		
	<b>2021</b>	2020	2019
Rent income on investment properties	<b>₱96,759</b>	₱66,493	₱88,898
Direct operating expenses on investment properties generating rent income	<b>1,277</b>	1,537	12,952
Direct operating expenses on investment properties not generating rent income	<b>74,293</b>	69,651	55,424
	<b>Parent Company</b>		
	<b>2021</b>	2020	2019
Rent income on investment properties	<b>₱54,400</b>	₱47,209	₱59,070
Direct operating expenses on investment properties generating rent income	<b>371</b>	815	12,150
Direct operating expenses on investment properties not generating rent income	<b>32,765</b>	22,753	20,503

Rent income earned from leasing out investment properties is included under 'Miscellaneous income' in the statements of income (Note 22).

Direct operating expenses include occupancy cost, repairs and maintenance, and taxes and licenses related to the investment properties.

On August 26, 2011, the Parent Company was registered as an Economic Zone Information Technology (IT) Facilities Enterprise with the Philippine Economic Zone Authority (PEZA) to operate and maintain a proposed 17-storey building located inside the CBP-IT Park in Barangays Mabolo, Luz, Hipodromo, Carreta, and Kamputhaw, Cebu City, for lease to PEZA-registered IT enterprises, and to be known as Chinabank Corporate Center. This registration is under PEZA Registration Certificate No. 11-03-F.

Under this registration, the Parent Company is entitled to five percent (5.00%) final tax on gross income earned from locator IT enterprises and related operations in accordance with existing PEZA rules. The Parent Company shall also be exempted from the payment of all national and local taxes in relation to this registered activity.

#### 14. GOODWILL AND INTANGIBLE ASSETS

##### Goodwill

Goodwill represents the excess of the acquisition costs over the fair value of the identifiable assets and liabilities of companies acquired by the Group.

The Group attributed the goodwill arising from its acquisition of CBSI and PDB to factors such as increase in geographical presence and customer base due to the branches acquired. None of the goodwill recognized is expected to be deductible for income tax purposes. CBSI as surviving entity from the merger with PDB, is the identified CGU for this goodwill. The Parent Company's Retail Banking Business (RBB) has been identified as the CGU for impairment testing of the goodwill from its acquisition of CBSI.

As of December 31, 2021 and 2020, amount of goodwill per CGU follows:

	Consolidated	Parent Company
RBB	₱222,841	₱222,841
CBSI	616,907	–
<b>Total</b>	<b>₱839,748</b>	<b>₱222,841</b>

The recoverable amount of the CGUs have been determined based on a value-in use calculation using cash flow projections from financial budgets approved by senior management covering a five-year period, which do not include restructuring activities that the Group is not yet committed to or significant future investments that will enhance the asset base of the CGU being tested. Other than loans and deposits growth rates, the significant assumptions, and the most sensitive, used in computing for the recoverable values of the CGUs follow:

	2021		2020	
	RBB	CBSI	RBB	CBSI
Discount rate	<b>9.08%</b>	<b>11.33%</b>	6.12%	7.25%
Long-term growth rate	<b>1.00%</b>	<b>1.00%</b>	1.00%	1.00%

With regard to the assessment of value-in-use of the CGU, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying value of the goodwill to materially exceed its recoverable amount as of December 31, 2021 and 2020.

#### Branch Licenses

Branch licenses of the Group arose from the acquisitions of CBSI, Unity Bank, and PDB. Each branch to which the branch license is attributed is the CGU that is tested independently for impairment assessment.

As of December 31, 2021 and 2020, details of branch licenses in the Group's and the Parent Company's financial statements follow:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Branch license from CBSI acquisition	<b>₱477,600</b>	₱477,600	<b>₱455,000</b>	₱455,000
Branch license from Unity Bank acquisition	<b>360,000</b>	360,000	–	–
Branch license from PDB acquisition*	<b>2,839,500</b>	2,839,500	–	–
	<b>3,677,100</b>	3,677,100	<b>455,000</b>	455,000
Allowance for probable losses	<b>(289,502)</b>	(289,502)	<b>(57,000)</b>	(57,000)
	<b>₱3,387,598</b>	₱3,387,598	<b>₱398,000</b>	₱398,000

\*mostly attributable to the Parent Company

Other than loans and deposits growth rates, the Group uses the discount rate of 9.08% and long-term growth rate of 1.00% for computing for the recoverable values of the CGUs.

Capitalized software costs

Exchange Trading Right

As of December 31, 2021 and 2020, the Group has an exchange trading right with the following carrying value:

Cost	<b>P12,000</b>
Less: allowance for impairment losses	<b>3,500</b>
	<b>P8,500</b>

The trading right has an indefinite useful life and, thus, is not amortized but is subject for impairment at every reporting date. The last transacted price of the trading right is P8.50 million as approved by the BOD of PSE. The exchange trading right, as of December 31, 2021 and 2020, remains to be unimpaired.

Under the PSE rules, all exchange membership seats are pledged at its full value to the PSE to secure the payment of all debts to other members of the exchange arising out of or in connection with the present or future members' contracts.

	<b>P6,464,385</b>	P6,501,010	<b>P3,641,671</b>	P3,367,991

#### *Accounts receivable*

Accounts receivable also includes non-interest bearing advances to officers and employees, with terms ranging from 1 to 30 days and receivables of the Parent Company from automated teller machine (ATM) transactions of clients of other banks that transacted through any of the Parent Company's ATM terminals.

#### *Sales contract receivable*

This refers to the amortized cost of assets acquired in settlement of loans through foreclosure or dation in payment and subsequently sold on installment basis whereby the title to the said property is transferred to the buyers only upon full payment of the agreed selling price.

SCR bears fixed interest rates per annum in 2021, 2020 and 2019 ranging from 5.50% to 10.00%, 5.00% to 10.00%, and 5.00% to 10.25%, respectively.

#### *Miscellaneous*

Miscellaneous consists mainly of unissued stationery and supplies, inter-office float items, and deposits for various services.

## 16. ALLOWANCE FOR IMPAIRMENT AND CREDIT LOSSES

Accounts charged off and others	<b>(7,510,021)</b>	(2,281,323)	<b>(6,910,315)</b>	(2,094,771)
	<b>1,366,723</b>	6,587,596	<b>769,562</b>	5,888,435
Balances at end of year				
Loans and receivables (Note 10)	<b>15,057,609</b>	14,739,918	<b>12,489,884</b>	12,527,657
Investment securities at amortized cost (Note 9)	<b>3,093,747</b>	2,389,845	<b>2,886,272</b>	2,383,800
Financial assets at FVOCI * (Note 9)	<b>61,495</b>	30,384	<b>60,998</b>	30,056
Investment properties (Note 13)	<b>653,484</b>	916,219	<b>586,672</b>	877,787
Accrued interest receivable	<b>478,814</b>	337,785	<b>182,375</b>	36,609
Intangible assets	<b>293,002</b>	293,002	<b>57,000</b>	57,000
Investment in subsidiaries	<b>–</b>	–	<b>59,902</b>	59,902
Other assets (Note 15)	<b>685,057</b>	523,092	<b>379,619</b>	234,109
Off-balance sheet exposures *	<b>740,877</b>	467,117	<b>730,859</b>	457,099
	<b>₱21,064,085</b>	₱19,697,362	<b>₱17,433,581</b>	₱16,664,019

\* The allowance for credit and impairment losses in the above table are presented as contra-asset in determining the carrying amount of the related asset accounts, except for the expected credit losses on "Financial assets at FVOCI" and "Off-balance sheet exposures" which are presented under "Other Comprehensive Income" (Equity) and "Other Liabilities" (Liability), respectively.

At the current level of allowance for impairment and credit losses, management believes that the Group has sufficient allowance to cover any losses that may be incurred from the non-collection or non-realization of its loans and receivables and other risk assets.

The separate valuation allowance of acquired loans and receivables from PDB amounting to ₱1.59 billion was not recognized by the Group on the effectivity date of acquisition as these receivables were measured at fair value at acquisition date. Any uncertainties about future cash flows of these receivables were included in their fair value measurement (Note 11). Also, the separate valuation allowance of acquired investment properties from PDB amounting to ₱199.15 million was not recognized by the Group on the effectivity date of acquisition as these properties were measured at fair value on acquisition date.

Below is the breakdown of provision for credit losses in 2021, 2020 and 2019.

	Consolidated			Parent Company		
	2021	2020	2019	2021	2020	2019
Corporate and commercial lending	<b>₱5,887,208</b>	₱6,620,171	₱1,714,041	<b>₱6,228,681</b>	₱6,300,097	₱1,369,339
Consumer lending	<b>1,803,215</b>	1,626,588	(44,227)	<b>533,013</b>	1,076,445	79,969
Trade-related lending	<b>21,737</b>	(34,744)	235,962	<b>25,858</b>	(43,355)	240,718
Others	<b>855</b>	2,889	1,873	<b>328</b>	–	–

BSP Circular No. 830 requires reserves against deposit liabilities. As of December 31, 2021 and 2020, Due from BSP amounting to ₱80.27 billion and ₱77.99 billion, respectively, for the Group and ₱77.73 billion and ₱75.31 billion, respectively, for the Parent Company were set aside as reserves for deposit liabilities per latest report submitted to the BSP.

On May 27, 2020, BSP issued Circular No. 1087 *Alternative Compliance with the Reserve Requirements of Banks and Non-Bank Financial Institutions with Quasi-Banking Functions (NBQBs)*, which provides the following allowable modes of alternative compliance with the required reserves against deposit and deposit liabilities, provided that the following loans were granted, renewed or restructured after March 15, 2020:

- a. Peso-denominated loans that are granted to micro-, small- and medium enterprises (MSMEs)
- b. Peso-denominated loans that are granted to large enterprises, excluding banks and NBQBs; provided that large enterprises are directly and adversely impacted by the Covid-19 outbreak

Subsequently on October 8, 2020, BSP issued Circular No. 1100 *Amendment to the Alternative Compliance with the Reserve Requirements of Banks and Non-Bank Financial Institutions with Quasi-Banking Functions (NBQBs)*, which states that a bank/NBQB may continue to utilize past due or non-performing MSME and large enterprise loan as alternative compliance with the reserve requirements for an additional thirty (30) calendar days from the date the loan becomes past due or non-performing, whichever comes earlier.

The use of MSME loans as allowable alternative compliance with the reserve requirement shall be available to banks/NBQBs from April 24, 2020 to December 29, 2022 while the use of loans to a large enterprise as allowable alternative compliance with the reserve requirements shall be available to banks/NBQBs from May 29, 2020 to December 29, 2022.

As of December 31, 2021 and 2020, the Group is in compliance with the reserve requirement.

#### Long Term Negotiable Certificates of Deposits (LTNCD)

On August 3, 2016, the BOD of the Parent Company approved the issuance of Long Term Negotiable Certificates of Deposits (LTNCD) of up to ₱20.00 billion in tranches of ₱5.00 billion to ₱10.00 billion each and with tenors ranging from 5 to 7 years to support the Group's strategic initiatives and business growth. On October 27, 2016, the Monetary Board of the BSP approved the LTNCD issuances. On November 18, 2016, the Parent Company issued the first tranche at par with aggregate principal amount of ₱9.58 billion due May 18, 2022. The LTNCDs bear a fixed coupon rate of 3.65% per annum, payable quarterly in arrears. Subject to BSP rules, the Group has the option to pre-terminate the LTNCDs as a whole but not in part, prior to maturity and on any interest payment date at face value plus accrued interest covering the accrued and unpaid interest.

On June 2, 2017, the Parent Company issued at par LTNCDs with aggregate principal amount of ₱6.35 billion due December 22, 2022, representing the second tranche of the ₱20.00 billion.

On March 7, 2018, the Board of Directors approved the Bank's Peso funding program of up to ₱50 billion via a combination of Long-Term Negotiable Certificate of Time Deposit and/or Retail Bonds and/or Commercial Papers.

On July 12, 2018, the Parent Company issued at par LTNCDs with aggregate principal amount of ₱10.25 billion due January 12, 2024, representing the first tranche of the ₱20 billion LTNCD approved by BSP on June 14, 2018. The LTNCDs bear a fixed coupon rate of 4.55% per annum, payable quarterly in arrears. The ₱20.00 billion LTNCD program is part of the Group's funding program amounting to ₱50 billion.

The LTNCDs are included under the 'Time deposit liabilities' account.

---

## **18. BONDS PAYABLE**

The Parent Company's bonds payable consists of:

#### ₱15.00 Billion Peso Fixed Rate Bonds due in 2022

On October 22, 2020, the Parent Company issued ₱15.00 billion peso fixed rate bonds, which bears a fixed coupon rate of 2.75% per annum, payable quarterly, and is due on October 22, 2022.

#### ₱30.00 Billion Peso Fixed Rate Bonds due in 2021

On July 10, 2019, the Parent Company issued ₱30.00 billion peso fixed rate bonds, which bears a fixed coupon rate of 5.70% per annum, payable monthly, and is due on January 10, 2021. This was settled in 2021 as scheduled.

BSP Circular No. 830 requires reserves against peso-denominated bonds. As of December 31, 2021 and 2020, the Group is in compliance with such regulation.

₱20.00 Billion Peso Fixed Rate Bonds due in 2024

On February 18, 2021, the Parent Company issued ₱20.00 billion peso fixed rate bonds, which bears a fixed coupon rate of 2.50% per annum, payable monthly, and is due on February 18, 2024.

This issuance is the second drawdown under the ₱45 billion bond and commercial paper program established in September 2020.

\$150.00 Million Bonds Payable to IFC

On June 18, 2019, the Parent Company issued a \$150 million, seven-year bond to International Finance Corporation. The bond reprices semi-annually and carries an interest margin of 120 basis points over 6-month LIBOR.

Shortly thereafter, the Parent Company entered into a seven-year pay-fixed, receive-floating IRS (see Note 26) with the same principal terms to hedge the exposure to variable cash flow payments on the floating-rate bonds payable attributable to interest rate risk (Note 6).

The Bond Subscription Agreement contains certain financial covenants with which the Parent Company should comply during the term of the Bond, including the following:

- Risk Weighted Capital Adequacy Ratio of not less than ten per cent (10%);
- Equity to Assets Ratio of not less than five per cent (5%);
- Aggregate Large Exposures Ratio of not more than four hundred per cent (400%);
- Open Credit Exposures Ratio of not more than twenty five per cent (25%);
- Fixed Assets Plus Equity Participations Ratio of not more than thirty five per cent (35%);
- Aggregate Foreign Exchange Risk Ratio of not more than twenty five per cent (25%);
- Single Currency Foreign Exchange Risk Ratio of not more than ten per cent (10%);
- Interest Rate Risk Ratio of not less than negative twenty five per cent (-25%) and not more than twenty five per cent (25%);
- Aggregate Interest Rate Risk Ratio of not less than negative fifty per cent (-50%) and not more than twenty per cent (20%);
- Open FX Position of 25% of Qualifying Capital and USD 150 million, whichever is lower.

In addition, the Parent Company should also comply with the regulatory requirements related to Economic Group Exposure and Related Party Exposure set by the BSP or the Bond Subscription Agreement, whichever is more stringent.

Noncompliance of these obligations may require the Parent Company to pay the bond immediately. As of December 31, 2021 and 2020, the Parent Company is in compliance with these covenants and regulatory requirements.

The movements in the Parent Company's total unamortized discount and debt issue cost of the above bonds payable follows:

	2021	2020
Beginning balance	₱137,772	₱200,852
Additions	121,542	133,117
Amortization	(83,022)	(196,197)
Ending balance	<b>₱176,292</b>	<b>₱137,772</b>

## 19. BILLS PAYABLE

The Parent Company's bills payable consist of:

	2021	2020
Interbank loans payable and securities sold under repurchase agreements	₱65,697,274	₱17,518,091
BSP rediscounting (Note 10)	-	5,747,160
Promissory Notes	109,000	390,600
	<b>₱65,806,274</b>	<b>₱23,655,851</b>

#### *Interbank loans payable and securities sold under repurchase agreements*

Interbank loans payable consists of short-term dollar-denominated borrowings of the Parent Company with annual interest ranging from 0.31% to 1.60%, from 0.79% to 1.60%, and from 1.30% to 3.15% in 2021, 2020, and 2019, respectively.

The carrying amount of foreign currency-denominated investment securities at amortized cost pledged by the Parent Company as collateral for its interbank borrowings amounted to P48.85 billion and P13.09 billion as of December 31, 2021 and 2020, respectively. The carrying amount of the peso-denominated investment securities at amortized cost pledged by the Parent Company as collateral for its interbank borrowings amounted to P23.59 billion and P7.21 billion as of December 31, 2021 and 2020, respectively.

The aggregate fair value of investment securities at amortized cost pledged as collateral amounted to P74.90 billion and P21.66 billion as of December 31, 2021 and 2020, respectively. The aggregate fair value of financial assets at FVOCI pledged as collateral amounted to P3.25 billion and nil as of December 31, 2021 and 2020, respectively.

As of December 31, 2021 and 2020, margin deposits amounting to P3.91 billion and P2.35 billion, respectively, are deposited with various counterparties to meet the collateral requirements for its interbank loans payable.

Balance at end of year	2,691,288,212	P26,912,882	2,685,899,812	P26,858,998

The Parent Company shares are listed in the Philippine Stock Exchange.

The summarized information on the Parent Company's registration of securities under the Securities Regulation Code follows:

<u>Date of SEC Approval</u>	<u>Authorized Shares*</u>
April 12, 1991	100,000,000
October 7, 1993	150,000,000
August 30, 1994	200,000,000
July 26, 1995	250,000,000
September 12, 1997	500,000,000
September 5, 2005	1,000,000,000
September 14, 2007	1,600,000,000
September 5, 2008	2,000,000,000
August 29, 2014	2,500,000,000
September 29, 2018	3,300,000,000

\* Restated to show the effects of the ten-for-one stock split in 2012

As reported by the Parent Company's transfer agent, Stock Transfer Service, Inc., the total number of stockholders is 1,881 and 1,890 as of December 31, 2021 and 2020, respectively.

#### *Centennial Stock Grant*

In light of the Parent Company's 100th anniversary, the Board of Directors approved on August 5, 2020 a Centennial Stock Grant Plan to issue common shares to eligible grantees.

The Centennial Stock Grant Plan was approved and ratified by the stockholders on October 1, 2020 and the approvals of the relevant regulatory agencies were completed in 2021. New shares were issued from the Parent Company's authorized but unissued shares in favor of the Group's regular employees and certain other officers and contractual employees as of August 16, 2020, numbering around 8,400.

On August 9, 2021, the Philippine Stock Exchange (PSE) approved the Parent Company's application to list 5,451,600 common shares, with a par value of ₱10.00 per share, to cover the Group's Centennial Stock Grant Plan. The Parent Company issued a total of 5.39 million shares on September 1, 2021. This resulted in an increase in the Parent Company's 'Capital stock' and 'Capital paid in excess of par value' totaling ₱132.02 million as of the grant date. The difference in the fair value of the stock grants upon issuance of shares is recognized in the profit or loss.

#### Dividends

Details of the Parent Company's cash dividend payments follow:

#### Cash Dividends

<u>Date of Declaration</u>	<u>Date of Record</u>	<u>Date of Payment</u>	<u>Cash Dividend Per Share</u>

May 08, 2014	September 19, 2014	October 15, 2014	8%
May 02, 2013	July 19, 2013	August 14, 2013	10%

## Surplus

The computation of surplus available for dividend declaration in accordance with SEC Memorandum Circular No. 11 issued in December 2008 differs to a certain extent from the computation following BSP guidelines.

As of December 31, 2021 and 2020, surplus includes the amount of ₱1.37 billion and ₱1.28 billion, net of deferred tax effect of ₱456.17 million and ₱547.41 million, respectively, representing transfer of revaluation increment on land which was carried at deemed cost when the Group transitioned to PFRS in 2005 (Note 12). This amount will be available to be declared as dividends upon sale of the underlying land.

In the consolidated financial statements, a portion of the Group's surplus corresponding to the net earnings of the subsidiaries and associates amounting to ₱5.10 billion and ₱3.68 billion as of December 31, 2021 and 2020, respectively, is not available for dividend declaration. The accumulated equity in net earnings becomes available for dividends upon declaration and receipt of cash dividends from the investees.

## Reserves

In compliance with BSP regulations, 10.00% of the Parent Company's profit from trust business is appropriated to surplus reserve. This annual appropriation is required until the surplus reserves for trust business equals 20.00% of the Parent Company's authorized capital stock.

Upon adoption of PFRS 9, BSP requires appropriation of a portion of the Group's Surplus at an amount necessary to bring to at least 1% the allowance for credit losses on loans (Note 16).

## Capital Management

The primary objectives of the Group's capital management are to ensure that it complies with externally imposed capital requirements and that it maintains strong credit ratings and healthy capital ratios in order to support its business and to maximize shareholders' value.

The Group manages its capital structure and makes adjustments to it in light of changes in economic conditions and the risk characteristics of its activities. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividend payment to shareholders, return capital to shareholders or issue capital securities. No changes were made in the objectives, policies and processes as of December 31, 2021 and 2020.

## Regulatory Qualifying Capital

Under existing BSP regulations, the determination of the Parent Company's compliance with regulatory requirements and ratios is based on the amount of the Parent Company's unimpaired capital (regulatory capital) as reported to the BSP. This is determined on the basis of regulatory accounting policies which differ from PFRS in some respects.

In addition, the risk-based capital ratio of a bank, expressed as a percentage of qualifying capital to risk-weighted assets (RWA), should not be less than 10.00% for both solo basis (head office and branches) and consolidated basis (Parent Company and subsidiaries engaged in financial allied undertakings but excluding insurance companies). Qualifying capital and RWA are computed based on BSP regulations. RWA consists of total assets less cash on hand, due from BSP, loans covered by hold-out on or assignment of deposits, loans or acceptances under letters of credit to the extent covered by margin deposits and other non-risk items determined by the Monetary Board of the BSP.

On August 4, 2006, the BSP, under BSP Circular No. 538, issued the prescribed guidelines implementing the revised risk-based capital adequacy framework for the Philippine banking system to conform to Basel II capital adequacy framework. The BSP guidelines took effect on July 1, 2007. Thereafter, banks were required to compute their CAR using these guidelines.

Standardized credit risk weights were used in the credit assessment of asset exposures. Third party credit assessments were based on ratings by international credit assessment agencies Standard & Poor's, Moody's and Fitch, and BSP-recognized domestic credit assessment agencies such as PhilRatings. Per BSP guidelines, domestic debt issuances may be rated by Bangko Sentral-recognized domestic credit assessment agencies or by international credit assessment agencies which have developed a national rating system acceptable to the Bangko Sentral. Internationally-issued debt obligations shall be rated by Bangko Sentral-recognized international credit assessment agencies only.

On January 15, 2013, the BSP issued Circular No. 781, Basel III Implementing Guidelines on Minimum Capital Requirements, which provides the implementing guidelines on the revised risk-based capital adequacy framework particularly on the minimum capital and disclosure requirements for universal banks and commercial banks, as well as their subsidiary banks and quasi-banks, in accordance with the Basel III standards. The circular took effect on January 1, 2014.

The Circular sets out a minimum Common Equity Tier 1 (CET1) ratio of 6.00% and Tier 1 capital ratio of 7.50%. It also introduces a capital conservation buffer of 2.50% comprised of CET1 capital. The BSP's existing requirement for Total CAR remains unchanged at 10.00% and this ratio shall be maintained at all times.

Further, existing capital instruments as of December 31, 2010 which do not meet the eligibility criteria for capital instruments under the revised capital framework shall no longer be recognized as capital upon the effectivity of Basel III. Capital instruments issued under BSP Circular Nos. 709 and 716 (the circulars amending the definition of qualifying capital particularly on Hybrid Tier 1 and Lower Tier 2 capitals), starting January 1, 2011 and before the effectivity of BSP Circular No. 781, shall be recognized as qualifying capital until December 31, 2017. In addition to changes in minimum capital requirements, this Circular also requires various regulatory adjustments in the calculation of qualifying capital.

On April 28, 2020, the BSP issued BSP Memorandum No. M-2020-034 *Relaxation in the Credit Risk Weight for Loans to MSMEs under the BSP's Risk-Based Capital Adequacy Framework*, which provides temporary relaxation in the assigned credit risk weight for loans to micro-, small- and medium enterprises (MSMEs) for purposes of computing compliance with the BSP's Risk-Based Capital Adequacy Frameworks.

The following exposures to MSMEs, as defined under Basel III shall be assigned a credit risk weight of 50 percent:

- a. MSME exposures that meet the criteria of qualified MSME portfolio, and
- b. Current MSME exposures that do not qualify as a highly diversified MSME portfolio

The foregoing provision under BSP Memorandum No. M-2020-034 shall apply until December 31, 2021. However, it was extended until December 31, 2022 by the subsequent issuance of BSP Memorandum No. M-2022-004 Extension of BSP Prudential Relief Measures.

The CAR of the Group and the Parent Company as of December 31, 2021 and 2020 as reported to the BSP are shown in the table below.

The Group and the Parent Company have complied with all externally imposed capital requirements throughout the period.

The issuance of BSP Circular No. 639 covering the ICAAP in 2009 supplements the BSP's risk-based capital adequacy framework under Circular No. 538. In compliance with this circular, the Parent Company has adopted and developed its ICAAP framework to ensure that appropriate level and quality of capital are maintained by the Group. Under this framework, the assessment of risks extends beyond the Pillar 1 set of credit, market and operational risks and onto other risks deemed material by the Parent Company. The level and structure of capital are assessed and determined in light of the Parent Company's business environment, plans, performance, risks and budget, as well as regulatory edicts. BSP normally requires submission of the ICAAP document every March 31.

However, for 2021, in view of the current pandemic, the BSP adjusted the deadline for submission from March 31, 2021 to June 30, 2021. The Group has complied with this requirement. On April 16, 2021, the BSP issued Circular No. 1113, which requires that the recovery plan shall be distinct and separate from the ICAAP document. The submission of a separate recovery plan shall commence on 2022.

#### Leverage Ratio

On June 9, 2015, BSP issued circular No. 881, which approved the guidelines for the implementation of the Basel III Leverage Ratio in the Philippines. The Basel III Leverage Ratio is designed to act as a supplementary measure to the risk-based capital requirements. The leverage ratio intends to restrict the build-up of leverage in the banking sector to avoid destabilizing deleveraging processes which can damage the broader financial system and the economy. Likewise, it reinforces the risk-based requirements with a simple, non-risk based "backstop" measure. The Basel III leverage ratio is defined as the capital measure (the numerator) divided by the exposure measure (the denominator). The monitoring of the leverage ratio was implemented as a Pillar 1 minimum requirement effective on 1 July 2018.

The BLR of the Group and the Parent Company as of December 31, 2021 and 2020 as reported to the BSP are shown in the table below.

	Consolidated		Parent Company	
	2021	2020	2021	2020
	(Amounts in Million Pesos)			
Tier 1 Capital	<b>₱104,397</b>	₱90,750	<b>₱91,855</b>	₱79,092
Exposure Measure	<b>1,058,243</b>	1,027,936	<b>959,770</b>	926,668
Leverage Ratio	<b>9.87%</b>	8.83%	<b>9.57%</b>	8.54%

#### Liquidity Coverage Ratio

On 18 February 2016, BSP issued circular no. 905 which approved the attached liquidity standards, which include guidelines on liquidity coverage ratio (LCR), and LCR disclosure standards that are consistent with the Basel III framework. Banks are required to adopt Basel III's Liquidity Coverage Ratio (LCR) aimed at strengthening the short-term liquidity position of banks. This requires banks to have available High Quality Liquid Assets (HQLA) to meet anticipated net cash outflow for a 30-day period under stress conditions. The standard prescribes that, under a normal situation, the value of the liquidity ratio be no lower than 100% on a daily basis because the stock of unencumbered HQLA is intended to serve as a defense against potential onset of liquidity stress. As of December 31, 2021 and 2020, the LCR in single currency is 120.94% and 117.14%, respectively, for the Group and 119.49% and 115.84%, respectively, for the Parent Company.

### Net Stable Funding Ratio

On 24 May 2018, BSP issued Circular No. 1007 which approved the implementing guidelines on the adoption of the Basel III Framework on Liquidity Standards - Net Stable Funding Ratio (NSFR). Banks are required to adopt Basel III's Net Stable Funding Ratio (NSFR) aimed to promote long-term resilience of banks against liquidity risk. Banks shall maintain a stable funding profile in relation to the composition of its assets and off-balance sheet activities. The NSFR complements the Liquidity Coverage Ratio (LCR), which promotes short-term resilience of a Bank's liquidity profile. The Group started monitoring and reporting NSFR to the BSP in 2019. As of December 31, 2021 and 2020, the NSFR is 117.03% and 119.48%, respectively, for the Group and 116.15% and 118.85%, respectively, for the Parent Company.

## 25. RETIREMENT PLAN

The Group has separate funded noncontributory defined benefit retirement plans covering substantially all its officers and regular employees. The retirement plans are administered by the Parent Company's Trust Group which acts as the trustee of the plans. Under these retirement plans, all covered officers and employees are entitled to cash benefits after satisfying certain age and service requirements. The latest actuarial valuation studies of the retirement plans were made as of December 31, 2021.

The Group's annual contribution to the retirement plan consists of a payment covering the current service cost, unfunded actuarial accrued liability and interest on such unfunded actuarial liability.

The amounts of net defined benefit asset in the balance sheets follow:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Net plan assets (Note 15)	<b>₱483,001</b>	₱127,937	<b>₱300,391</b>	₱32,609
Retirement liabilities (Note 21)	<b>(10,613)</b>	(12,428)	–	–
	<b>₱472,388</b>	₱115,509	<b>₱300,391</b>	32,609

The movements in the defined benefit asset, present value of defined benefit obligation and fair value of plan assets follow:

The Group and the Parent Company is recommended to contribute to its defined benefit pension plan in 2022 amounting to ₱272.86 million and ₱251.60 million, respectively.

In 2021 and 2020, the major categories of plan assets as a percentage of the fair value of total plan assets are as follows:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Parent Company shares (Note 30)	25.33%	26.17%	29.19%	29.85%
Equity instruments	4.87%	4.70%	3.02%	3.39%
Cash and cash equivalents	0.08%	0.15%	0.09%	0.04%
Debt instruments	67.12%	66.81%	67.70%	66.72%
Other assets	2.60%	2.17%	0.00%	0.00%
	100.00%	100.00%	100.00%	100.00%

The following table shows the breakdown of fair value of the plan assets:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Deposits in banks	₱4,207	7,879	4,172	1,849
Financial assets at FVTPL				
Quoted debt securities	3,135,600	₱2,915,597	₱2,776,713	₱2,587,492

December 31, 2020	Parent	CBSI	CIBI	CBC-PCCI	CBCC	CBSC
1 year and less	P1,143,078	P14,526	P-	P-	P-	P-
More than 1 year to 5 years	1,382,813	84,373	1,182	34,908	-	-
More than 5 years to 10 years	2,498,436	346,179	16,990	23,094	-	1,303
More than 10 years to 15 years	2,706,056	795,042	6,293	130,483	16,071	4,243
More than 15 years to 20 years	5,260,877	844,853	18,074	180,316	78,979	15,106
More than 20 years	28,539,408	10,154,177	605,215	1,245,968	416,103	166,606

The defined benefit plan exposes the Group and the Parent Company to actuarial risks such as longevity risk, investment risk, market risk and salary risk.

## 26. DERIVATIVE FINANCIAL INSTRUMENTS

Occasionally, the Parent Company enters into forward exchange contracts as an accommodation to its clients. These derivatives are not designated as accounting hedges. As of December 31, 2021 and 2020, the fair values of these derivatives follow:

	2021		2020	
	Derivative Asset	Derivative Liability	Derivative Asset	Derivative Liability
Currency forwards	P395,201	P264,783	P107,900	P124,137
Interest rate swaps (IRS)	675,638	706,112	1,019,600	1,092,634
Futures	-	27,826	-	-
Warrants	9,960	-	9,378	-
	P1,080,799	P998,721	P1,136,878	P1,216,771

As of December 31, 2021 and 2020, the aggregate notional amount of outstanding forwards and its weighted average rate are as follows:

		2021		2020	
		Notional Amount	Weighted Average Rate	Notional Amount	Weighted Average Rate
US Dollar	Buy	\$687,896	50.52	\$358,209	48.40
	Sell	\$291,629	50.31	\$253,506	48.49
Euro	Buy	-	-	-	-
	Sell	€9,128	58.03	€44,900	58.72
Singapore Dollar	Sell	-	-	SGD 1,007	36.14
New Zealand Dollar	Buy	NZD 10,628	34.77	-	-
Canadian Dollar	Buy	CAD 695	40.37	-	-
Australian Dollar	Sell	AUD 10,750	36.99	-	-

The aggregate notional amounts of the outstanding futures as of December 31, 2021 amounted to US\$100.5 million.

The aggregate notional amounts of the outstanding IRS as of December 31, 2021 and 2020 are as follows:

	2021			2020		
	Notional Amount	Derivative Asset	Derivative Liability	Notional Amount	Derivative Asset	Derivative Liability
<b>Peso-denominated</b>						
Fixed Receiver	<b>P500,000</b>	<b>P1,572</b>	<b>P1,511</b>	P500,000	P5,202	P575
Fixed Payer	<b>500,000</b>	<b>-</b>	<b>28,581</b>	600,000	-	53,147
<b>US dollar denominated</b>						
Fixed Receiver	<b>\$184,000</b>	<b>666,807</b>	<b>-</b>	\$180,000	1,014,059	-
Fixed Payer	<b>\$187,000</b>	<b>7,259</b>	<b>676,019</b>	\$175,000	339	1,038,908
		<b>P675,638</b>	<b>P706,111</b>		<b>P1,019,600</b>	<b>P1,092,634</b>

#### Fair Value Changes of Derivatives

The net movements in fair value changes of derivative instruments are as follows:

	2021	2020
Balance at beginning of year	<b>(P79,893)</b>	(P368,103)
Fair value changes during the year	<b>(309,456)</b>	486,337
Net settled transactions	<b>471,427</b>	(198,127)
<u>Balance at end of year</u>	<b>P82,078</b>	<u>(P79,893)</u>

\*Included in financial assets at FVTPL

The net movements in the value of the derivatives are presented in the statements of income under the following accounts:

	2021	2020	2019
Foreign exchange gain (loss)	<b>(P378,469)</b>	P683,826	P446,138
Trading and securities gain (loss)* (Note 22)	<b>69,013</b>	(197,489)	(115,345)
	<b>(P309,456)</b>	<b>P486,337</b>	<b>P330,793</b>

\*Net movements in the value related to IRS and futures.

On June 18, 2019, the Parent Company established a monitoring process to properly account for the net movements in the value of foreign exchange contracts which pertain to funding and trading activities.

Funding activities pertain to activities undertaken by the Parent Company to obtain funds in one currency in exchange of another currency through the use of foreign exchange derivatives. Foreign exchange gains (losses) in the Parent Company's statements of income included the net movements in the value of foreign exchange contracts amounting to P7.21 million gain and P409.56 million gain for funding and trading activities, respectively, in 2021 and P102.63 million loss and P316.09 million gain for funding and trading activities, respectively, in 2020.

Interest income on IRS in 2021, 2020 and 2019 amounted to P332.18 million, P264.09 million and 223.63 respectively, while interest expense on IRS in 2021, 2020 and 2019 amounted to P350.32 million, P288.73 million and P228.06 million in 2019, respectively.

#### Derivative contracts designated as hedges

In 2019, the Parent Company designated an interest rate swap contract (IRS) with a corresponding notional amount of US\$150 million to hedge the cash flow variability of its floating rate bonds payable. The IRS designated as cash flow hedge has the same principal terms as the hedged bonds payable (Note 18).

On June 7, 2021, the Parent Company designated an IRS with a corresponding notional amount of US\$500 million to hedge the cash flow variability of its portfolio of Treasury time deposits.

On October 20, 2021, the Parent Company designated an IRS with a corresponding notional amount of US\$600 million to hedge the cash flow variability of its portfolio of Retail Banking Business Segment (RBB) time deposits.

The following table shows the summary of the hedging transactions of the Parent Company:

Hedged Item	Hedging Instrument	Notional Amount	Date of Hedge Designation	Derivative Assets		Derivative Liability	
				2021	2020	2021	2020
Floating rate bonds payable	Receive float/ Pay fix IRS	\$150,000	June 18, 2019	₱-	₱-	₱162,399	₱521,209
Current and forecasted issuance of Treasury time deposits	Receive float/ Pay fix IRS	500,000	June 7, 2021	480,133	-	-	-
Current and forecasted issuance of RBB time deposits	Receive float/ Pay fix IRS	600,000	October 20, 2021	659,100	-	-	-
<b>Total</b>		<b>\$1,250,000</b>		<b>₱1,139,233</b>	<b>₱-</b>	<b>₱162,399</b>	<b>₱521,209</b>

As of December 31, 2021 and 2020, the Parent Company assessed that the hedging relationships are expected to be highly effective.

The aggregate net interest expense on the IRS designated as hedge amounted to ₱226.51 million in 2021, ₱61.20 million in 2020 and ₱14.27 million in 2019.

## 27. LEASE CONTRACTS

The lease contracts are for periods ranging from one to 25 years from the dates of contracts and are renewable under certain terms and conditions. Various lease contracts include escalation clauses, most of which bear an annual rent increase of 5.00% to 10.00%.

Movements in the lease liabilities account follows:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Beginning Balance	₱2,996,003	₱3,394,925	₱2,392,891	₱2,719,524
Additions	447,449	167,762	205,402	56,340
Interest expenses	195,311	232,584	152,194	182,821
Lease concessions	-	(32,380)	-	(32,380)
Payments	(792,745)	(766,888)	(562,589)	(533,414)
Ending Balance	₱2,846,018	₱2,996,003	₱2,187,898	₱2,392,891

As a result of the pandemic, the Parent Company was given lease concessions by its lessors in 2020. The lease concessions resulted to a decrease in lease payable and an increase in miscellaneous income amounting to ₱32.38 million in 2020.

Expenses related to short-term leases amounting to ₱618.67 million and ₱512.93 million for the Group and Parent Company in 2021, respectively, and ₱403.71 million and ₱398.57 million for the Group and Parent Company in 2020, respectively, are included in the 'Occupancy cost' account.

Total cash outflows for leases amounted to ₱1.43 billion and ₱1.09 billion for the Group and Parent Company in 2021, respectively, and ₱1.19 billion and ₱1.00 billion for the Group and Parent Company in 2020, respectively.

The Group and the Parent Company have also entered into commercial property leases on its investment properties (Note 13).

	<b>₱3,030,013</b>	₱5,470,409	<b>₱2,396,362</b>	₱3,289,042

## 28. INCOME AND OTHER TAXES

Income taxes include corporate income tax and FCDU final taxes, as discussed below, and final tax paid at the rate of 20.00% on gross interest income from government securities and other deposit substitutes. These income taxes, as well as the deferred tax benefits and provisions, are presented as 'Provision for income tax' in the statements of income.

Republic Act (RA) No. 9337, An Act Amending National Internal Revenue Code, as amended by RA 10963 otherwise known as the Tax Reform for Acceleration and Inclusion (TRAIN) and RA 11534 otherwise known as Corporate Recovery and Tax Incentives for Enterprises (CREATE), provides that regular corporate income tax (RCIT) rate shall be 25.00% while interest expense allowed as a deductible expense is reduced to 20.00% of interest income subject to final tax.

A minimum corporate income tax (MCIT) of 1.00% until June 30, 2023 under CREATE on modified gross income is computed and compared with the RCIT. Excess MCIT over RCIT can be used as a tax credit against future income tax liability for the next three years. In addition, any net operating loss carry over (NOLCO) is allowed as a deduction from taxable income in the next three years from the year of inception. In addition under RA 11494, also known as the Bayanihan to Recover As One Act, the net operating loss of the business or enterprise for taxable years 2020 and 2021 shall be carried over as a deduction from gross income for the next five (5) consecutive taxable years immediately following the year of such loss.

Effective in May 2004, RA No. 9294 restored the tax exemption of FCDUs and offshore banking units (OBUs). Under such law, the income derived by the FCDU from foreign currency transactions with nonresidents, OBUs, local commercial banks including branches of foreign banks is tax-exempt while interest income on foreign currency loans from residents other than OBUs or other depository banks under the expanded system is subject to 10.00% gross income tax. Lastly, all other income of the FCDU is subject to the 25.00% corporate tax.

### Relevant Tax Updates

#### TRAIN Law

RA No. 10963, the Tax Reform for Acceleration and Inclusion (TRAIN), is the first package of the comprehensive tax reform program of the government. The bill was signed into law on December 19, 2018 and took effect on January 1, 2018, amending some provisions of the old Philippine tax system.

Except for resident foreign corporations, which is still subject to the existing rate of 7.5%, tax on interest income of foreign currency deposit was increased to 15% under TRAIN. Documentary stamp tax on bank checks, drafts, certificate of deposit not bearing interest, all debt instruments, bills of exchange, letters of credit, mortgages, deeds and others are now subjected to a higher rate.

#### CREATE Law

RA 11534 otherwise known as Corporate Recovery and Tax Incentives for Enterprises (CREATE) was signed into law by President Rodrigo Duterte last March 26, 2021. The law became effective on April 11, 2021, fifteen (15) days after its publication in a newspaper of general circulation on March 27, 2021.

The key changes to the Philippine tax law pursuant to the CREATE Act which have an impact on the Bank are the following:

- Effective July 1, 2020, regular corporate income tax (RCIT) rate is reduced from 30% to 25% for domestic and resident foreign corporations.
- Minimum corporate income tax (MCIT) rate reduced from 2% to 1% of gross income effective July 1, 2020 to June 30, 2023.
- Interest income of foreign currency remittance transaction deposit received by resident foreign corporations are now subject to 15% final tax.

The Group applied the provisions of the CREATE Act on its income tax payable, deferred tax assets and deferred tax liabilities as of December 31, 2020 in 2021.

#### *Impact of CREATE Law*

Applying the provisions of the CREATE Law, the Group and the Parent Company is subjected to lower regular corporate income tax rate of 25% effective July 1, 2020. The following are the impact of CREATE in the 2021 financial statements of the Group and the Parent Company:

- Based on the provisions of Revenue Regulations (RR) No. 5-2021 dated April 8, 2021 issued by the BIR, the transitory RCIT and MCIT rates applicable to the Group and the Parent Company for the taxable year 2020 is 27.5% and 1.50%, respectively. This resulted in reduction in the current income tax due for the taxable year 2020 amounting to ₱256.89 million and ₱236.85 million for the Group and the Parent Company, respectively. The reduced amounts were reflected in the 2020 Annual Income Tax Returns filed in 2021. For financial reporting purposes, such reductions in the 2020 current income taxes were recognized in the 2021 financial statements as reduction to 2021 income tax expense.
- The deferred tax assets as of December 31, 2021 were also remeasured using the lower RCIT rate of 25.00%. The net decrease in the deferred tax balances amounting to ₱601.56 million and ₱622.02 million for the Group and the Parent Company, respectively, reduced the benefit from deferred tax assets credited to profit or loss by ₱593.42 million and ₱614.02 million for the Group and the Parent Company, respectively, and other comprehensive income by ₱8.14 million and ₱8.0 million for the Group and the Parent Company, respectively

There were no tax-related contingent liabilities and contingent assets arising from the changes in the tax rates due to CREATE Act.

#### RR 4-2011

On March 15, 2011, the Bureau of Internal Revenue (BIR) issued Revenue Regulations (RR) No. 4-2011 which prescribed the attribution and allocation of expenses between FCDUs/EFCDUs or OBU and RBU and within RBU.

On April 6, 2015, the Bank and other member banks of the Bankers Association of the Philippines (BAP), filed a Petition for Declaratory Relief with Application for Temporary Restraining Order (TRO) and/or Writ of Preliminary Injunction with the Regional Trial Court of Makati (Makati Trial Court). Further, in Civil Case No. 15-287, the Bank and other BAP member banks assailed the validity of RR 4-2011 on the ground, among others, that (a) the RR violates the petitioner-banks substantive due process rights; (b) it is not only illegal but also unfair; (c) that it serves as a deterrent to banks to invest in capital market transactions to the prejudice of the economy; (d) it sets a dangerous precedent for the disallowance of full deductions due to the prescribes method of allocation; and (e) it violates the equal protection clause of the Constitution.

On April 8, 2015, the Makati Trial Court issued a TRO enjoining the BIR from enforcing RR 4-2011. Also, on April 25, 2015, the Makati Trial Court issued a Writ of Preliminary Injunction enjoining the BIR from enforcing, carrying out, or implementing in any way or manner RR 4-2011 against the Bank and other BAP member banks, including issuing Preliminary Assessment Notice or Final Assessment Notice against them during the pendency of the litigation, unless sooner dissolved.

On June 10, 2015, the Makati Trial Court issued a Confirmatory Order stating that the TRO and Writ of Preliminary Injunction also prohibits the BIR from ruling or deciding on any administrative matter pending before it in relation to the subject revenue regulations and insofar as the Bank and other BAP member banks are concerned.

On May 25, 2019, the Makati Trial Court issued a decision annulling RR 4-2011 and making the Writ of Preliminary Injunction permanent.

Current tax regulations also provide for the ceiling on the amount of entertainment, amusement and recreation (EAR) expense that can be claimed as a deduction against taxable income. Under the regulations, EAR expense allowed as a deductible expense is limited to the actual EAR paid or incurred but not to exceed 1.00% of the Parent Company's net revenue.

The provision for income tax consists of:

	Consolidated			Parent Company		
	2021	2020	2019	2021	2020	2019
Current						
Final tax	<b>₱927,631</b>	₱1,425,341	₱1,420,644	<b>₱917,411</b>	₱1,415,116	₱1,402,657

## 29. TRUST OPERATIONS

Securities and other properties (other than deposits) held by the Parent Company in fiduciary or agency capacities for clients and beneficiaries are not included in the accompanying balance sheets since these are not assets of the Parent Company (Note 31).

In compliance with the requirements of current banking regulations relative to the Parent Company's trust functions : (a) government bonds included under financial assets at FVOCI with total face value of P2.26 billion and P2.32 billion as of December 31, 2021 and 2020, respectively, are deposited with the BSP as security for the Parent Company's faithful compliance with its fiduciary obligations (Note 9); and (b) a certain percentage of the Parent Company's trust fee income is transferred to surplus reserve. This yearly transfer is required until the surplus reserve for trust function equals 20.00% of the Parent Company's authorized capital stock.

## 30. RELATED PARTY TRANSACTIONS

Parties are considered to be related if one party has the ability, directly or indirectly, to control the other party or exercise significant influence over the other party in making financial and operating decisions. The Group's related parties include:

- key management personnel, close family members of key management personnel and entities which are controlled, significantly influenced by or for which significant voting power is held by key management personnel or their close family members,
- significant investors
- subsidiaries, joint ventures and associates and their respective subsidiaries, and
- post-employment benefit plans for the benefit of the Group's employees.

The Group has several business relationships with related parties. Transactions with such parties are normally made in the ordinary course of business and based on the terms and conditions discussed below. Transactions with related parties are settled in cash, unless otherwise indicated.

#### Transactions with Retirement Plans

Under PFRS, certain post-employment benefit plans are considered as related parties. The Parent Company has business relationships with a number of its retirement plans pursuant to which it provides trust and management services to these plans. Income earned by Parent Company from such services amounted to ₱49.48 in 2021, ₱48.31 million and in 2020, and ₱50.78 million, in 2019.

The Group's retirement funds may hold or trade the Parent Company's shares or securities. Significant transactions of the retirement fund, particularly with related parties, are approved by the Trust Investment Committee (TIC) of the Parent Company. The members of the TIC are directors and key management personnel of the Parent Company.

A summary of transactions with related party retirement plans follows:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Deposits in banks	<b>₱4,207</b>	₱7,879	<b>₱4,172</b>	₱1,849
Financial assets at FVTPL	<b>1,419,060</b>	1,361,752	<b>1,419,060</b>	1,361,752
Dividend income	<b>54,579</b>	54,579	<b>54,579</b>	54,579
Interest income	<b>41</b>	245	<b>22</b>	133
Total market value of shares	<b>1,419,060</b>	1,361,752	<b>1,419,060</b>	1,361,752
Number of shares held	<b>54,579</b>	54,579	<b>54,579</b>	54,579

In 2019, dividend income and interest income of the retirement plan from investments and placements in the Parent Company amounted to ₱48.13 million and ₱21.48 million, respectively, for the Group, and ₱48.12 million and ₱18.98 million, respectively, for the Parent Company.

Financial assets at FVTPL represent shares of stock of the Parent Company. Voting rights over the Parent Company's shares are exercised by an authorized trust officer.

#### Remunerations of Directors and other Key Management Personnel

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the Group, directly or indirectly. The Group considers the members of the ManCom to constitute key management personnel for purposes of PAS 24.

Total remunerations of key management personnel are as follows:

	Consolidated			Parent Company		
	2021	2020	2019	2021	2020	2019
Short-term employee benefits	<b>₱762,878</b>	₱557,390	₱550,767	<b>₱669,174</b>	₱468,427	₱468,271
Post-employment benefits	<b>3,176</b>	2,683	5,395	<b>2,003</b>	1,661	4,718
	<b>₱766,054</b>	₱560,073	₱556,162	<b>₱671,177</b>	₱470,087	₱472,989

Members of the BOD are entitled to a per diem of ₱500.00 for attendance at each meeting of the Board or of any committees and to four percent (4.00%) of the Parent Company's net earnings, with certain deductions in accordance with BSP regulation. Non-executive directors do not receive any performance-related compensation. Directors' remuneration covers all Parent Company's Board activities and membership of committees and subsidiary companies.

The Group also provides banking services to directors and other key management personnel and persons connected to them. These transactions are presented in the tables below.

Other Related Party Transactions

Transactions between the Parent Company and its subsidiaries meet the definition of related party transactions. Transactions between the Group and its associated companies also qualify as related party transactions. Details of the Parent Company's subsidiaries and associate are disclosed in Notes 1 and 10.

*Group*

### 31. COMMITMENTS AND CONTINGENT ASSETS AND LIABILITIES

In the normal course of the Group's operations, there are various outstanding commitments and contingent liabilities which are not reflected in the accompanying financial statements. Management does not anticipate any material losses as a result of these transactions.

There are several suits, assessments or notices and claims that remain contested. Management believes, based on the opinion of its legal counsels, that the ultimate outcome of such suits, assessments and claims will not have a material effect on the Group's and the Parent Bank's financial position and results of operations.

The following is a summary of contingencies and commitments of the Group and the Parent Company with the equivalent peso contractual amounts:

	Consolidated		Parent Company	
	2021	2020	2021	2020

### 32. SEGMENT INFORMATION

The Group's operating businesses are recognized and managed separately according to the nature of services provided and the markets served, with each segment representing a strategic business unit.

The Group's business segments are as follows:

- a. Lending Business – principally handles all the lending, trade finance and corollary banking products and services offered to corporate and institutional customers as well as selected middle market clients. It also handles home loans, contract-to-sell receivables, auto loans and credit cards for individual and/or corporate customers. Aside from the lending business, it also provides cash management services;
- b. Retail Banking Business – principally handles retail and commercial loans, individual and corporate deposits, overdrafts and funds transfer facilities, trade facilities and all other services for retail customers;
- c. Financial Markets – principally provides money market, trading and treasury services, manages the Group's funding operations by the use of government securities, placements and acceptances with other banks as well as offers advisory and capital-raising services to corporate clients and remittance transactions; and
- d. Others – handles other services including but not limited to trust and investment management services, wealth management services to high net-worth customers, asset management, insurance brokerage, credit management, thrift banking business, operations and financial control, and other support services.

The Group's businesses are organized to cater to the banking needs of market segments, facilitate customer engagement, ensure timely delivery of products and services as well as achieve cost efficiency and economies of scale. Accordingly, the corresponding segment information for all periods presented herein are restated to reflect such change.

The Group reports its primary segment information to the Chief Operating Decision Maker (CODM) on the basis of the above-mentioned segments. The CODM of the Group is the President.

Segment assets are those operating assets that are employed by a segment in its operating activities that are either directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Segment liabilities are those operating liabilities that result from the operating activities of a segment and that either are directly attributable to the segment or can be allocated to the segment on a reasonable basis.

Interest income is reported net as management primarily relies on the net interest income as performance measure, not the gross income and expense.

The segment results include internal transfer pricing adjustments across business units as deemed appropriate by management. Transactions between segments are conducted at estimated market rates on an arm's length basis. Interest is charged/credited to the business units based on its assets' and liabilities' repricing or maturity date using market-based yield curve approved by the Asset Liability Committee (ALCO).

Other operating income mainly consists of trading and securities gain (loss) – net, service charges, fees and commissions, trust fee income and foreign exchange gain – net. Other operating expense mainly consists of compensation and fringe benefits, provision for impairment and credit losses, taxes and licenses, occupancy, depreciation and amortization, stationery, supplies and postage and insurance. Other operating income and expense are allocated between segments based on equitable sharing arrangements.

The Group has no significant customers which contributes 10.00% or more of the consolidated revenues.

The Group's asset producing revenues are located in the Philippines (i.e., one geographical location); therefore, geographical segment information is no longer presented.

The following tables present relevant financial information regarding business segments measured in accordance with PFRS as of and for the years ended December 31, 2021, 2020 and 2019:

The Group's share in net income (loss) of an associate included in other operating income amounting to (P1.60 million), P152.44 million and P184.66 million in 2021, 2020 and 2019, respectively are reported under 'Other Business and Support Units'.

### 33. EARNINGS PER SHARE

Basic EPS amounts are calculated by dividing the net income for the year by the weighted average number of common shares outstanding during the year (adjusted for stock dividends).

The following reflects the income and share data used in the basic earnings per share computations:

	2021	2020	2019
a. Net income attributable to equity holders of the parent	<b>₱15,088,332</b>	₱12,062,637	₱10,068,960
b. Weighted average number of common shares outstanding – basic (Note 24)	<b>2,687,696</b>	2,685,900	2,685,900
c. Weighted average number of common shares outstanding – diluted (Note 24)	–	2,687,247	–
d. Basic (a/b) and diluted (a/c) earnings per share*	<b>₱5.61</b>	₱4.49	₱3.75

\*For the year ended December 31, 2021, the basic and diluted EPS are the same after rounding-off.

Prior to September 1, 2021, the Group's centennial stock grants are potential common shares that have dilutive effect to the EPS. Accordingly, after adjusting the dilutive potential common shares arising from the centennial stock grants to the weighted average number of common shares, the diluted EPS amounted to ₱5.61. As of December 31, 2021, there were no outstanding dilutive potential common shares.

### 34. SUPPLEMENTARY INFORMATION FOR CASH FLOW ANALYSIS

The following is a summary of certain non-cash investing activities that relate to the analysis of the statements of cash flows:

	Consolidated		
	2021	2020	2019
Addition to investment properties from settlement of loans	<b>₱752,756</b>	₱294,326	₱832,290

### 35. OFFSETTING OF FINANCIAL ASSETS AND LIABILITIES

The amendments to PFRS 7 require the Group to disclose information about rights of offset and related arrangements (such as collateral posting requirements) for financial instruments under enforceable master netting agreements or similar arrangements. The effects of these arrangements are disclosed in the succeeding tables.

December 31, 2021						
Financial instruments recognized at end of reporting period by type	Gross carrying amounts (before offsetting)	Gross amounts offset in accordance with the offsetting criteria	Net amount presented in statements of financial position [a-b]	Effects of remaining rights of set-off (including rights to set off financial collateral) that do not meet PAS 32 offsetting criteria		
				Financial instruments	Fair value of financial collateral	Net exposure [c-d]

The amounts disclosed in column (d) include those rights to set-off amounts that are only enforceable and exercisable in the event of default, insolvency or bankruptcy. These include amounts related to financial collateral both received and pledged, whether cash or non-cash collateral, excluding the extent of over-collateralization.

### 36. COVID-19 PANDEMIC

On March 13, 2020, amid the COVID 19 outbreak, the Office of the President of the Philippines issued a Memorandum directive to impose stringent social distancing measures in the National Capital Region effective March 15, 2020. These measures have caused disruptions to businesses and economic activities, and its impact on businesses continues to evolve.

#### *Bayanihan to Heal as One Act*

On March 25, 2020, President Duterte signed into law the Bayanihan to Heal as One Act (RA 11469). The law provides the President, among others, the power to direct all private and public banks, quasi-banks, financing companies, lending companies and other financial institutions, including the Government Service Insurance System, Social Security System and Pag-ibig Fund to implement a grace period of 30 days minimum, for the payment of all loans falling due within the enhanced community quarantine (ECQ) without interests, penalties, fees or other charges. In a separate Frequently Asked Questions (FAQ) released by BSP on May 18, 2020, it clarified that the modified enhance community quarantine (MECQ) shall have the same effect as the ECQ with respect to the application of the mandatory grace period for the payment of all loans falling due within the period of MECQ.

The Implementing Rules and Regulations (IRR) of the said law provides that borrowers have the option to pay the interest accrued during the mandatory grace period either in lumpsum on the new due date or on staggered basis over the life of the loan. Nonetheless, covered financial institutions are not precluded from offering less onerous payment schemes with the consent of the borrower, such as allowing lump sum payment of accrued interest on the last payment date of the loan, provided that the accrued interest during the mandatory grace period will not be charged with interest on interest, fees and other charges.

On March 14, 2020, the BSP issued BSP Memorandum No. M-2020-008 *Regulatory Relief for BSFIs Affected by the Corona Virus Disease 2019 (COVID-19)*. The said memorandum provides for certain temporary regulatory and rediscounting relief measures for financial institutions supervised by the BSP. Accordingly, the Parent Company informed the BSP of its intention to avail the following:

- Provide financial assistance to officers affected by the present health emergency subject to submission by the Parent Company of a request for BSP approval within 30 calendar days from the approval thereof of the Parent Company's Board of Directors;
- Exclude from the computation of past due ratio, loans by borrowers in affected areas, subject to the following: (i) such loans shall be reported to the BSP; (ii) extension shall be for a period of one year from 08 March 2020; and (iii) BSP documentary requirements for restructuring of loans may be waived provided that the Bank will adopt appropriate and prudent operational control measures;
- Non-imposition of monetary penalties for delays incurred in the submission of all supervisory reports to BSP due to be submitted from 08 March 2020 up to six months thereafter;
- Allow staggered booking of allowance for credit losses computed under Section 143 of the Manual of Regulation for Banks (MORB) over a maximum period of five years for all types of credits extended to individuals and businesses directly affected by COVID-19 as of 08 March 2020, subject to prior approval of the BSP;
- Non-imposition of penalties on legal reserve deficiencies computed under Section 255 of the MORB starting from reserve week following 08 March 2020 up to six months thereafter, subject to prior approval of the BSP;
- Rediscounting relief as follows:
  - a. Grant of a 60-day grace period, upon application with BSP, to settle outstanding rediscounting obligations as of 08 March 2020, provided that interest shall be charged but no penalty shall be imposed;
  - b. Allowing the Parent Company to restructure with BSP, the outstanding rediscounted loans as of 08 March 2020 of its end-user borrowers affected by the COVID-19, subject to the terms and conditions stated in Appendix 133 of the MORB; and
  - c. relaxation of eligibility requirements by excluding the criteria on reserve requirement for the renewal of rediscounting line and for the availment of rediscounting loans from 08 March 2020 up to six months thereafter.

As of December 31, 2021 and 2020, there was no actual availment of the foregoing regulatory reliefs.

### 37. APPROVAL OF THE FINANCIAL STATEMENTS

The accompanying consolidated and parent company financial statements were authorized for issue by the Parent Company's BOD on February 28, 2022.

### 38. SUPPLEMENTARY INFORMATION REQUIRED UNDER BSP CIRCULAR 1074

Presented below is the supplementary information required by BSP under Appendix 55 of BSP Circular 1074 to be disclosed as part of the notes to financial statements. This supplementary information is not a required disclosure under PFRS.

#### Basic quantitative indicators of financial performance

The following basic ratios measure the financial performance of the Group and the Parent Company:

	Consolidated			Parent Company		
	2021	2020	2019	2021	2020	2019
Return on average equity	<b>13.58%</b>	12.09%	11.04%	<b>13.58%</b>	12.09%	11.04%
Return on average assets	<b>1.45%</b>	1.21%	1.10%	<b>1.58%</b>	1.32%	1.22%
Net interest margin	<b>4.20%</b>	3.92%	3.39%	<b>4.02%</b>	3.82%	3.26%

#### Description of capital instruments issued

The Group and the Parent Company considers its common stock as capital instruments eligible as Tier 1 capital.

#### Significant credit exposures

#### Loans per security

As of December 31, 2021 and 2020, secured and unsecured non-performing loans (NPLs) of the Group and the Parent Company follow:

	Consolidated		Parent Company	
	2021	2020	2021	2020
Secured	<b>₱6,909,212</b>	₱3,966,218	<b>₱4,140,525</b>	₱775,355
Unsecured	<b>8,442,253</b>	9,016,351	<b>6,664,388</b>	6,891,381
	<b>₱15,351,465</b>	₱12,982,569	<b>₱10,804,913</b>	₱7,666,736

According to BSP Circular 941, Amendments to the Regulations on Past Due and Non-Performing Loans effective January 1, 2018, loans shall be considered non-performing, even without any missed contractual payments, when it is considered impaired under existing accounting standards, classified as doubtful or loss, in litigation, and/or there is evidence that full repayment of principal and interest is unlikely without foreclosure of collateral, if any. All other loans, even if not considered impaired, shall be considered non-performing if any principal and/or interest are unpaid for more than ninety (90) days from contractual due date, or accrued interests for more than ninety (90) days have been capitalized, refinanced, or delayed by agreement.

Information on the amounts of secured and unsecured loans and receivables (gross of unearned discounts and allowance for impairment and credit losses) of the Group and Parent Company are as follows:

Secured liability and assets pledged as security

The carrying amount of foreign currency-denominated investment securities at amortized cost pledged by the Parent Company as collateral for its interbank borrowings amounted to ₱48.85 billion and ₱13.09 billion as of December 31, 2021 and 2020, respectively. The carrying amount of the peso-denominated investment securities at amortized cost pledged by the Parent Company as collateral for its interbank borrowings amounted to ₱23.59 billion and ₱7.21 billion as of December 31, 2021 and 2020, respectively. The fair value of investment securities at amortized cost pledged as collateral amounted to ₱78.15 billion and ₱21.66 billion as of December 31, 2021 and 2020, respectively. The aggregate fair value of financial assets at FVOCI pledged as collateral amounted to ₱3.25 billion and nil as of December 31, 2021 and 2020, respectively.

Related party loans

As required by the BSP, the Group discloses loan transactions with its and affiliates and investees and with certain directors, officers, stockholders and related interests (DOSRI). Under existing banking regulations, the limit on the amount of individual loans to DOSRI, of which 70.00% must be secured, should not exceed the regulatory capital or 15.00% of the total loan portfolio, whichever is lower. These limits do not apply to loans secured by assets considered as non-risk as defined in the regulations.

BSP Circular No. 423, dated March 15, 2004, amended the definition of DOSRI accounts. The following table shows information relating to the loans, other credit accommodations and guarantees classified as DOSRI accounts under regulations existing prior to said Circular, and new DOSRI loans, other credit accommodations granted under said Circular:

	Consolidated			
	2021		2020	
	DOSRI Loans	Related Party Loans (inclusive of DOSRI Loans)	DOSRI Loans	Related Party Loans (inclusive of DOSRI Loans)
Total outstanding DOSRI loans	<b>₱8,734,613</b>	<b>₱55,963,128</b>	₱3,224,094	₱55,523,024
Percent of DOSRI/Related Party loans to total loan portfolio	<b>1.40%</b>	<b>8.96%</b>	0.56%	9.70%
Percent of unsecured DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	<b>0.37%</b>	<b>75.56%</b>	0.14%	78.14%
Percent past due DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	–	–	–	–
Percent of non-performing DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	–	–	–	–
	Parent			
	2021		2020	
	DOSRI Loans	Related Party Loans (inclusive of DOSRI Loans)	DOSRI Loans	Related Party Loans (inclusive of DOSRI Loans)
Outstanding DOSRI loans	<b>₱8,727,598</b>	<b>₱55,955,965</b>	₱3,217,097	₱54,839,195
Percent of DOSRI/Related Party loans to total loan portfolio	<b>1.57%</b>	<b>10.05%</b>	0.64%	10.87%
Percent of unsecured DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	<b>0.37%</b>	<b>75.57%</b>	0.10%	94.25%
Percent past due DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	–	–	–	–
Percent of non-performing DOSRI/Related Party loans to total outstanding DOSRI/Related Party loans	–	–	–	–

The amounts of loans disclosed for related parties above differ with the amounts disclosed for key management personnel since the composition of DOSRI is more expansive than that of key management personnel.

BSP Circular No. 560 provides that the total outstanding loans, other credit accommodation and guarantees to each of the bank's/quasi-bank's subsidiaries and affiliates shall not exceed 10.00% of the net worth of the lending bank/quasi-bank, provided that the unsecured portion of which shall not exceed 5.00% of such net worth. Further, the total outstanding loans, credit accommodations and guarantees to all subsidiaries and affiliates shall not exceed 20.00% of the net worth of the lending bank/quasi-bank; and the subsidiaries and affiliates of the lending bank/quasi-bank are not related interest of any director, officer and/or stockholder of the lending institution, except where such director, officer or stockholder sits in the BOD or is appointed officer of such corporation as representative of the bank/quasi-bank.

On May 12, 2009, BSP issued Circular No. 654 allowing a separate individual limit of twenty-five (25.00%) of the net worth of the lending bank/quasi-bank to loans of banks/quasi-banks to their subsidiaries and affiliates engaged in energy and power generation.
